How to Register as Certifying Body

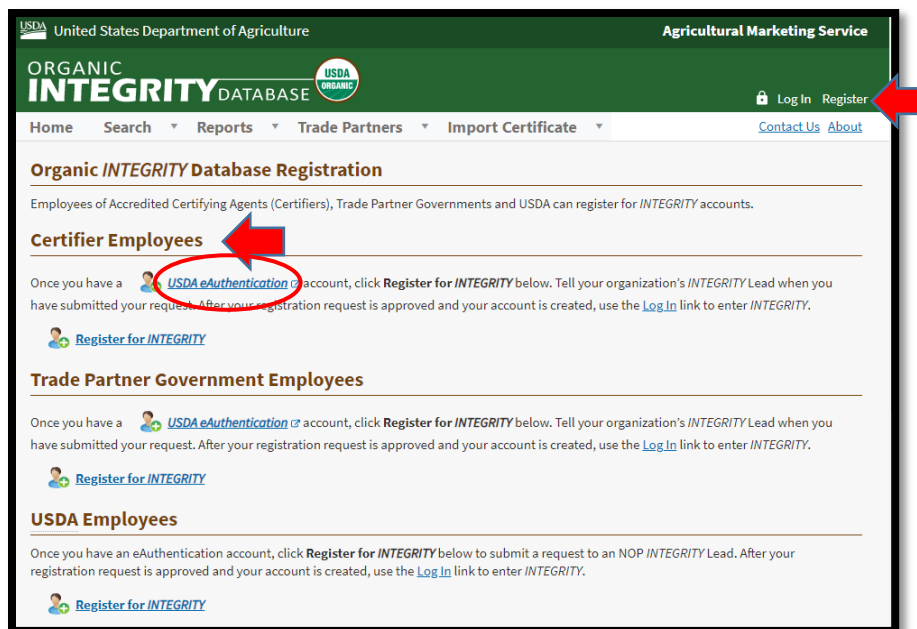

What to Expect

- The Organic *INTEGRITY* Database user account registration is a 2-step process:
 - 1) Create a USDA eAuthentication customer account via Login.gov;
 - 2) Register for an *INTEGRITY* certifier user account.
- New users as of September 12, 2023, must use Login.gov account credentials to submit a registration request for *INTEGRITY*.
- **NOTE:** Users who have an existing USDA eAuthentication account created prior to September 12, 2023, can continue to use their eAuthentication user ID and password to register for *INTEGRITY*.

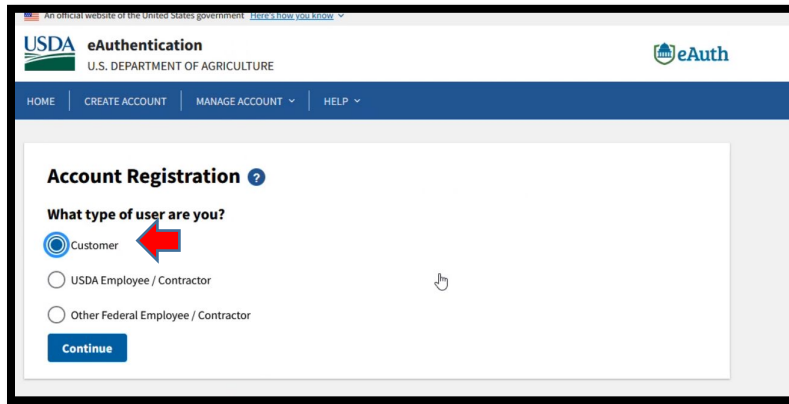

Step 1. Create a Login.gov Account

Go to the *INTEGRITY* website at <https://organic.ams.usda.gov/integrity>, select **Register** and select the **USDA eAuthentication** link from the Certifier Employees section.

For additional information, refer to the Public Customer Frequently Asked Questions (FAQs) at <https://www.eauth.usda.gov/eauth/b/usda/faq>.

Select the **Customer** radio button. Then select **Continue to Login.gov** to proceed to the next page, where you will create a Login.gov account.

Personal Information **Edit**

Name: David Integrity

Multi-Factor Authentication (MFA) Options

i You will only be prompted to use MFA during login if required by the application.

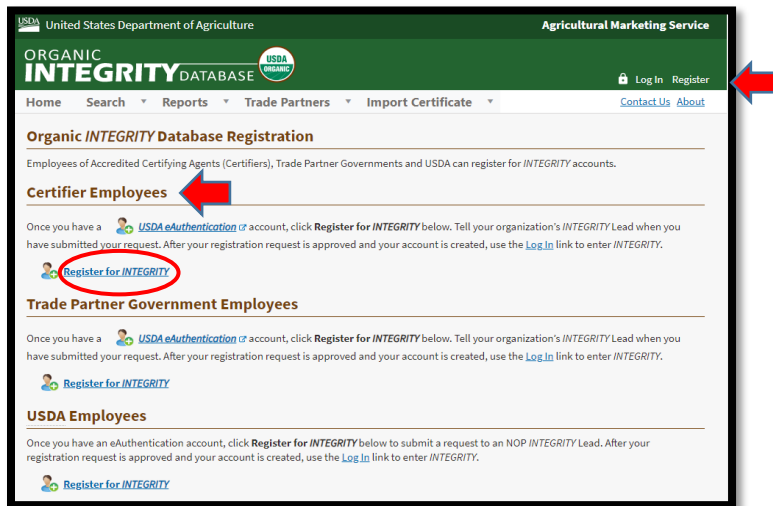

PIV/CAC ? **Enable**

Use your non-USDA Federal PIV/CAC to login to your eAuth account.

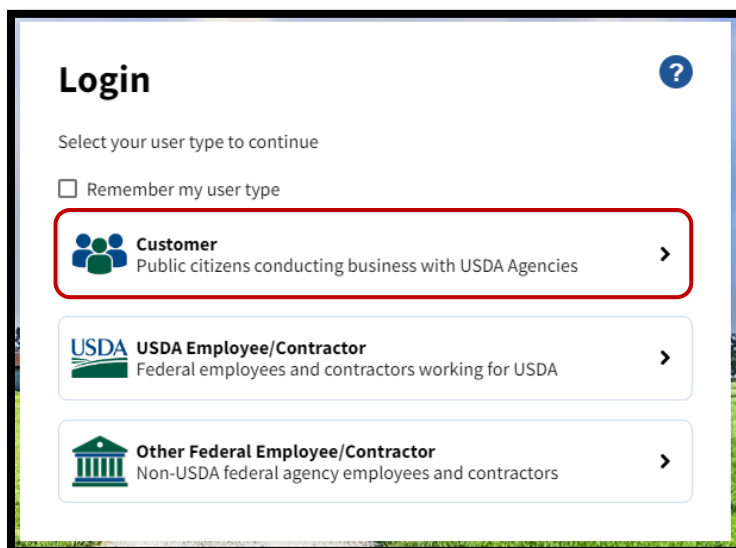

After reviewing your Login.gov account information, proceed to the OID Integrity Database with your new Login.gov account so you can **Register for INTEGRITY** at <https://organic.ams.usda.gov/integrity/UserManagement/RegisterNewAccount>.

Step 2. Register for an *INTEGRITY* Account

To register for an *INTEGRITY* user account, select **Register for *INTEGRITY*** under the **Certifier Employees** section.

On the Login screen, choose “Customer.”

Select the **Login.gov** option and sign in with your new Login.gov email and password to move to the next step. **Do not use the USDA eAuthentication option.**

The left screenshot shows the 'Customer Login' page. It has a header with the USDA logo and 'Customer Login'. Below the header, there are links for 'Need an account?' and 'Not a Customer? Change user type'. A section titled 'Select an option to continue' contains two options: 'Login.gov' (highlighted with a red box and an arrow pointing right) and 'eAuth User ID'. The 'Login.gov' option includes the text 'Enter Login.gov User ID and Password'. The 'eAuth User ID' option includes the text 'Enter User ID and Password'. Below these options are input fields for 'User ID' and 'Password', each with a 'Forgot' link. There is also a 'Show Password' checkbox and a 'Log In' button.

The right screenshot shows the 'USDA eAuthentication' page. It has a header with the USDA logo and 'USDA eAuthentication'. Below the header, there is a message: 'USDA eAuthentication is using Login.gov to allow you to sign in to your account safely and securely.' There are two buttons: 'Sign in' and 'Create an account'. Below these buttons is a section titled 'Sign in for existing users' with input fields for 'Email address' and 'Password', and a 'Show password' checkbox. At the bottom, there is a 'Sign in' button and a link: 'Sign in with your government employee ID'.

On the User Registration page, select **Register for INTEGRITY** to start the registration process.

The screenshot shows the 'USDA Organic INTEGRITY DATABASE' page. The header includes the USDA logo, 'United States Department of Agriculture', and 'Agricultural Marketing Service'. The main heading is 'ORGANIC INTEGRITY DATABASE'. Below the heading, there is a 'User Registration' section. The section title is 'INTEGRITY User Registration'. Below the title, there is a message: 'Roxann Granata, Submit a registration request to the INTEGRITY Lead in your organization.' There is a section titled 'Register for an INTEGRITY User Account' with a message: 'Click Register for INTEGRITY to run the User Registration wizard. You will be notified when your registration has been reviewed by the INTEGRITY Lead in your organization.' At the bottom, there is a button labeled '» Register for INTEGRITY' with a red arrow pointing to it.

Select **Next** to Continue.

< Previous > Next X Cancel

Find and Select your organization in the Certification Body list. Click **Next**.

The screenshot shows the 'Select your Organization' step. On the left is a sidebar with links: Welcome, Account Type, Organization (highlighted), Primary Role, My Comments, and Summary. The main content area has a title 'Select your Organization' and instructions: 'Select or verify your organization. Type the first few letters of the organization name into the filter box to narrow down the list.' Below this is a 'Trade Partner Program' dropdown menu set to 'CFIA-COR'. A table lists organizations with columns 'Abbreviation', 'Organization', and 'Action'. The table contains two rows: 'AGCC' for 'A Great Canadian Certifier' and 'CC1' for 'Canada Certifier'. Both rows have a '+ Select' button in the Action column. A red arrow points to the '+ Select' button for 'AGCC'.

Abbreviation	Organization	Action
AGCC	A Great Canadian Certifier	+ Select
CC1	Canada Certifier	+ Select

Pick one of the User Roles from the dropdown menu and select **Next**.

The screenshot shows the 'Select Your Role' step. The sidebar is the same as in Step 2, with 'Organization' highlighted. The main content area has a title 'Select Your Role' and instructions: 'Staff users can view and modify operation data.*' and 'INTEGRITY Lead users can also manage user accounts for their organization. You may change roles after registration is complete.' A note states: '*Note: Some data is not available publicly, and a subset is restricted to the Certifier that issued the certificate. If an operation has worked with multiple Certifiers, registered INTEGRITY users can only view restricted information for certificates their organization has issued.' Below this is a 'Role' dropdown menu with options: 'Certifier - INTEGRITY Lead', '--Select--', 'Certifier - INTEGRITY Lead', 'Certifier - Staff', and 'Certifier - Staff Read Only'. A red arrow points to the 'Certifier - INTEGRITY Lead' option. The 'Description' field is partially visible next to the dropdown.

Role: *
Description:

- Certifier - INTEGRITY Lead
- Select--
- Certifier - INTEGRITY Lead
- Certifier - Staff
- Certifier - Staff Read Only

Enter comments (optional) and Select **Next** to continue.

The screenshot shows the 'Add Comments (Optional)' step. The sidebar is the same as in Step 2, with 'Organization' highlighted. The main content area has a title 'Add Comments (Optional)' and instructions: 'Enter any questions, comments, or additional information you would like to send to your organization's INTEGRITY Lead.' Below this is a 'Comments' text area. At the bottom of the page are three buttons: '< Previous', 'Next >', and 'Cancel'. A red arrow points to the 'Next >' button.

Review your information on the summary page, then select **Finish** to complete the request.

If you need assistance with the registration process, please contact *INTEGRITY@usda.gov*.

How to Upload a File

What to Expect

- Your file uploads will only replace operation data that has changed.
- Once you have assigned a ten-digit NOP Operation ID and published the information, the Operation ID cannot be changed. If you change an Operation ID in the template and upload it again, the system will create a duplicate operation record which is a data quality problem.
- When you upload a file, the system will validate all the data and produce a report of any Errors and Warnings.
 - **Errors:** Required fields; file upload will not be successful until these errors are corrected.
 - **Warnings:** Issues with data quality; data can still be published even if these are not corrected.

The system runs the operation level information first – after all errors are corrected, it will start to run the item level information. It may take a few attempts to upload your first file, but future updates will be much easier.

- You can upload only one file at a time. You must Publish the file data or Clean Up and Unlock the Staging Area before you can upload another file.
- All your organization's *INTEGRITY* users can make changes to the operations, or add new operations, that you have certified organic.

Options for Updating Your Data Using the Template

- Export data from your system to the Excel template
- Update the last template file you uploaded and published.
- If you have edited operation data using the web-based form, you can download your current data with those changes from *INTEGRITY*. You can also use this option if you can't find a copy of the last template file you uploaded, or aren't sure which version you published.
- Enter new data directly into an empty Excel template

Template Tips and Tricks

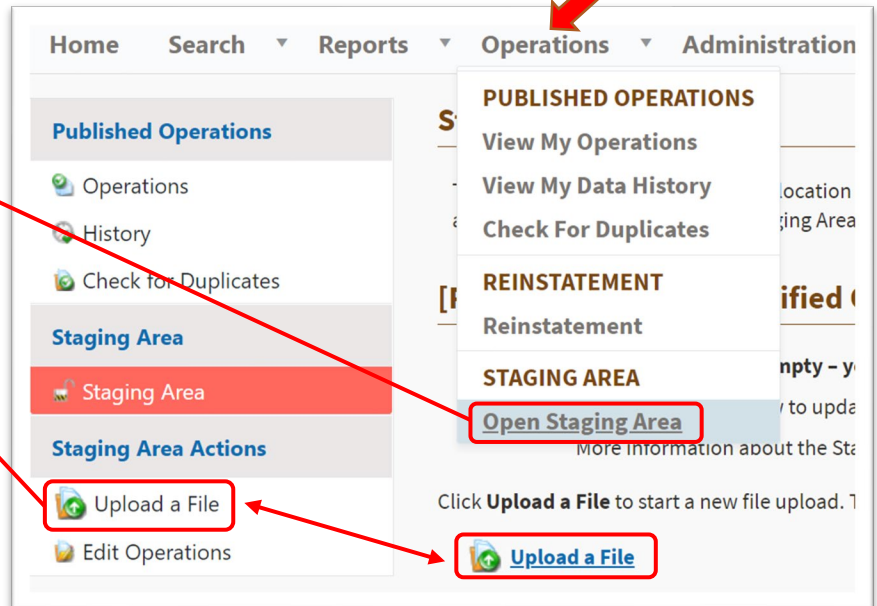

- Start on Row 5 (delete any sample data)
- Columns can be rearranged into any order, but all must be present on the worksheet
- If entering US Operations, select country first, then state or territory from drop down list
- Add a row for each certified Scope to the Item Level tab and enter all Item (Product) Level information
- If you are working with an export of previously published data, do not edit the Operation Name column in the Item Level tab – the database does not read this column.
- Do not change the NOP Operation ID for previously published operations; this will create a duplicate operation record, which is a data quality problem.

Getting to the File Upload Page

Log in to *INTEGRITY* using your USDA eAuthentication username and password.

On the **Operations** tab,
click **Open Staging Area**

Click on one of the
Upload a File links

Note: If the Upload a File links are not shown, click **Clean Up & Unlock**.

Uploading a File

Follow the steps on the **Upload a File** screen.

Upload a File

The Staging Area is an intermediate location used for uploading and editing operation information. When you Publish information that has been updated in the Staging Area, it is made available to the public. Only authorized users can access the Staging Area.

[abc] Test1

Click **Select** to browse for a template file or drag and drop a file over the operation and item information, then click **Upload File** to start processing.

1. Select a File to Upload

Select a Microsoft Excel file (*.xlsm, *.xlsx or *.xls) that includes all required information and is less than **12 Megabytes (MB)**. You can download the current version of the [template](#) to get started.

Choose File No file chosen

2. * Specify the Content of the File

☒ **File Contains Operation and Item (Product) Level Information**
Select this option to update operation level information only. Associated items (if any) will be copied from the Public Area and can be changed if you Edit Operations after completing the file upload.

☐ **File Contains Operation Level Information Only**
Select this option to update operation level information only. Associated items (if any) will be copied from the Public Area and can be changed if you Edit Operations after completing the file upload.

Indicate if you want to publish data immediately.
☐ **Publish Immediately**
Select this option if you want to ignore any warnings/errors and publish data immediately. Operations with validation errors will be ignored - errors will not be published.

3. Upload File and Process Operations

Ready to upload the file? Click **Upload File** to start.

Upload File **Cancel**

Make sure you have completed the Excel certified operations data submission template and saved it. The file must be less than 12 MB.

You can upload both operation and item (product) level information, or just operation information.

If the file upload is successful, you can proceed to

[Publish Operations](#)

If the file upload is not successful, you can use the on-screen error and warning messages to make corrections to the file you uploaded or click **Export to File** to download a version of the file you uploaded with error and warning reports that link directly to the cells that need to be corrected. Then you can **Upload Another File** to submit your corrected data.

**Staging Area is locked, but no operations were uploaded.**
There are data validation errors in the file - review them below. You can fix errors and upload the revised file, upload another file, or clean up and unlock the Staging Area.

[More information about the Staging Area can be found under User Resources.](#)

 [Upload Another File](#)  [Clean Up & Unlock](#)

[File Upload Details](#) **File Validation Errors (1) and Warnings (0)**

File Validation Errors and Warnings
The following validation errors were found. Validation errors prevented operation and item level information from being loaded into the Staging Area. Click **Export File** below to download a version of the file you submitted with embedded validation messages (new Errors or Warnings worksheet tabs will be inserted).

Show Messages: ☒ Errors (1) ☐ Warnings (0) ☐ All (1)  [Export to File](#)

Type	Worksheet	Row	Message	
	Error	Operation Level	5	Cell G5 (column "Operation Certification Status") The column "Operation Certification Status" is required, but no value was provided.

