INTRO First, we will provide you with some information about the Census Military Panel, your rights as a respondent, and how we are going to protect your privacy.

PRA The authority for the collection of this information for the Census Military Panel (0607-1027) is provided under 10 U.S.C. Section 1782. The Census Military Panel is a national survey panel by the U.S. Census Bureau (Census) and the U.S. Department of Defense (DoD). Data collected from active-duty service members and their spouses on a variety of topics through the Panel will be used to improve military life and policies affecting active-service members and their families. Personally identifiable information collected includes Name, Address, Telephone/Cell phone Number, DOB or Age, Email address, and Race or Ethnicity. Your privacy is protected by the Privacy Act (Title 5, U.S. Code, Section 552a). Routine uses of these data are limited to those identified in the Privacy Act System of Record Notice titled, COMMERCE/Census-3 Demographic Survey Collection (Census Bureau Sampling Frame). The Census Bureau can use your responses only to produce statistics and is not permitted to publicly release your responses in a way that could identify you. The Census Bureau, on behalf of the Department of Defense, is conducting this voluntary study under the authority of 10 U.S.C. Section 1782. Your privacy is protected by the Privacy Act of 1974 (5 U.S.C. Section 552a). This collection has been approved by the Office of Management and Budget (OMB). This eight-digit OMB approval number, 0607-1027, confirms this approval and expires on 08/31/2026. Send comments regarding this time estimate or any other aspect of this survey to adm.pra@census.gov. The uses of your data are limited to those identified in the Privacy Act System of Record Notice titled, COMMERCE/Census-7 Demographic Survey Collection (non-Census Bureau Sampling Frame). The public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

ADMIN1_INTRO We now have a few questions about government data on individuals and your privacy opinions.

ADMIN1 As you may know, different government departments and services collect data about individuals, for example your tax records and health records. People have different views about whether this data should be used for new purposes after it has been collected. Using this data can bring benefits, such as finding more effective medical treatments or using information about local communities to plan local schools or roads. But some people worry that other uses for data risk their privacy and security, by linking different types of data together and potentially allowing them to be identified. Overall, which of the following statements comes closest to your opinion?

- Government should find new ways to use data already collected because it benefits public services and society. (1)
 - Government should not use data already collected in new ways due to the risks to people's privacy and security. (2)
 - I agree equally with both. (3)
 - I don't agree with either. (4)
