		P58 - Notice of Loss Reporting Record	Added P58 to allow more reporting time in the event of a disaster as described in the narrative		83,464.94	83,464.94	Adj
	Data elements associated with Subpart U - Ineligibility for Prog. Under FCIA: Separate proposed rule ICR submitted. This will be deleted upon approval of final rule package.				1,448.00	1,448.00	
	Combined the following 6 line items (cells B25-30) into one category.						
P60 - Ineligible Producer Input	Data elements associated with Subpart U - This will be deleted upon approval of separate final rule package (P60 - Ineligible Producer Input, P60E - Ineligible Producer Error, P61 - Ineligible Producer Output, P65 - CAT Fee Receivable, P70 - Reverse 70 Detail, P71 - Reverse 71 Trailer)		Orignally deleted P60 from this package because this information is associated with the collection of information pursuant to 7 CFR, Part 400, Subpart U and created a new package for the information collection requirements necessary for administering 7 CFR, Part 400, Subpart U. Because Subpart U would now have its own collection package, the burden associated with Subpart U was removed from related data elements in this collection package before it was submitted to OMB for renewal. However, the final rule is still being written and until a final rule package is submitted and approved by OMB the removed associated burden this needs to be added back into the renewal submission of this collection. The burden and data elements associated with Subpart U has now been combined into one line item.	37,000.00	0.00	-37,000.00	Adj
P60E - Ineligible Producer Error			Orignally deleted P60E from this package because this information is associated with the collection of information pursuant to 7 CFR, Part 400, Subpart U and created a new package for the information collection requirements necessary for administering 7 CFR, Part 400, Subpart U. Because Subpart U would now have its own collection package, the burden associated with Subpart U was removed from related data elements in this collection package before it was submitted to OMB for renewal. However, the final rule for each is still being written and until a final rule package is submitted and approved by OMB the removed associated burden this needs to be added back into the renewal submission of this collection. The burden and data elements associated with Subpart U has now been combined into one line item.	11,000.00	0.00	-11,000.00	Adj

REGS	Old Element	New Element	REASON	OLD BURDEN (all respondents)	NEW BURDEN (all respondents)	DIFFERENCE	TYPE OF CHANGE
	P61 - Ineligible Producer Output		Originally deleted P61 from this package because this information is associated with the collection of information pursuant to 7 CFR, Part 400, Subpart U and created a new package for the information collection requirements necessary for administering 7 CFR, Part 400, Subpart U. Because Subpart U would now have its own collection package, the burden associated with Subpart U was removed from related data elements in this collection package before it was submitted to OMB for renewal. However, the final rule for each is still being written and until a final rule package is submitted and approved by OMB the removed associated burden this needs to be added back into the renewal submission of this collection. The burden and data elements associated with Subpart U has now been combined into one line item.	19,000.00	0.00	-19,000.00	Adj
	P65 - CAT Fee Receivable		Originally deleted P65 from this package because this information is associated with the collection of information pursuant to 7 CFR, Part 400, Subpart U and created a new package for the information collection requirements necessary for administering 7 CFR, Part 400, Subpart U. Because Subpart U would now have its own collection package, the burden associated with Subpart U was removed from related data elements in this collection package before it was submitted to OMB for renewal. However, the final rule is still being written and until a final rule package is submitted and approved by OMB the removed associated burden this needs to be added back into the renewal submission of this collection. The burden and data elements associated with Subpart U has now been combined into one line item.	3,000.00	0.00	-3,000.00	Adj
	P70 - Reverse 70 Detail		Originally deleted P70 from this package because this information is associated with the collection of information pursuant to 7 CFR, Part 400, Subpart U and created a new package for the information collection requirements necessary for administering 7 CFR, Part 400, Subpart U. Because Subpart U would now have its own collection package, the burden associated with Subpart U was removed from related data elements in this collection package before it was submitted to OMB for renewal. However, the final rule is still being written and until a final rule package is submitted and approved by OMB the removed associated burden for each of these needs to be added back into the renewal submission of this collection. The burden and data elements associated with Subpart U has now been combined into one line item listed below	5,000.00	0.00	-5,000.00	Adj
