

SUPPORTING STATEMENT

This collection is being submitted to the Office of Management and Budget (OMB) to seek approval for non-substantive changes to a currently-approved collection. The changes proposed below would update the relevant year for which the Commission seeks the information to be collected, add the statutory authority paragraph to the instructions section, and conform the language of the questionnaire to be consistent throughout and to more closely track the statutory language, so as to elicit more accurate responses and meet the statutory requirements for the information to be collected.

A. Justification:

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection.

This information collection enables the Federal Communications Commission (Commission) to fulfill its continuing obligations under the National Suicide Hotline Designation Act of 2020, Pub. L. No. 116-172, 134 Stat. 832 (2020) (988 Act), to submit an annual “Fee Accountability Report” to the Committees on Commerce, Science, and Transportation and Appropriations of the Senate, and the Committees on Energy and Commerce and Appropriations of the House of Representatives, detailing “the status in each State, political subdivision of a State, Indian Tribe, or village or regional corporation serving” an Alaska Native Claims Settlement Act region, of the collection and distribution of fees or charges for “the support or implementation of 9-8-8 services,” including “findings on the amount of revenues obligated or expended by each [state, political entity, and subdivision] for any purpose other than the purpose for which any such fees or charges are specified.” (988 Act, 134 Stat. at 833-34.)

This information collection does not affect individuals or households; thus, there are no impacts under the Privacy Act.

Statutory authority for this information collection is contained in National Suicide Hotline Designation Act of 2020, Pub. L. No. 116-172, 134 Stat. 832 (2020) (988 Act).

2. Indicate how, by whom, and for what purpose the information is to be used.

The Commission will collect information for the preparation of the annual Fee Accountability Report through an emailed survey that appropriate officials of States and political subdivisions thereof, Indian Tribes, and village or regional corporations serving a region established pursuant to the Alaska Native Claims Settlement Act, as amended (43 U.S.C. §§ 1601 *et seq.*) can use to submit data pertaining to the collection and distribution of revenues from fees and charges for the support or implementation of 988 services, including the use of such collected fees and charges for any purpose other than for the support or implementation of 988 services. In addition, consistent with the definition of “State” set forth in 47 U.S.C. § 153(40) of the Communications Act, the Commission will collect this information from states as well as the District of Columbia and the inhabited U.S. Territories and possessions.

Clarification for which we are seeking OMB approval:

Section 4 of the National Suicide Hotline Designation Act of 2020 (988 Act) states:

(a) AUTHORITY.—

(1) IN GENERAL.—Nothing in this Act, any amendment made by this Act, the Communications Act of 1934 (47 U.S.C. 151 et seq.), or any Commission regulation or order may prevent the imposition and collection of a fee or charge applicable to a commercial mobile service or an IP-enabled voice service specifically designated by a State, a political subdivision of a State, an Indian Tribe, or village or regional corporation serving a region established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) for 9–8–8 related services, if the fee or charge is held in a sequestered account to be obligated or expended only in support of 9–8–8 services, or enhancements of such services, as specified in the provision of State or local law adopting the fee or charge.

(2) USE OF 9–8–8 FUNDS.—A fee or charge collected under this subsection shall only be imposed, collected, and used to pay expenses that a State, a political subdivision of a State, an Indian Tribe, or village or regional corporation serving a region established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) is expected to incur that are reasonably attributed to—

(A) ensuring the efficient and effective routing of calls made to the 9–8–8 national suicide prevention and mental health crisis hotline to an appropriate crisis center; and

(B) personnel and the provision of acute mental health, crisis outreach and stabilization services by directly responding to the 9–8–8 national suicide prevention and mental health crisis hotline.

(b) FEE ACCOUNTABILITY REPORT.—To ensure efficiency, transparency, and accountability in the collection and expenditure of a fee or charge for the support or implementation of 9–8–8 services, not later than 2 years after the date of the enactment of this Act, and annually thereafter, the Commission shall submit to the Committees on Commerce, Science, and Transportation and Appropriations of the Senate and the Committees on Energy and Commerce and Appropriations of the House of Representatives a report that—

(1) details the status in each State, political subdivision of a State, Indian Tribe, or village or regional corporation serving a region established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) of the collection and distribution of such fees or charges; and

