

Title I, Part A, Grants to LEAs

SUPPORTING STATEMENT FOR PAPERWORK REDUCTION ACT SUBMISSION OF
ADDITIONS TO REGULATIONS FOR TITLE I, PART A, GRANTS TO LOCAL
EDUCATIONAL AGENCIES

A. Justification

Q1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attached is a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.

A1.

The Secretary has amended the regulations governing programs administered under Title I, Part A (Title I) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the No Child Left Behind Act of 2001 (NCLB). The amended regulations are needed to clarify and strengthen the existing regulations in the areas of accountability and assessment.

The U.S. Department of Education (ED) has determined that the amended regulations include activities covered by the Paperwork Reduction Act (PRA). ED is revising the State Educational Agency Local Educational Agency, and School Data Collection and Reporting under ESEA, Title I, Part A (OMB Number 1810-0581) collection by adding burden estimates to SEAs and/or LEAs for the following amended regulations:

- §200.11(c);
- §200.19(b)(1);
- §200.19(b)(1)(ii)(B)(1);
- §200.37(b)(5)(ii)(C);
- §200.39(c)(1);
- §200.39(c)(2);
- §200.47(a)(1)(ii)(B);
- §200.47(a)(3)(ii);
- §200.47(a)(4)(iii);
- §200.48(d)(3); and
- §200.48(d)(4).

Title I, Part A of the Elementary and Secondary Education Act, as amended by the No Child Left Behind Act (NCLB), contains several provisions that require State educational agencies (SEAs), local educational agencies (LEAs), and schools to collect or disseminate information. SEAs must (1) provide annual notice to potential supplemental educational services (SES) providers of the opportunity to provide such services; (2) maintain an updated list of approved providers from which parents may select, and (3) must publicly report on standards and techniques for monitoring the quality and effectiveness of the services offered by each approved provider and for withdrawing approval from a provider that fails, for two consecutive years, to contribute to increasing the academic proficiency of students receiving supplemental services. As part of their

Title I, Part A, Grants to LEAs

responsibility to annually review the progress of each LEA to determine whether its schools are making adequate yearly progress, SEAs must (1) provide the results of academic assessments administered as part of the State assessment system in a given school year to LEAs before the beginning of the next school year; (2) publicize and disseminate the results of the State review; (3) notify parents when LEAs are identified for improvement or corrective action, and include information on the corrective action to be taken, the option of school choice, and the availability of supplemental services, and (4) notify the Secretary of Education of major factors that have significantly affected student academic achievement in schools identified for improvement.

As part of their responsibility to annually review the progress of schools to determine whether they are making adequate yearly progress, LEAs must (1) publicize and disseminate the results of their annual progress review; (2) notify parents and teachers of any school identified for improvement or subject to corrective action or restructuring; (3) publicize and disseminate information regarding any action taken by the school and LEA to address the problems that led to the identification; and (4) for schools subject to restructuring, prepare a plan to carry out alternative governance arrangements. In addition, LEAs in improvement must develop improvement plans. Regarding services to children in private schools LEAs must also maintain in their records, and provide to their SEA, written affirmation, signed by officials of each private school with participating children or appropriate private school representatives, that the required consultation has occurred.

Schools operating schoolwide programs must (1) develop a comprehensive schoolwide plan based on a comprehensive needs assessment; (2) document that the unique needs of migratory children have been met before consolidating migrant education funds (Title I, Part C) in a schoolwide program; and (3) maintain records that the schoolwide program, as a whole, addresses the intents and purposes of each of the Federal programs whose funds were consolidated to support it. And finally, schools in improvement must develop school improvement plans.

Note that in this information package only the SEAs and LEAs collect and disseminate information. As the U.S. Department of Education (ED) does not collect SEA and LEA data under 1810-0581, it would not be appropriate or possible to use EDFacts.

Copies of the statute and final regulations are attached.