Note: Operation level data is validated first; once any errors are resolved, item level data is validated, and any item error and warning messages are provided. It may take a few attempts to successfully upload your file.

Publishing the Operations

Publishing Operations will finalize the data and make the new data available on the publicly-accessible *INTEGRITY* site.

After you've published data, you can view the new information in the **Published Operations** left menu options:

- **Operations:** View the new data finalized in system
- **History:** See the history of published data updates

Prior to publishing, you can review the newly uploaded operation data from the **Staging Area** left menu options:

- **Operations (#):** View the list of operations in the staging area
- **Recently Modified:** See which operations were changed

[Home](#) [Search](#) [Report](#)

Published Operations

-  Operations
-  History
-  Check for Duplicates

Staging Area

-  **Staging Area**
-  Operations (2512)
-  Recently Modified

Staging Area Actions

-  Add an Operation
-  Validate Operations
-  Check for Duplicates
-  Publish Operations
-  Clean Up & Unlock

To finalize data, click on **Publish Operations** from the file upload confirmation page.

The screenshot shows the 'Staging Area' interface. On the left, a sidebar lists 'Staging Area', 'Operations (1)', and 'Recently Modified'. Below this, 'Staging Area Actions' includes 'Add an Operation', 'Validate Operations', 'Check for Duplicates', 'Publish Operations' (highlighted with a red box), and 'Clean Up & Unlock'. The main area has a header with a lock icon and text: 'The Staging Area contains operation information from the uploaded file. However, there are validation warnings - review them below.' It also says 'Use options below or use menu items on the left (under the Staging Area and Actions sections) to review, edit, add, validate, or publish operations.' and 'More information about the Staging Area can be found under [User Resources](#).' In the top right, a green box shows 'Total Operations: 1' and 'Certified: 1'. Below the header, there are four buttons: 'Publish Operations' (highlighted with a red box), 'Validate Operations', 'Export to File', and 'Clean Up & Unlock'. The 'File Upload Details' tab is active, showing 'File Upload Details' and 'File Validation Warnings (1)'. The 'File Upload Details' section includes 'Data Source' (FU_[abc]_Test1_OID.PublishedOperations.758.20221018.xlsx (XLSX, 114 KB)), 'Publication Contents' (The file was uploaded by DAKOTA ARTHUR on 10/18/2022 at 11:31 AM. Operation and Item information. A file containing operation and item level information was uploaded.), and 'File Upload Status' (Operation and Item Information is in the Staging Area. Validation complete, file data is in the Staging area - pending review and publication.).

Click **Publish Operations** and the information in the Staging Area will be finalized in the system and made available to the public on the *INTEGRITY* website.

The screenshot shows the 'Staging Area - Publish Operations' page. It has a header 'Staging Area - Publish Operations'. Below the header, it says 'When you Publish information that has been updated in the Staging Area, it is made available to the public.' There is a table with the following data:

Certifier :	[abc] Test1
Total Operations :	1
Certified Operations :	1

Below the table, it says 'Review data validation messages before publishing this operation information or to meet data quality standards. Click **Publish Operations** to finalize this information (the number of operations are being updated), or use tabs at the top to navigate to the new information minutes if a large'.

At the bottom, there are three buttons: 'Publish Operations' (highlighted with a red box), 'Validate Operations', and 'Cancel'. A red arrow points from the 'Validate Operations' button to a text box that says 'Clicking **Validate Operations** will show you any additional data quality issues (warnings) that you may want to fix prior to publishing.' Another red arrow points from the 'Publish Operations' button to a text box that says 'Clicking **Publish Operations** will complete the data submission process.'

Congratulations – you’ve updated your list of certified operations!

The screenshot shows a notification message with a blue background. It has an information icon (i) and the title 'Operations were Published'. The text below the title says 'Operations from the Staging Area were published successfully. The Staging Area was cleaned up and it is unlocked now.'

How to Edit an Operation

What to Expect

- The system will validate information as you update sections of the Operation Profile, and provide Error and Warning messages. This is also a useful tool for exploring how to use the NOP Taxonomy Categories and Items and other optional data fields.
 - **Errors:** Required fields; file upload will not be successful until these errors are corrected.
 - **Warnings:** Issues with data quality; data can still be published even if these are not corrected.
- When you publish operations that you have edited, you can obtain a Validation report.
- *INTEGRITY* Lead and Staff users for your organization can make changes to operations, or add new operations, that you have certified organic.

Getting to the Edit Operation Profile Page

Log in to *INTEGRITY* using your USDA eAuthentication username and password.

The screenshot displays the INTEGRITY database interface. At the top, a navigation bar contains tabs: Home, Search, Reports, Operations, and Administration. A red arrow points to the 'Operations' tab. Below the navigation bar, the 'Operations' section is active, showing a sidebar with 'Published Operations' (Operations, History), 'Staging Area' (Staging Area), and 'Staging Area Actions' (Upload a File, Edit Operations). A red box highlights 'Edit Operations' in the sidebar. A red line connects this box to a callout that says 'Click Edit Operations'. Another red line connects the 'Open Staging Area' link in the 'STAGING AREA' section of the main content area to a callout that says 'On the Operations tab, click Open Staging Area'. The main content area also shows sections for 'PUBLISHED OPERATIONS' (View My Operations, View My Data History), 'REINSTATEMENT' (Reinstatement), and 'STAGING AREA' (Open Staging Area). A red circle highlights the 'Open Staging Area' link. Below the 'STAGING AREA' section, there is a note: 'Click Upload a File to start a new file upload. The file must include all the required template information.' and a button labeled 'Upload a File'.

Choose an operation from the list and click **Open** to view the Operation Profile.

Staging Area - Adding Item (Product) to Operation (0000005346)

Enter information, then click **Create**.

Certifying Agent: [NOP] Under Control of NOP
NOP Operation ID: 0000005346
Operation Name: Alawoona Enterprises

Item (Product)

Enter or verify item (product) information. All dates must be entered using Month/Day/Year format (e.g. 01/15/2015 or 1/15/2015).

NOP Certification Status: Certified **Status Effective Date:** 11/26/2015

Last Review Date: mm/dd/yyyy
Last date the operation has had a complete OSP review.

Certificate No.:

NOP Taxonomy Information

Enter or verify item (product) information. Select the Item's NOP Scope first.

* **NOP Scope:** -- Select --

Miscellaneous

Enter or verify additional information.

Acres Certified Organic: Enter Acres

NOP Taxonomy Information
Enter or verify item (product) information. Select an NOP Item Name to enter Item Varieties.

* **NOP Scope:** HANDLING

NOP Category: Other

NOP Item Name: Other

* **Other Item:**

Enter individual items as

NOP Taxonomy Information
Enter or verify item (product) information. Select Other from the drop-down list (the last entry) if you are not using the NOP Item Name.

* **NOP Scope:** HANDLING

NOP Category: Condiments and Sweeteners **Reset to Other**

NOP Item Name: Syrup **Reset to Other**

Item Varieties:

Enter individual varieties as a comma separated list. For example, if this item is "Apples," varieties could be "Fuji, Gala." Enter up to 3000 characters.

When you're finished with your edits, click the **Create** or **Save** button and the page will refresh.

Click the **Return** button to go back to the Operation Profile.

Publishing the Operation Edits

Publishing Operations will finalize the data and make the new data available on the publicly-accessible *INTEGRITY* site.

After you've published data, you can view the new information in the **Published Operations** left menu options:

- **Operations:** View the new data finalized in system
- **History:** See the history of published data

Prior to publishing, you can review the newly uploaded operation data from the **Staging Area** left menu options:

- **Operations (#):** View the list of operations in the staging area
- **Recently Modified:** See which operations were changed

Click **Publish Operations** on the confirmation page and the information in the Staging Area will be finalized in the system and made available to the public on the *INTEGRITY* website.

Staging Area - Publish Operations

When you Publish information that has been updated in the Staging Area, it is made available to the public. More information can be found under [User Resources](#).

Certifier: [NOP] Under Control of NOP
Total Operations (SA): 9
Certified Operations (SA): 8

Review data validation messages before publishing this operation information to see if any data will be modified based on the new information or to meet data quality standards. Click **Publish Operations** to finalize this data update (please wait, it might take a few minutes if a large number of operations are being updated), or use tabs on the top to navigate the system.

 **Publish Operations**  Validate Operations  Cancel

Congratulations – you've updated your list of certified operations!

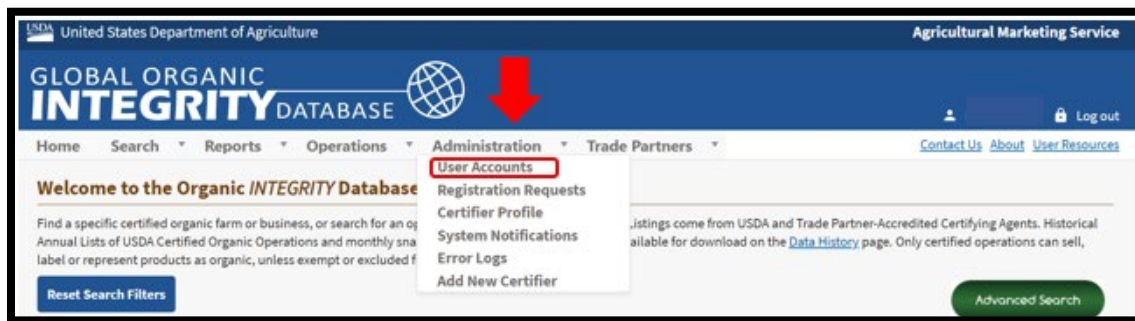

How to Manage User Accounts and Registration Requests

What to Expect

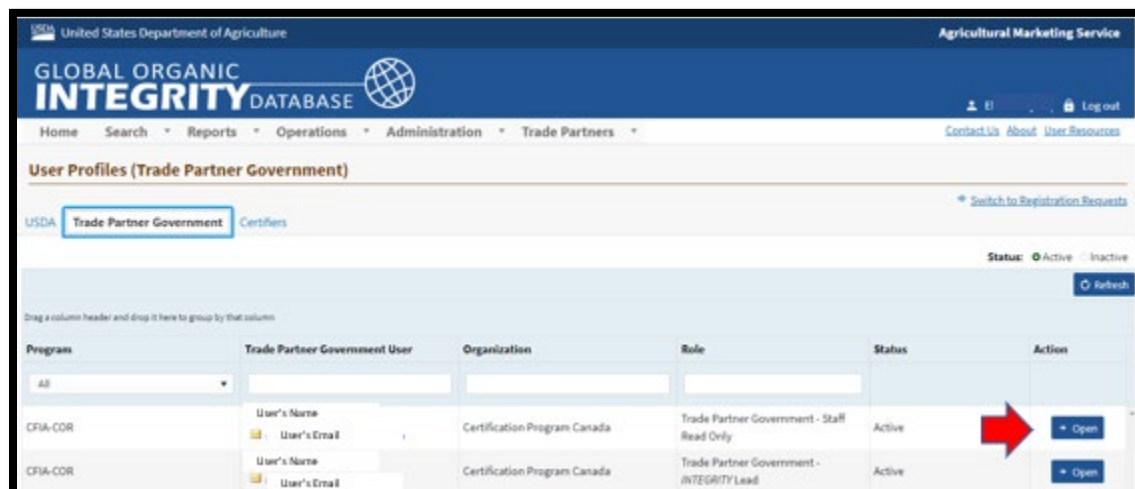

- INTEGRITY Leads can change users' status and role;
- INTEGRITY Leads approve new user registration requests;
- Accounts for users who are no longer employed by the organization must be changed to Inactive status to maintain data integrity.

Getting to the User Accounts Page

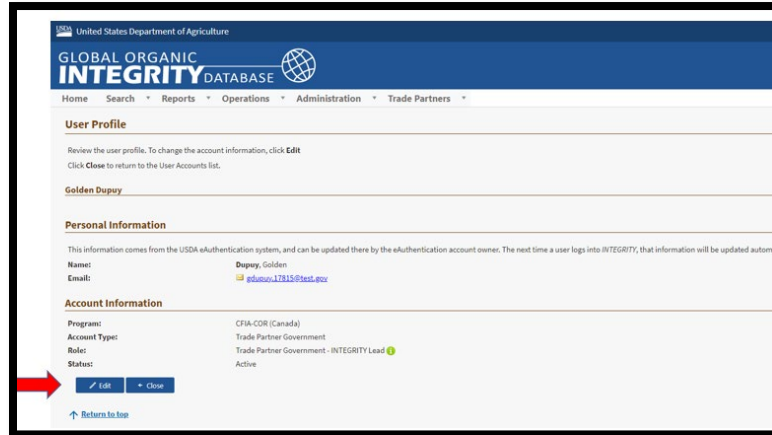

After logging into *INTEGRITY*, navigate to the **Administration Tab** and select the **User Accounts** option.

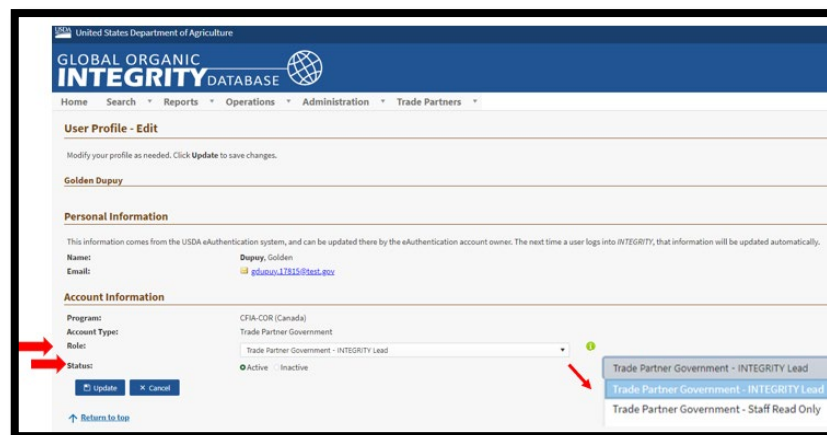

If you are a Trade Partner Government employee, you can select either the Trade Partner Government tab to manage users for your organization, or the Certifiers tab to manage users on behalf of your accredited certifying bodies (certifiers). If you are a Trade Partner Certifying Body (certifier), you can only manage users for your organization. Then, choose a user account you want to edit and click the “Open” button.

On the User Profile page, click the “Edit” button.

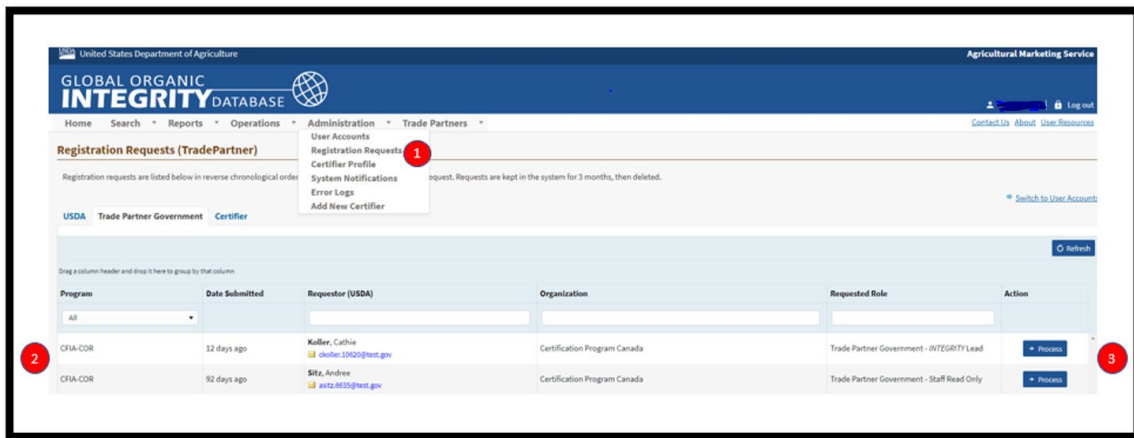

You can make the changes by selecting the relevant option from the Roles dropdown and/or switching Status with the help of radio buttons.

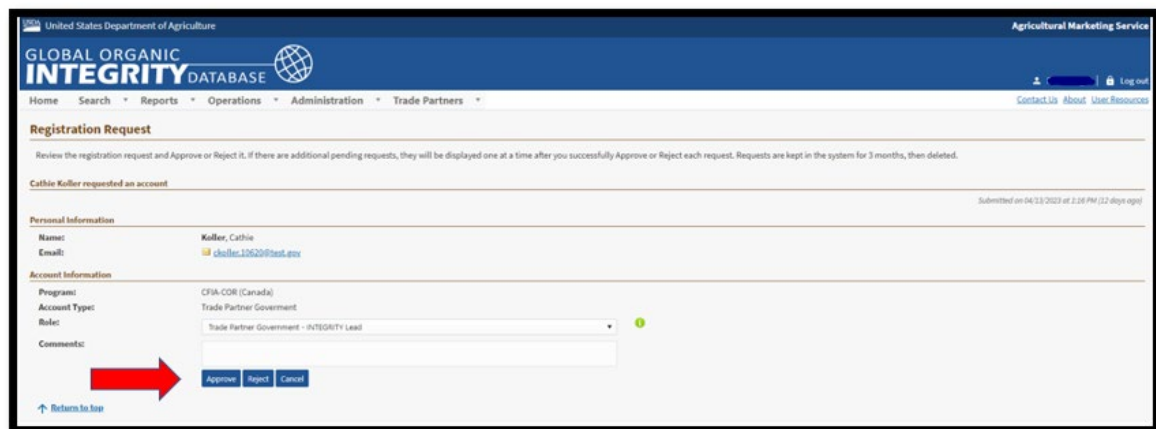

Processing Registration Requests

To start processing a registration request, select the “**Registration Requests**” option from the Administration dropdown. If you are a Trade Partner Government employee, you can select either the Trade Partner Government tab to manage registration requests for your organization, or the Certifiers tab to manage registration requests on behalf of your accredited certifying bodies (certifiers). If you are a Trade Partner Certifying Body (certifier), you can only manage registration requests for your organization. Then, choose a requestor from the table and click the “**Process**” button to get to the next screen.

