ATTACHMENT 4: Semi-annual Reporting of Monitoring and Evaluation(M&E) Variables - File Specifications

Note: This attachment represents guidance for collecting information about HIV prevention and care services

Public reporting burden of this collection of information varies from 1 to 9 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-xxxx)

In Attachment 4, data variables on HIV prevention and care services provided to the target population are listed. These are the required variables that will be reported twice a year by all THRIVE grantees via secure File Transfer Protocol (FTP) to the Division of HIV/AIDS Prevention at CDC.