The information collection requirements that already have OMB approval in the statute are Sections 1111(h)(1) and 1111(h)(2), and the information collection requirements for existing regulations that already have OMB approval are §§ 200.6, including regulation 200.6(b)(4)(i)(C), 200.26, 200.27, 200.29, 200.30, 200.31, 200.33, 200.34, 200.36, 200.37, 200.38, 200.39, 200.41, 200.42, 200.43, 200.45, 200.46, 200.47, 200.49, 200.50, 200.51, 200.52, 200.53, 200.57, 200.61, 200.63, 200.70, 200.71, 200.72, 200.73, 200.74, 200.75, and 200.91.

Information collection activities are also associated with §200.37(b)(4)(iv) and §200.37(b)(5)(ii) (B). The information collection activities associated with this change do not pose an additional burden to LEAs, however. Sufficient hours for this activity are already accounted for in the currently approved 1810-0581 collection.

Information collection activities are also associated with other final revisions to §200.47(a)(4) at

Title I, Part A, Grants to LEAs

the SEA level. These particular revisions, however, do not pose an additional burden to SEAs because they simply specify how SEAs are to carry out this part of the regulation and related regulations but should not require additional time beyond the hours already estimated for §200.47(a) in the currently approved 1810-0581 collection.

Q2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

A2. School communities (most prominently parents), LEAs, SEAs, and ED have used the information from the various data collections in multiple ways in order to help all students meet and surpass the challenging State academic achievement standards in each State and to ensure that the statute is followed. Parents and other community members have used the information obtained from the annual LEA review of schools combined with information about any schools identified for school improvement or subject to corrective action or restructuring to make decisions about their child's education and to ensure public accountability for school performance.

LEAs have used the list of approved SES providers to carry out the requirement to provide SES to eligible children attending schools that are in their second year of improvement, corrective action, or restructuring under section 1116 of ESEA. Also related to this requirement, parents have used information provided by the SEA and LEAs to select an SES provider for their children.

SEAs have used the data on student performance to determine whether their schools have made adequate yearly progress, enforce sanctions on LEAs and schools, and prepared their State reports cards, which are on their web sites. In addition, SEAs have used the information provided by potential SES providers in their SES provider approval processes. Concerning private schools, SEAs have used LEAs' records of written affirmations that the required consultation with private school officials has occurred to ensure that statutory requirements are being met.

At the national level ED has used the information on student academic achievement, the data on school choice and SES, equitable services to eligible private school students, and parent notification of school performance to inform its technical assistance efforts to SEAs and to support its crucial monitoring of SEAs in the areas of Standards and Assessments, Program Improvement, Parental Involvement, and Options, and Fiduciary. ED has also used these data to conduct analyses for performance measures used in the Program Assessment Rating Tool (PART), to respond to questions about Title I from the Congress and the public, and to run the program effectively and efficiently in order to maximize student achievement.

Q3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision of adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

Title I, Part A, Grants to LEAs

A3. The regulations do not require or preclude SEAs from using information technology to reduce burden.

Q4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use of the purposes described in Item 2 above.

A4. There is no duplication in the regulations.

Q5. If the collection of information impacts small businesses or other small entities (Item 5 of OMB Form 83-I), describe any methods used to minimize burden.

A5. Small businesses have not been impacted by this data collection nor will the changes impact them. The only small entities affected by the amended regulations are small LEAs. The bulk of the additional burden on LEAs, however, will fall on larger LEAs that, for example, will generally have more students to track under §200.19(b)(1)(ii)(B)(1). Moreover, because SEAs are responsible for ensuring that the LEAs follow the statute and regulations, small LEAs will receive instructions and guidance from their SEA on exactly how to implement the requirements. This important SEA responsibility helps to minimize burden on small LEAs.

Q6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

A6. If the information collection under these regulations is not continued, knowledge about educational progress towards universal proficiency would suffer and it would not be possible to implement and follow the applicable statutes. Specifically, without this information, the nation will not know the extent to which all students are making progress towards the statutory requirement of universal proficiency by school year (SY) 2013-2014; parents will be unaware of their school's performance and the statutory options provided to them to improve their child's education; and, from the legal standpoint, ED, SEAs, LEAs, and schools will not have information necessary to carry out the law's requirements.

