SCREENER FOR ADOLESCENTS AND PARENT/ADOLESCENT DYADS (GIVEN TO PARENTS)

[Note: The following will be present at the bottom of the first screen:

This research is authorized by Section 1701(a)(4) of the Public Health Service Act (42 U.S.C. 300u(a)(4)). Confidentiality protected by 5 U.S.C. 552(a) and (b) and 21 CFR part 20.

OMB Control #_____ Expires _____]

1. Are you the parent or guardian of any children between the ages of 13-17?

Yes

No **terminate**

2. How many children in each of these age groups live with you at least half the time? Please only answer for children for which you are the parent or guardian.

13 years old 0 1 2 3 4

14 years old 0 1 2 3 4

15 years old 0 1 2 3 4

16 years old 0 1 2 3 4

17 years old 0 1 2 3 4

Programmer: If 0 for all age groups, terminate.

OMB Control No. _____. Expires _____.

3. For your [AGE] year old child (programmer: IF >1 child in any age group, use "OLDEST [AGE] year old child" for this question and repeat for next oldest) please enter the child's first name and your relationship to the child.

Child's Name: _____ (free response)

Child's Sex: Male Female

Your relationship to this child: Programmer: use drop down menu: mother, father, stepmother, stepfather, grandmother, grandfather, aunt, uncle, guardian, other (specify)

4. Has a medical professional ever diagnosed [CHILD FIRST NAME] with any of the following conditions? (Select all that apply)

- ADHD
- Allergies
- Asthma
- Autism
- Celiac Disease
- Diabetes
- Epilepsy
- Gastro Esophageal Reflux Disease (GERD)
- Lyme Disease
- Tonsillitis
- None of the above

Programmer: Repeat Q.4 for all children named in Q.3. If ADHD = yes, assign to ADHD condition and skip Q.5; else continue to Q.5. IF >1 child = yes, choose child based on least filled age group.

5. Which of the following does your child currently have or has your child had in the past? (Select all that apply)

- Acne
- Chicken Pox
- Constipation
- Influenza (flu)
- Lice
- Milk/dairy allergies
- Skin irritation/rashes
- Sleep issues
- None of the above

Programmer: Repeat Q.5 for all children named in Q.3. If Acne = yes, assign to Acne condition; else terminate. IF >1 child = yes, choose child based on least filled age group.

SCREENER FOR YOUNG ADULTS

1. Which of the following best describes your age range:

- Under 18 (terminate)
- 18 to 24 (terminate)
- 25 to 30
- 31 to 35 (terminate)
- 36 to 40 (terminate)
- 41 to 45 (terminate)
- 46 to 50 (terminate)

2. Has a medical professional ever diagnosed you with any of the following conditions? (Select all that apply)

- ADHD
- Allergies
- Asthma
- Autism
- Celiac Disease
- Diabetes
- Epilepsy
- Gastro Esophageal Reflux Disease (GERD)
- Lyme Disease
- Tonsillitis
- None of the above

Programmer: If ADHD = yes, assign to ADHD condition and skip Q.3; else continue to Q.3.

3. Which of the following do you currently have or have you had in the past? (Select all that apply)

- Acne
- Chicken Pox
- Constipation
- Influenza (flu)
- Lice
- Milk/dairy allergies
- Skin irritation/rashes
- Sleep issues
- None of the above

Programmer: If Acne = yes, assign to Acne condition; else terminate.

CONSENT/ASSENT TEXT

[CHILD FIRST NAME] is you are being invited to participate in a research study about prescription drugs. The purpose of the study is to learn more about how people find information and make decisions about prescription drugs.

If you agree to let [CHILD FIRST NAME] participate, [he/she] you will look at an ad for a prescription drug on the computer and complete a survey. The survey includes questions about risks and benefits of prescription drugs, use of medications, and personal characteristics. There are also some questions about communication between parents and teenagers, particularly about medications.

There is no direct benefit to your child you for participating. However, [CHILD FIRST NAME] you will help researchers learn how people make decisions about prescription drugs and the information they see in prescription drug advertisements.

There are no known risks to participating in this study. While the questions are not meant to be sensitive, there is always a chance that [CHILD FIRST NAME] you may feel uncomfortable with some of the questions. [CHILD FIRST NAME] does You do not have to answer any question that he or she doesn't you don't want to answer.

