

Instrument 1: Self-Reflection Data Collection Tool

OMB Control No.: 0970-0531

Expiration Date: 07/31/2022

PATH Technical Assistance Needs Assessment

(administered annually via Survey Monkey)

Dear Grantee,

Thank you for completing the Tribal Home Visiting (THV) Technical Assistance (TA) Needs Assessment tool.

This form should take approximately 1 hour to complete if one person completes it. However, we encourage you to complete the tool as a team, which can take up to 60 minutes. Please submit only one Needs Assessment for your program.

As you complete the Need Assessment tool, please keep the following things in mind:

- 1) As you go through the tool, it might help to have your program's Implementation Plan on hand.
- 2) Depending on the device (e.g., desktop, phone, or tablet) you are using to complete the tool, please scroll, tab, or slide to the right of your screen to ensure you answer all the questions.
- 3) As you complete the tool, please anticipate your TA needs over the next 12 months.

We analyze and review the results with rigor and continuously incorporate your suggestions to improve our TA to address grantee needs. Your feedback provides valuable information to PATH and ACF to help inform:

- a shared understanding of TMIECHV TA needs,
- the quality delivery of future TA best practices,
- the development of new tools and resources, and
- future TA development and management.

The Needs Assessment data will be incorporated into internal PATH documents and processes for planning purposes with ACF and other TMIECHV TA providers. Your participation is voluntary, and your information will be kept private to the extent permitted by law.

Thank you for taking the time to improve our support we provide to your team and other THV grantees!

Please contact Tara Chico-Jarillo at tchico-jarillo@zerotothree.org if you have questions or concerns.

The PATH Team

Implementation Topic Definitions:

Program Development (PD) and Program Workforce and Management: Refers to efforts to provide support and professional development to staff such as staff recruitment and hiring, professional development, staff retention, training to ensure well-trained, competent staff beyond model developer provided activities and high quality reflective, clinical, and administrative supervision.

Policies and Procedures: Refers to your program's policies and procedures that are existing or need to be revised, refined, or developed, strategies for engaging program staff and other stakeholders in the development of your programs policies and procedures manual and activities to ensure regular utilization and review of your program's policies and procedures manual.

Tribal/Organizational Leadership Support, Governance, and Administration: Refers to the administrative management and structure your program operates within and the responsibility for ensuring successful implementation and oversight of your program. This includes providing fiscal planning and oversight of your program and leading collaborative partners, including subcontractors, advisory committees, and legal oversight.

Organizational Fiscal Management Practices: Refers to the organizational fiscal planning, management, and structure your program operates within and the responsibility for ensuring successful implementation and oversight of your program.

Sustainability: Refers to how your program builds and ensures sustainability after the grant has ended, including how your program engages with other tribal or organizational leaders, assesses the current infrastructure and resources for retaining and extending home visiting services beyond the federal funding period, and how your program identifies resources that potentially may be leveraged to sustain home visiting (e.g., collaboration with service partners, various funding streams both private and public).

Fidelity Monitoring/Model Fidelity (High-Quality Program): Refers to your programs use or access to the curriculum and other materials to implement the home visiting model and whether the materials were useful, any training and professional development support obtained from the home visiting model(s) and whether the training helped when implementing the program. This also includes activities providing high-quality home visiting program services such as ensuring the selected home visiting model(s) are being implemented with fidelity, making sure all staff delivers home visits the way the model was intended, and developing and documenting program operations, policies and procedures to support implementation fidelity and program quality.

Dissemination: Refers your program's dissemination plan and efforts such as your dissemination purpose and goals, target audiences for dissemination and information sharing, products and materials developed, and methods used to share these products and materials (e.g., newsletter, pamphlets, social media).

Community and Partner Engagement: Refers to how your program engages with the broader community(ies) (e.g., partner agencies, stakeholders within your community, tribal leadership, leadership within your organization, partner agencies, the families you serve) around your home visiting program.