(2) includes findings on the amount of revenues obligated or expended by each State, political subdivision of a State, Indian Tribe, or village or regional corporation serving a region established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) for any purpose other than the purpose for which any such fees or charges are specified.” Specifically, the Commission proposes to ask the following questions:

F. Description of Diversion or Transfer of 988 Fees for Other Uses

Question		Yes	No
1. In the annual period ending December 31, 2023, were fees collected for 988 purposes by your state (or political subdivision), Indian Tribe, village, regional corporation, or other jurisdictional authority made available or used solely for the purposes designated by the funding mechanism, consistent with the 988 Act? Along with identifying the amount, please include a statement identifying the non-related purposes for which the collected 988 fees were made available or used.			
Amount of Funds (\$)	Identify the non-related purpose(s) for which the 988 fees were used. (Add lines as necessary)		

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other form of information technology e.g., permitting electronic submission of responses, and the bases for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

The Commission’s Wireline Competition Bureau (Bureau) will collect the information for these reports through a physical survey sent via email to political entities and subdivisions (e.g., States, Territories, and Indian Tribes). Respondents that are subject to state regulations requiring the reporting of similar information may meet the requirements of the 988 Act by submitting the state report, provided that the state report includes the information that will enable the Commission to fulfill its statutory obligation to annually prepare a Fee Accountability Report detailing “the status in each State, political subdivision . . . , Indian Tribe, or village or regional corporation serving” an Alaska Native Claims Settlement Act region, of the

collection and distribution of fees or charges for “the support or implementation of 9-8-8 services,” including “findings on the amount of revenues obligated or expended by each [such state, subdivision, political/regional entity, or Tribe,] for any purpose other than the purpose for which any such fees or charges are specified.” (988 Act, 134 Stat. at 833-34.)

4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in item 2 above.

As noted in the response to number three above, if there are respondents that are subject to state regulations requiring the reporting of similar information, the submission to the Commission of such a report may meet the Commission’s needs for fulfilling its 988 Act obligation to prepare an annual Fee Accountability Report for Congress. This is contingent on such a state report containing the relevant information necessary for the Commission to prepare a report detailing “the status in each State, political subdivision . . . , Indian Tribe, or village or regional corporation serving” an Alaska Native Claims Settlement Act region, of the collection and distribution of fees or charges for “the support or implementation of 9-8-8 services,” including “findings on the amount of revenues obligated or expended by each [such state, subdivision, political/regional entity, or Tribe,] for any purpose other than the purpose for which any such fees or charges are specified.” (988 Act, 134 Stat. at 833-34.)

This information collection is not otherwise available elsewhere. This is a unique information collection that does not duplicate existing data. This information collection was created specifically to meet the requirements of the Fee Accountability Report provision of the 988 Act, and must be submitted by the Commission to Congress annually.

5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.

No small businesses or other small entities are burdened by the information collection sought by the Commission in order to fulfill its statutory obligation to produce for Congress an annual Fee Accountability Report. The proposed information collection does not seek information from small businesses. To the extent that there are government entities of small government jurisdictions that are the relevant source for the information the Commission seeks, it is likely that the information is already gathered by the entity as part of its normal course of conducting its administrative affairs. It is reasonable to expect that it is “usual and customary” that data regarding the collection and expenditure of revenues by government entities of any size is maintained by that government entity. In accordance with section 1320.3(b)(1)(ix)(2), the provision of the data sought by the Commission for this information collection does not constitute a “burden” on such entities (5 CFR § 1320.3(b)(1)(ix)(2)).

6. Describe the consequence to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

Failure to collect the relevant information necessary for the Commission to prepare annually a report detailing “the status in each State, political subdivision . . . , Indian Tribe, or village or regional corporation serving” an Alaska Native Claims Settlement Act region, of the collection and distribution of fees or charges for “the support or implementation of 9-8-8 services,” and including “findings on the amount of revenues obligated or expended by each [such state, subdivision, political/regional entity, or Tribe,] for any purpose other than the purpose for which any such fees or charges are specified” will

prevent the Commission from discharging its statutory obligation to submit an annual Fee Accountability Report to Congress that provides this information. (988 Act, 134 Stat. at 833-34.) The information sought by the Commission is essential to its compliance with the Fee Accountability Report obligation of the 988 Act.

7. Explain any special circumstances that would cause an information collection to be conducted in a manner inconsistent with the guidelines in 5 CFR § 1320.5(d)(2).

