

ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

CET – Annotated Questionnaire (Wave 24)

Note: The questions below are the proposed questions for the twenty-third wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in Wave 24 only or are being asked again to update data on a variable of interest. We will be fielding the Misinformation module, and new questions are FDA approvals/vaccine requirements, vaccination completion, awareness and effect of GBS being added to J&J label, affect of needle fear on vaccine uptake, and the vaccine booster uptake. ASPA will provide OMB with updates to the questionnaire for subsequent Waves.