On the Registration Request page, you can *Approve, Reject or Cancel* with the action buttons at the bottom of the screen.

INTEGRITY Leads should notify new users that their registration has been Approved so they can start using the system.

Registration requests are kept in the system for three months, then are removed from the system if not approved.

1. Overview

The Organic INTEGRITY database is an interactive, web-based database of certified organic operations containing reliable, quality information of value to the organic industry and public. INTEGRITY helps the National Organic Program (NOP) deter fraud by providing up-to-date and accurate information on operations certified to USDA organic standards, increasing supply chain transparency, and promoting market visibility for organic operations such as farms, processors, and other handlers of organic items.

The public site allows anyone to search for certified organic operations. A restricted site allows authorized users within Accredited Certifying Agents (Certifiers) to upload and modify data about the operations they have certified.

1.1. System Requirements

Users need a web browser to use the INTEGRITY system: <https://organic.ams.usda.gov/Integrity/>.

1.2. Types of Accounts

There are three general categories of users for INTEGRITY:

- **Public:** Anyone can search the database and get basic reports, no user account to login is necessary.
- **Certifier:** Employees of Certifiers; These users can upload, create, and modify information, and obtain certification history, for the operations they have certified organic.
- **USDA/NOP:** Employees of USDA National Organic Program. NOP uses INTEGRITY for organic program oversight.
- **Trade Partner Government:** Employees of Trade Partner Government (with USDA equivalence or recognition arrangements). Trade Partner government staff use INTEGRITY for oversight of operations exporting organic products to the U.S.

This document focuses on **Certifier** users.

1.3. Register for Certifier Account

If you are an employee of a Certifier, you can register for a *Certifier Staff* or *Certifier INTEGRITY Lead* account.

- **Certifier Staff Read only** can view operation history, generate reports. All data and functionality available to the public is also available to registered Certifier Staff Read only users.
- **Certifier Staff** users can upload or add data about businesses and products they have certified organic to the database and modify information already in the database. They can also view the certification history for all operations, and who made the changes to operation or scope status for the operations they certified organic.
- **Certifier INTEGRITY Leads** are the user account managers for employees of their organization and can approve or reject registration requests for employees of their organization. They can also change user roles and mark user accounts inactive or active.

Certifiers accredited both under the NOP and another program under a USDA trade arrangement may have staff with multiple INTEGRITY accounts. Certifier users working with multiple organic programs can use the same USDA eAuthentication/Login.gov account but must create a new INTEGRITY account for each organic program.

Follow the steps below to register for an account. The Organic INTEGRITY Database user account registration is a 2-step process:

- 1) Create a USDA eAuthentication customer account via Login.gov;
- 2) Register for an INTEGRITY certifier user account.

1.3.1. USDA Customer account via Login.gov account

- a) Go to <https://organic.ams.usda.gov/Integrity/>
- b) Select the *USDA eAuthentication* link under the Certifier Employees section.

Note: if a user already has an existing USDA eAuthentication account, they can use their eAuthentication userID and password to register for INTEGRITY.

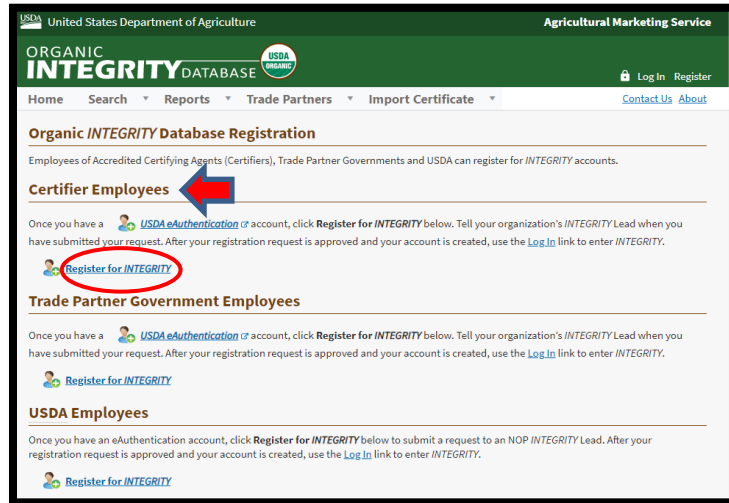

- c) Choose “Customer” account registration and follow the steps on the next screens to complete the Login.gov account setup. For additional information on creating a USDA customer account and Login.gov, go to the Public Customer Frequently Asked Questions (FAQs) at <https://www.eauth.usda.gov/eauth/b/usda/faq>.

1.3.2. Registration for INTEGRITY account

Users with a Login.gov/USDA eAuthentication account can proceed to *Register for INTEGRITY*.

- a) Click the *Register for INTEGRITY* link in the Certifier Employees section.

- b) To login to INTEGRITY, enter eAuthentication User ID and Password or click the Login.gov button, depending on the USDA customer account you are using.

Click the Login.gov button if you recently created a USDA customer account via Login.gov.

Enter your eAuth User ID and Password, if you have an existing USDA Customer eAuthentication account (created prior to September 12, 2023).

- c) Click the *Register for INTEGRITY* button to start the registration process.

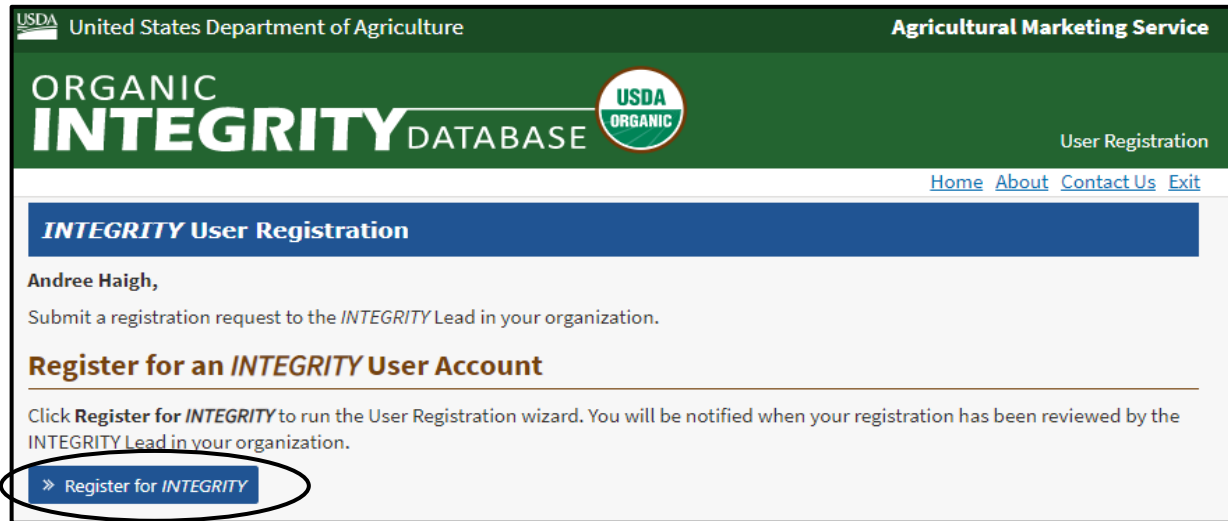

Figure 1: Registering for INTEGRITY

1. Step 1 in the wizard provides an overview; select **Next**.

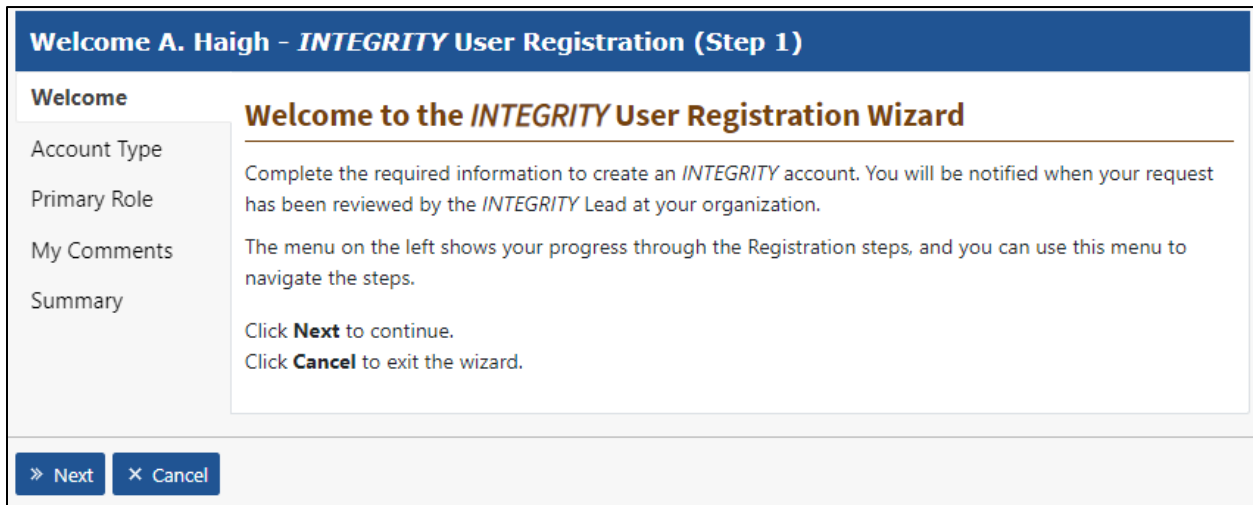

Figure 2: Registration Wizard, Step 1 - Welcome

2. Account Type: select **Certifier**

Figure 3: Registration Wizard, Step 1 – Account Type

3. Trade Partner Program: select the governing organic program that your organization is associated with Program from the dropdown;

Figure 4: Registration Wizard, Step 2 - Program

- Find your **Organization** in the list and then click Select, then **Next** to move to the next step.

Abbreviation	Organization	Action
AGC	A Great Certifier Test javascript:alert(000)	+ Select
ARG	Argencert S.A. *INACTIVE*	+ Select
AUS-QUAL	Aus-Qual Pty. Ltd.	+ Select
ACO	Australian Certified Organic	+ Select
BARO	Basin and Range Organics *INACTIVE*	+ Select
BOC	Baystate Organic Certifiers	+ Select
BIOL	Bio Latina S.A.C.	+ Select

Figure 5: Registration Wizard, Step 2 – Organization

- Role: Select either **Certifier – Staff**, **Certifier - Staff Read Only** or **Certifier – INTEGRITY Lead**; select **Next**.

Figure 6: Registration Wizard, Step 3 – Role

- After this, an *optional* comments screen is presented; if you want to provide any other information that will be seen by Leads for your organization, enter it in the box. Then select **Next**.
- A summary of your registration request will be displayed; review it for accuracy, make any changes, and select **Finish** to submit.
- The last screen tells you that your request is being processed and contains a summary of the data you submitted. Select **Edit** if you need to change anything.

Registration Request Summary

A summary of your submitted registration request is displayed below.

Enrollment Request No. 3880 for a Certifier account

Your registration request has been submitted and is being processed.

Once your organization's *INTEGRITY* Lead has reviewed your request, they will notify you. To edit a section of your registration request, click the **[Edit]** link in that specific section, or click the **Edit** button to review all sections. To withdraw the request, click **Delete**.

EditDelete

Trade Partner Program: USDA-NOP

1. User Information

Information in this section comes from the [USDA's eAuthentication system](#); you can update it there.

Figure 7: Registration Request Summary

After your registration request is submitted, an *INTEGRITY* Lead for your organization must approve it. Your *INTEGRITY* Lead will notify you when they have processed your registration request. Once your account has been approved, you will be ready to log in!

In your browser, go to <https://organic.ams.usda.gov/Integrity/> and select Log In in the upper right corner. Enter your USDA Customer Login.gov account credentials (or an eAuth account, if applicable).

1.4. Register for an additional *INTEGRITY* user profile using the same USDA eAuthentication customer account.

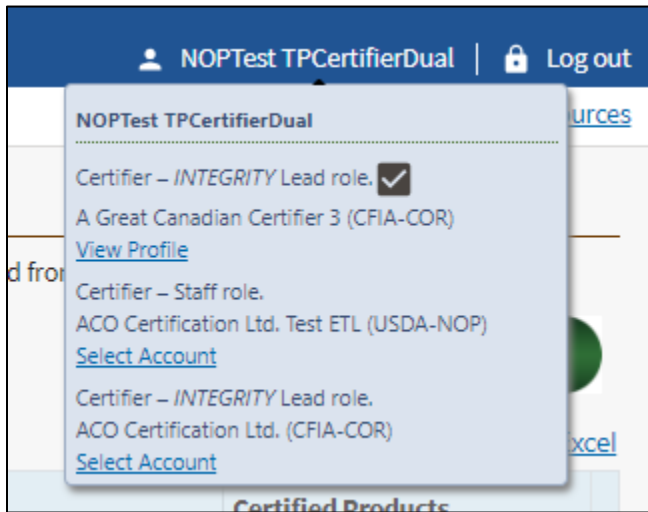

A certifier organization may be accredited under multiple trade partner programs, e.g., USDA-NOP and CFIA-COR. Once a user creates the USDA Customer account, they can add additional *INTEGRITY* accounts to their user profile.

1. Go to the *INTEGRITY* site and select *Register*.
2. Login using your USDA Customer account.
3. Follow the registration steps described in the **Section 1.3.2**.

1.5. Switch between user profiles in *INTEGRITY*.

Certifiers can be registered with multiple organizations using one of the three roles: the Certifier – *INTEGRITY*, Certifier – Staff, or Certifier – Staff Read only roles. They can switch between their accounts by selecting on their **Account name** in the upper right corner to view a list of *INTEGRITY* user accounts. The check box indicates the account that the user is currently viewing.

- The **View Profile** link opens the User Profile page.
- The **Select Account** link switches the account view.

2. *INTEGRITY*: Public Pages

All users have access to the features on the public pages. You do not have to log in to use the features in this section, and these features are available whether you are logged in or not.

2.1. General Features

Contact Us page: If you have a question, comment, or suggestion, select the Contact Us link in the upper right corner of any page. Here you'll find a link to the Frequently Asked Questions (FAQ) and our email address (INTEGRITY@usda.gov).

About page: Select the About link to find general information and links to a glossary, taxonomic classification system, and release notes.

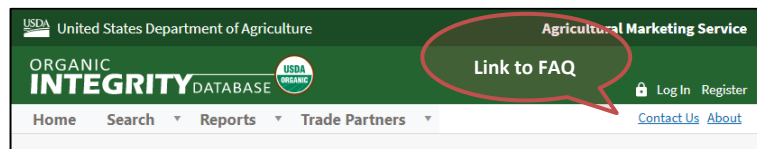

Figure 5: Contact and About Links

Arizona Valley Farming, LLC	[ASCO] Agricultural Services Certified Organic		Operation Details Contact Name: Sean Edler Address: 36503 Carters Road, Salome, AZ 85348 United States of America Phone: Email: Web URL: Operation ID: 9732967757

AvoPacific Oils, LLC	[ASCO] Agricultural Services Certified Organic		

Information Popups: anywhere you see a green “i” icon, let your mouse hover over it to view summary information.

Figure 6: Information Icon (i) and Popup Info Box

2.2. Home Tab

The Home tab of the web application contains basic filters that you can use to quickly narrow down the operation list. Using multiple filters generally narrows down the results more – results will match all the filters you have set.

2.2.1. Quick Search/Filter

Use the filters on the Home tab to narrow down the list of operations. Filter on multiple columns to continue narrowing down.

Certifier Filter

At the top of the list, select an organization from the *Certifier* dropdown list (Figure 9). When this filter is applied, the resulting list only includes operations that were issued an organic certificate by that Certifier.

Selection Lists: **Status** and **Country** fields

- To limit the list to a specific Status and/or Country, choose from the drop-down selection list.
- You may select only one value at a time in each column.
- To reset, choose **All** from the selection list box(es) or select Reset beside the Certifier filter.

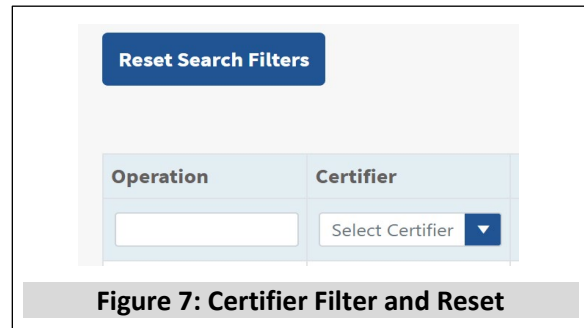

Figure 7: Certifier Filter and Reset

Text Filter Boxes

The other columns have a free-form text box for filtering. Enter the value you want to search for: for example, to find all operations in Utah, type **Utah** in the State/Province filter box, and press Enter.

- Filter boxes are *not* case-sensitive; UTAH and Utah will return the same results.
- Filters find partial words. For example, enter the filter value **black** in *Certified Products* to find operations that produce **Black Beans**, **Blackberries**, **Peas (black-eyed)**, and so on.
- For *Operation*, *City*, and *State/Province* you can only enter one word or phrase at a time. The system will search on the entire entry, not individual words.

- For *Certified Products*, if you enter multiple words separated by a space or comma, the system will search for any operation with at least one of the words in its product list. For example, enter **beans berries** to find operations that produce **beans** or **berries**, or **both**.
- To reset all filters, select Reset (located just above the table), or delete the value in a single filter box and press Enter to remove just one filter.

2.2.2. Export to Excel

In several places, you will see a link to **Export to Excel** (Home tab, Search tab (advanced search)). Select this link to export the list currently displayed. If you filter or execute any search first, only the filtered data/search results are exported.

Please note that if you export data from a search results page, it is a limited data set, and is NOT exported in the data submission template format. See section 3.1.2 for more information about uploading data to the system.

2.2.3. View Operation Info

Let your mouse hover on the green “i” icon next to an operation name; an information box opens. You can also select on the operation name to open its [Operation Profile](#).

2.3. Search Tab: Advanced Search

To open advanced search features, select the **Search** tab or select the *Advanced Search* link on the Home page. The Advanced Search shows groups of filters on the left side of the page, and provides more options than the simple Home page filters.

