The FDIC has long recognized the importance of MDIs and has historically taken steps to preserve and encourage minority ownership and management of insured financial institutions. The FDIC also fully supports the statutory goals set forth in Section 308 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). Two of these goals are to 1) provide technical assistance to prevent insolvency of institutions not now insolvent and 2) provide for training, technical assistance, and educational programs.

In an effort to assess the effectiveness of the technical assistance, education/training programs, and outreach efforts provided to our MDIs, we would like for you to complete this survey. Participation is voluntary; however, all information provided will assist in making certain the MDI program is successful in providing helpful information to our institutions and make improvements where appropriate.

Please complete the survey in its entirety. Please send any questions to the Office of Minority and Community Development Banking mailbox at MDIProgram@fdic.gov.

Thank you for your participation.
