

Spatial, Address, and Imagery Data Program

Submission Feedback Email Template

Dear <<CONTACT\_SALUTATION>> <<LAST\_NAME>>:

Thank you for your time and the willingness to share data for <<ENTITY\_NAME>> with the Census Bureau. The data you share will help improve the spatial accuracy of roads, boundaries, and housing units in the Census Bureau's Master Address File/Topologically Integrated Geographic Encoding and Referencing (MAF/TIGER) System. In addition, this data will help the Census Bureau to count the population of your locality more accurately and completely in the 2030 Census. The data in this system supports the Census Bureau's data collection as well as all of our geographic partnership programs and geographic data products.

Below is a list of files that you provided to the Census Bureau along with a brief summary that highlights our efforts to ingest the data into the MAF/TIGER System. If you provided address data, a non-Title 13 report is also included that details the number of records received, number of records processed, and the matching results.

Please let us know if you have any questions.

Thank you,

<<NAME>>

Geographer