*PLEASE NOTE: when this page first opens, it shows a list of all published **Certified** operations. If you want to see other operations (such as *Suspended*, *Revoked*, etc.), you must select the appropriate *Status* checkbox(es) in *Operation Status*.*

For example, the advanced search allows you to search more fields than the simple filters, and in some cases, enter more than one value in a single search box.

2.3.1. The Search Pane

Use the pane on the left side of the Search window (shown in Figure 10) to apply one or more filters. Enter criteria, or select checkboxes, then select **Search**.

Each section in the search pane can be collapsed or expanded – select the small triangle icon to toggle the section display. Expanding or collapsing a search section does NOT modify the search results. In Figure 10, *Certificate Information*, *Operation Status*, and *Scopes and Products* are collapsed.

Some fields have **auto-complete**: as you begin typing, the application displays matching items. When you see the one you want, select to select it.

For example, type **north** in the State/Province field, and the system shows matching entries (Northern Mariana Islands, North Dakota, North Carolina, etc.).

See the [Search Summary](#) area at the top of the page to keep track of what filters are in place, even if sections in the search pane are collapsed.

In general, adding search terms in more than one field returns fewer results; results will match all search terms. However, in search boxes that allow multiple values (State/Province and Certified Products), search results only need to match one of the values.

Select **Reset** to return all search criteria back to their default settings.

The screenshot displays the 'Advanced Operation Search' interface. It features a top bar with 'Search' and 'Reset' buttons. Below this, several search criteria sections are listed, each with a collapse/expand arrow: 'Certifier', 'Operation Information', 'Certificate Information', 'Operation Status', 'Scopes and Products', and 'Services and Business Types'. The 'Operation Information' section is expanded, showing fields for 'Operation Name (Incl Other & Former)', 'Structured Name Search' (checked), 'NOP Operation ID', 'Certifier Client ID', 'Contact Last Name', 'City', 'State/Province' (with a dropdown menu), 'County' (with a dropdown menu), 'ZIP/Postal Code', and 'Country/Territory' (with a dropdown menu). The 'Certificate Information' section is collapsed. The 'Operation Status' section is expanded, showing a dropdown menu with a '1' icon. The 'Scopes and Products' section is collapsed. The 'Services and Business Types' section is collapsed. At the bottom of the pane, there are 'Search' and 'Reset' buttons.

Figure 8: Search Criteria Pane

Search Tips

- If the results don't include an operation you expected to see, check all criteria settings. They may be too limited.
- Too many results? Try adding search criteria in more fields to narrow down the list.
- Remember that the default search setting for Operation Status is for certified operations only.
- Send questions about how to use the Organic INTEGRITY Database, and/or any system errors to INTEGRITY@ams.usda.gov.

Table 1: Advanced Search Fields

To Search By:	Do This:
Certifier	Choose an organization from the dropdown list. You may begin typing the name or abbreviation to see possible matches.
Operation Information	
Operation Name	Enter the name (or part of the name) you want to search for. This field accepts only a single operation name. The name may be more than one word, such as <i>Suzie's Farm</i> .
NOP Operation ID	Enter the full 10 digit ID . This field accepts only a single value; partial values are not accepted.
Certifier Client ID	Enter the full client ID . This field accepts only a single value; partial value are not accepted. These IDs are assigned by Certifiers and may contain numeric or alphanumeric values.
Contact Name	Enter a contact name; it is OK to enter just a last name. If you search for both first and last name, such as <i>James Smith</i> , names containing either name will be found, so the results will include James Smith, John Smith, John James, Smith Gordon, and so on.
Street Address	Enter a full or partial street address. For example, a search for <i>125 Main</i> would find 125 Main St and 125 Main Ave. A search for just <i>main</i> will find all street addresses containing 'main.'
City	Enter the city (or part of the city) you want to search for. This field accepts only a single city name. A city name can be more than one word, such as <i>San Diego</i> .

To Search By:	Do This:
State/Province	Enter one <i>or more</i> states or provinces in the box. For US States, begin typing the full state name or 2-letter US state abbreviation. Auto-complete suggestions are provided; when you see the one you want, select it from the list. For non-US locations, enter the full state or province name, not the abbreviation. For example, enter <i>Ontario</i> (not <i>ONT</i>) for Ontario Canada
ZIP/Postal Code	Enter the ZIP or Postal code (or part of the code) you want to search for. This field accepts only a single ZIP/Postal Code; spaces are acceptable, for example <i>LS18 5PU</i> is a valid postal code in the UK.
Country/Territory	Select the boxes to check the countries and territories to search for; select Check All at the top of the list to select all entries. If all items are checked, de-select the Check All entry and then select just the item(s) you want.
Certificate Information Certificate Number	Enter the full number of a Certificate number issued by a Certifier. These numbers can take many forms, and may include numbers, letters, dashes or other characters.
Operation Status Operation Certification Status	Select the boxes to check the values to search for; select Check All at the top of the list to select all entries. If all items are checked, de-select the Check All entry and then select just the item(s) you want.
Scopes and Products	
Scope	Select the boxes to check the values to search for; select Check All at the top of the list to select all entries. If all items are checked, de-select the Check All entry and then select just the item(s) you want.

To Search By:	Do This:
Scope Status	Scope Status works together with the Scope selection above. Select the boxes to check the Scope Status(es) to search for, within the Scope(s) selected above. If all items are checked, de-select the Check All entry and then select just the item(s) you want. In Scope Status, if Check All is selected, or Not Certified/Specified is selected, the resulting list will NOT be filtered by the Scope selected above.
Certified Products	Enter one <i>or more</i> products in the box. Separate product names by the Enter key. Operations that are certified for <i>at least one product</i> in the list will be displayed in the default results.

2.3.2. Search Summary

The Summary area at the top of the page shows what filters are currently applied. As you add or change search terms and execute the new searches, this area updates. It's a quick view of your filters, even if you have collapsed the search panes at the left side of the window.

Search Summary 💡 Search Tips	
State/Province: OR	Operation Status: Certified
Scope: Crops, Handling, Livestock, Wild Crops	Scope Status: Certified, Surrendered, Suspended, Not Certified/Specified

Figure 9: Search Summary – Filters Applied

2.3.3. Clearing Searches

- **Text boxes:** delete the search term, and press Enter.
- **Checkboxes:** un-check the box(es) to remove them from the search; select **Check All** to include all values.
- **State/Province** and **Certified Products:** these fields allow multiple search terms; each term appears on a button with an X (see example below). Select the X to remove the search term.

State/Province

ID-Idaho X

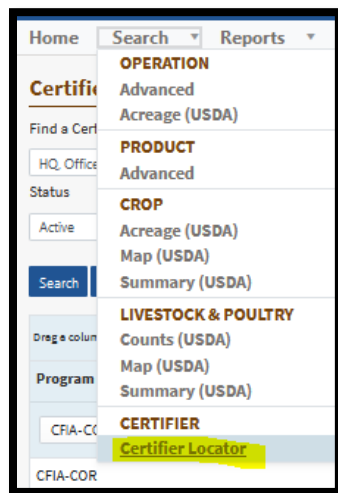

OR-Oregon X

X

To **reset** ALL searches back to the default values, select the **Reset** button at the top or bottom of the search pane.

2.4. Search Tab: Certifier Locator

To open Certifier Locator, click the *Search* tab and then click *Certifier Locator*.

When this page first opens, it shows a list of all Certifiers under the Program the user profile is associated with. The user can filter by changing the Program filter to list certifiers for that program. They can further filter by available fields – such as *Find a Certifier with, Country, State, Province*.

On the **Product Details** tab (Figure 13), you will find a list of products, organized by scope. Choose a Scope from the dropdown list to view products in one scope only; set scope to **Any** to view products for all scopes ('Any' is the default setting).

2.7. Trade Partners Tab

Click on the Trade Partners tab to select a Trade Partner organic program and operations certified to that program who may export organic product to the U.S.

3. INTEGRITY: Certifier Operation Management

When you log in (use the Log In link in upper right corner of the page) you will enter the INTEGRITY Plus site. Notice near the top of the screen, there are additional tabs: **Operations** and **Administration**. All of the public functionality is still available here, but this provides access to features for Certifiers.

In addition to the Contact Us and About links a link to User Resources appears at the top of the screen when you are logged in.

User Resources page: Here you can find training presentations, templates for uploading data, tip sheets, Frequently Asked Questions for Certifier users, and other useful items.

Menus: All of the menus at the top of INTEGRITY screens are always available. A left-panel menu opens when you are viewing any operations page, such as My Operations. Some items on the left panel menu change depending on current status. For example, when you are viewing the locked [Staging Area](#) (meaning that a file is uploaded and ready for publishing, or operations are being edited using the web-based Operation Profile form), *Publish* appears as an action on the left panel.

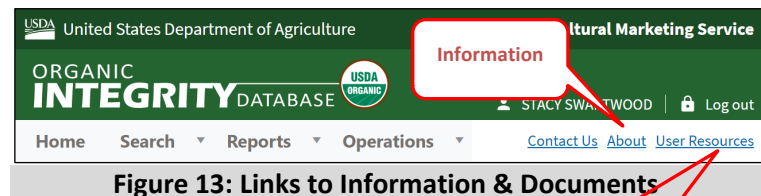

Figure 13: Links to Information & Documents

3.1. Upload Operation Data to INTEGRITY

Each Certifier can upload and modify data about the operations they certify as organic. The upload takes two general steps:

1. **Uploading** runs validation rules, and places the uploaded data in the *Staging Area*, a temporary holding place from which you can continue to make changes.
2. **Publishing** finalizes validated data in the database, making it available to the public.

To upload data, you must use the template provided through the web site (see the 'User Resources' link at the top of the screen). This is an Excel template that contains macros for data validation, indicates which fields are required, and shows the proper format for each field.

NOTE: The first tab in the template contains detailed instructions and notes for each field.

3.1.1. Initial Upload to INTEGRITY

The **first** data upload from a certifier will create new operation records in the system and should include both Operation and Item (product) level data. Follow the instructions and tips in the *How to Upload a File* tip sheet.

Once the initial upload of data is completed, you can use the same Excel template to provide updates. On subsequent uploads, only **modified** data is changed in the database (not replacing all old data). You can also use [Add Operation](#) and [Edit Operations](#) actions to directly edit information in the database using the web-based form.

3.1.2. Preparing Information for Upload

1. Enter your operation and item data in the Template for Certified Operations Data Submission, following the instructions provided on the first tab in the template. **Your data should start on row 5** in the Operation Level and Item Level tabs in the spreadsheet, overwriting the sample data. There are several ways you can go about entering your information:
 - a. Export existing data from INTEGRITY into the template (**Operations > Open Staging Area > Edit Operations**, then select Export to Excel).

It's important to export from the Staging Area, NOT from the search page. The data exported from the Staging Area is in the correct template format, and is the complete set of data for your organization.

- b. Export data from your certifier system into the template.
 - c. Download the template, as noted above, and enter data into it manually.
2. If you have exported data, make any necessary changes/additions to the data in the template.
3. Make sure all required fields are completed. See detailed instructions on the first tab in the template.
4. SAVE or SAVE AS an Excel workbook (.xlsm, .xlsx or .xls). The file must be under 12MB in size; if the file is too big, split it into two (or more) separate files and upload one at a time.

3.1.3. The Upload and Publish Process

General Notes on Uploads

- Only one file can be uploaded at a time.
- You must *Publish* or *Clean Up & Unlock* the staging area before another file can be uploaded; it automatically locks when you upload a file. Notice how the left panel menu changes to indicate locked/unlocked status of Staging Area. The options to *Publish* and *Clean Up & Unlock* appear only when the Staging Area is locked.
- The columns in the template can be re-arranged, but they ALL have to be present for the upload

to succeed.

- Remember to PUBLISH after completing the file upload. Updates are not available in the database until you PUBLISH.

To Upload and Publish

1. In the INTEGRITY application, go to **Operations > Open Staging Area** (or you can select **View My Operations**).
2. Select **Upload a File**. (In the Staging Area, this appears in the main section of the screen as well as on left panel.) The screen shown in Figure 16 opens.

Upload a File

The Staging Area is an intermediate location used to publish information that has been updated in the Staging Area, it is made available to the public. Only authorized users can publish information to the staging area.

[abc] Test1

Your Certifier Organization will appear here

Click **Select** to browse for a template file or **Upload File** to start the upload. Verify whether the file contains only operation information or both operation and item information, then click **Upload File** to start the upload. For more information on the file format, see the information available under [User Resources](#).

Select an Excel file

1. Select a File to Upload

Select a Microsoft Excel file (*.xlsm, *.xlsx or *.xls) that includes all required information and is less than **12 Megabytes (MB)**. You can download the current version of the [template](#) to get started.

Choose File No file chosen

2. *Specify the Content of the File

☒ **File Contains Operation and Item (Product) Level Information**
 Select this option to update operation level information only. Associated items (if any) will be copied from the Public Area and can be changed if you Edit Operations after completing the file upload.

☐ **File Contains Operation Level Information Only**
 Select this option to update operation level information only. Associated items (if any) will be copied from the Public Area and can be changed if you Edit Operations after completing the file upload.

☐ **Publish Immediately**
 Indicate if you want to publish data immediately. Select this option if you want to ignore any warnings/errors and publish data immediately. Operations with validation errors will be ignored - existing operations will not be updated and new operations will not be added to the data.

Specify if file has Operation data only, or Op and Item

3. Upload File and Process Operations

Ready to upload the file? Click **Upload File** to start.

Start the Upload

Upload File **Cancel**

Figure 14: Upload a File

3. Select the **Select** button; an Open File dialog opens; choose the .xlsm, .xlsx or .xls file you want to upload.

The Upload page opens, with the filename you selected shown under the first step.

4. Specify Content. In this step, select the option that applies to your file: **Operation and Item** level, or **Operation** data only. If you select *Operations Only*, any Item (product) data that was previously published for the operations in the file will be retained unless the operation certification status is changed to Revoked. All scopes and items for Revoked operations are deleted. (The *Publish Immediately* option pushes data directly to the database, but **ONLY** if no errors are found.)
5. Select **Upload File**.

The system runs validations and produces a report. If there are errors, the upload will fail, and you must fix the problems and attempt the upload again. Validations are based on required fields. There may also be warnings relating to data quality, but data can still be published with

warnings. INTEGRITY runs through validations on Operation level data first; when all Operation level errors are corrected, then it runs Item level validation. This means that it could take a couple of attempts, particularly on your first upload, to complete the process.

While the validations are running, you will see the screen shown in Figure 17:

Figure 15: Upload – Validations Running

When the uploaded file passes validations and there are no errors, the data is in the Staging Area. The Staging Area automatically locks when a file is uploaded. At this point, you can perform one of the following actions:

- Publish Operations.
- Validate Operations (re-run validation rules).
- Export to File. If you want to make revisions before publishing the uploaded file, export it here. This exports as a macro-enabled file (.xlsm), like the original template. Make your changes and save the file. You must Clean Up & Unlock, and then re-upload the revised file. This applies even if you named the edited file the same name as before; the first version is already in the Staging Area, so you must re-upload to replace it.
- Clean Up & Unlock to cancel this upload. This action removes the file from the staging area, and no changes are made to the database.
- [Edit the uploaded operations](#) using the web-based Operation Profile form.

Note: you can also get to the Staging Area from the Operations menu.

6. **Publish Operations.** This step finalizes the data in the uploaded file in the INTEGRITY database. You will be able to see the changes right away; use filters or the Search page to look for any operation you uploaded.

One final screen opens (Figure 18), giving you the opportunity to verify this action (or Cancel) before making data available to the public. If you're sure, select **Publish Operations**.

IMPORTANT! Remember to **PUBLISH** to make your uploaded data available in the database, and viewable by other users in the web application.

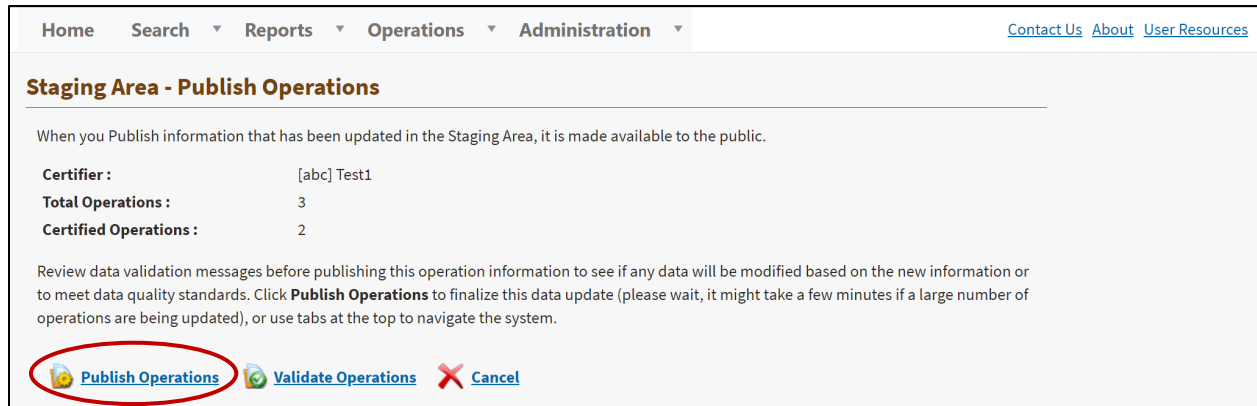

Figure 16: Staging Area – Publish Operations

Once data is published, the Staging Area is automatically cleared and unlocked. It is ready for the next upload or edit.

3.1.4. Errors & Validation Messages

If there are any errors in your uploaded file, error messages will display on the Staging Area page (which opens automatically), shown in Figure 19. Notice that the Staging Area is now *locked*, because a file has been uploaded. You must either fix the errors and attempt the upload again, or choose **Clean Up & Unlock** to remove the uploaded file.