[CHILD FIRST NAME]'s Your personal information (name, address, phone number) will not be linked to any of his or her your responses. No participants will be identified in any report or publication of this project or its results.

[CHILD FIRST NAME]'s Your participation in this study is voluntary. [CHILD FIRST NAME] You may stop answering the survey questions at any time.

If you agree for [CHILD NAME] to participate in the survey, please let [him/her] know that it's okay with you if [he/she] answers our questions and please allow [him/her] to complete the survey in private, where no one else can see [his/her] answers. Your child's survey will appear on the next screen. If your child is not available right now, please close your browser and access the link again when your child is available.

NEXT (by clicking "next" I certify that I agree for my child to complete the survey in private.)

(by clicking "next" I certify that I agree to complete the survey in private.)

Programmer: For adolescents, repeat above screen using adolescent version when adolescent opens up the survey.

INTRODUCTION

[PROGRAMMER: Randomly assign participants to study conditions.]

Hcondition - assign based on screener

CONDITION=ADHD	ATTENALIX	N=999
CONDITION=ACNE	CLARIVAE	N=999

HassignATTENALIX [ADHD]-assign based on least filled

HIGH RISK	N=999
LOW RISK	N=999

HassignCLARIVAE [ACNE] -assign based on least filled

HIGH RISK	N=999
LOW RISK	N=999

INFONODE

Thank you again for taking time from your busy schedule to take part in this research. Remember: your answers will not be linked to your name.

This study involves information about a drug that is not yet available for sale. You will look at a website page and watch a short video, and then will be asked to answer the questions that follow.

Make sure you are comfortable and can read the screen from where you sit. The ad will include some audio, so please make sure the sound on your computer is active and the speaker volume is turned up.

The survey will take about 30 minutes to complete. We ask you to complete the survey in one sitting (without taking any breaks) in order to avoid distractions.

[PROGRAMMER: Display ad correspondent to the participant's experimental condition [HASSIGN]. Record duration of time spent watching ad and also time spent on each screen answering questions. Video component of ad should run twice. Also, please disable the "Next" button while each video is playing to prevent participant from skipping ahead.]

[VIDEO VIEWING ABILITY CHECK]

Q1. Were you able to view and hear the ad?

SC

Yes	[Continue]
No	[Terminate; Link to screening responses and keep data]

OMB Control No. _____. Expires _____.

[SECTION A: Recall and Comprehension]

INFONODE: The following questions will ask you what you remember from the [DRUG NAME] ad you just saw. Please type your answers in the space given.

A-1. What are the most important messages of this ad? Please use one box for each message. You do not need to use all the boxes. [Open-ended response]

OE CHA

VALIDATION: NONE

[Randomize order of A-2 and A-3.]

The advertisements you saw included messages about a prescription drug named [DRUG NAME].

A-2. Based on the ad you viewed, what are the benefits of [DRUG NAME]? Please name as many benefits as you can remember. Please use one box for each benefit. [Open-ended response]

Click here to enter another benefit.

[Programmer: If clicked, insert another open-ended box above prompt. Have an option to add boxes after each one. The limit for OE boxes for each is 15.]

A-3. Based on the ad you viewed, what are the side effects from [DRUG NAME]? Please name as many side effects as you can remember. Please use one box for each side effect. [Open-ended response]

Click here to enter another side effect.

[Programmer: If clicked, insert another open-ended box above prompt. Have an option to add boxes after each one. The limit for OE boxes for each is 15]

A-4. How much do you agree or disagree with the following statement:

People like me can understand the ad that I saw for [DRUG NAME].

SC

- strongly disagree
 - disagree
 - somewhat disagree
 - neither agree nor disagree
 - somewhat agree
 - agree
 - strongly agree
-

[SECTION B: Risk/Benefit/Efficacy Perceptions]

INFONODE: The following questions ask about how you think [DRUG NAME] would affect your child you if your child you were taking it for his/her your [MEDICAL CONDITION]. To answer the questions, think about when your child's your [MEDICAL CONDITION] was at its worst. Please select one answer for each question.

B-1. How long do you think it would take for you to see an improvement in your child's your [MEDICAL CONDITION] after starting [DRUG NAME]?

