

**NON- SUBSTANTIVE CHANGE REQUEST FOR STUDENT DATA FORM  
(OSHA FORM 182)  
OMB CONTROL NO. 1218-0172 (August 2026)**

OSHA is requesting a non-substantive change to the currently approved collection of information contained in the Student Data Form (OSHA Form 182)

The agency uses the information compiled from the Student Data Form (SDF or Form), developed by its Office of Training and Education, to demonstrate, in an accurate and timely manner, that it is providing the training and worker education mandated by Section 21 of the OSH Act. This information is also helpful in evaluating training, and in making decisions regarding program/course revisions, budget support, and tuition costs.

This form is used by non-Department personnel, including those in the private sector, for requesting information pertaining to enrollment in Institute courses. The information in the “Personal Data” and “Supervisor Data” categories allow OSHA to contact students if an emergency arises at their home, place of employment, or in local accommodations, and to alert supervisors of a trainee’s injury or illness.

OSHA seeks to update item numbers 10, 11, 17, 18 and 19 on the form based on customer/respondent feedback for more clarity for those data elements.

This change request does not affect the burden hours. The burden hours remain the same.

A copy of the original and revised forms are attached to this change request.