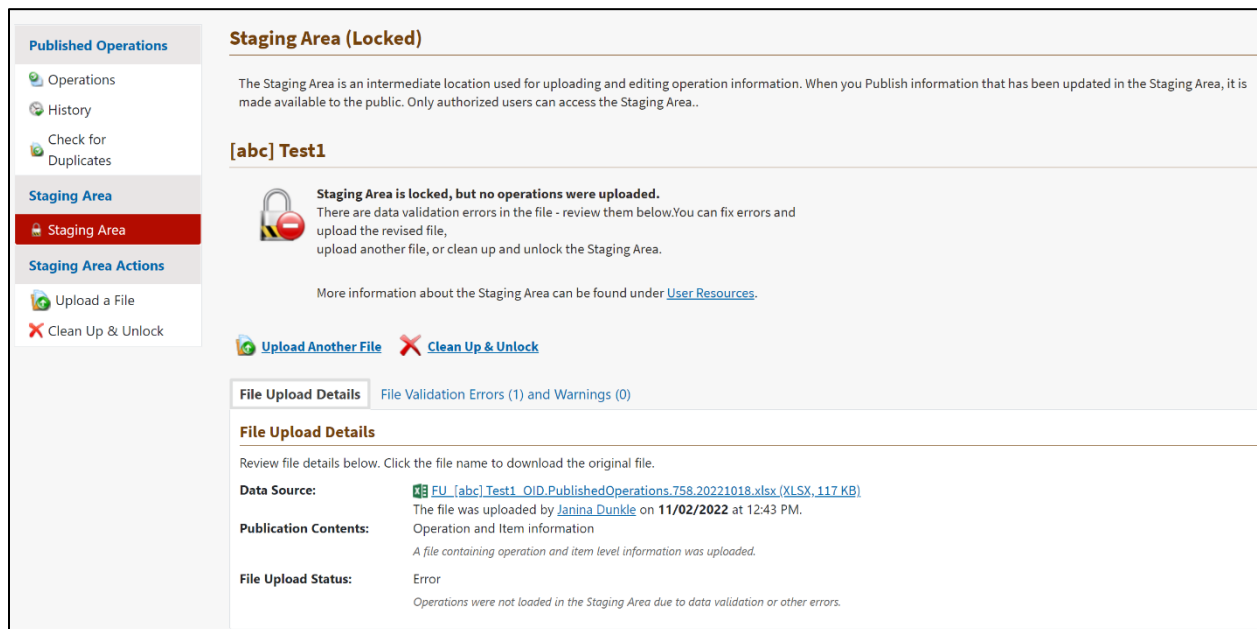

Figure 17: Uploaded File with Errors

Select the **File Validation Messages** tab to view details about the errors. This will tell you exactly where (by row and cell) the uploaded file has problems (Figure 20).

File Validation Errors and Warnings

The following validation errors were found. Validation errors prevented operation and item level information from being loaded into the Staging Area. Click **Export File** below to download a version of the file you submitted with embedded validation messages (new Errors or Warnings worksheet tabs will be inserted).

Show Messages: ☒ Errors (1) ☐ Warnings (0) ☐ All (1) [Export to File](#)

Type	Worksheet	Row	Message
Error	Item Level	6	Cell I6 (column "Other Item") Other Item list cannot be specified for not "Other" taxonomy Item.

10 items per page 1 - 1 of 1 items

Figure 18: Error Detail for Uploaded File

To Make Corrections

1. Open the Excel file you just attempted to upload.
OR choose Export to File to create a new Excel file containing the data you just attempted to upload. This exports as a macro-enabled file, like the original template.
2. Make the necessary changes and save the Excel file.
3. In the Staging Area, choose Upload a File, and repeat the upload of the revised file.
4. Select Publish Operations.

You may have to repeat the correction process more than once if new errors are found. Validations are run on Operation level data first. After that data is error free, then the Item level validations run. This means you may have to fix Operation data, and then on the next upload attempt, there may be additional errors found in Item level data. Keep editing and uploading until all errors are resolved.

In the example in Figure 21, there are no errors:

[abc] Test1

The Staging Area contains operations from the uploaded file.

Total Operations: 3
Certified: 2

Use options below or use menu items on the left (under the Staging Area and Actions sections) to review, edit, add, validate, or publish operations.

More information about the Staging Area can be found under [User Resources](#).

[Publish Operations](#) [Validate Operations](#) [Export to File](#) [Clean Up & Unlock](#)

File Validation Messages (Empty)

File Validation Errors and Warnings

No file validation errors or warnings were found or reported. Click **Validate Operations** above or use the menu item on the left to validate operations in the Staging Area.

Figure 19: Validation Messages Tab in Staging Area

3.2. Edit Operations

In addition to uploading information from a file, you can use a web-based Operation Profile form to make changes to your published data, including adding new operations and items, and editing existing operations and items.

Editing involves two general parts:

1. **Edit** (add or update) operations and item level data. See detailed instructions throughout this section.
2. **Publish** to finalize data in the database, making it available to the public.

To edit operation and item level data, use one of these methods to get to the web-based form:

- On left-panel menu, select **Edit Operations**
- **Operations** menu > **Open Staging Area**, select the Edit Operations link.

Both of these options are available only if the Staging Area is unlocked (there cannot be an uploaded file awaiting publication). See Figure 22.

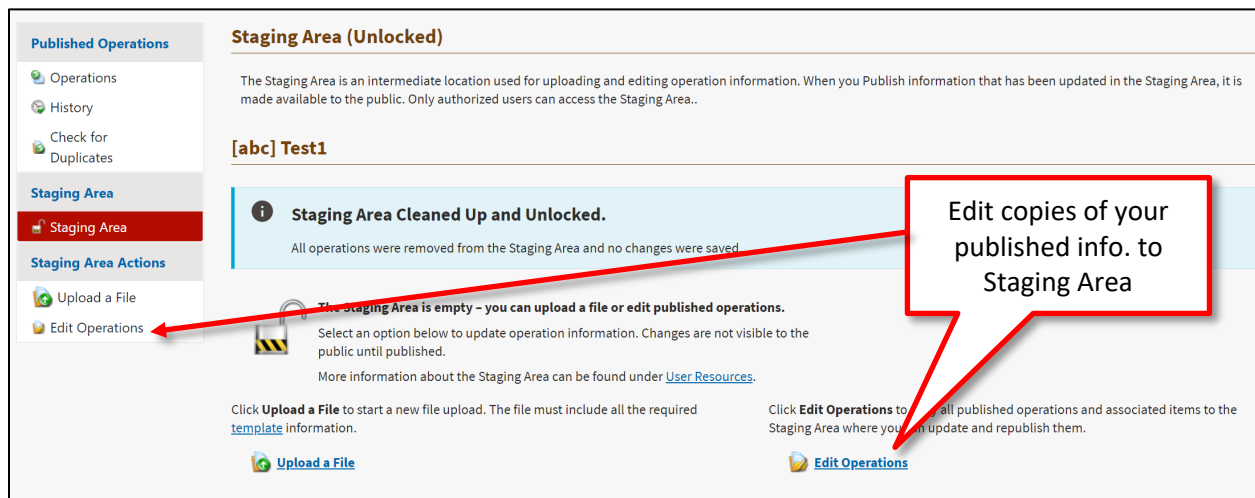

Figure 20: Edit Operations Links on Unlocked Staging Area Screen

- If you have already uploaded a file (but not published), the Staging Area is **locked** and the Edit option does not appear. Instead, select the Operations link in the left panel, under the heading *Staging Area* (see Figure 23).

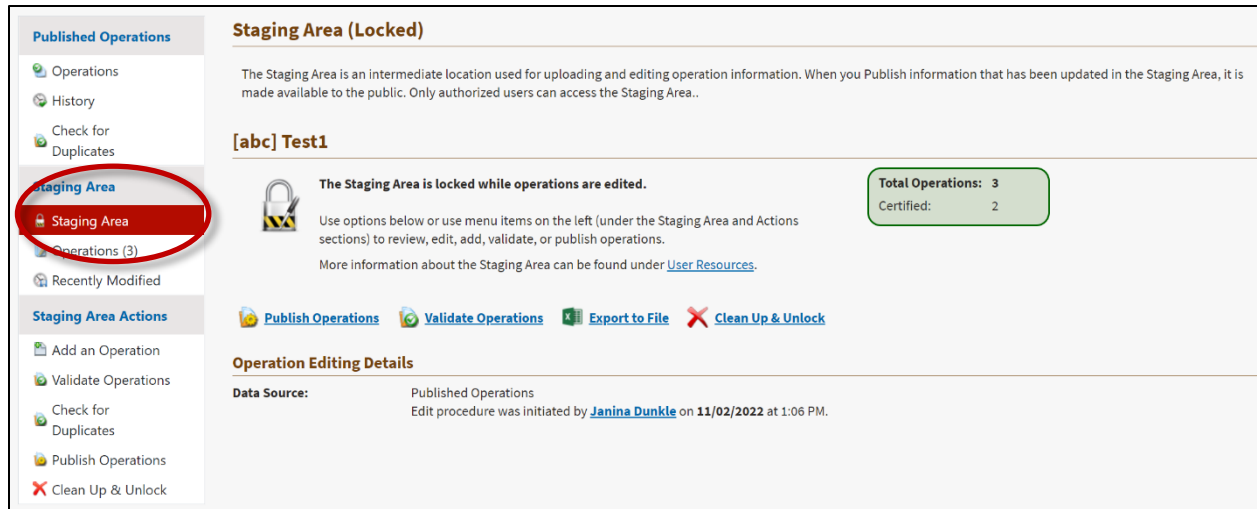

Figure 21: Edit Operations after Uploading a File (Staging Area Locked)

When you Edit Operations, the system actually copies ALL of your published operations and items to the Staging Area. **After making changes, you will Update (save) and Publish**, finalizing the changes in the database.

INTEGRITY shows a list of your published operations; there are options for *Open* and *Delete* on each row. Open an operation to view and change its information, including associated item (product) level information.

This list can be filtered using the filter box on the Operation Name column and/or the Status (choose from list). Refresh clears the filters and reloads data from the database. You can Add a new operation here – select the link just above the Operation Name column (also see Section 3.2.2).

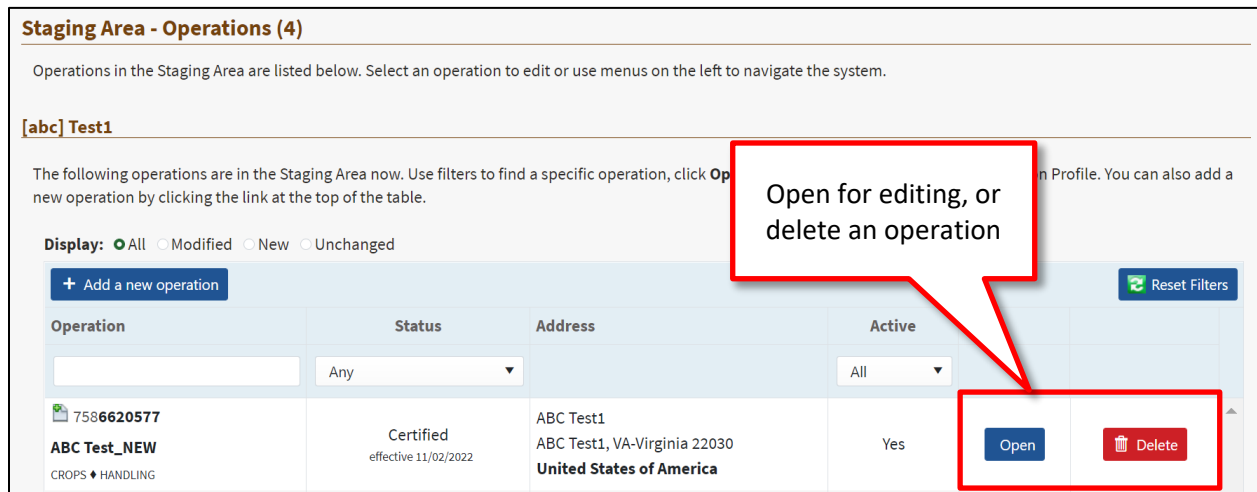

Figure 22: Operations in Staging Area for Editing

The small numbers next to each scope (CROPS, HANDLING, etc.) indicate the number of Items certified for that scope if they have been entered individually. The example in Figure 25 has two items for crops.

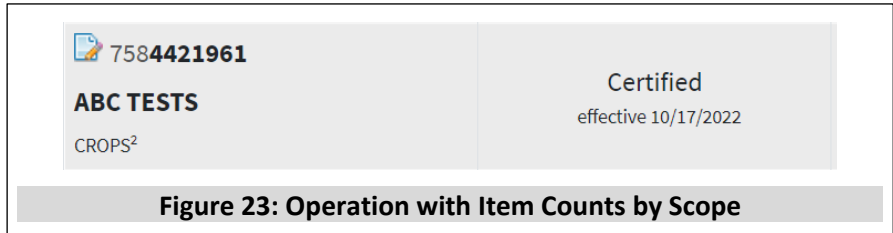

Figure 23: Operation with Item Counts by Scope

3.2.1. Edit an Existing Operation and its Items

Open an operation from the Staging Area (see instructions above). The Operation Profile opens, with information organized on two tabs, Operation Details (Figure 26) and Product Details (Figure 27).

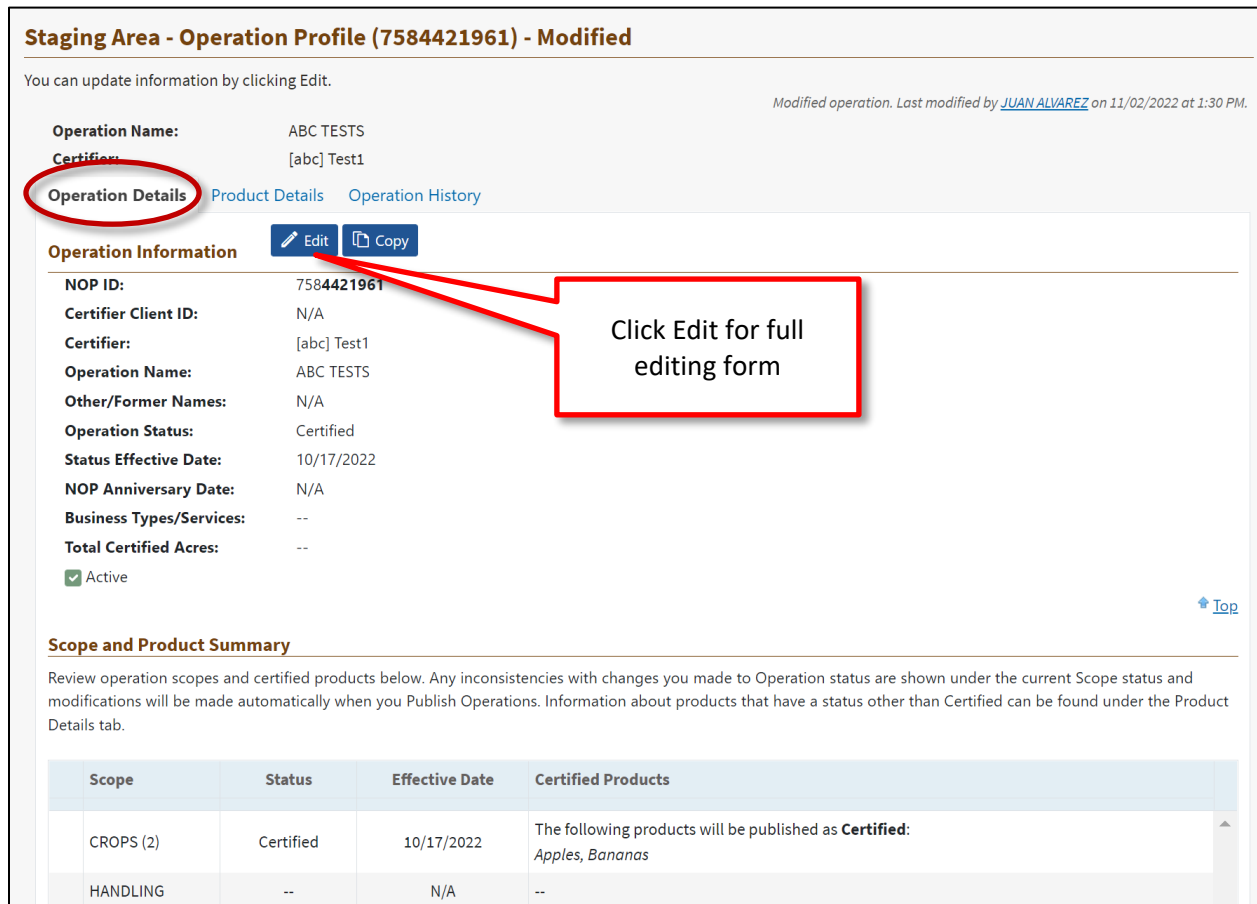

Figure 24: Edit an Operation – Operation Details Tab

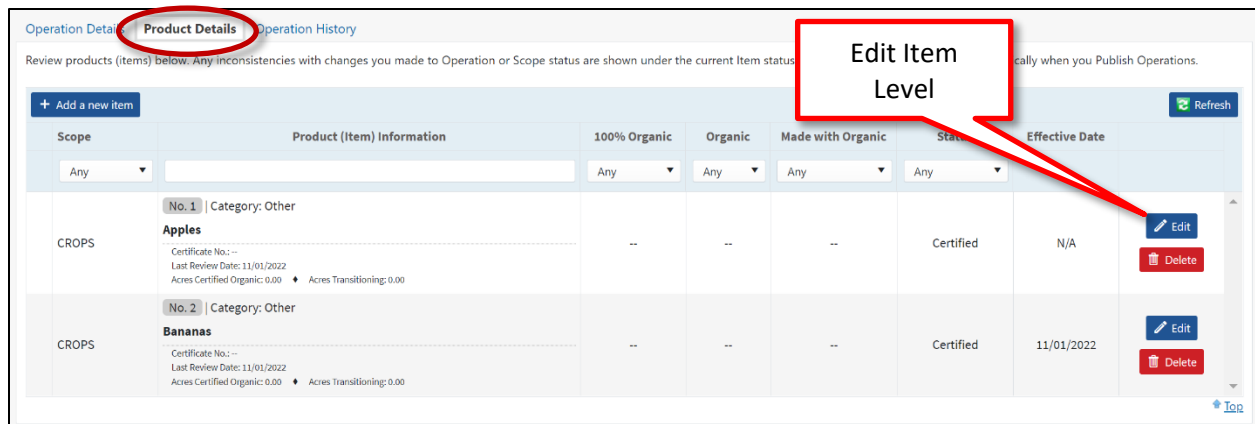

Figure 25: Edit an Operation – Product Details Tab

Editing Operation level data:

- Select the **Edit** link on a section in the Operation Details tab (see Figure 26). This method is quick if you have just a couple of minor changes. It opens just that section in an editing window. Make your changes and select Update to save; if successful, a message appears in a green block at the top of the screen.

