GK-12 Monitoring System Screenshots: Award Survey

Graduate STEM Fellows in K-12 Education (GK-12)

The National Science Foundation (NSF) Graduate STEM Fellows in K-12 Education (GK-12 program) is a crosscutting education initiative managed by the Division of Graduate Education in the Directorate for Education and Human Resources. The program supports fellowships and associated training that will enable graduate students and advanced undergraduates in science, technology, engineering, and mathematics disciplines to serve as resources in K-12 schools.

Survey Privacy

The Federal Government has a continuing commitment to monitor its awards to identify and address any inequities based on gender, race, ethnicity, or disability of the principal investigators (PIs), co-PIs, graduate fellows, cooperating teachers, or other participants.

Information from this data collection system will be retained by NSF, a Federal agency, and will be an integral part of its Privacy Act System of Records in accordance with the Privacy Act of 1974 and maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998). All individually identifiable information supplied by individuals or institutions to a Federal agency may be used only for the purposes outlined in the system of records notice and may not be disclosed or used in identifiable form for any other purpose, unless otherwise compelled by law. These are confidential files accessible only to appropriate NSF officials, their staffs, and their contractors responsible for monitoring, assessing, and evaluating NSF programs. Only data in highly aggregated form or data explicitly requested "for general use" will be made available to anyone outside of NSF for research purposes. Data submitted will be used in accordance with criteria established by NSF for monitoring research and education grants, and in response to Public Law 99-383 and 42 USC 1885c. The Social Security number (SSN) will be maintained in accordance with the requirements of the Privacy Act of 1974. Submission of the SSN is voluntary. It is used for survey quality control, program evaluation, and matching with other data sets maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998).

Public Burden

Submission of the requested information is voluntary. Failure to provide full and complete information, however, may reduce the possibility for continuing support through the award/project subject to this survey. Pursuant to 5 CFR 1320.5(b), an agency may not conduct or sponsor, and a person is not required to respond to, an information collection unless it displays a valid Office of Management and Budget (OMB) control number. The OMB control number for this collection is 3145-0226. The annual public reporting burden for this collection of information is estimated to average 15 hours per award survey, 1.6 hours per fellow survey, and 1.6 hours per cooperating teacher survey, including the time for reviewing instructions. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Suzanne Plimpton, Reports Clearance Officer for OMB Collection 3145-0226 (GK-12 Program), National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230.

Survey Tasks

▶ **PART 1: PREPARE PROFILES FOR SURVEY RELEASES** *In Progress. Due October 21 (2 days)*

In Part 1 you are required to provide basic data about your project's participants in order to release the survey (in Part 2) to your NSF-funded graduate fellows and lead/NSF-supported cooperating teachers in a timely manner. You will complete these participant profiles in Part 3.

Please provide accurate information about institutions, schools, key project staff, graduate fellows, and cooperating teachers who participated in your GK-12 project during the current reporting period (6/01/2014 - 5/31/2015). For your convenience, participants have been preloaded from the lists your project may have submitted last year.

For each list:

1. Remove any preloaded participants that were not active during the current reporting period (6/01/2014 - 5/31/2015).
2. Add any additional participants that were active during the current reporting period (6/01/2014 - 5/31/2015).
3. You must mark each list complete before you can release the survey (in Part 2) to your NSF-funded graduate fellows and lead/NSF-supported teachers.

PIs/Co-PIs and Project Coordinators (1)

Graduate Fellows (1)

List all graduate fellows who participated on your project during the current reporting period. You will release the survey to your NSF-funded graduate fellows in Part 2 and complete their profiles in Part 3.

Cooperating Teachers (2)

List all cooperating teachers who participated on your project during the current reporting period, except those who worked only with undergraduate fellows. You will release the survey to your lead/NSF-supported teachers in Part 2 and complete their profiles in Part 3.

Partnerships and Collaborations (2)

K-12 Schools (1)

- **Add** any new K-12 Schools. Include all schools that participated on your project during the current reporting period (6/01/2014 - 5/31/2015) and all schools that served as the home institution for any of your project's co-PIs who participated during the current reporting period (6/01/2014 - 5/31/2015).
- **Remove** any K-12 Schools that did not participate during the current reporting period (6/01/2014 - 5/31/2015).

When the list includes **ALL** the K-12 schools active during the current reporting period, you will be prompted to mark **This List Complete.** After the list is marked complete, no further updates are allowed. You may update other data related to these schools (e.g., school level, etc.) at any time.

Part 3: Complete Award Survey - Academic Achievements Related to GK-12 Activities and Themes

Provide information on any academic achievements resulting from your GK-12 program to which you (the lead PI) or any other personnel or fellows (co-PI, fellows, teachers) associated with your GK-12 program contributed during the June 1, 2014 - May 31, 2015 reporting period. In addition, you can add other general academic achievements.

Asterisks indicate required fields; you must complete them in order to submit your data. We will follow up with all award sites that have missing information. Please be sure to include only new achievements and products not previously reported in earlier reporting cycles.

Use any standard citation format such as APA with the following adjustment:

- Use asterisks (*) before authors' names to denote fellows who participated in your GK-12 project at any time and who are/were fully or partially funded by the NSF-GK-12 program during their participation on your project.
- Use plus signs (+) before authors' names to denote cooperating teachers who participated in your GK-12 project at any time.

