

Supporting Statement for the New Markets Tax Credit Program
Allocation Application (1559-0016)

A. Justification

1. Circumstances necessitating collection of information

Title I, subtitle C, section 121 of the Community Renewal Tax Relief Act of 2000 (the Act), as enacted by section 1(a)(7) of the Consolidated Appropriations Act, 2001 (Public Law No. 106-554, December 21, 2000), amended the Internal Revenue Code (IRC) by adding IRC Section 45D, New Markets Tax Credit. Pursuant to IRC section 45D, the Community Development Financial Institutions (CDFI) Fund implements the New Markets Tax Credit (NMTC) Program which will provide an incentive to investors in the form of a tax credit, which is expected to stimulate investment in private capital that, in turn, will facilitate economic and community development in low-income communities. In order to qualify for an allocation of tax credits under the NMTC Program an entity must be certified as a qualified community development entity and submit an allocation application to the CDFI Fund. Upon receipt of such applications, the CDFI Fund will conduct a competitive review process to evaluate applications for the receipt of NMTC allocations.

2. Method of collection and use of data

The data will be collected by voluntary submission of entities seeking tax credit allocations. The collected data will be used by the CDFI Fund to evaluate applicants based on specific criteria to select certain applicants for receipt of tax credit allocations.

3. Use of Information Technology

Applications will be made available on the CDFI Fund's website. The CDFI Fund will require that applicants submit allocation applications in an electronic format.

4. Efforts to identify duplication

The allocation application does not duplicate any other CDFI Fund or Federal program information-gathering tool.

5. Impact on small entities

This collection of information does not have a significant impact on small entities and it is voluntary.

6. Consequences of less frequent collection and obstacles to burden reduction

The CDFI Fund cannot provide tax credit allocations to CDEs and fulfill its statutory obligations without the submission of this application. The submission of the allocation application is voluntary.

7. Circumstances requiring special information collection

Not applicable.

8. Solicitation of comments on information collection

Pursuant to the notice and request for comments published in the Federal Register on January 9, 2017, at 82 FR 2443; the CDFI Fund received 15 comments. Comments ranged from suggestions to revert certain questions to the prior version of the questions, requests to change guidance, evaluation criteria, and guidance. Commenters also proposed additional questions or allowances of additional space to provide answers to questions. Where it was determined that changes to the application added clarity of intent, reduced burden without negatively impacting the deliberative process for making award decisions, the CDFI Fund made the changes or will update guidance. Some matters or proposed changes to the application are being taken under advisement for further consideration and possible adoption in future versions of the application. A detailed break-down of the comments and decisions made as a result of evaluation is attached as Appendix 1.

The CDFI Fund is in the process of implementing a new data system, the Awards Management Information System, and will look for opportunities to reduce data collection burden through the enhanced capabilities of the software. For example, it may be possible to pre-populate forms to a greater extent.

9. Provision of payment to respondents

No payments or gifts will be made to respondents.

10. Assurance of confidentiality

The CDFI Fund is subject to all Federal regulations with respect to confidentiality of information provided by NMTC Program allocation applicants. All information collected via this information collection is submitted in the CDFI Fund's new Award Management Information System. Access to information in AMIS is restricted to the applicant, their designated representatives, CDFI Fund staff, and reviewers required to complete non-disclosure agreements.

11. Justification of sensitive questions.

The information collected in Table C1 on members of governing and/or advisory boards is used to assess community accountability, which is a statutory intent of the program. The information in Table C2 is required for assessing the management capacity to administer the tax credit investments. This information is used in the competitive award decision process. Applications are signed/approved and consent provided by an Authorized Representative.

12. Estimate of the hour burden of information collection.

The burden for this information collection is broken-down into categories of affected public with a total estimated burden of 71,997 hours, down from 81,722. Both categories use the same information collection instrument. The decrease in burden hours is explained in greater detail in response to question 15.

Affected Pubic	# Respondents	# Responses Per Respondent	Total Annual Responses	Hours Per Response	Total Hours	Time Value (per hour)	Monetized Burden Hours
Private Sector	219	1	219	271	59,349	\$58.54 ¹	\$3,474,290
State, Local, & Tribal	51	1	51	248	12,648	\$47.96 ²	\$606,598
Totals	270	1	270		71,997		\$4,080,888

13. Estimate of total annual cost burden to respondents

Per the table in Question 12, the average annual cost burden to respondents is \$4,080,888. No purchase of equipment or services will need to be made by respondents for this information collection other than as required as a part of customary and usual business practices.

14. Estimate of annualized cost to the Government

The cost to the Government is the CDFI Fund staff and contractor time required to review the submitted applications, maintain the electronic application system and collect follow-up information from applicants. It is not possible to accurately track expenses for the review process associate with this application. Staff as varying grades, both internal and external to the CDFI Fund, support application review a different levels throughout the application review period which often transcends fiscal years.

15. Any program changes or adjustments

The burden estimate provided in question 12 is based on the average of applicant data collected as part of the application submission for the past three application cycles. The decrease in burden hours from the previous estimate can be attributed to the decrease in the total number of respondents from approximately 310 to 270.

The NMTC Allocation Application presented for approval is substantially the same as the previous version. As a result of the implementation of the CDFI Fund’s new Award Management Information System (AMIS), the CDFI Fund changed the format for supplying data requested by the agency. For example, a narrative in which Respondents previously provided “project investment pipeline” information is now collected via a table rather than a narrative. The CDFI Fund also eliminated some questions as a result of the start of data migration into AMIS. Prior award data can be extracted out of agency databases instead of reported by the Respondent.