Edit Operation (Using Editing Forms)

Open the editing form by selecting *Edit Operation* from the blue bar near the top of the Staging Area screen (see Figure 26 and Figure 27).

This set of buttons appears at the bottom of several editing pages:

Figure 26: Editing Form Buttons

- **Save:** saves the current changes
- **Create:** shown only when you are adding a new operation or item; this saves the new data
- **Add a new operation:** opens a form for entering all operation level data (appears only when editing an operation)
- **Add a new Item:** opens a form for entering all item level data (appears only when editing an item)
- **Copy:** copies basic information from the current operation or product, and opens a form for additional data entry for a new operation or product
- **Delete:** deletes the currently displayed operation or item from the Staging Area. This function only works at the Operation Level for operations that have not been previously published – it will not delete operations from the database.
- **Return:** goes back to the operation profile in the Staging Area; if you have NOT selected Update, your changes are lost when you Return
- **Add an Item:** adds a new item to the operation you are editing; (appears only when editing an

operation)

Staging Area - Edit the Operation Level Information (7584421961)

Modify information as needed, then click **Save**.

[\[Operation Information\]](#) ♦ [\[Scope Summary\]](#) ♦ [\[Contact Information\]](#)

Enter or verify scope information. If a scope status is not selected, it will be set based on the operation and item statuses. All dates must be entered using

Figure 27: Editing Form – Operation Level Information

General Instructions for Using Forms – Saving and Publishing

1. Make any desired changes in the form, in one or more sections.
2. When you are finished, select **Update** or **Create** at the bottom of the page (Figure 28) to save the changes.
3. Select **Return** to go back to the Operation Profile page.
4. When you have finished making updates and additions, select **Publish Operations** from the left-panel menu. Like publishing an uploaded file, INTEGRITY presents one last screen, Staging Area – Publish Operations (see Figure 18), in which you can run validation rules, cancel the updates, or continue with publishing. When you select Publish Operations here, the information is written to the database and made available to the public.

3.2.2. Add a New Operation

There are several ways to get to a New Operation form:

- From the Staging Area, select Edit Operations, then **+ Add a new Operation** just above the Operation Name column (see Figure 24)

- On an Operation Profile form in the Staging Area, **Add Another Operation** link in the blue bar at the top of the screen (Figure 26 and Figure 27)
- On an Operation Profile form in the Staging Area, select the **Add Operation** button (at the bottom of the screen, Figure 28)
- Copy an existing operation, and then edit the details if there is one that is similar to the operation you want to add (see next section)

Any of these methods opens a new Operation Profile form, similar to the one in Figure 30. Follow the instructions on the screen for each field.

When you are finished with Operation level information, you can continue adding operations or add items, using the buttons (Figure 28) at the bottom of the page. Then follow the steps for [saving and publishing](#) the data in the form.

Staging Area - Add a New Operation

Enter information, then click **Create**.

[\[Operation Information\]](#) ♦ [Scope Summary](#) ♦ [Contact Information](#)

Operation Information

Enter or verify operation information. All dates must be entered using Month/Day/Year format (e.g. 01/15/2015 or 1/15/2015).

Certifier: [abc] Test1

NOP ID: *

Enter a unique 10-digit value (starting with 973) or enter g, generate or auto to generate the ID automatically.

Client Operation ID:

Client Operation ID is an operation identifier used by...

Operation Name: *

Operation Other/Former Names:

DBA or Other names that the operation is doing or has done business as.

Operation Status: * --Select-- **Status Effective Date: ***

NOP Anniversary Date:

Business Types/Services:

Total Certified Acres:

If provided, Total Certified Acres must be a positive number.

Additional Info:

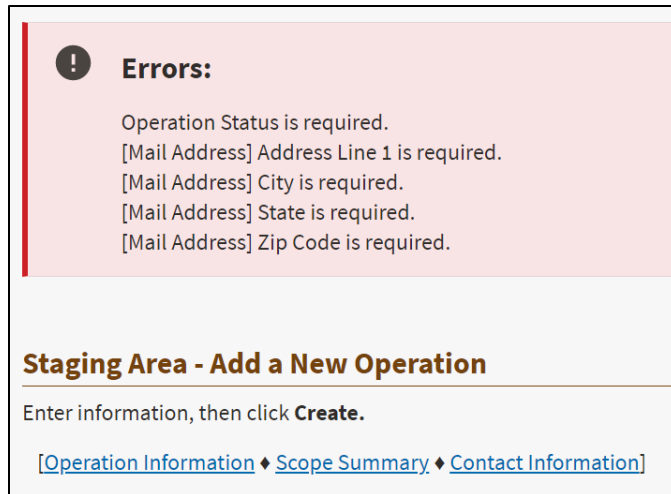

Enter up to 4000 characters.

Callouts:

- Your organization name will autofill here (points to Certifier field)
- Your organization's 3-digit ID prefix appears here. 'Generate' assigns an ID automatically (points to NOP ID field)
- Additional fields may appear, depending on what you select. (points to Business Types/Services dropdown)

Figure 28: Add New Operation Form

If there are any errors on your form, such as missing data in required fields, INTEGRITY will display them at the top of the page (Figure 31). The new operation cannot be created until all errors are resolved.

Errors:

- Operation Status is required.
- [Mail Address] Address Line 1 is required.
- [Mail Address] City is required.
- [Mail Address] State is required.
- [Mail Address] Zip Code is required.

Staging Area - Add a New Operation

Enter information, then click **Create**.

[\[Operation Information\]](#) ♦ [\[Scope Summary\]](#) ♦ [\[Contact Information\]](#)

Figure 29: Add New Operation – Error Messages

A success message displays at the top of the screen when the Create action is completed, and the new operation is added to the data in the Staging Area.

3.2.3. Copy an Operation

When you are viewing an Operation Profile in the Staging Area, the Copy option is another way to create a new operation. Basic information, such as the contact name and address, is copied from the current one onto a new operation. Edit as needed and select Create. Then follow the steps for [saving and publishing](#) the data in the form.

3.2.4. Delete an Operation

The Delete option is only to remove an operation in the Staging Area that **has not been previously published**. In this case Delete prevents an operation from being pushed to the database, while still allowing all other operation data in the Staging Area to be published. You can find Delete in these locations:

- Staging Area > Edit Operations. Then Delete from the list of operations.
- Open the operation for editing (from the list in Staging Area, Figure 26), then choose Delete Operation at the top of the page

In either case, INTEGRITY presents a confirmation message noting that the operation will be removed from the Staging Area. When you Publish, the deleted operation is not sent to the database.

Please note that you cannot delete a published operation through the web application interface.

3.2.5. Add a New Item to an Operation

There are several ways to get to a New Item form:

- Open an operation for editing, select Add a New Item (at the top of the screen)
- When you have created a new operation, select Add an Item (button at the bottom of the

screen)

- Or Add Another new Item when you have already added one

The options presented on the New Item form (Figure 32) vary, depending on the Scope you choose for the added item.

Staging Area - Adding Item (Product) to Operation (7584421961)

Enter information, then click **Create**.

Certifier Name: [abc] Test1
NOP Operation ID: 7584421961
Operation Name: ABC TESTS

Item (Product)

Enter or verify item (product) information. If the item status is not selected, it will be set based on the operation and scope statuses. All dates must be entered using Month/Day/Year format (e.g. 01/15/2015 or 1/15/2015).

NOP Certification Status: --

Last Review Date: MM/DD/YYYY 
Last date the operation has had a complete OSP review.

Certificate No.:

NOP Taxonomy Information

Enter or verify item (product) information. Select Other from the drop-down list (the last entry) if you are not using the NOP Categories or Item Names.

NOP Scope: * LIVESTOCK

NOP Category: Poultry **Reset to Other**

NOP Item Name: Ducks **Reset to Other**

Item Varieties:
Enter individual varieties as a comma-separated list. For example, if the item is "Apples," varieties could include "Fuji, Golden Delicious, Gala." Enter up to 4000 characters.

[Top](#)

+ Create **← Return**

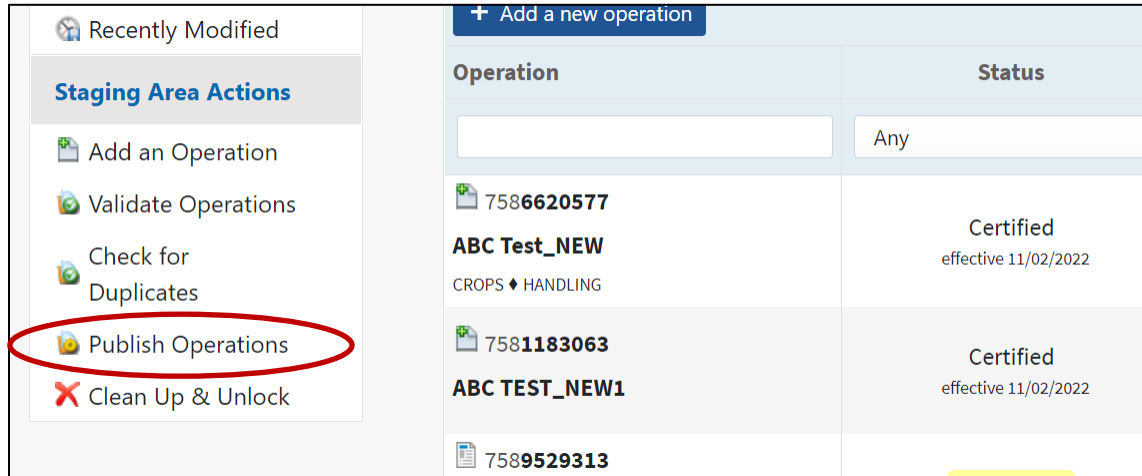

Figure 30: Add a New Item Form

Select **Create** when you are finished; then follow the steps for [saving and publishing](#) the data in the form.

3.3. Publish Operations

Regardless of how you added or updated – uploading an Excel file or editing in the web-based forms – to finalize operations data available in the database, you must **Publish Operations**. Then you will see the updated data when you search in the web application.

If you see the Publish Operations link in the left panel or on the Staging Area page, it means there is data still in the Staging Area that has not been finalized in the database yet:

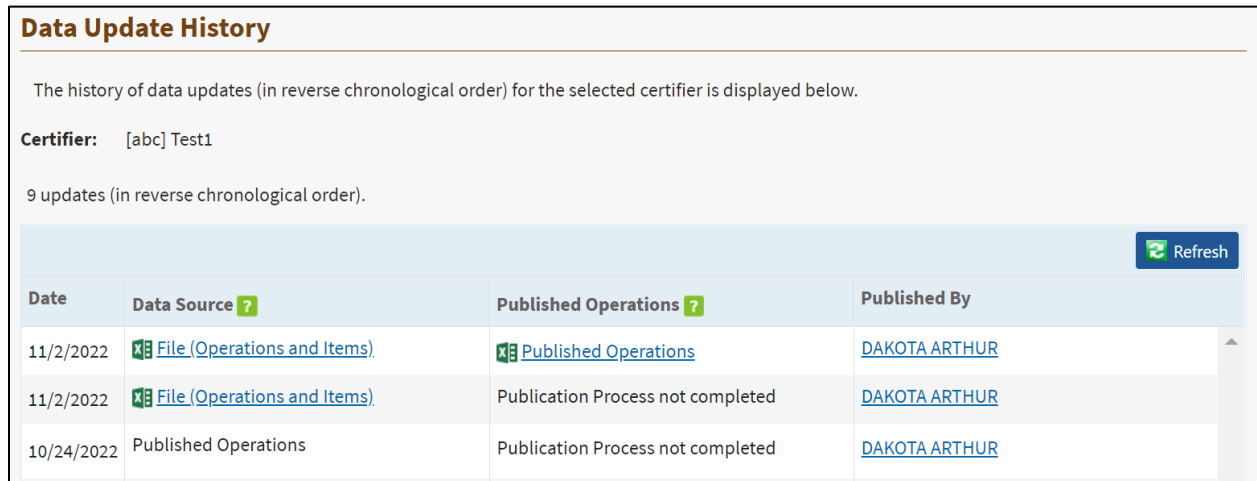

The screenshot shows the 'Staging Area Actions' menu on the left with 'Publish Operations' circled in red. The main table displays the following data:

Operation	Status
7586620577 ABC Test_NEW CROPS ♦ HANDLING	Certified effective 11/02/2022
7581183063 ABC TEST_NEW1	Certified effective 11/02/2022
7589529313	

Figure 31: Don't Forget to Publish!

3.4. History for Published Operations

From the left panel menu, select the History link, OR **Operations > View My Data History**. The history tracks what changes were made by whom and when to your organization's published data as shown in Figure 34.

The screenshot shows the 'Data Update History' page. It includes a 'Refresh' button and a table with the following data:

Date	Data Source	Published Operations	Published By
11/2/2022	File (Operations and Items)	Published Operations	DAKOTA ARTHUR
11/2/2022	File (Operations and Items)	Publication Process not completed	DAKOTA ARTHUR
10/24/2022	Published Operations	Publication Process not completed	DAKOTA ARTHUR

Figure 32: Certifier's Data History

In the Data Source column, 'Published Operations' means that edits or additions were made directly in INTEGRITY using the web-based Operation Profile form, rather than through a file upload. You can open any of the files of operations and items that were published on specific dates.

3.5. Export Operations to Excel

You can export a full list or filtered list of operations and their items to Excel – this gives you a properly formatted list that you can then edit, save, and re-import when you want to update operations data.

1. Go to **Operations > View My Operations** to display a list of your published operations.
2. Filter the list if you want only a subset of the operations.
3. Look for the Export to File link (Figure 35) at the top of the list. Select the link and then save the file to your computer. See Section 3.1 for how to upload if you'd like to edit or add operations.

[Certifiers](#) > [Certifier](#) > [Operations \(Published\)](#)

My Published Operations (3)

Published operations are listed below. Select an operation and click **Open** on the right to view the Operation Profile.

Welcome to the Organic *INTEGRITY* Database!

Search Import Certificates
Open Staging Area

Figure 34: Import Certificate Menu - Certifiers

4.1. Upload Import Certificate

Each Certifier can upload and modify data for new and edited import certificates. The upload process takes two general steps:

1. **Choose File** (will run file structure validations; you will be informed if it doesn't comply with the

rules so you can correct it).

2. **Upload and Publish** (will run data validation and inform you of any corrections needed to be made to your data. If there are no errors, the system will publish validated data in the database and make it available to logged-in users instantly).

To upload data, you must use the template provided through the website (see the '[User Resources](#)' link at the top of the screen). This is an Excel template that contains macros for data validation, indicates which fields are required, and shows the proper format for each field.

NOTE: *The first tab in the template contains detailed instructions and notes for each field.*

4.1.1. Preparing Information for Upload

General Notes on Using the Template

- All non-greyed out columns on the template must be present and required fields completed for the upload to succeed. Columns can be rearranged into any order, but all must be present on the worksheet.
 - There are greyed-out columns that should NOT be completed because they are used for data exports.
 - There are hidden columns that should NOT be completed because they are reserved for future features.
 - The columns in the template can be re-arranged, and all columns must be present even if they are greyed-out.
 - The data type in the columns should NOT be changed (ex. from number value to text).
 - Either Exporter or Final handler must belong to the certifier issuing the certificate.
 - Start on Row 5 (delete any sample data).
 - If you create a certificate with errors, change the End Date to today; it will be marked invalid overnight.
1. Enter your import certificate data in the Template for IC Data Submission, following the instructions provided on the first tab in the template. **Your data should start on Row 5** in the Import Certificate tab in the spreadsheet, overwriting the sample data. There are several ways you can go about entering your information:
 - a. Export existing data from INTEGRITY into the template (**Import Certificate > Open Staging Area > Published Import Certificates**, then select Export to Excel).

It's important to export from the Published Import Certificates, NOT from the search page. The data exported from the Published Import Certificates is in the correct template format and is the complete set of data needed.

- b. Export data from your certifier system into the template.
 - c. Download the template, as mentioned above, and enter data into it manually.
2. If you have exported data, make any necessary changes to the data in the template.
3. Make sure all required fields are completed. See detailed instructions on the first tab in the template.

SAVE or SAVE AS an Excel workbook (.xlsm, .xlsx or .xls). The file must be under 12MB in size; if the file is too big, split it into two (or more) separate files and upload one at a time.

4.1.2. The Upload and Publish Process

General Notes on Uploads

- Only one file can be uploaded at a time.
- Valid templates will be published immediately.

To Upload and Publish

1. In the INTEGRITY application, go to **Import Certificate > Open Staging Area**.
2. Select **Upload a File**. (In the left navigation under the Staging Area Actions.)

