

OMB SUPPORTING STATEMENT

SF 2802 Application for Refund of Retirement Deductions (CSRS)
SF 2802A Current/Former Spouse's Notification of Application for
 Refund of Retirement Deductions

A. Justification

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.

Title 5, U. S. Code, Chapter 83, and Section 8342 provides for the payment from the Civil Service Retirement and Disability Fund of lump-sum refunds of retirement deductions and any other monies to the credit of the eligible individual plus any interest provided by law. Standard Form 2802, Application for Refund of Retirement Deductions, is designed to collect sufficient information to permit the Office of Personnel Management (OPM) to comply with the law. The applicant uses Standard Form 2802A to inform eligible spouses or former spouses of the application for refund.

2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

Public Law 98-615, as amended by Public Law 99-251, provides protection for current and former spouses by requiring the applicant for a refund to notify said persons of the intention to take a refund. Without proof of the notification, OPM cannot pay the refund. Court orders in favor of the financial interests of spouses or former spouses can bar refund payments. If this information is not collected, OPM cannot adjudicate the refund application. There are editorial changes to the Privacy Act and Public Burden Statements. The Public Burden Statement meets the requirements of 5 CFR 1320.8(b)(3).

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

Improved information technology will do little to reduce the burden. The information collected cannot be obtained from other sources. However, this form is available in a PDF fillable format on our website and meets our GPEA requirements.

4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

Applications are filed individually. There is no duplication because the respondents initiate the collection.

5. If the collection of information impacts small businesses or other small entities (Item 5 of OMB Form 83-I), describe any methods used to minimize.

This information collection request has no impact on small businesses and organizations.

6. Describe the consequence to Federal/DHS program or policy activities if the collection of information is not conducted, or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

Information is collected as needed to determine eligibility. Less frequent collection would delay or deny benefits provided by law. This information collection is consistent with the guidelines in 5 CFR 1320.6.

7. Explain any special circumstances that would cause an information collection to be conducted in a manner:

- requiring respondents to report information to the agency more often than quarterly;
- requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;
- requiring respondents to submit more than an original and two copies of any document;
- requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records, for more than three years;
- in connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;
- requiring the use of statistical data classification that has not been reviewed and approved by OMB;
- that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which is unnecessarily impedes sharing of data with other agencies for compatible confidential use; or
- requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

There are no special circumstances involved in the collection of this information.

8. Federal Register Notice: Provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice soliciting comments on the information collection prior to submission to OMB

On April 13, 2017, 1 60 Day Federal Register Notice was published at 82 FR 17897, requesting comments. There were no comments were received.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

No payment or gift is provided to these respondents, except the refund of monies to their credit from the Civil Service Retirement and Disability Fund.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

This information collection is protected by the Privacy Act of 1974 and OPM regulations (5 CFR 831.106). The routine uses of disclosure appear in the *Federal Register* for OPM/Central-1 (73 FR 15013, *et seq.*, March 20, 2008, effective April 21, 2008).

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

This information collection does not include questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

12. Provide estimates of the hour burden of the collection of information. The statement should:

a. Indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desired. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.

b. If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB Form 83-I.

c. Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.

Approximately 3,741 SF 2802s and 3,389 SF 2802As are processed annually. SF 2802 requires approximately one hour for completion with an annual burden of 3,741 hours. SF 2802A requires approximately 15 minutes for completion for with an annual burden of 847 hours. The total burden for these forms is 4,588 hours.

Form Name	Form	No. of	No. of	Average	Total	Average	Total
-----------	------	--------	--------	---------	-------	---------	-------

	Number	Respondents	Responses per Respondent	Burden per Response (in hours)	Annual Burden (in hours)	Hourly Wage Rate	Annual Respondent Cost
Application for Refund of Retirement Deductions (CSRS)	SF 2802	3,741	1	1 hour	3,741	\$0	\$0
Current/Former Spouse's Notification of Application for Refund of Retirement Deductions	SF 2802A	3,389	1	15 minutes	847	\$0	\$0

There is no cost to the respondents.

13. Provide an estimate of the total annual cost burden to respondents or record-keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14.)

The cost estimate should be split into two components: (1) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities.

If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection as appropriate.

Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information to keep records for the government, or (4) as part of customary and usual business or private practices.

There is no change in the respondent burden.

14. Provide estimates of annualized cost to the Federal Government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing and support staff), and any other expense that would have been incurred without this collection of information. You may also aggregate cost estimates for Items 12, 13, and 14 in a single table.

The annualized cost to the Federal government is \$20,360. This cost was determined by employee salary hours devoted to the program, forms cost, and overhead.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB Form 83-I. Changes in hour burden, i.e., program changes or adjustments made to annual reporting and recordkeeping **hour** and **cost** burden. A program change is the result of deliberate Federal government action. All new collections and any subsequent revisions of existing collections (e.g., the addition or deletion of questions) are recorded as program changes. An adjustment is a change that is not the result of a deliberate Federal government action. These changes that result from new estimates or actions not controllable by the Federal government are recorded as adjustments.

N/A

16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

No information collected from this form will be published.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain reasons that display would be inappropriate.

It is not cost-effective to reprint the whole supply of forms to change the OMB clearance expiration date. Therefore, we seek approval not to display the OMB clearance expiration date on the form.

18. Explain each exception to the certification statement identified in Item 19 "Certification for Paperwork Reduction Act Submissions," of OMB Form 83-I.

There are no exceptions to the certification statement.
