OMB Approval No. 2502-0605
(exp. 03/31/2018)

Public reporting burden for this collection of information is estimated to average 15 hour(s). This includes the time for collecting, reviewing, and reporting the data. The information is being collected to obtain the supportive documentation which must be submitted to HUD for approval, and is necessary to ensure that viable projects are developed and maintained. The Department will use this information to determine if properties meet HUD requirements with respect to development, operation and/or asset management, as well as ensuring the continued marketability of the properties. This agency may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Warning: Any person who knowingly presents a false, fictitious, or fraudulent statement or claim in a matter within the jurisdiction of the U.S. Department of Housing and Urban Development is subject to criminal penalties, civil liability, and administrative sanctions.

Privacy Act Notice: The Department of Housing and Urban Development, Federal Housing Administration, is authorized to collect the information requested in this form by virtue of: The National Housing Act, 12 USC 1701 et seq. and the regulations at 24 CFR 5.212 and 24 CFR 200.6; and the Housing and Community Development Act of 1987, 42 USC 3543(a). The information requested is mandatory to receive the mortgage insurance benefits to be derived from the National Housing Act Section 232 Healthcare Facility Insurance Program. No confidentiality is assured.

INSTRUCTIONS:

The narrative is a document critical to the Lean Underwriting process. Each section of the narrative and all questions need to be completed and answered. If the lender's underwriter disagrees and modifies any third-party report conclusions, provide sufficient detail to justify. The narrative should identify the strengths and weaknesses of the transactions and demonstrate how the weaknesses are mitigated by the underwriting.

- **Charts:** The charts contained in this document have been created with versatility in mind; however, they will not be able to accommodate all situations. For this reason, you are allowed to alter the charts as the situation demands. Be sure to state how you have altered the charts along with your justification. Include all the information the form calls for. Charts that include **blue** text indicate names that should be modified by the lender as the situation dictates.
- **Applicability:** If a section is not applicable, state so in that section and provide a reason. Do not delete a section heading that is not applicable. The narrative will be checked to make certain all sections are provided. If a major section is not applicable, add "-- Not Applicable" to the heading and provide the reason. For instance:

Parent of the Operator – Not Applicable

This section is not applicable because there is no operator.

The rest of the subsections under the inapplicable section can then be deleted. This instruction page may also be deleted.

- **Format:** In addition to submitting the PDF version of the Lender Narrative to HUD, please also submit an electronic Word version.

Instead of pasting large portions of text from third-party reports into the narrative, it is preferred that the lender simply reference the page number and the report. The focus of this document is for lender conclusions, analyses, and summaries.

Italicized text found between these characters <<EXAMPLE>> is instructional in nature, and may be deleted from the lender's final version. Please use the gray shaded areas (e.g.,) for your response. Double click on a check box and then change the default value to mark selection (e.g., ☒).

Annual Deposit Years: 1-15	\$	\$

<<The above table should identify all changes in the annual deposit from year to year.>>

General Overview

The replacement reserve analysis includes a combined analysis of both capital items and major movable equipment. The underwriter has reviewed the replacement reserve schedule and provided a summary analysis below. The full 15-year replacement reserve schedule, including the major movable analysis, is provided as Exhibit B to the Draft Firm Commitment submitted with this narrative.

In the analysis below, the underwriter spreads the anticipated replacements by year based on the needs assessor's replacement reserve analysis and assumes an interest of % and an inflation rate of %.

Risk Management Program

Program Guidance: See Risk Management Program grid on the Section 232 program website for additional guidance. Note that the below tier descriptions are general descriptions and HUD retains discretion to require additional risk management measures, as warranted, on a case by case basis.

Risk Management Tier General Descriptions:

Tier 1 Baseline: For most assisted living and low-risk skilled nursing projects with no more than one incident of actual harm/immediate jeopardy in the past three years. In these instances, the risk management program may be administered internally or by a third party provided the party administering the program is qualified.

Tier 2 Elevated Risk: Higher risk projects with two more incidents of actual harm/immediate jeopardy within the past three years. In these instances, the risk management program should be administered by a third party.

Lease Payment Analysis

The lease payments must be sufficient to (1) enable the borrower to meet debt service and impound requirements; and (2) enable the operator to properly maintain the project and cover operating expenses. The minimum annual lease payment must be at least 1.05 times the sum of the annual principal, interest, mortgage insurance premium, reserve for replacement deposit, property insurance, and property taxes.

