Food and Shopping

The Food and Nutrition Service, United States Department of Agriculture is conducting a study to understand grocery shopping and eating behaviors. Earlier this year you participated in a survey about food and shopping from the Food and Nutrition Service, United States Department of Agriculture. The survey will help answer questions like these:

- **Where do people buy certain foods?**
- **What types of foods are people buying and eating?**
- **How do people decide what foods to buy?**

We invite you to participate again in a brief follow-up survey about food and shopping. As an invited participant, your household represents many other households similar to yours, so your answers are important. This survey should take about 20 minutes to complete.

The survey should be completed by the primary food shopper in your household. The primary food shopper is the person who does the grocery shopping most often. The survey includes questions about foods purchased and eaten by your household. By household, we mean people who live with you and with whom you purchase and prepare food.

- If you live alone, please answer all questions for yourself.
- If you live with others, but you purchase foods and prepare meals for yourself only, please answer all questions for yourself.
- If you live with others and you share food purchases and meal preparation with people in your household, please answer all questions for your household.

There are no right or wrong answers. If you are unsure of how to answer a question, please give the best answer you can. Please know that as required by law, your information will be kept private and will be included with those of other survey participants. The law prohibits us from giving anyone any information that may identify you or your household. If you decide not to take part, that will not affect any benefits or services received by you or anyone in your household.

Please write clearly and use a black or blue pen only.

Please answer by filling in the circles completely like this:

not  or  or 

If you make a mistake, mark through it with an X like this:

then fill in and draw a circle around the correct one like this:

Please remember to answer questions on both the front and back of each page. After you are done, return the survey in the enclosed postage-paid envelope. After we receive your completed survey, we will send you \$20 in cash as a token of our appreciation. If you need additional information, please call 1-XXX-XXX-XXXX or email us at XXXX.com.

Thank you.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB number. The time required to complete this information collection is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
