Annual Mandatory Collection of Elementary and Secondary Education Data through ED*Facts*

August 2007

Attachment B-3

ED*Facts* Data Set For School Year 2007-08

Student Data Groups

ED*Facts* Student Data Groups will collect data about groups of students, for example, membership by grade level, sex, and race/ethnicity. **Note: ED*Facts* does not collect ANY data on individual students.** While most of the data collected through ED*Facts* relates to students served in public schools and LEAs, ED*Facts* does collect data on students in private schools and facilities when those students are receiving services or other benefits from a federal program (i.e., Title I of *ESEA* and *IDEA*).

As described in the beginning of this document, the aggregate data reported for students at the school level can (but is not expected to) add up to similar information reported at the LEA level.

Organization of This Section

Overall there are 65 Student Data Groups for 2007-08. The remainder of this section includes a separate page for each data group.
