Submitting Evaluation Data

If you represent a diabetes prevention program recognized by the Centers for Disease Control and Prevention's (CDC) Diabetes Prevention Recognition Program (DPRP), you will submit your evaluation data using the form on this page.

Before you submit evaluation data, you should read the CDC *Diabetes Prevention Recognition Program: Standards and Operating Procedures* [PDF-498KB]. This document spells out the data elements that you must transmit to CDC's DPRP. You must transmit your data in a single data file using the comma separated value (CSV) format.

To submit your data, enter your DPRP organization code and your program contact person's e-mail address in the form below. The DPRP organization code is the unique code assigned to your organization by the DPRP. You can find this code in the e-mail you received when DPRP awarded pending recognition status to your program. The contact person's e-mail address should be the same address that is currently on file with the DPRP (if your contact information has changed, please contact the DPRP to update before sending data). After you submit this information you will be taken to a page where you can upload your data file.

If you have any questions about submitting your evaluation data, or have any problems using the form, please contact us at DPRPASK@cdc.gov. Please include the subject line, "Diabetes Prevention Program Data Submission" and the DPRP organization code. Your query will be processed within 10 business days of receipt.
