
PIA Analysis Worksheet and Summary Template

The template for an information technology (IT) system Privacy Impact Assessment (PIA) Analysis Worksheet and Summary Template begins on the following page. The Template covers the four major categories of information required for inclusion into the PIA: system characterization, information sharing practices, Web site practices, and security controls.

Privacy Impact Assessment (PIA) Summary

Date of this Submission (MM/DD/YYYY): 10/16/06

NASA Center: Goddard Space Flight Center

Application Name: Pamela A. Starling

Is this application or information collection new or is an existing one being modified? Existing

Does this application collect, maintain, and/or disseminate information in identifiable form (IIF)? Yes

Mission Program/Project Supported:

Identifying Numbers (Use N/A, where appropriate)

Privacy Act System of Records Number: NASA 51LISTS

OMB Information Collection Approval Number and Expiration Date: 2700-0064 2/28/07

Other Identifying Number(s): GSFC 24-27

Description

1. Provide an overview of the application or collection and indicate the legislation authorizing this activity.

The Locator and Information Services Tracking System (LISTS) is primarily needed to support services on the NASA Goddard Space Flight Center (GSFC) dependent upon accurate locator-type information. Additionally, the Privacy Act information is maintained, protected, and used for mandatory security functions. The system also serves as a tool for performing short- and long-term institutional planning. The GSFC is authorized to maintain this system under the governing statutes of 5 USC 301, 42 USC 2473, and 44 USC 3101.

2. Describe the information the agency will collect, maintain, or disseminate and how the agency will use the information. In this description, indicate whether the information contains IIF and whether submission is voluntary or mandatory.

The routine uses of LISTS data include assisting the Security Office in issuing identification badges and coordinating clearance requests; identifying the listed emergency contact in case of an emergency; disclosure of requested information; and court proceedings. Official uses of general information include locating individuals working at the Center; and improving services provided to the Center, e.g., mail operations, scheduling of physical examinations. The submission of information is voluntary, although failure to do so may result in being denied a GSFC identification badge or access to printed materials in the Library.

3. Explain how the IIF collected, maintained, and/or disseminated is the minimum necessary to accomplish the purpose for this effort.

Without this collection of information, GSFC could not maintain a current system of records that is used by officials and employees within NASA for preview, planning, review, and management decisions regarding personnel and institutional services.

4. Explain why the IIF is being collected, maintained, or disseminated.

GSFC is required to maintain the information because of the responsibilities it has to provide quality institutional services to meet Center needs. Certain elements of LISTS data are used for long-term institutional planning and to conduct demographic trend analysis of Goddard's workforce.

5. Identify with whom the agency will share the IIF.

Information is not shared with agencies external to NASA, or other people or organizations outside of NASA.

6. Describe how the IIF will be obtained, from whom it will be collected, what the suppliers of information and the subjects will be told about the information collection, and how this message will be conveyed to them (e.g., written notice, electronic notice if a Web-based collection, etc.). Describe any opportunities for consent provided to individuals regarding what information is collected and how the information will be shared.

The form is available in PDF format, and some respondents may provide locator information electronically. The data provided is considered privileged information. Respondents are informed that their records are protected and maintained in accordance with the requirements of the Privacy Act and through the password and access protections built into the data base management software system.

7. State whether personal information will be collected from children under age 13 on the Internet and, if so, how parental or guardian approval will be obtained. (Reference: *Children's Online Privacy Protection Act of 1998*)

No

8. Describe how the IIF will be secured.

LISTS is the central repository for this type of information; it does not exist elsewhere.

9. Describe plans for retention and destruction of IIF.

NPR 1441.1D, NASA Records Retention Schedules, AFS#1620, Item 104 "Records are retained for varying periods of time depending on the need for use of the files, and are destroyed or otherwise disposed of when superseded or no longer needed."

10. Identify whether a system of records is being created under section 552a of Title 5, United States Code (the *Privacy Act*), or identify the existing Privacy Act system of records notice under which the records will be maintained.

The U.S. Code, Title 5, Section 301, Title 42, Section 2473, and Title 44, Section 3101, authorize collection of this information.
