

Methods Panel Burden Tracker

3-year American Community Survey Methods Panel Tests (0607-0936) (August 2021 - August 2024)

Total Burden Hours Requested over 3 years: 849,667

| Methods Panel Submissions for Tests in August 2021-August 2024 | Field Date | Sample Size (HUs) | Cost to Respondent | Burden Hours Requested | Estimated Burden Hours Used | Notes |
|---|----------------|----------------------|-----------------------|------------------------------|-----------------------------------|--|
| Strategic Framework Field Test | September 2021 | 96,000 | \$0 | 40,000 | 0 | The test is being conducted using production ACS sample. Therefore, the burden hours are covered by the existing OMB clearance for the ACS (0607-0810). There is no additional burden to the public associated with this test. The estimated number of respondents is for self-response only, as this test focused on the self-response materials. |
| 2022 Content Test: Initial Interview | September 2022 | 120,000 | \$0 | 46,667 | 80,000 | |
| 2022 Content Test: Content Followup | September 2019 | 58,800 | \$0 | 26,667 | 19,600 | |
