IMPORTANT: Please read these instructions carefully before completing this form.

- Report shipments to or within the U.S. of all models certified under your ENERGY STAR partnership
- To ensure no double counting occurs, do not report shipments of products certified under another partnership even if you are the Original Equipment Manufacturer of those products. As a reminder, any product name your company owns or licenses must be certified under your ENERGY STAR partnership.

- If you shipped zero ENERGY STAR certified models to or within the U.S. in 2015, please check below blank.

This form is programmed to calculate your total shipments. Therefore, EPA strongly encourages you to use Microsoft Excel, instead of filling out a printed copy.