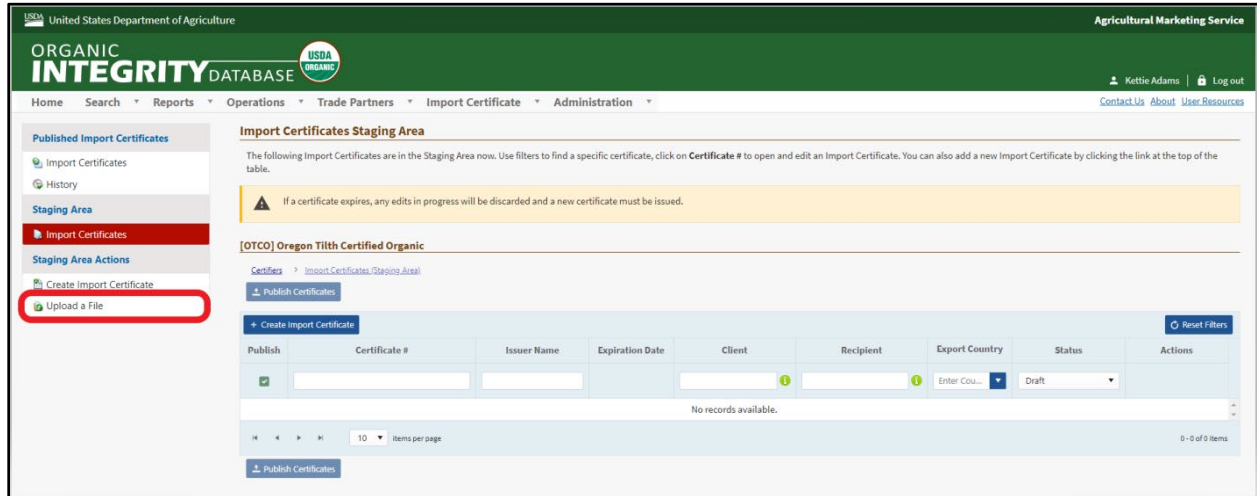

Figure 35: Import Certificate Staging Area

3. Once you land on the Upload a file page, select the **Choose File** button, then an Open File dialog opens; choose the .xslm, .xlsx or .xls file you want to upload.
4. The Upload a File page opens with the file name you selected shown under the first step.

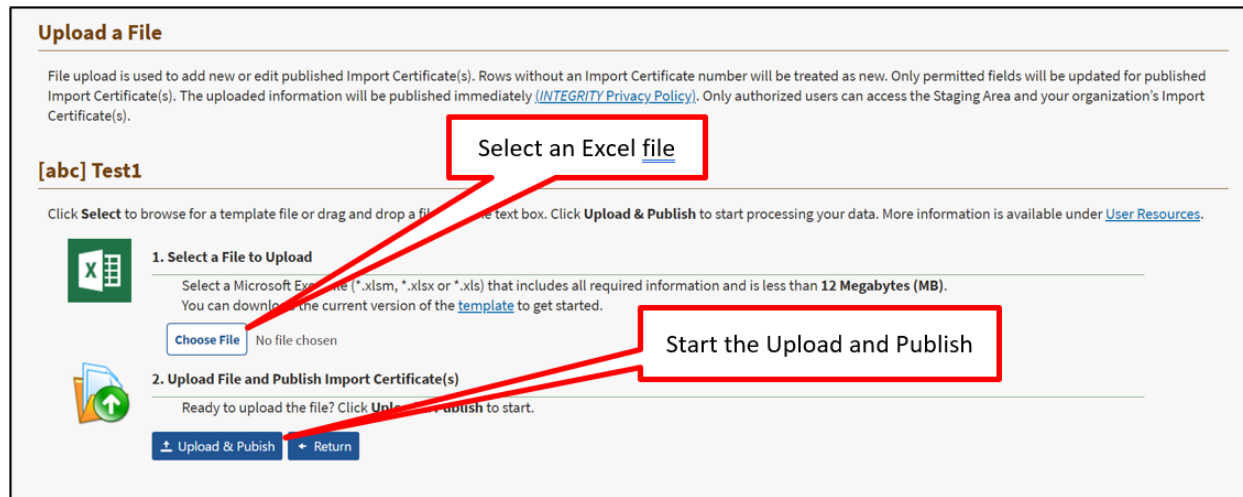

Figure 36: Upload a File - Import Certificate

5. Select **Upload & Publish**.

The system runs validations and produces a report. If there are errors, the upload will fail. You must fix the problems and attempt the upload again. Validations are based on required fields. There may also be warnings relating to data quality, but data can still be published with warnings.

While the validations are running, you will see the screen shown in Figure 38.

Figure 37: File Upload Status - Publishing

When the uploaded file passes validations with no errors, the data is automatically published and available in Published Import Certificate and Staging Area

4.1.3. Errors & Validation Messages

When there are errors in your uploaded file, the page will refresh and display the "File Upload Details" and "File Validation Errors" tabs below the Upload File section.

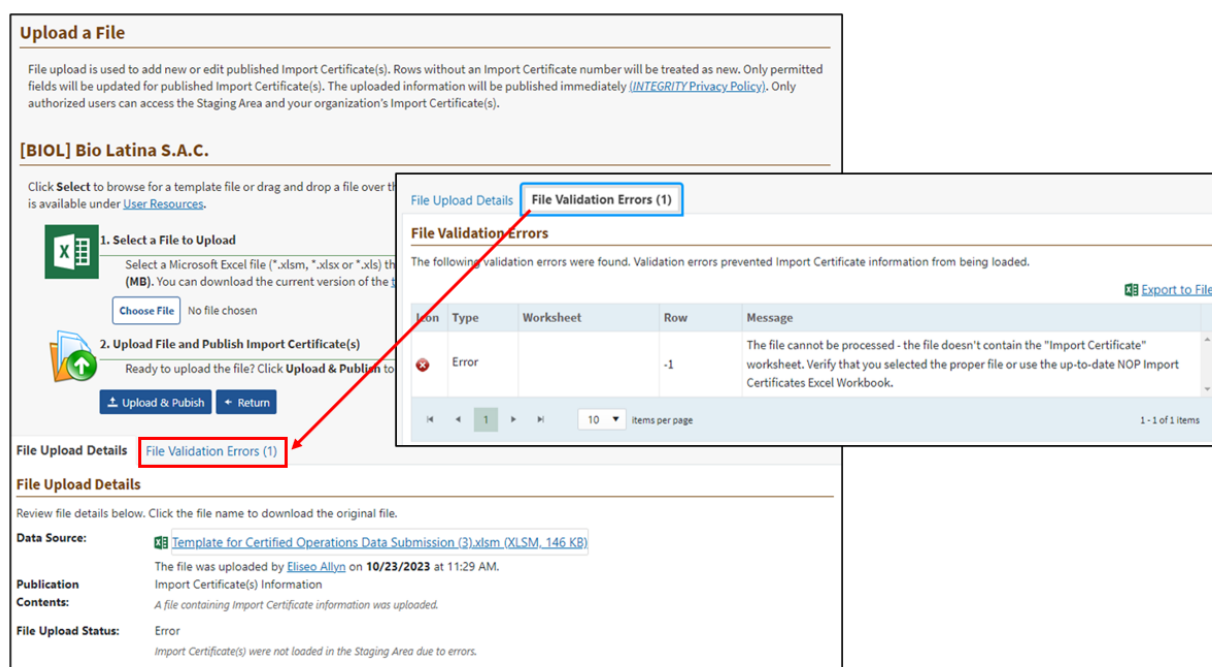

Figure 38: File Upload Details and File Validations Error Tabs

To complete the upload successfully, you must fix the errors and re-upload your file.

To view details about the errors, select 'File Validation Errors.' It will tell you exactly where (by row and cell) the uploaded file has problems.

To Make Corrections

1. Open the Excel file you just attempted to upload.
OR choose Export to File to create a new Excel file containing the data you just attempted to upload. This exports as a macro-enabled file, like the original template, with a new tab listing

validation errors.

2. Make the necessary changes and save the Excel file.
3. Go back to the Upload a File page and choose the revised file for upload.
4. Then, select the **Upload & Publish** button.

You may have to repeat the correction process more than once if new errors are found.

In the example below, there are no errors:

Figure 39: Import Certificate Uploaded Successfully

4.2. Edit Import Certificate

4.2.1. Edit an Existing Import Certificate

Import Certificates can be edited to reflect new changes. The process is very simple and can be found below.

From the homepage, head to the Staging Area under the Import Certificate menu. Select an Import Certificate that you would like to edit from the options listed for you.

Import Certificates Staging Area

The following Import Certificates are in the Staging Area now. Use filters to find a specific certificate, click on **Certificate #** to open and edit an Import Certificate. You can also add a new Import Certificate by clicking the link at the top of the table.

[abc] Test1

4.2.2. Create a New Import Certificate

There are several ways to get to a new Import Certificate form:

- From Staging Area, select **+ Create an Import Certificate** above the Publish name column.
- From Staging Area Actions, choose **Create Import Certificate**.
- Alternatively, open any Import Certificate and select **Copy**. (For more information refer to [Section 4.2.3](#)).

Figure 43 Create New Import Certificate

Any of the options you choose will lead you to a new Import Certificate form, see the example below.

For each section, you must enter the required fields to progress to the next step. If you need additional information about the field you need to fill in, select on the tooltip  icon.

1. The first section of the form is designated to **Entity Information** and covers exporter, final handler, and recipient information. Start your form by selecting a program, certificate start/ end dates, and country of export. Once completed, scroll down to the next section.

Figure 44 Create New Import Certificate – Entity Information

2. In **Exporter Information**, select your exporter type (Certified *or* Uncertified) using the radio buttons. If you selected a certified exporter, you have to enter an NOP ID and the system will automatically display operation's contact information on file.

Note, you can look up an Operation ID by selecting on the Advanced Operations Search link. Once you find it, you can copy it, close out of the search window and return to your wizard to

continue with the form.

Figure 52 Example of a New Import Certificate

4.2.3. Copy an Import Certificate

When you are in the Staging Area, select any Import Certificate by clicking on the corresponding number. Then, you will be redirected to the Import Certificate profile page where the copy option will be available to you.

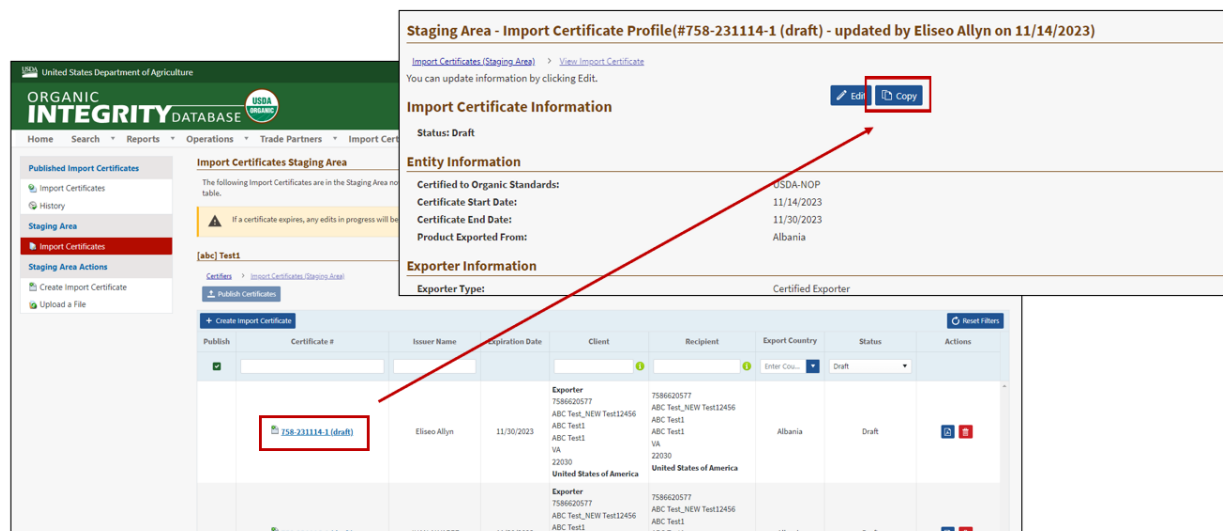

Figure 53 Copying an Import Certificate

After selecting **Copy**, the new Import Certificate is created with a new status and opened with the wizard for you to edit. You will be able to change any fields except for the "Date Signed" field, which will be blank and the "Certificate Issuer Full Name," which will be auto-populated to the user who created the copy.

4.2.4. Delete a Draft Import Certificate

Any draft Import Certificate can be deleted if no longer required in the Staging Area. You can identify that an Import Certificate is new by the icon to the left of the Certificate # (see figure below).

If the icon has a green plus icon, this means that the Import Certificate has been newly added (if you hover over the icon, it will say "The Import Certificate was added").

In the staging area, Status dropdown can help you filter for **draft** Import Certificates. Once you identify the one that needs to be deleted and select the **Delete** icon.

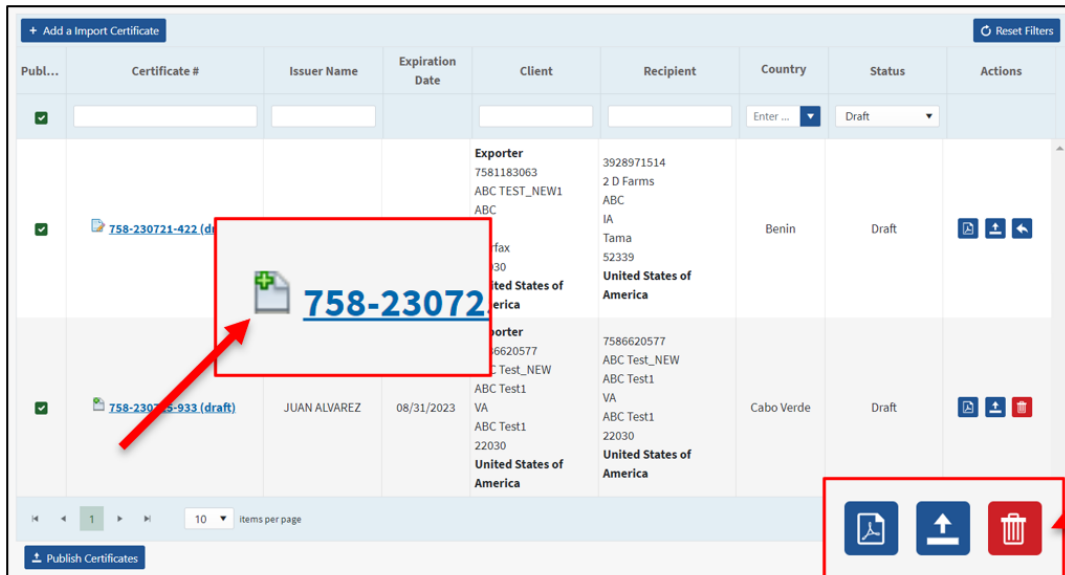

Figure 54 Deleting an Import Certificate

Once you have confirmed the Import Certificate should be deleted, the page should reload with a success message.

Note, published import certificates cannot be deleted hence the delete icon  will not be available in the Action column.

If you wish to restore an Import Certificate, select the restore icon  on any entry (entries must both be valid and modified). Once you have confirmed the Import Certificate should be restored, the page should reload with a success message.

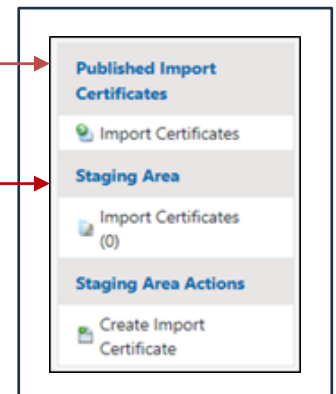

4.3. Publish Import Certificate

After you've published data, you can see a list of published new import certificates in the Published Import Certificates **left menu option**:

- Import Certificates: view new data in the system

Prior to publishing, you can review the newly uploaded import certificates data from the Staging Area left menu option:

- **Import Certificates (#)**: you can preview import certificates by clicking on the PDF icon in the Action column.

- Note, if you create a certificate with errors, change the End Date to today; it will be marked invalid overnight.

To publish your new and edited import certificate(s):

- Go to the Staging Area.
- The default settings will display All certificate statuses: Valid, Invalid and Drafts. To change it, simply select on the Status dropdown and select a relevant option (eg.Drafts). Use the

checkbox column to select all or individual certificates in draft status for publishing.

- Then, select the Publish button (Option 2) in the Actions column to complete the action.
- If you selected multiple certificates, you could use either the Publish button above or below the grid (Option 1 & 3) to proceed with the publishing process.

Publ...	Certificate #	Issuer Name	Expiration Date	Client	Recipient	Country	Status	Actions
☒						Enter...	Draft	
☒	869-230727-789 (draft)	Eliseo Allyn	07/29/2023	Final Handler 8699693576 14 DE MARZO SAN CARLOS, S.P.R. DE R.L. AVENIDA JACARANDAS #120. COLONIA SAN JUAN Tepic 63130 Mexico	3859628792 100test 43 AZ 43 34344 United States of America	Afghanistan	Draft	

- Once you confirm your action by selecting OK.

Do you want to publish the 1 Import Certificates?

OK
 Cancel

- Success message will confirm the completion of the process.

Published Successfully!

The selected Imported Certificates are published successfully

See your newly published import certificate in the Published Import Certificate page and the Staging Area with Valid status.

5. Administration: Certifier INTEGRITY Leads

Certifier INTEGRITY Leads are the user account managers for each organization. INTEGRITY Leads can perform data and account management within their own organization.

5.1. Process Registration Requests (*Approve/Reject/Cancel*)

When a new user registers for a Certifier account, the request must be approved by an INTEGRITY Lead for the new account to become active. Each INTEGRITY Lead can view pending requests for accounts within their own organization only.

Go to **Administration > Registration Requests** (If Registration Requests does not appear on the menu, you are not an INTEGRITY Lead.)

All pending requests are displayed in a list (Figure 37).

Date Submitted	Requestor (Certifier)	Organization	Requested Role	Action
Today	Lax, Dominique ✉ dlax.30032@test.gov	[abc] Test1	Certifier - Staff	➔ Process

Figure 55 List of Pending Registration Requests

Select **Process** in the far right column for the request you want to work on. This opens the request:

Personal Information

Name: Lax, Dominique

Email: ✉ dlax.30032@test.gov

Account Information

Organization: Test1

Account Type: Certifier

Role: Certifier - Staff ⓘ

Comments:

Approve Reject Cancel

Figure 56 Registration Request

Role: As the INTEGRITY Lead, you may elect to give user account management privileges to another user, for example, to have a backup person to review registration requests. If you want to do this now, simply choose **Certifier INTEGRITY Lead** from the Role dropdown list.

