INTRODUCTION

[Read to participant. Specific language may be modified by local sites in response to IRB feedback.]

Hello, my name is (YOUR NAME). (CLIENT'S NAME) is participating in an important research project with us, and s/he has given us permission to speak with you. We are talking with family members close to someone receiving assisted outpatient treatment, or AOT, to learn their views on AOT. I'm going to read to you a set of questions exactly as they are worded so that each person is asked the same questions. In some cases, you will be asked to respond in your own words and I will write down your answers. In other cases, you'll be given a list of answers and asked to choose the one that is best for you. We are interested in your personal opinion and experiences, so please be as accurate as you can in your response. Please take your time to respond and please feel free to ask me for clarification if you are not sure what is wanted. Remember that your answers are confidential. This interview will last about 15 minutes.
