

Table 2: Average Annual EPA Burden and Cost – NESHAP for Cellulose Products Manufactur

Burden item	(A)	(B)	(C)
	Person hours per occurrence	No. of occurrences per respondent per year	Person hours per respondent per year (C=AxB)
1. Applications	N/A		
2. Survey and Studies	N/A		
3. Reporting requirements			
A. Familiarize with regulatory requirements ^c	8	1	8
B. Required activities	N/A		
C. Create information	See 3E		
D. Gather existing information	See 3E		
E. Write Report			
Semiannual report on no deviations ^d	8	2	16
Semiannual report on deviations ^e	16	2	32
Semiannual report of startup, shutdown, malfunction (SSM) ^f	8	2	16
Semiannual report on equipment leaks ^g	303	2	606
Semiannual report on wastewater	See 4E		
Semiannual report on all other reports ^h	8	2	16
Subtotal for Reporting Requirements			
4. Recordkeeping requirements			
A. Familiarize with regulatory requirements	See 3A		
B. Plan activities	N/A		
C. Implement Activities	N/A		
D. Develop record system	N/A		
E. Time to enter information			
Records of SSM ⁱ	1.5	52	78
Records of continuous parameters monitoring system (CPMS) data			
Record continuous monitor parameters ^j	1	365	365
Compile data ^k	24	2	48
Enter and verify information for semiannual report ^k	16	2	32
Records of closed-loop systems ^l	2	2	4
Records of nitrogen systems ^m	2	2	4
Records of material balances ⁿ	8	2	16
Records of supporting calculations ^o	8	2	16
Records for extended cookout ^p	8	2	16
Records for equipment leaks	See 3E		
All other records	See 3E		
F. Time for refresher training of personnel ^q	16	1	16
G. Time for audits	N/A		
Subtotal for Recordkeeping Requirements			
TOTAL LABOR BURDEN AND COST (rounded) ^r			
TOTAL CAPITAL AND O&M COST (rounded) ^r			

GRAND TOTAL (rounded) ^r			
---	--	--	--

Assumptions:

- ^a We have assumed that there are approximately 13 sources subject to the standard which includes the following facilities:
- ^b This ICR uses the following labor rates: \$144.33 per hour for Executive, Administrative, and Managerial labor; \$108.26 per hour for other labor.
- ^c We have assumed all existing respondents will have to familiarize with the regulatory requirements each year.
- ^d We have assumed that 80 percent of respondents will report no deviation.
- ^e We have assumed that 20 percent of respondents will report a deviation.
- ^f We have assumed that all of the existing sources will be required to submit an SSM report.
- ^g We have assumed that it will take each respondent 303 hours on a semiannual basis to write reports for 4 cellulose ether facilities.
- ^h All other reports, including changes of information, closed-vent systems, bypass lines, heat exchanger systems, and storage tanks, will be reported on a semiannual basis.
- ⁱ We have assumed that SSM records will be recorded on a weekly basis.
- ^j We have assumed that it will take each respondent one hour to record information on a daily basis on process vent, storage tank, and other equipment.
- ^k We have assumed that each respondent will enter and verify information for the semiannual report twice per year.
- ^l We have assumed that it will take respondent two hours to enter information on 1 cellulose ether facility with a closed-loop system.
- ^m We have assumed that it will take each of the 9 respondents two hours to enter information on 9 viscose process facilities.
- ⁿ We have assumed that it will take each of the 9 respondents eight hours to enter information on 9 viscose process facilities.
- ^o We have assumed that it will take eight hours for each respondent to enter information on supporting calculations twice per year.
- ^p We have assumed that it will take respondents eight hours to enter information on 1 cellulose ether facility that uses external venting.
- ^q We have assumed that it will take each of the thirteen respondent two days (16 hours) to provide refresher training to personnel.
- ^r Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.

TOTAL ANNUAL BURDEN AND COST (rounded)					

Assumptions:

- ^a We have assumed that there are approximately 13 sources that are subject to the standard which includes the following facilities
- ^b This cost is based on the following hourly labor rates times a 1.6 benefits multiplication factor to account for government benefits
- ^c We have assumed that 80 percent of respondents will report no deviation.
- ^d We have assumed that 20 percent of respondents will report deviation.
- ^e We have assumed that all of the existing respondents will be required to submit an SSM report.
- ^f We have assumed that each of the 4 respondents for cellulose ether facilities will review their report on equipment leaks twice
- ^g We have assumed that it will take each respondent eight hours to review reports of 4 cellulose ether facilities subject to LII
- ^h We have assumed that all other reports, including changes of information, closed-vent systems, bypass lines, heat exchanger
