

Request for Exclusion from Remedies: Section 232 National Security Investigation of Aluminum Imports

Exclusion Request Requirements: Only individuals or organizations operating in the United States that use aluminum products (e.g. slab, billets, ingots, extrusions, rod and bar, sheet and plate, foil, pipe and tube, castings and forgings, etc.) in business activities (e.g., construction, manufacturing, supplying aluminum product to users) in the United States may submit an Exclusion Request. For an Exclusion Request to be considered, the Exclusion Requester must provide factual information on 1) the single type of aluminum product they require using a 10-digit HTSUS code, including its specific dimension; 2) the quantity of product required (stated in kilograms) under a one-year exclusion; 3) a full description of the properties of the aluminum product it seeks to import, including chemical composition, dimensions, strength, toughness, ductility, magnetic permeability, surface finish, coatings, and other relevant data. Exclusion Requests must be submitted using this Excel-based document. Paper submissions will not be accepted.

A separate Exclusion Request must be submitted on each distinct type and dimension of aluminum product to be imported. All applicable question blocks in the form must be completed for the Exclusion Request to be accepted. Exclusion Requests will be denied if the applicant: 1) does not sufficiently address the specified reporting requirements; 2) cites the improper HTSUS code, or 3) provides incorrect product descriptions.

Organizations electing to attach supporting documents must provide these documents in PDF format and it must not exceed 25 pages. All information submitted in the Exclusion Request is subject to public disclosure. Do not provide sensitive Personally Identifiable Information.

Organizations should upload their completed Exclusion Request pertaining to an aluminum product to www.regulations.gov under Docket Number BIS-2018-0002. An Exclusion Request may be submitted at any time. Processing of an Exclusion Request will take approximately 90 business days. Notification of granted Exclusions will be posted on www.regulations.gov. For questions related directly to completing this form, contact BIS via email (Aluminum232@bis.doc.gov) or telephone (202-482-4757).

Exclusion Request Product Information	
For this single Exclusion Request, provide a full, complete description of the product in the space provided below. * See explanation below. The product for which an Exclusion is being requested is defined as follows:	
2.j	<p>* With regard to the product for which an Exclusion is requested, such a description must be limited to a single product. The description must be limited solely to physical properties (e.g., chemical requirements, mechanical requirements, dimensions, etc.) and exact descriptive terms/phrases covering the product subject to the Exclusion Request (e.g., "hot-rolled," "seamless pipe," "suitable for use in boilers," "longitudinally submerged arc welded," etc.).</p> <p>All such physical properties must be defined based on actual, rather than nominal, measurements; references to specific dimensions (e.g., "cross-sectional diameter of 5.50 mm") or measurements (e.g., "yield strength of 300 MPa," "carbon content 0.08%," etc.) will be interpreted as meaning the exact dimension or measurement. Ranges (e.g., "cross-sectional diameter falling within the range 5.35 mm and 5.65 mm," "yield strength greater than or equal to 300 MPa," "carbon content less than or equal to 0.15%, by weight," etc.) are allowed. Where a range is needed, it should be identified based on the end points of the range (as in the examples above), rather than through references to absolute or percentage tolerances.</p>
