INSTRUCTIONS FOR COMPLETING FORM RAC-8

1. This application should be submitted to the Raisin Administrative Committee (RAC) in triplicate—an original and two copies—all of which should be signed by a responsible official of the handler.
2. After the RAC has approved the application, two (2) copies will be returned to the handler. One of the approved copies should be resubmitted to the RAC by the handler upon completion of the shipment or disposition by him of the experimental or specialty packs covered by the application, or at the end of the crop year, whichever occurs first.
3. **DO NOT** show application number as this will be inserted by the RAC office.
4. All weights shown on application should be stated in pounds.
5. **DO NOT** fill in data beyond column (d) of the application except when reporting to the RAC the total actual quantity of raisins shipped or disposed of under exemption during the crop year upon completion of season or termination of crop year as required under item (2) above.
6. The outlet in which dispositions of such experimental and/or specialty packs are contemplated should be properly described. That is, whether disposition will be made directly to consumers, to wholesalers, or to retailers for resale, or to persons or organizations for distribution as gifts, etc. Under item (6) check all applicable squares when filing application with the RAC, or insert description of special uses.
7. The type of package for which exemption from outgoing inspection is requested should be adequately described so that the RAC will have a proper basis on which to render its decision.
8. If space is insufficient in any column, insert and submit the information on a separate sheet of paper attached to the application. Make a proper cross-reference on a separate sheet indicating the applicable column to which such data pertains, using both column and line numbers.
9. Consult RAC Field Representatives on any points not clear to you.
