Who will see the results of this project or my information?

Your answers will only be seen by the study staff. We will be very careful to only let people working on the project see your responses. There is minimal risk that others might find out what you respond, despite all of our best efforts. In the case of a breach of confidentiality, appropriate steps will be taken to notify participants.

For a small portion of the survey, your webcam will record your facial responses to creative concepts. Data is saved as a heat map and your actual face is not recorded or saved on file. By signing this form, you consent to using your webcam during this study.

All of the information we collect, including any answers to the survey, information collected during screening, and open-ended answers will be stored on a password-protected computer and/or in locked cabinets that only the project team can access.