Examples:

- Homer, N., *Szellinger, S., Redman, M., +Duggan, D., Tembe, W., et al. (2008) Resolving Individuals Contributing Trace Amounts of DNA to Highly Complex Mixtures Using High-Density SNP Genotyping Microarrays. PLoS Genet 4(8): e1000167. doi:10.1371/journal.pgen.1000167.

Part 3: Complete Award Survey - Describe Development Activities ▢

Enter information about the development activities associated with the GK-12 project during the current reporting period (June 1, 2014 - May 31, 2015). For help with unfamiliar terms, consult the [glossary](#).

Identify those professional development activities associated with your GK-12 project during the reporting period (June 1, 2014 - May 31, 2015). The first part looks at participation of the majority of GK-12 fellows; the second part looks at participation by teachers associated with the GK-12 award. Because some of these activities were ongoing, throughout the entire reporting period, while others were limited to summer institutes, we ask that you indicate when these professional development activities occurred.

Fellows' development activities (mark one frequency for each activity that applies to your project's fellows)

Survey Tasks > Part 4: Verify NSF-Funded Fellows' Interactions with K-12 Students

Part 4: Verify NSF-Funded Fellows' Interactions with K-12 Students

Fellows' interactions with K-12 students are currently categorized into two categories:

- **In-classroom GK-12 activities** are part or whole of a fellow's regular assignment that occur inside the classrooms and during normal school hours.
- **Out-of-classroom GK-12 activities** are part or whole of a fellow's regular assignments that occur outside the classrooms such as schoolyard activities, field trips, after school science clubs, regular GK-12 assignments in informal educational settings like a science center or museum, working in science fairs, regular community outreach, visits to universities, laboratories, etc.

Notes:

- Please make your final selections based on the NSF-funded fellows who worked in each classroom or on each out-of-classroom activity. Your NSF-funded fellows reported whether they worked with other GK-12 graduate fellows without regard to their funding sources.
- Click on **[Edit]** to edit information about an individual class or out-of-classroom activity.
- Click on a column header of any table to sort data in ascending or descending alphabetical order.
- **Orange** wording in the Multiple NSF-Fellows column occurs when the number of fellows noted does not match the data in the Multiple NSF-Fellows column. The Multiple NSF-Fellows indicators are provided to help you quickly determine whether fellow-submitted interactions may be incomplete or duplicates because fellows report only their own interactions and NSF relies on you to combine classes and activities involving multiple NSF-funded fellows. Once the classes and activities are combined properly, the orange wording will be turned off. However, because the Multiple NSF-Fellows indicators are provided only for your assistance, they do not affect overall reporting of the out-of-classroom activity data, i.e. any that remain orange will not interfere with submitting your survey.

Verify the in-classroom locations, as submitted by your NSF-funded fellows.

[\(+ Add A Class](#)

SCHOOL	CLASS	SUBJECT(S)	GK-12 TEACHER(S)	NSF-FUNDED FELLOW(S)	MULTIPLE NSF-FUNDED FELLOWS?	GRADE(S)	# STUDENTS	REMOVE
Sronrevog High	Test (Test) [Edit]	Science - General	Joanna Test	Elizabeth Test	No	4	15	<input type="checkbox"/>

For your reference for updating the activities as originally submitted by your project's fellows, please review the following data that your project's lead teachers submitted regarding fellow-teacher-student interactions.

TEACHER	FELLOW(S)	SUBJECT(S)	# MALE STUDENTS	# FEMALE STUDENTS	# UNDERREPRESENTED MINORITY STUDENTS
Joanna Test	Elizabeth Test	Mathematics - Elementary		5	5

Verify the out-of-classroom activities, as submitted by your NSF-funded fellows.

To minimize double-counting of teachers and students, please combine activities of the same activity type when possible. To assist you, your NSF-funded fellows were instructed to combine activities of the same type that involved the same fellows, teachers, and students. For example, if John Smith took the same teachers and students on a field trip to the Bronx Zoo and on a separate field trip to Central Park, he was encouraged to add a single activity and provide a name such as "Field trips to the zoo and park." Similarly, if Mary Jones and John Smith worked together to conduct a water-sampling activity at five schools, the fellows were instructed to enter these events as a single activity. For your data entry, you would combine their two activities into a single activity, listing both NSF-funded fellows. Please delete all activities that no longer apply after they have been combined with another activity.

[\(+ Add An Activity](#)

Are these data complete?

Verify the in-classroom locations, as submitted by your fellows. Also verify the teachers with whom fellows worked at those locations.

Class data entered so far accounts for:

1 Fellow (of 1)	1 Teacher (of 2)	15 Students
1 School Sronrevog High	1 Class 1 Science - General	1 Grade Level 4th Grade

In addition to the classroom data, verify all out-of-class and / or out-of-school locations above.

Please do not mark this list complete unless all of your project's fellows have completed their surveys.

- Mark this list complete.** It includes all classes and students served by our GK 12 project between June 1, 2014 - May 31, 2015. I have confirmed that Fellows are assigned to the correct classes, and each class is only listed once.
