[BMP and/or ONE Future Emissions Intensity] Commitment Option

Methane Challenge Partner Since [Join Year]

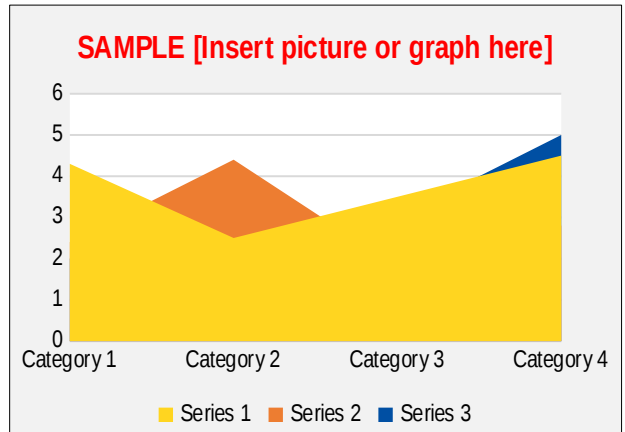

Background

[Opportunity for company to provide relevant background and contextual information (e.g. general company information, overview of historic activities, overarching corporate policies, links to more information on company website, etc.) Character limit: 500]

Historical Highlights

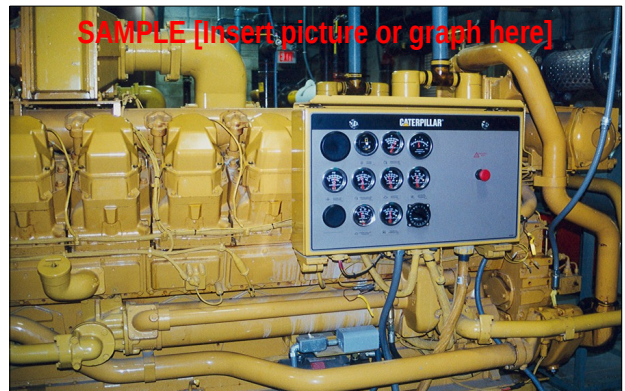

[Name of Source/Activity #1]

[Include background, timeframe and significant outcomes, relevant technologies and/or practices employed that resulted in reduced emissions, reductions achieved, links to more information, etc.]

[Name of Source/Activity #2]

[Include background, timeframe and significant outcomes, relevant technologies and/or practices employed that resulted in reduced emissions, reductions achieved, links to more information, etc.]

Guidance for Partners: This form is intended to be a flexible template for Methane Challenge Partners to provide information of their choosing to highlight historical methane management activities prior to joining the Methane Challenge Program. Partners may highlight up to 5 historical actions/focal sources, and can adjust text length/photos as appropriate to each activity. Text should be no smaller than the existing Arial 11 font and content must not exceed 2 pages. EPA may make formatting adjustments to the submitted document, and will present to partner for final approval before posting on the Methane Challenge website.