Recruitment, Enrollment, and Engagement of Families: Refers to your program's efforts to recruit, engage, and retain program participants, including progress on meeting objectives related to recruitment of families, engaging families, retaining families, and completion of the program.

Early Childhood Systems Building: Refers to developing a coordinated early childhood system, including coordination and collaboration between your home visiting program and other programs and resources for pregnant women, expectant fathers, young children, and families in the community(ies). This includes improving referrals and services between your program and others in the community and the partnerships your program has developed.

Adaptations, Enhancements and Supplements: Refers to programs that have 1) an acceptable adaptation of an evidence-based model or promising approach includes changes to the model that have not been tested with rigorous impact research and are determined by the model developer to alter core components related to program impacts ; 2) an acceptable enhancement of an evidence-based model or promising approach includes changes or additions to the model that have not been tested with rigorous impact research but are determined by the model developer not to alter the core components related to program impacts; and 3) an acceptable supplement to an evidence-based model or promising approach is the addition of a supportive or complementary curriculum to an evidence-based home visiting model. The supplement may or may not have been tested with rigorous impact research but must be determined by the model developer not to alter the core components related to program impacts.

Implementation Stage Rating Scale Definitions:

Not Implementing: Refers to programs that are not implementing the specific process.

Planning the Process: Refers to programs that are actively developing the process.

Initial Implementation: Refers to programs that have just started implementing the process.

Maintenance: Refers to programs that are confident with implementation.

Need for Modification: Refers to programs adapting to staffing changes, growth, or installing additional program elements.

Tribal Home Visiting Implementation Self- Reflection
(The Self-reflection Tool applies the implementation drivers through the IPG lens)

Program Name:		
COMPETENCY DRIVERS		
Program Development (PD) and Quality Workforce Management	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Home visiting specific job descriptions for all program positions.	Choose an item.	Choose an item.
Recruitment and selection of qualified staff who are a good fit for home visiting and the families served	Choose an item.	Choose an item.
Strategies that support staff retention (e.g., supportive team culture, flexible work schedule, addressing secondary trauma, well-being, and self-care)	Choose an item.	Choose an item.
Ongoing staff transition planning when turnover occurs	Choose an item.	Choose an item.
Orienting new staff (e.g., regularly updated materials, and opportunities to connect with team members, stakeholders, and observation or shadowing)	Choose an item.	Choose an item.
Annually assessing PD needs for each staff and the program	Choose an item.	Choose an item.
PD opportunities to meet ongoing training requirements and individual professional goals and interests	Choose an item.	Choose an item.
Application of a formal home visiting competency framework (provides a shared language and set of experiences for the home visiting workforce)	Choose an item.	Choose an item.
Regular reflective supervision for home visitors through a trained and equipped supervisor or consultant	Choose an item.	Choose an item.
Ongoing support, including administrative and clinical supervision, home visit observation, feedback, teaching, etc.	Choose an item.	Choose an item.
IECMHC strategies (e.g., access to consultants, a mental health consultant for reflective supervision, or ongoing training through the State Infant Mental Health Association)	Choose an item.	Choose an item.
Promotion of a culture of camaraderie, commitment to high-quality work, shared ownership that honors traditional values, strengths, and interests of individual team members	Choose an item.	Choose an item.
If you noted TA needs in any PD or Quality Workforce Management sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving PD or Quality Workforce Management with other programs, please list those here.		
Please describe barriers or TA needs in other PD and Quality Workforce Management sub-topics we did not include in the list above.		
Policies and Procedures (P&P)	Which of these terms best describes your implementation stage?	Do you have TA needs?

Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Fully developed THV program P&P manual	Choose an item.	Choose an item.
Update of the P&P manual, at least annually (if needed more frequently)	Choose an item.	Choose an item.
Orienting new staff on the program policy and procedure manual	Choose an item.	Choose an item.
Easy access to the P&P manual in a convenient location and format	Choose an item.	Choose an item.
If you noted TA needs in the P&P sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving P&P with other programs, please list those here.		
Please describe barriers or TA needs in other Policies and Procedures sub-topics we did not include in the list above.		
LEADERSHIP DRIVERS		
Program Leadership Support and Administration	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Training system for program leaders to build THV competency practice (e.g., problem-solving, change management, home visiting implementation, and budget management to meet requirements)	Choose an item.	Choose an item.
Opportunities for home visiting team members to provide feedback about program implementation	Choose an item.	Choose an item.
Initial and ongoing quality reflective supervision training for program leaders through a trained provider	Choose an item.	Choose an item.
Quality program oversight (e.g., managing workload, supporting home visitors with administrative requirements, ensuring strong program operations)	Choose an item.	Choose an item.
Quality and regular review of sub-recipient contract deliverables (as applicable)	Choose an item.	Choose an item.
Trained program leaders who are well versed in programmatic data requirements, including performance measures, CQI, and model data elements	Choose an item.	Choose an item.
Trained program leaders who are comfortable and equipped to support home visitors with data requirements, including performance measures, CQI, and model data elements	Choose an item.	Choose an item.
Trained program leaders who understand tribal culture, the community, and other relevant tribal context, as needed	Choose an item.	Choose an item.
If you noted TA needs in the Program Leadership Support and Administration sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Program Leadership Support and Administration with other programs, please list those here.		
Please describe barriers or TA needs in other Program Leadership Support and Administration sub-topics we did not include in the list above.		
Tribal/Organizational Leadership, Governance, and Administration	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Leadership at all relevant levels of the organization understand how to champion and support THV implementation, improvement, and sustainability components	Choose an item.	Choose an item.
Leadership builds relationships and linkages with external stakeholders to reduce barriers to THV service implementation and to meeting the needs of enrolled families	Choose an item.	Choose an item.
Leadership routinely reviews program reports and data to assess THV practice, performance measures, CQI, data quality issues to help guide decision-making	Choose an item.	Choose an item.
Leadership regularly provides feedback to help implement adjustments and changes in response to changing population and community needs	Choose an item.	Choose an item.

Program leaders receive regular supervision and communication from tribal/organizational leadership	Choose an item.	Choose an item.
If you noted TA needs in the Tribal/Organizational Leadership, Governance, and Administration sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Tribal/Organizational Leadership, Governance, and Administration with other programs, please list those here.		
Please describe barriers or TA needs in other Tribal/Organizational Leadership, Governance, and Administration sub-topics we did not include in the list above.		
Organizational Fiscal Management Practices	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
An annual budget development process that involves relevant program and administrative staff	Choose an item.	Choose an item.
Consistent and regular review of spending allocations and line-item breakdowns that involves program leaders and other relevant program and fiscal staff	Choose an item.	Choose an item.
If applicable, regular review of spending allocations and line-item breakdowns with sub-contracting home visiting sites	Choose an item.	Choose an item.
If you noted TA needs in the Organizational Fiscal Management Practices sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Organizational Fiscal Management Practices with other programs, please list those here.		
Please describe barriers or TA needs in other Organizational Fiscal Management Practices sub-topics we did not include in the list above.		
ORGANIZATIONAL AND PROGRAM DRIVERS		
Sustainability	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Sustainability plan in place that is supported by tribal or organizational leadership	Choose an item.	Choose an item.
The organization leverages funds and resources to support THV	Choose an item.	Choose an item.
Tribal leadership and the community, including key stakeholders and possible funders, have buy-in and actively support THV	Choose an item.	Choose an item.
If you noted TA needs in the Sustainability sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Sustainability with other programs, please list those here.		
Please describe barriers or TA needs in other Sustainability sub-topics we did not include in the list above.		
Model Fidelity	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Regular communication with and support from the model developer	Choose an item.	Choose an item.
Process to collect model fidelity measures	Choose an item.	Choose an item.
Regular review and reflection to monitor and address compliance with model fidelity measures	Choose an item.	Choose an item.
Availability of sufficient resources and capacity to implement the model with fidelity	Choose an item.	Choose an item.
System of initial and ongoing model implementation training	Choose an item.	Choose an item.