Key Questions

	Yes	No
1. Does the insurance policy cover multiple properties?	☐	☐
2. Is less than 6 years of lost history available?	☐	☐
3. Does the loss history indicate any professional liability claims over \$35,000?	☐	☐
4. Does the loss history or potential claims certification indicate any uncovered claims?	☐	☐
5. Does the loss history or potential claims certification indicate any claims that would exceed the per occurrence or aggregate coverage limits at the facility?	☐	☐
6. Has the facility been covered by a “claims made” policy at any time during the statute of limitations for the State in which the facility is located?	☐	☐
7. Is the policy funded on a “cash front” basis?	☐	☐
8. Is an actuarial study applicable (self-insurance)? <i>(If yes, discuss results below.)</i>	☐	☐

10. Are any entities that provide resident care (as discussed in the Provider Agreements and Resident Care Agreements/Rental Agreements) not covered by the PLI policy?	☐	☐
11. Are there any PLI issues that require special consideration?	☐	☐

If you answer “yes” to any of the above questions, please address here. Examples:

Multiple properties: The underwriter notes that the professional liability policy is a “blanket” policy covering XXX facilities, including the subject... {Address potential impact of other facilities on the subject’s coverage}

Less than 6-year loss history: The claims history reports were examined for the period XX through XX. The underwriter determined that there were no professional liability XX claims during that period... {address claims and sufficiency of coverage, etc. based on history}.

Claims made coverage: The project’s previous professional liability insurance coverage was a “claims made” form policy with XXXX, which expired XXXX, when the current policy was put in place. In XXXX, the borrower purchased a “nose coverage” policy, which is the coverage needed when going from a “claims made” form of insurance to a “per occurrence” form of insurance. The premium for this “nose” coverage liability was a one-time charge and was paid in XXX. Because of that additional insurance coverage, the insurance expense for XXXX was substantially higher than the current expense. The current “per occurrence basis” insurance policy covers the entire statute of limitations. The project’s professional liability insurance is in compliance with HUD’s requirements.>>

Lawsuits

<< Identify all potential or expected professional liability insurance (PLI) claims in excess of \$35,000 that have been or may be filed for all periods within the statute of limitations for the state where the claim occurred. Identify any reserves held for potential claims. Discuss the risk associate with each potential PLI claim. Discuss how that risk is mitigated. Describe the circumstances, identify the potential award amount, provide evidence and analysis showing that the suits are covered by PLI insurance, and if the insurance is not sufficient, does the insured demonstrate adequate funds to cover the potential excess? Describe any other information that mitigates the risk.

As applicable, discuss other types of lawsuits (non PLI) and describe the potential risk related to the party’s participation in the proposed project. Discuss how that risk is mitigated. If the suit is closed, does it contribute to a pattern? Does it materially affect the party’s ability to participate in the project? If not closed, describe the circumstances, identify the potential award amount, provide evidence and analysis showing that the suits are covered by insurance (general liability), and if the insurance is not sufficient, do they demonstrate adequate funds to cover the potential excess? Describe any other information that mitigates the risk.>>

Commercial General Liability Insurance

<<Provide narrative discussion of policy coverage for bodily injury, property damage and personal injury. For example: General liability insurance will be provided by XX. The underwriter has confirmed estimates of the cost and coverage for underwriting and will re-verify

this information prior to closing. The insurance coverage will comply with HUD requirements prior to closing.>>

Recommendation

<<Provide narrative recommendation regarding acceptability of general and professional liability insurance. For example, “The mortgagor’s professional and general liability insurance was analyzed in accordance with Handbook 4232.1, Section II Production, Chapter 14 and Appendix 14.1. The property has XX current potential (threatened) insurance claims at this time as reflected on the certification provided by the borrower. It is {lender}’s opinion that the information provided above and in the application sufficiently demonstrates that the existing professional liability coverage meets HUD’s requirements and that the risk from professional liability issues is sufficiently addressed. No modifications to the current coverage are recommended.”>>

Property Insurance

<<Provide narrative discussion of policy coverages as applicable, including property damage, ordinance and law coverage, and boiler and machinery/equipment breakdown insurance. For example, “Property insurance has been and/or will be provided by XX.