SC

- 1-2 days
- 3-5 days
- 2-5 weeks
- 8-10 weeks
- 3-5 months
- 6-12 months
- I don't think [DRUG NAME] would improve my child's [MEDICAL CONDITION]

B-2. Once you see an improvement in your child's [MEDICAL CONDITION], how long do you think the improvement will last if your child continues you continue to take [DRUG NAME]?

SC

- 1-2 days
- 3-5 days
- 2-5 weeks
- 8-10 weeks
- 3-5 months
- 6-12 months
- I don't think [DRUG NAME] would improve my child's [MEDICAL CONDITION]

The improvement will last as long as **my child continues** | **continue** to take
[DRUG NAME]

B-3. If [DRUG NAME] **did** cause side effects, how serious do you think they would be?

SC

not at all serious
somewhat serious
very serious

B-4. How do you think any side effects of taking [DRUG NAME] compare to any benefits of taking [DRUG NAME]?

SC

side effects much greater than benefits
side effects greater than benefits
side effects somewhat greater than benefits
side effects and benefits are equal
benefits somewhat greater than side effects
benefits greater than side effects
benefits much greater than side effects

B-5. Do you think [DRUG NAME] would work better or worse than other [MEDICAL CONDITION] drugs?

SC

[DRUG NAME] would work a lot better
[DRUG NAME] would work better
[DRUG NAME] would work a little better
[DRUG NAME] would work just as well
[DRUG NAME] would work a little worse
[DRUG NAME] would work worse
[DRUG NAME] would work much worse

B-6. Do you think the side effects of [DRUG NAME] would be more serious or less serious than other [MEDICAL CONDITION] drugs?

SC

The side effects of [DRUG NAME] would be much more serious
The side effects of [DRUG NAME] would be more serious
The side effects of [DRUG NAME] would be a little more serious
The side effects of [DRUG NAME] would be neither more nor less serious
The side effects of [DRUG NAME] would be a little less serious
The side effects of [DRUG NAME] would be less serious
The side effects of [DRUG NAME] would be much less serious

[Show B-7 and B-8 on same screen for first benefit; then repeat for next benefit; randomize the order in which benefits are presented]

B-7. How likely is it that **your child** **YOU** will have [BENEFIT] from [DRUG NAME]?

SC

very unlikely
unlikely
somewhat unlikely
neither unlikely nor likely
somewhat likely
likely
very likely

[BENEFIT] is not a benefit of [DRUG NAME]

BENEFITS FOR ACNE CONDITION

- a. less swelling caused by acne
- b. fewer pimples caused by acne

BENEFITS FOR ADHD CONDITION:

- a. decreased impulsivity
- b. decreased hyperactivity
- c. increased attention

B-8. When choosing whether or not to allow your child to take [DRUG NAME], how important is [BENEFIT]?

SC

very important
important
somewhat important
neither important nor unimportant
somewhat unimportant
unimportant

very unimportant

B-9. How likely is it that your child YOU will have the following side effects from [DRUG NAME]?

GRID SC PER ROW

[Ask question for each side effect on list below based on assigned condition [HASSIGN]; randomize order in which side effects are presented. Use grid.]

very unlikely
unlikely
somewhat unlikely
neither unlikely nor likely
somewhat likely
likely
very likely

[SIDE EFFECT] is not a side effect of [DRUG NAME]

FOR LOW SEVERITY PROFILE CONDITION:

- difficulty sleeping
- increased blood pressure
- rapid heartbeat
- Increased sensitivity to light
- fatigue
- nausea
- dizziness [common to high and low profile]
- dry mouth [bogus - not in ad]
- nervousness [bogus - not in ad]

FOR HIGH SEVERITY PROFILE CONDITION:

- an abrupt decrease in night vision
- liver failure
- suicidal thoughts or actions
- seizures/convulsions
- hair loss
- deafness
- dizziness [common to high and low profile]
- dry mouth [bogus - not in ad]
- nervousness [bogus - not in ad]

[Programmer: Use one screen per side effect from B-9 for questions B-10 to B-13 IN A LOOP based on assigned condition. Repeat with a new screen for the next side effect. For the low risk condition, the 3 side effects we will ask about are increased blood pressure, rapid heartbeat, dizziness; For the high risk condition, the side effects are: suicidal thoughts or actions, liver failure, dizziness]

INFONODE: For the following questions, please answer for [SIDE EFFECT].

