Phase 2 Survey: One-one One Survey (to be completed on ACASI)

[READ TO PARTICIPANT]

The BEATS project invited you to fill out this survey because we are interested in hearing from Black men ages 18-25 who have recently been arrested or released from jail/prison. We hope that the information you give will allow us to develop better health programs for Black men like yourself. It will take about 30 minutes to complete the survey.

Because we are going to be asking about private and personal topics, I want to remind you that everything you write will be anonymous, meaning your name is not on this, so no one will know that you are the one answering the questions.

There are no right or wrong answers. We are just interested in knowing what you really think, so tell us the first answer that comes to mind. We want to know the real deal, because that would be most helpful to us. Do you have any questions?