Consistent with section 1320.5(d)(2) of OMB's PRA regulations requiring that the "collection of information is necessary to satisfy statutory requirements" (5 CFR § 1320.5(d)(2)), this information collection is tailored strictly for the purpose of compliance with the Commission's statutory obligation under the 988 Act that it produce an annual Fee Accountability Report to Congress. (988 Act, 134 Stat. at 833-34.) There are no special circumstances that would cause this information collection to be conducted in a manner inconsistent with the guidelines in 5 CFR § 1320.5(d)(2).

8. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the agency's notice, required by 5 CFR § 1320.8(d), soliciting comments on the information prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments.

Pursuant to the Paperwork Reduction Act of 1995 (PRA), the Commission issued a 60-day Federal Register notice on November 26, 2021 (86 FR 67466) seeking comments on the burden of complying with the information. No comments were received in response to the notice.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

No payment or gift to respondents has been or will be made.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

There were no assurances of confidentiality provided to respondents. The Commission's rules address the issue of confidentiality at sections 0.457, 0.459, and 0.461 (47 CFR §§ 0.457, 0.459, and 0.461). These rules address access to records that are not routinely available to the public, requests and requirements that materials submitted to the Commission be withheld from public inspection, and requests for inspection of materials not routinely available for public inspection.

11. Provide additional justification for any questions of a sensitive nature.

The reporting requirement does not entail questions of a sensitive nature that are commonly considered private, beyond the national security and commercial basis for confidentiality that are covered by the response at 10, above.

- 12. Provide estimates of the hour burden of the collection of information. The statement should: indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance.**

We estimate that **630** respondents will file reports.¹ The frequency of response will be annual. The average burden will be **55 hours** per response. Thus, we estimate that the respondents will take a total of **34,650 burden** hours to review and complete their reports in response to their obligations under the 988 Act. This estimate is based on Commission staff's knowledge and familiarity with the availability and accessibility of the data required to fulfill the information collection.

Total number of Respondents and Responses: 630

Total Annual Burden Hours: 630 responses x 55 hours = 34,650 hours

We assume that each respondent will have one accountant and one attorney participate in the information collection, and assume that the salaries are equivalent to GS-13, step 10 and GS-15, step 5, respectively. Thus, we estimate that the total "in-house" cost to all respondents will be:

Specialist at \$73.48/hour	$73.48 \times 34,650 \text{ hours} = \$2,546,082$
Attorney at \$89.04/hour	$89.04 \times 34,650 \text{ hours} = \$3,085,236$

Summary of Total In-House Costs: \$2,546,082 + \$3,085,236 = \$5,631,318

- 13. Provide an estimate for the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in items 12 and 14).**

The Commission believes that this information collection will not impose any cost burden on respondents from either capital or start-up costs, or from operation and maintenance of equipment, or from purchase of outside services.

- 14. Provide estimates of annualized costs to the Federal government. Also provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expenses that would not have been incurred without this collection of information.**

We estimate that the total annual cost to the Federal Government, based on the salaries of one attorney (GS-15, step 5) and one public utility specialist (GS-13, step 5), with each staff person spending approximately $\frac{1}{4}$ (520 hours) of their work time on the information collected:

Specialist GS-13, step 5, at \$64.06/hr	$64.06 \times 520 = \$33,311.20$
Attorney GS-15, step 5, at \$89.04/hr	$89.04 \times 520 = \$46,300.80$

$\$33,311.20 + \$46,300.80 + \$23,883.60 \text{ (30\% overhead)} = \$103,495.60$

Total Cost to the Federal Government = \$103,495.40

¹ This figure includes the 50 states, 6 U.S. Territories, and 574 federally-recognized Native American Tribes.

15. Explain the reasons for any program changes or adjustments reported.

There are no increases or decreases in the burden hours to this information collection as a result of this non-substantive change request.

16. For collections of information whose results will be published, outline plans for tabulation and publication.

Pursuant to the 988 Act, the Commission is required to report the results of the collection to Congress on **October 17, 2022**, and once annually thereafter.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

The Commission does not intend to seek approval to not display the expiration date of the information collection from OMB.

18. Explain any exceptions to the statement certifying compliance with 5 CFR § 1320.9 and the related provisions of 5 CFR § 1320.8(b)(3).

There are no exceptions to the certification statement.

B. Collections of Information Employing Statistical Methods:

This information collection does not employ any statistical methods.