B-10. My **child's** chances of having [SIDE EFFECT] in the future as a result of taking [DRUG NAME] are:
SC

- much below average
- below average
- a little below average
- average for people my age
- a little above average
- above average
- much above average

[SIDE EFFECT] is not a side effect of [DRUG NAME]

B-11. When choosing whether or not to **allow your child to** take [DRUG NAME], how important is the side effect: [SIDE EFFECT]?

SC

- very important
- important
- somewhat important
- neither important nor unimportant

somewhat unimportant
unimportant
very unimportant

[SIDE EFFECT] is not a side effect of [DRUG NAME]

B-12. How long do you think it will take for your child to have [SIDE EFFECT] after starting [DRUG NAME]?

SC

1-2 days

3-5 days

2-5 weeks

10-12 weeks

3-5 months

6-12 months

I don't think my child will have [SIDE EFFECT]

[SIDE EFFECT] is not a side effect of [DRUG NAME]

B-13. Once your child stops you stop taking [DRUG NAME], how long do you think [SIDE EFFECT] will last?

SC

1-2 days

3-5 days

2-5 weeks

10-12 weeks

3-5 months

6-12 months

I don't think my child will have [SIDE EFFECT]

[SIDE EFFECT] is not a side effect of [DRUG NAME]

B-14. Please put the following possible side effects of [DRUG NAME] in order from most likely to most unlikely based on how likely you think they are to happen to your child you. You can drag and drop the side effects to re-order them as you wish.

[Programmer: Put vertical scale across the left with "most likely" at the top and "most unlikely" at the bottom. Allow respondents to drag the side effects up and down using items from the list from B-9 so that they can order them as they wish]. For each participant, randomly assign the beginning order of the list. Make sure the list is small enough to fit on one screen.

DRAG AND DROP

FOR LOW SEVERITY PROFILE CONDITION:

- difficulty sleeping
- increased blood pressure
- rapid heartbeat
- Increased sensitivity to light
- fatigue
- nausea
- dizziness [common to high and low profile]
- dry mouth [bogus - not in ad]

- nervousness [bogus - not in ad]

FOR HIGH SEVERITY PROFILE CONDITION:

- an abrupt decrease in night vision
- liver failure
- suicidal thoughts or actions
- seizures/convulsions
- hair loss
- deafness
- dizziness [common to high and low profile]
- dry mouth [bogus - not in ad]
- nervousness [bogus - not in ad]

[SECTION C: Intentions and Information Seeking Behavior]

C-1. Based on the advertising, please rate how likely or unlikely you are to do each of the following behaviors:

GRID SC PER ROW

[RANDOMIZE ORDER]	1 very unlikel y	2 unlikel y	3 somewha t unlikely	4 neither unlikely nor likely	5 somewha t likely	6 likely	7 very likely
a. Ask your child's doctor for more information about [DRUG NAME].							
b. Look for information about [DRUG NAME] on the Internet.							
c. Talk with a friend or family member about [DRUG NAME].							
d. Ask your child's doctor to prescribe [DRUG NAME].							

e. Allow your child to take [DRUG NAME] if your child's doctor prescribed it.							
f. Take [DRUG NAME] if your doctor prescribed it.							
g. Talk to your parents about [DRUG NAME].							
h. Ask your parents to take you to the doctor to get [DRUG NAME].							

C-2. What would most affect your decision about whether or not your child would take [DRUG NAME]?

SC

- the severity of the side effects
- the benefits of taking the drug
- when the side effects would start
- when the benefits would start

C-3. Do you think [DRUG NAME] would be covered by your family's health insurance?

SC

- no; not at all
- yes; partially
- yes; completely
- do My family does not have health insurance
- I don't know

[SECTION D: Additional Potential Moderators]

D1-D3: ASK ONLY OF PARENTS AND ADOLESCENTS

INFONODE: The following section will ask questions about your child, [CHILD NAME] [PARENT RELATIONSHIP], who signed you up for this study

D-1. Who would make the final decision about whether your child you would use this drug?

SC

- you

your child [PARENT RELATIONSHIP]
 you and your child [PARENT RELATIONSHIP] together

D-3.

INFONODE: Please select one answer per question.

