

## Narrative of Revisions

Collection Title: Chemical Security Assessment Tool (CSAT)  
OMB Control No.: 1670-0007  
Current Expiration Date: 05/31/2011  
Collection Instrument(s): (1) Chemical Facility Anti-Terrorism Standards (CFATS) Helpdesk,  
(2) Chemical-terrorism Vulnerability Information (CVI) Authorization,  
(3) CSAT User Registration,  
(4) CSAT Top-Screen,  
(5) Security Vulnerability Assessment (SVA) & Alternative Security Program submitted in lieu of the Security Vulnerability Assessment  
(6) Site Security Plan (SSP) & Alternative Security Program submitted in lieu of the Site Security Plan

The following listed below are revisions to the collection:

- Added a section about the history of the collection
- Revised burden estimate based upon historical data since implementation of CFATS which decreased the burden from 2,037,200 total annual hours with \$229,915,100 total annualized cost to 764,755 total annual hours with \$64,239,432 total annualized cost
- Updated the CFATS Helpdesk Instrument from a set of screenshots to specific list of information
- Updated the CVI Authorization to reflect the removal of the Non-disclosure agreement and replace it with a set of affirmation statements and an application form
- Updated the CSAT User Registration instrument to reflect a specific list of information
- Updated the CSAT Top-Screen instrument to reflect the scope of the regulatory text. This matches the approach to the SVA and SSP instruments
- Clarified when the department would require a high-risk facility to resubmit, correct, or update information
