

**Example:**

***M. tuberculosis*/NTM Case History Form – NTM Supplemental Information**

---

**Strain O – *M. marinum* Case History**

<b>Patient:</b>	39-years old
<b>Gender:</b>	Male
<b>Medical History:</b>	HIV-positive
<b>Current Ailment/Complaint:</b>	Developed multiple cutaneous nodules on his hand and forearm
<b>Patient Hobbies:</b>	Maintains a tropical fish aquarium
<b>Physician Notes:</b>	Because of his current anti-retroviral therapy, the physician does not wish to use a rifampin-containing regimen and asks for susceptibility testing to be performed on this isolate of <i>Mycobacterium marinum</i> .