Q7. Explain any special circumstance that would cause an information collection to be conducted in a manner:

- *requiring respondents to report information to the agency more often than quarterly;*
- *requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;*
- *requiring respondents to submit more than an original and two copies of any document;*
- *requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;*
- *in connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;*
- *requiring the use of a statistical data classification that has not been reviewed and approved by OMB;*
- *that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other*

Title I, Part A, Grants to LEAs

agencies for compatible confidential use; or

- *requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.*

A7. The regulations do not require the information collection to be conducted in a manner inconsistent with the requirements of 5 CFR 1320.5.

Q8. If applicable, provide a copy and identify the date and page number of publication in the FEDERAL REGISTER of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to those comments. Specifically address comments received on cost and hour burden.

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instruction and record keeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years - even if the collection of information activity is the same as in prior periods. There may be circumstances that preclude consultation in a specific situation. These circumstances should be explained.

A8. ED sought public comment on the paperwork requirements at the same time that the proposed regulations were published for public comment. Comments were received on the regulation and are addressed within the regulation but there were no comments on the data collection activity.

Q9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

A9. The regulations do not require gifts or payments to be made to respondents.

Q10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulations, or agency policy.

A10. The regulations require no assurance of confidentiality.

Q11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

A11. The regulations do not require questions of sensitive nature in this collection of information.

Title I, Part A, Grants to LEAs

Q12. Provide estimates of the hour burden of the collection of information. The statement should:

- Indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.
- If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I.
- Provide estimates of annualized cost to respondents of the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.

A12. Estimated hour burden for the collection of information.

This information collection and reporting package is a revision of the information package that was developed for the regulations listed in A1 and approved through December 31, 2009. There is an overall increase in the burden estimate from the previously approved amount of 6,689,387 hours to 7,848,484 hours, which represents a change of 1,159,097 hours.

The following table lists by level the activities whose burden estimates have changed since this collection was first approved 2003 and presents the estimated hours for the new requirements. Concerning the amended regulations related to graduation rates shown in the table, the estimated burden takes into account that the approach currently used by sixteen States to calculate their graduation rates is consistent with the amended regulations.

Activity by Level	Year				Difference from 2007
	2003	2006	2007 Addition	2008 Additions	
SEA					
Report Card	0	19,240			
LEP addition to Report Card	0	52			
Two percent addition to Report Card	0		52*		
NAEP data to Report Card				1,248	1,248
Graduation rates				14,880	14,880

Title I, Part A, Grants to LEAs

Activity by Level	Year				Difference from 2007
	2003	2006	2007 Addition	2008 Additions	
Posting public school choice and SES information for LEAs that do not operate websites				235	235
Posting public school choice and SES amounts for each LEA				104	104
Listing providers that serve SWD and LEP				104	104
Develop, implement and publicly report on standards and techniques for monitoring LEAs' implementation of the SES requirements				2,080	2,080
Review of LEAs				1,728	1,728
Review LEA request to use unexpended funds				1,440	1,440
SEA notification to LEA (SES waiver)	0	250			
SES notice	832	832			
Update SES provider list	5,200	5,200			
SES evaluation report	12,480	12,480

