February/March 2008

Dear Reporter:

The purpose of this inquiry is to measure acreage planted and to be planted for the **2008** spring harvest and to determine the yield expected. Questions on the quantity of seed used and seed prices will provide estimates of seed costs. You will be contributing to the accuracy of the April 1 estimates by answering the questions below. Response to this survey is voluntary and not required by law.

If you are not growing spring potatoes this year, please enter zero for your farm and answer questions 5 and 6 for your locality.

Mail your report promptly in the enclosed envelope which needs no stamp. Your individual report will be kept confidential.

Please make corrections to name, address and Zip Code, if necessary

PLEASE REPORT FOR THE FARM(S) YOU OPERATE

Please **MAIL** reports back by Monday, **March 10, 2008**.

1. Acres of potatoes planted last season.		Acres
2. Acres of potatoes planted and to be planted this season.		Acres
3. Quantity of seed used and to be used to plant this season.	Reds	Cwt
	Whites	Cwt
	Other	Cwt
4. Average price paid or to be paid by you for seed potatoes purchased or contracted for future delivery. (Include transportation and handling charges)	Reds	Dollars per Cwt
	Whites	Dollars per Cwt
	Other	Dollars per Cwt
PLEASE REPORT FOR YOUR LOCALITY		
5. How will acreage of spring potatoes planted or to be planted in your locality this season compare with acreage planted last season? (Last season equal 100 percent.)		Percent
6. What will the yield of spring potatoes in your locality average this year?		Cwt per acre
