## INTRODUCTION

---

This attachment contains the information on the data categories. For each data category, there is a table that provides the definitions, permitted values, and a list of the data groups that use that category.

To make this document easier to use, the first section contains data categories that are used throughout the data set. The later sections are organized into the same topics used in Attachment B-3. Within each section, the data categories are listed in alphabetical order.

The following is an index of the data categories in this attachment.

## CATEGORIES USED THROUGHOUT THE DATA SET

### Age, Age/Grade Level, and Grade Level Categories

Some data are aggregated by the age or grade level of the students. The tables below provide the ranges of ages or grade levels for these categories.

**Age** – Some data are aggregated by the age of the students. The table below provides the ranges of ages included for these categories. Below the information on the range of ages is a list of the data groups (including file numbers) using that category.

<b>Age (All)</b>	<b>Age (Early Childhood)</b>	<b>Age (School Age)</b>	<b>Age (Exiting)</b>	<b>Age Group</b>

**Grade Level** – Some data are aggregated by the grade level of the students. The tables below provide the ranges of grade levels included for these categories with one exception. The grade level category for assessments is in a separate table. Below the information on the range of grade levels is a list of the data groups (including file numbers) using that category.

The grade level is defined as “the primary instructional level of students.”

**Age/Grade Level** – Some data are aggregated by a combination of ages and grade level of the students. The table below provides the ranges of ages and grade levels included for these categories. Below the information on the range of ages and grade levels is a list of the data groups (including file numbers) using that category. Some data groups use more than one age/grade level category (e.g. category set A uses age/grade (w/o13) while category set B uses age/grade w/o12 and BT3). In the chart below, BT means “Birth to” and OOS means “Out of School.”