Previously Approved Burden Hours/Cost to LEAs

Activity	Frequency	# of Responses	Average Hours per respondent	Total Hours	Total Cost (Total Hours x \$21.00)
Section 1111(h)(2)	Annually	13,246	1 person at 16 hours per LEA	211,936	\$4,450,656
200.30—Conduct, publicize and annually disseminate annual adequate yearly progress review of schools.	Annually	13,246	Required under prior law; carried out as part of regular business of the LEA to notify the public.	No extra hours	None
200.33—LEA must identify for corrective action schools that do not meet AYP.		13, 246			Done as regular part of business of single accountability system—OMB 1810-0576
200.34, 200.43—LEA must prepare, and make arrangements to implement, a restructuring plan for schools that do not meet AYP after one full year in corrective action	Required once for each school that meets the criteria	1,065	5 people at 160 hours each=800	852,000	\$17,892,000
200.36, 200.37, 200.38 and 200.46—Notify parents when schools are identified for improvement, corrective action, or restructuring; publish and disseminate information on any action taken by the school and LEA to address the problems that lead to such identification.	Annually	2,912	1 person at 8 hours per LEA	23,296	\$489,216
200.52—LEA must develop or revise improvement plan if identified for improvement.	Once upon identification for improvement	776	5 people/at 160 hours each = 800 hours per LEA	620,800	\$13,036,800
200.61(a)—LEA must notify parents that they can request information about the professional qualifications of their child’s classroom teacher.	Annually	13, 246	1 person at 10 hours per LEA	132,460	\$2,781,660
200.63(c)(1)—Maintain records on consultation with private school officials.	Annually	13, 246	6 hours to collect and file records	79,746	\$1,668,996
Total LEA Activities		13, 246		1,920,238	\$40,324,998

Title I, Part A, Grants to LEAs

Existing Approved Burden Hours/Cost for Schools

Activity	Frequency	# of respondents	Average # of hours per respondent	Total hours	Total Cost (Total Hours x \$ 21.00)
200.26—School operating schoolwide program must conduct a comprehensive needs assessment.	One time	530	1 person / 48 hours to collect data	Done as part of schoolwide plan; no additional hours	Done as part of schoolwide plan; no additional cost
200.26, 200.27—School must develop comprehensive schoolwide plan.	One time	530	5 people at 200 hours each over the course of a school year	530,000	\$11,130,000
200.29(c)(1)—Schoolwide program must document the needs of migratory students have been met before consolidating Title I, Part C funds.	Annually	29,987			No additional burden; done as part of the comprehensive needs assessment
200.29(d)(2)—Schoolwide must maintain records demonstrating that it addresses the intents and purposes of each Federal program included.	Annually	29,987	1 person / 6 hours	179,922	\$3,778,362
200.31-Principal must have opportunity to provide supporting evidence to LEA if he/she thinks school is being identified for improvement in error.	Annually				Done as regular part of business of single accountability system—OMB 1810-0576
200.39, 200.41, 200.42—Schools identified for improvement must revise or develop school improvement plan; corrective action may include revising school improvement plan.	Each time a school is identified for improvement	4,154	6 people/at 160 hours each = 960 hours per school	3,987,840	\$83,744,640
Total School Activities		29,987		4,697,762	\$98,653,002

Q13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14.)

- The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and*

Title I, Part A, Grants to LEAs

maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities.

- If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.*
- Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.*

A13. Not applicable.

Q14. Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

A14. Estimated annualized Federal cost: The only cost to the Federal government, beyond the efforts normally associated with Department staff conducting program monitoring, would be to review the notices that States must send to the Secretary about major factors that have significantly affected student achievement in schools identified for improvement.

Two people, GS-13, four hours per notice, X 52 states = 416 hours X 32.88 per hour=\$13,678.

Title I, Part A, Grants to LEAs

Q15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB Form 83-I.

A15. The change in burden hours is due to the estimated time that will be required for SEAs and LEAs to implement the amended regulations.

Q16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

A16. The collection of information does not require publication of the information or use of complex analytical techniques. The needs assessment and service delivery plan need to be implemented at least once during the current period of authorization for ESEA as amended. The program evaluation needs to be implemented biennially during the current period of authorization for ESEA as amended.

Q17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

A17. As SEAs, LEAs, and schools will conduct the information collection, displaying the expiration date of OMB approval for the data collection would be inappropriate because these entities, rather than the Federal Government or a Federal contractor, are doing the collections.

Q18. Explain each exception to the certification statement identified in Item 20, "Certification for Paperwork Reduction Act Submissions," of OMB Form 83-I.

A18. There were no proposed exceptions to the certifications.

B. Collections of Information Employing Statistical Methods

The regulations do not require that statistical methodology be employed.
