

Attachment 7 – Additional nFORM Burden for non-Grantee Site

There is a possibility that B3 will implement a parenting intervention or employment intervention in one site that is not an OFA Responsible Fatherhood Grantee. Therefore we are requesting additional burden to cover collection of data on applicant characteristics and program operations for a non-Grantee site. The instruments associated with this burden can be found in the FaMLE Cross-site OMB package (0970-0460).
