Assumptions:

- ^a We have assumed that the average number of respondents that will be subject to the rule over the three-year period regulation in the next three years.
- ^b This ICR uses the following labor rates: \$148.45 per hour for Executive, Administrative, and Managerial labor; \$ the United States Department of Labor, Bureau of Labor Statistics, March 2020, "Table 2. Civilian Workers, by occ have been increased by 110 percent to account for the benefit packages available to those employed by private indus
- ^c We assume that each respondent will have to familiarize with the regulatory requirements each year.
- ^d We have assumed that it will take 330 hours to complete a performance test.
- ^e We have assumed that 20 percent of new respondents will have to conduct a CMS demonstration.
- ^f We have assumed that 20 percent of new respondents will take two hours to conduct a scrubber demonstration.
- ^g We have assumed that 80 percent of new respondents will conduct a reference Method 9 test.
- ^h It will take respondents 18 hours to conduct a reference Method 9 test.
- ⁱ It will take 4 hours to re-calibrate either the COM or the scrubber.
- ^j We have assumed that 20 percent of new respondents will re-calibrate the scrubber.
- ^k We have assumed that one respondent will notify the Agency regarding a physical or operational change.
- ^l We have assumed that it will take 16 hours for each respondent to complete the semiannual report of exceedances.
- ^m It will take each respondent 1.5 hours to record SSM information.
- ⁿ Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.

1 of this ICR will be 167. It is estimated that no additional respondents will become subject to the

121.46 per hour for Technical labor, and \$60.23 per hour for Clerical labor. These rates are from
operational and industry group.” The rates are from column 1, “Total Compensation.” The rates
vary.

Assumptions:

^a We have assumed that the average number of respondents that will be subject to the rule over the three-year period of this IC

^b This cost is based on the following hourly labor rates, increased by 60% to account for the benefit packages available to gov \$42.73+60%), \$50.72 for Technical (GS-12, Step 1, \$31.70 + 60%) and \$27.46 Clerical (GS-6, Step 3, \$17.16 + 60%). These General Schedule” which excludes locality rates of pay.

^c We have assumed that one respondent will submit a notification of physical or operational change.

^d We have assumed that it will take four hours to review the CMS demonstration report.

^e We have assumed that it will take eight hours to review the performance test results.

^f It will take eight hours to review semiannual report of exceedances.

^gTotals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