Application of adaptations, supplements, or enhancements to better meet participant and community needs	Choose an item.	Choose an item.
If you noted TA needs in the Model Fidelity sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Model Fidelity with other programs, please list those here.		
Please describe barriers or TA needs in other Model Fidelity sub-topics we did not include in the list above.		
COMMUNITY CONNECTION DRIVERS		
Dissemination	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Dissemination plan with goals and objectives	Choose an item.	Choose an item.
Collection and analysis of feedback data to assess the effectiveness of dissemination materials and strategies	Choose an item.	Choose an item.
Tailored dissemination materials for specific audiences, for example, families, funders, and other stakeholders	Choose an item.	Choose an item.
Community, community leaders, tribal leadership, stakeholders, and families fully understand THV services	Choose an item.	Choose an item.
If you noted TA needs in the Dissemination sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Dissemination with other programs, please list those here.		
Please describe barriers or TA needs in other Dissemination sub-topics we did not include in the list above.		
Community and Partner Engagement	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
An active home visiting advisory committee that supports planning and oversight of the program	Choose an item.	Choose an item.
A network of community resources and strong relationships with partners to facilitate warm hand-offs for families when referrals occur	Choose an item.	Choose an item.
Regular feedback from families and community members to help adapt practice as needed	Choose an item.	Choose an item.
Ongoing addition of new essential community resources and stakeholders that can support the implementation of THV	Choose an item.	Choose an item.
If you noted TA needs in the Community and Partner Engagement sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Community and Partner Engagement with other programs, please list those here.		
Please describe barriers or TA needs in other Community and Partner Engagement sub-topics we did not include in the list above.		
Recruitment, Enrollment, and Engagement of Families	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
Partnerships with key referral agencies which result in enrollment, including an established communication pathway with the referral agency staff that is effective for both parties	Choose an item.	Choose an item.
An effective and timely connection with referred families to determine eligibility and whether the program is a good fit	Choose an item.	Choose an item.
Support and resources for home visitors to increase knowledge and application of family engagement core competencies	Choose an item.	Choose an item.

Training to strengthen core competencies that can influence family retention	Choose an item.	Choose an item.
Intentional family engagement strategies during the first three months to increase long-term engagement	Choose an item.	Choose an item.
Methodology to regularly recruit families to serve in leadership or advisory roles	Choose an item.	Choose an item.
Support and resources for home visitors to build and strengthen relationships with families	Choose an item.	Choose an item.
Recruitment, enrollment, and engagement data collection, analysis, and reflection to monitor outcomes and address concerns	Choose an item.	Choose an item.
Recruitment, enrollment, and engagement process map	Choose an item.	Choose an item.
Method for identifying families at risk of dropping out and implementation of targeted approaches to keep them enrolled	Choose an item.	Choose an item.
Plan to keep families engaged when a home visitor transition occurs	Choose an item.	Choose an item.
Plan for meeting the ACF enrollment capacity goal	Choose an item.	Choose an item.
If you noted TA needs in the Recruitment, Enrollment, and Engagement of Families sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed to improve recruitment, Enrollment, and Engagement of Families with other programs, please list those here.		
Please describe barriers or TA needs in other Recruitment, Enrollment, and Engagement sub-topics we did not include in the list above.		
Early Childhood Systems Building	Which of these terms best describes your implementation stage?	Do you have TA needs?
Please answer the following questions about your implementation stage, and TA needs related to the sample topics.		
An active community early childhood system that aims to improve services and supports for infants, toddlers, and families across systems	Choose an item.	Choose an item.
THV takes an active role in the community and is part of the local early childhood network	Choose an item.	Choose an item.
If you noted TA needs in the Early Childhood Systems Building sub-topics above, briefly describe your implementation barriers and/or TA needs.		
If you are willing to share any tools you have developed for improving Early Childhood Systems Building with other programs, please list those here.		
Please describe barriers or TA needs in other Early Childhood Systems Building sub-topics we did not include in the list above.		
General Feedback		
Please provide any additional feedback about how we can meet your TA needs in the next year.
