Sampling will not be conducted for client survey data collection.

3. Activity timeframe

Survey data will be collected on a one-time basis from May to July 2023.

4. Hub or Spoke staff will send a reminder email (Attachment A) to non-respondents without the individualized link to the web survey during the final week of data collection, if fewer than 600 clients have responded.
5. This email will be followed by Optimal's reminder e-mail with the individualized link to the web survey.

Based on pilot testing of the survey with 6 clients, the anticipated time to complete the survey is 20 minutes.

5. Provide the question list (Submit all instruments, instructions, and scripts with this request).

Please see the following attachment: *CNPP Data Collection Materials*

Description of respondents/participants: Describe the people you will interact with or are collecting information from and why the group is appropriate for the program / service to connect with. Please provide a description of how you plan to identify your potential group of respondents and if only a sample will be solicited for feedback, how you will select them (e.g., anyone who provided an email address to a call center representative, a representative sample of administrators who downloaded a report in May 2021, intercept interviews at a particular field office, a list of customers, e.g., a CRM database that has contact information, to reach out to that defines the universe of potential respondents and have a sampling plan for selecting from this universe). Attach a copy of the sampling plan if applicable.

Activity timeframe: Describe the time frame, dates, locations, and number of events (e.g., focus groups, surveys, sessions) that will occur (e.g., We will conduct focus groups on May 13,14,15. We plan to conduct customer intercept interviews over the course of the Summer at the field offices identified in response to #2 based on scheduling logistics concluding by Sept. 10th, or “This survey will remain on our website in alignment with the timing of the overall clearance.”)

Collection procedures: Describe the information collection activity (e.g., what happens when a person agrees to participate? Will facilitators or interviewers be used? What’s the format of the interview/focus group? If a survey, describe the overall survey layout/length/other details? If User Testing, what actions will you observe / how will you have respondents interact with a product you need feedback on?).
