A3. Use of Information Technology to Reduce Burden

The technical assistance team is currently in the process of developing an online grantee information and performance management system (FastTRAC 2.0) that will house this form. Grantees will have access to this system and will use it to complete the Grantee Characteristics Form.

A4. Use of Existing Data: Efforts to reduce duplication, minimize burden, and increase utility and government efficiency

This is a new cohort of grantees and the information needed to understand how to best support these grantees has not been collected yet.

A5. Impact on Small Businesses

Many programs will be small, non-profit organizations. Burden will be limited for respondents by collecting grantee information through the online FastTRAC 2.0 portal which can be completed at the respondent's convenience.

A6. Consequences of Less Frequent Collection

This is a one-time data collection.

A7. Now subsumed under 2(b) above and 10 (below)

A8. Consultation

Federal Register Notice and Comments

In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and Office of Management and Budget (OMB) regulations at 5 CFR Part 1320 (60 FR 44978, August 29, 1995), ACF published a notice in the Federal Register announcing the agency's intention to request an OMB review of the overarching generic clearance for formative information collection. This notice was published on October 11, 2017, Volume 82, Number 195, page 47212, and provided a sixty-day period for public comment. A subsequent notice, updated with more specific information, was published on June 18, 2019, Volume 84, Number 117, page 28307, and provided a thirty-day period for public comment. During the notice and comment periods, no substantive comments were received.