¹ The hourly rate is based on the national estimate for the median hourly wage for Financial Managers according the Bureau of Labor Statistics (<https://www.bls.gov/oes/current/oes113031.htm>)

² The hourly rate is based on the national estimate for the median hourly wage for a Local Government Financial Manager according the Bureau of Labor Statistics (<https://www.bls.gov/oes/current/oes113031.htm>)

16. Plans for information tabulation and publication

Confidential or proprietary information collected through the allocation application will not be published.

17. Reasons for not displaying expiration date of OMB approval

The display of the OMB expiration date would cause confusion by respondents due to the limit duration of application period compared to the approved period of use of the forms, which would span multiple application rounds. It is requested not to display this expiration date.

18. Explanation of exceptions to certification statement

Not applicable.

B. Collections of Information Employing Statistical Methods

This section is not applicable.

Community Development Financial Institutions Fund, Department of the Treasury
Appendix 1. Comment and Response Summary for 1559-0016 NMTC Allocation Application

#	Organization	Date Received	Application Section	Question	Comment	Category	Adjudication Response
1	Linda Davenport Associates	3/13/2017	Applicant Information	11	Provide additional character allowance and score Executive Summary	evaluation criteria	No change. The decision was to continue not score this question because the details of the summary are reflected in many parts of the application. In particular the Business Strategy and Community Outcomes sections are scored in the phase 1 review.
2	National New Markets Fund	3/10/2017	Applicant Information	11	Clarify whether executive summary information on the Applicant AND Controlling Entity should be reported in response to this question.	guidance	Clarify that the Controlling Entity can be discussed if it is identified.
3	Linda Davenport Associates	3/13/2017	Applicant Information	12	Require disclosure of mission of affiliates; score more favorably applicants that have "mission-oriented" affiliates	evaluation criteria	No change. The activities of Affiliates activities are not relevant to this application process because they are not a party to any agreement which results from an award.
4	Linda Davenport Associates	3/13/2017	Business Strategy	14	The question is outdated.	evaluation criteria	No change. The information on financial products is necessary for evaluation.
5	National New Markets Fund	3/10/2017	Business Strategy	14	Clarify whether Applicants can use other metric if appropriate to the product; Clarify what is considered a different product. For example different terms or different end users	guidance	Clarify in guidance that Applicants can describe in Q. 14(b) additional flexible features; update application tips as necessary to clarify when products are different enough to be separated.
6	Advantage Capital	3/9/2017	Business Strategy	18	Ask CDEs in the Business Strategy section whether and	evaluation criteria	No change. This change does not have clear evaluation

							on loan funds.
74	Valued Advisor Fund	3/7/2017	Business Strategy	17 & Table A5	The commenter requests guidance on how to report on investments that span multiple census tracts in Table A5	guidance	Application Q & A guidance will be updated.
75	Valued Advisor Fund	3/7/2017	Business Strategy	17 & Table A5	The commenter recommends that Applicants not have to include all potential investments, if a general pipeline of activities is proposed.	guidance	Clarify Table A5 instructions to make clear that Applicant should provide a pipeline of transactions that equals the allocation request amount, with the option to provide additional transactions.
76	New Markets Tax Credit Coalition	3/10/2017	Business Strategy	17 & Table A5	Provide additional character allowance for Question 17 to allow CDE's to expand on various elements of business strategy	customer service	No change. Clarify that Table A5a is intended to be a brief description of the business and not the rationale for the investment. Character allowance allows for a brief paragraph.
77	New Markets Tax Credit Coalition	3/10/2017	Business Strategy	17 & Table A5	Provide additional character allowance for Table A5, Question 1 from 500 characters to 2000 characters to allow better project descriptions; allow for and request information on the rationale for selection of ach project listed in the table.	customer service	No change. Clarify that Table A5a is intended to be a brief description of the business and not the rationale for the investment. Character allowance allows for a brief paragraph.
78	New Markets Tax Credit Coalition	3/10/2017	Business Strategy	17 & Table A5	Remove question providing whether projects listed in Table A5 are fully or partially	evaluation criteria	The data point was eliminated.

Community Development Financial Institutions Fund, Department of the Treasury
Appendix 1. Comment and Response Summary for 1559-0016 NMTC Allocation Application

#	Organization	Date Received	Application Section	Question	Comment	Category	Adjudication Response
					underwritten since final underwriting isn't usually complete at the time applications are written; investors don't underwrite NMTC projects and then wait for the allocations months later to close the transactions.		
79	New Market Tax Credit Working Group / Novogradac and Company LLP	3/10/2017	Business Strategy	17 & Table A5	Revert to previous version of Question 17 and do not add Table A5. As proposed there is not enough opportunity for Applicants to fully describe their business strategy	evaluation criteria	No change. The proposed collection collects similar information requested in the prior version of the application but in a different form.
80	New Market Tax Credit Working Group / Novogradac and Company LLP	3/10/2017	Business Strategy	17 & Table A5	Applicants many have different interpretations of "fully underwritten" and will provide inconsistent answers; provide additional guidance	evaluation criteria	The data point was eliminated.
81	New Market Tax Credit Working Group / Novogradac and Company LLP	3/10/2017	Business Strategy	17 & Table A5	Remove some data elements in Table A5 and improve instructions - remove underwriting status, small dollar/revolving fund option and clarify instructions for A5n and that a transaction can be representative of a revolving fund, not all smaller transactions need to be listed.	evaluation criteria	This comment involves a number of changes and will be taken under advisement for future versions of the application and application guidance.
82	CAHEC New Markets LLC	3/10/2017	Business Strategy	17 & Table A5	Clarify whether Applicants will be expected to only invest in the projects listed in Table A5.	guidance	Application guidance will be updated for clarity.

Community Development Financial Institutions Fund, Department of the Treasury