GRID SC PER ROW

	Always s	Often	Sometimes	Rarely	Never
a. I let my child My [PARENT RELATIONSHIP] lets me decide what prescription medication he/she I should or shouldn't take.					
b. I ask my child's My [PARENT RELATIONSHIP] asks me my preference when we discuss taking different prescription medications.					

INFONODE: For the following questions think about when your your child's [MEDICAL CONDITION] was at its worst.

D-6. I sometimes feel like my child is I'm treated differently because of his/her my [MEDICAL CONDITION].

SC

- strongly disagree
- disagree
- somewhat disagree
- neither agree nor disagree
- somewhat agree
- agree
- strongly agree

D-8. How often does your child do you feel embarrassed about his/her your [MEDICAL CONDITION]?

SC

- always
- often
- sometimes
- rarely
- never

D-9. How often does your child do you feel ashamed that he/she has you have [MEDICAL CONDITION]?

SC

- always

often
 sometimes
 rarely
 never

INFONODE: Please select one answer per question.

D-10.

GRID SC PER ROW

[RANDOMIZE ORDER]	1 strongly disagree	2 disagree	3 somewhat disagree	4 neither agree nor disagree	5 somewhat agree	6 agree	7 strongly agree
a. My child does I do not feel comfortable taking chances.							
b. Before my child makes I make a decision, he/she likes I like to be absolutely sure how things will turn out.							
c. My child feels I feel nervous when he/she has I have to make decisions in uncertain situations.							

D-11. When did you first realize that your child you had [MEDICAL CONDITION]?

SC

- six months ago or less
- more than six months ago but less than a year ago
- a year ago or more but less than 5 years ago
- five years ago or longer

D-12. How much does your child's [MEDICAL CONDITION] affect his/her your daily life now?

SC

not at all

some
a lot

D-13. When your child's [MEDICAL CONDITION] was at its worst, how much did it affect his/her your daily life?

SC

not at all
some
a lot

D-14. Is your child Are you currently taking prescription medication for [MEDICAL CONDITION]?

SC

[Prescription medication is something you can only get if you have a prescription from your doctor or health care provider.]

yes
no [SKIP TO D-16]

ASK IF D-14=YES

D-15. About how long has your child have you been on his/her your current prescription medication for [MEDICAL CONDITION]?

OE NUM

___ [DROP DOWN: days[0-6]/weeks[0-3]/months[0-11]/years[0-18]] [SKIP TO D-17]

ASK IF D-14=NO

D-16. Has your child Have you ever taken prescription medication for [MEDICAL CONDITION]?

SC

yes
no

D-17 Have you Has your child ever had side effects from taking prescription medications?

yes
no

ASK IF D-17=YES

D-18 How serious were these side effects?

not at all serious
somewhat serious
very serious

D-20. [ADHD group only]

INFONODE: Please select one answer per question.

GRID SC PER ROW

OMB Control No. _____. Expires _____.

	Never	Rarely	Sometimes	Often	Very Often
a. How often does your child do you have trouble wrapping up the final details of a project, once the challenging parts have been done?					
b. How often does your child do you have difficulty getting things done in order when he/she has you have to do a task that requires organization?					
c. How often does your child do you have problems remembering appointments or obligations?					
d. When your child has you have a task that requires a lot of thought, how often does he/she do you avoid or delay getting started?					
e. How often does your child do you fidget or squirm with his/her your hands or feet when he/she has you have to sit down for a long time?					
f. How often does your child do you feel overly active and compelled to do things, like he/she you were driven by a motor?					

D-21. [Acne group only]

INFONODE: Please select one answer per question.

	Not at all	Very little	Somewhat	A fair amount	A great deal
a. In the last month, how much was your face or neck affected by breakouts of acne?					
b. In the last month, how much was your chest or back affected by breakouts of acne?					

D-22. For each question, decide which sort of person **your child** you **is** are most like — the one on the right or the one on the left. **Then decide if that** is “sort of true” or “really true” for **your child** you. **For each line mark only ONE of the four choices.**

GRID SC PER ROW

	Really True for My Child Me	Sort of True for My Child Me				Sort of True for My Child Me	Really True for My Child Me
a.	<input type="checkbox"/>	<input type="checkbox"/>	Some people like to plan	BUT	Other people like to	<input type="checkbox"/>	<input type="checkbox"/>

			things out one step at a time		jump right into things without planning them out beforehand
