## 2019-2020 Sumner J. Yaffe Lecture Series

### 6/18/20: Selecting the Right Dose for Pregnant Women Using PBPK

OMB# 0925-0643 Exp Date: 02/28/2021

Public reporting burden for this collection of information is estimated to average 3 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0643). Do not return the completed form to this address.

To what extent do you think today's lecture provided you with the ability to meet the following objective:

Understand why PBPK plays indispensable roles in selecting dose in pregnant women

Completely