Actions:

- **Approve:** accept the request and activate the account; the user will appear in the list of User Accounts (accessible from the Administration menu)
- **Reject:** deny the request; account is not created
- **Cancel:** removes the request without accepting or denying it

Select one of the action buttons to process the request appropriately. In all cases, the user receives an email notification from INTEGRITY regarding the action taken.

5.2. Modify User's Role or Status

At any time, you can change a user's role (giving or removing Administrator privileges), or change an account from Active to Inactive.

1. Go to **Administration > User Accounts**
2. Select **Open** in the far right column for the user profile you want to change.

Please note that by default, the list displays only Active accounts. To see Inactive accounts, select the Inactive radio button just above the list (right side of the screen).

How to Manage Certification Body Profiles

What to Expect

- Trade Partner INTEGRITY Leads can add newly accredited certification bodies.
- Trade Partner INTEGRITY Leads can update information for existing certification bodies, including organizations that are no longer accredited.
NOTE: Certification Bodies cannot edit their Certifier Profile.
- Accounts for users who are no longer employed by the organization must be changed to Inactive status to maintain your data integrity.

Creating a new Certification Body Profile

Log in to *INTEGRITY*. Then, navigate to the **Administration Tab** and select the **Add New Certifier** option.

The screenshot shows the 'Administration' dropdown menu with the following options: User Accounts, Registration Requests, and Add New Certifier. The 'Add New Certifier' option is highlighted with a red box. Below the menu, there is a table with columns: Program, Operation, Certifier, Info, Status, and City. The table contains three rows of data for CFIA-COR operations.

Program	Operation	Certifier	Info	Status	City
CFIA-COR		Select Certifier		Certified	Enter City
CFIA-COR	0802881 BC Ltd.	[Pro-Cert] Pro-Cert Organic Systems Ltd.		Certified	Langley
CFIA-COR	1000055957 Ontario Ltd.	[Pro-Cert] Pro-Cert Organic Systems Ltd.		Certified	Palmerston
CFIA-COR	101023511 Saskatchewan Ltd.	[Pro-Cert] Pro-Cert Organic Systems Ltd.		Certified	Weyburn

The certifier profile form will be displayed, and you will be able to enter the certification body name, address, and other contact information, as well as accredited scopes. INTEGRITY will assign a system-generated 3-digit Certifier ID number when you click **Save**.

Setting a Certification Body Profile to Inactive

If a certification body is no longer accredited, click the **Edit** button on the Certifier Profile. Revise the Certifier Name by adding the term ***INACTIVE*** to the end of the Certifier Name. This helps to easily identify inactive certification bodies in search results lists. Also set the Certifier Profile to “inactive” status. Click on the green **Active** checkbox, then click the Update button.

1. Overview

The Organic INTEGRITY database is an interactive, web-based database of certified organic operations containing reliable, quality information of value to the organic industry and public. INTEGRITY helps the National Organic Program (NOP) deter fraud by providing up-to-date and accurate information on operations certified to Trade Partner organic standards, increasing supply chain transparency, and promoting market visibility for organic operations such as farms, processors, and other handlers of organic items.

The public site allows anyone to search for certified organic operations. A restricted site allows authorized users within Accredited Certifying Agents (Certifiers) to upload and modify data about the operations they have certified.

1.1. System Requirements

Users need a web browser to use the INTEGRITY system: <https://organic.ams.usda.gov/Integrity/>.

1.2. Trade Partner Government Accounts

There are two user account roles for Trade Partner governments:

- **Trade Partner Government INTEGRITY Lead:** Trade Partner Government INTEGRITY Lead users can view and edit all data submitted by their accredited certifying bodies. They also have user management rights for their government staff users and accredited certifying bodies, including approval of registration requests, changes to user roles, and changes to user status (active/inactive). All data and functionality available to the public and Trade Partner Government Staff Read Only users are also available to Trade Partner Government INTEGRITY Lead users.
- **Trade Partner Government Staff (Read Only):** Trade Partner Government Staff Read Only users can view all data submitted by their government's accredited certifying bodies. All data and functionality available to the public is also available to registered Trade Partner Government Staff Read only users.

1.3. Trade Partner Government User Registration

If the user is an employee of a Trade Partner Government, they can register for a *Trade Partner Government INTEGRITY Lead* or *Trade Partner Government Staff* account.

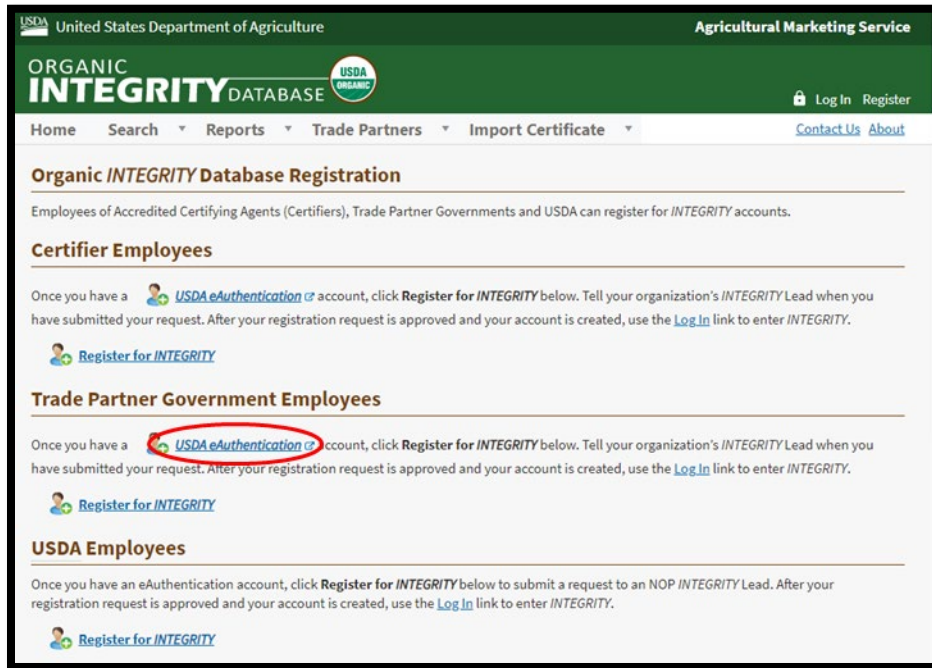

Follow the steps below to register for an account. The Organic INTEGRITY Database user account registration is a 2-step process:

- 1) Create a USDA eAuthentication customer account via Login.gov;
- 2) Register for an INTEGRITY certifier user account.

1.3.1. USDA eAuthentication via Login.gov account

- a) Go to <https://organic.ams.usda.gov/Integrity/>
- b) Select the *USDA eAuthentication* link under the Trade Partner Government Employees.

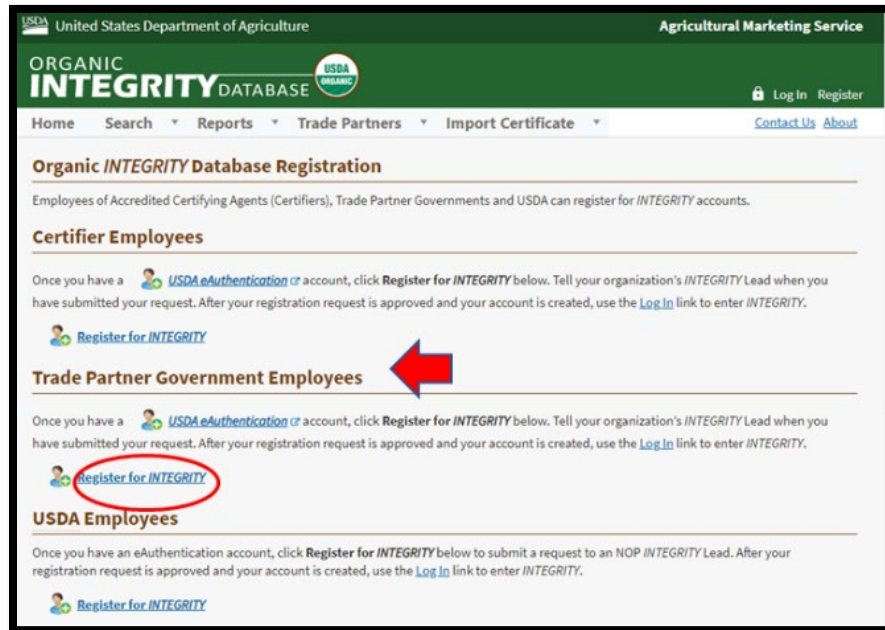

Note: if a user already has an existing eAuthentication account, they can use their eAuth username and password to register for INTEGRITY.

- c) Choose "Customer" account registration and follow the steps on the next screens. For additional information on creating a USDA customer account, go to the Public Customer Frequently Asked Questions (FAQs) at <https://www.eauth.usda.gov/eauth/b/usda/faq>.

1.3.2. Registration for INTEGRITY account

1. Users with a Login.gov or eAuthentication account can proceed to *Register for INTEGRITY*,
 - a) Click the *Register for INTEGRITY* link in the Trade Partner Government Employees section.

- b) Enter eAuthentication User ID and Password or click the Login.gov button to login.

The screenshot shows the 'Customer Login' page. It has a blue header with the 'Customer Login' title. Below the title are links for 'Need an account?' and 'Not a Customer? Change user type'. There are two main login options: 'Login.gov' and 'eAuth User ID'. The 'eAuth User ID' section has input fields for 'User ID' and 'Password', a 'Forgot User ID' link, a 'Forgot Password' link, and a 'Show Password' checkbox. A blue 'Log In' button is at the bottom.

- c) Click the *Register for INTEGRITY* button to start the registration process.

Role: Trade Partner Government - INTEGRITY Lead

3. Organization Information

Your request is associated with:

Organization: Trade Partner

4. Requester's Comments

You provided the following additional information or questions for your organization's *INTEGRITY* Lead.

Comments

...

Previous Finish Cancel

- k) The last screen confirms that your request is being processed and provides a summary of the data you submitted.
 - i. Click *Edit* to make changes.
 - ii. Click *Delete* to cancel the Registration submission.

- l) If you click *Edit*, you won't have the ability to update the Account Type (*Trade Partner Government*), but you can update other options (*Trade Partner Program*, *Primary Role*, *My Comments*).

- m) Ability to change Primary Role. Choose Role to update from the dropdown.

- n) Click *Update* to change the Role. Click *Cancel Update* to revoke updates.

- o) If you click *Delete*, you will be presented with a confirm dialog box of OK or Cancel. Click *OK* to delete the registration.

- p) To confirm changes, click *Exit* in the top right corner of the page.
- q) Let your INTEGRITY Lead User know that you have registered – the database does not send a notification email to them.
- r) After the registration request is submitted, a Trade Partner Government - INTEGRITY Lead for your organization must approve it. That Trade Partner Government - INTEGRITY Lead will notify you when they have processed the registration request. Once the account has been approved, you will be ready to log in!

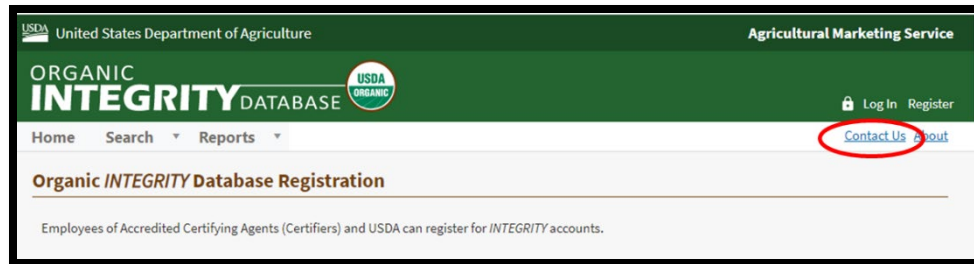

In the browser, go to <https://organic.ams.usda.gov/Integrity/> and click *Log In* in the upper right corner. Use the eAuth userID and password or Login.gov credentials to log into your account.

2. INTEGRITY: Public Pages

All users have access to the features on the public pages. The user does not have to log in to use the features in this section, and these features are available whether the user is logged in or not.

2.1. General Features

Contact Us page: If the user has a question, comment, or suggestion, click *Contact Us* in the upper right corner of any page. Here the user will find a link to the Frequently Asked Questions (FAQ) and our email address (INTEGRITY@usda.gov).

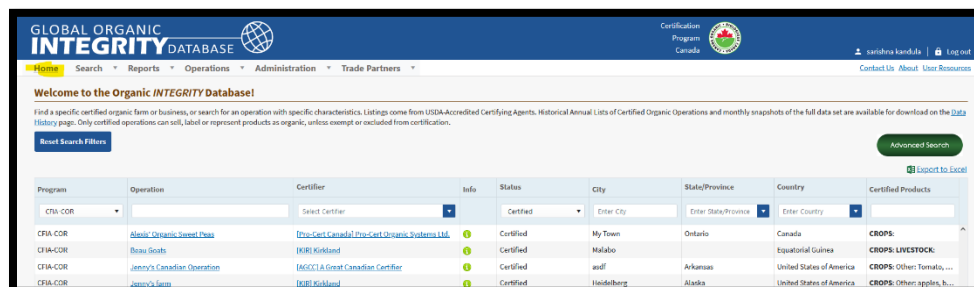

About page: Click the [About](#) link to find general information including links to a glossary, taxonomy classification system, and system release notes.

Information Popups: Anywhere the user sees a green “i” icon, let the mouse hover over it to view summary information.

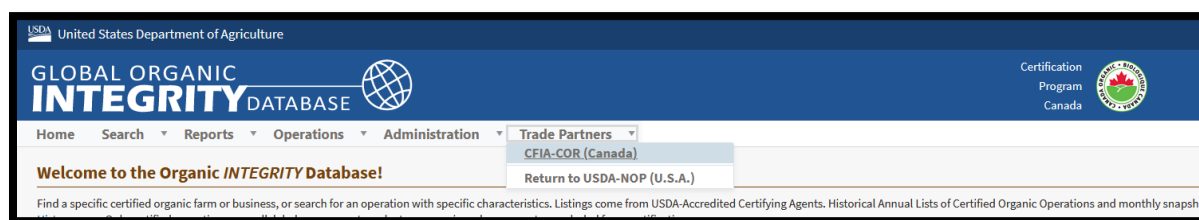

2.2. Home Tab

The Home tab of the web application contains basic filters to quickly narrow down the operation list. Using multiple filters will narrow down the results more – results will match all the filters that are set.

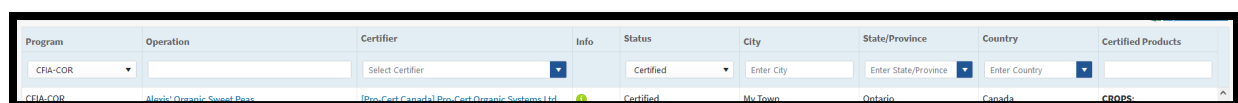

2.2.1. Trade Partners Menu

Click on the *Trade Partners* menu for another option to switch between USDA and Trade Partner Program information.

2.2.2. Quick Search/Filter

Use the filters on the Home tab to narrow down the list of operations. Filter on multiple columns to continue narrowing down.

2.2.2.1. Program Filter

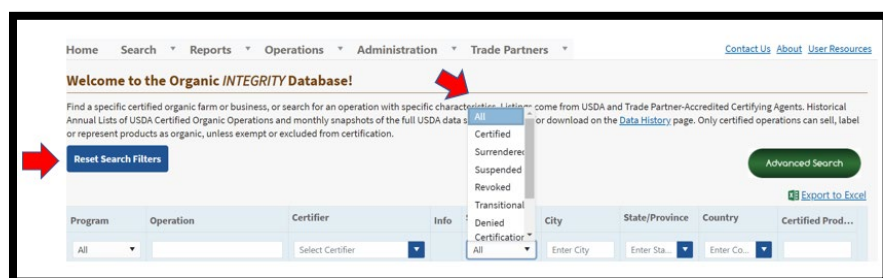

At the top of the list, select any program from the Program dropdown list. When this filter is applied, the resulting list will only include operations related to the specific Program.

2.2.2.2. Certifier Filter

At the top of the list, select an organization from the Certifier dropdown list. When this filter is applied, the resulting list only includes operations that were issued an organic certificate by that Certification body.

Selection Lists: Status and Country fields

- To limit the list to a specific Status and/or Country, choose from the drop-down selection list.
- The user may select only one value at a time in each column.
- To reset, choose *All* from the selection list box(es) or click *Reset Search Filters* button.

2.2.2.3. Text Filter Boxes

The other columns have a free-form text box for filtering. Enter the value to search for: For example, to find all operations in Malabo, type Malabo in the filter box, and press *Enter*.

- Filter boxes are *not* case-sensitive; MALABO and Malabo will return the same results.
- Filters find partial words. For example, enter the filter value farm in Operation to find operations that contains Jenny's farm, John's Farm, Test Farm, and so on.

Program	Operation	Certifier	Info	Status	City	State/Province	Country	Certified Products
CFIA-COR	farm	Select Certifier		Certified	Enter City	Enter State/Province	Enter Country	
CFIA-COR	Jenny's farm	(KIR) Kirkland	i	Certified	Heidelberg	Alaska	United States of America	CROPS: Other: apples, b...
CFIA-COR	John's Farm	(KIR) Kirkland	i	Certified	Puerto Limon		Costa Rica	CROPS: Fruit - Berries: a...
CFIA-COR	Test Case Farm	(AGCC) A Great Canadian Certifier	i	Certified	Saskatoon	Saskatchewan	Canada	CROPS: HANDLING: LIV...

- For Operation, City, and State/Province only enter one word or phrase at a time. The system will search the entire entry, not individual words.
- For Certified Products, if the user enters multiple words separated by a space or comma, the system will search for any operation with at least one of the words in its product list. For example, enter beans berries to find operations that produce beans or berries, or both.
- To reset all filters, click *Reset Search Filters* (located just above the table), or delete the value in a single filter box and press Enter to remove just one filter.

2.2.3. Export to Excel

In several places, there is a link to *Export to Excel* (Home tab, Search tab, then select Advanced Search). Click this link to export the list currently displayed. If the user filters or executes any search first, only the filtered data/search results are exported.

Please note that exported data from the search results page, it is a limited data set, and is NOT exported in the data submission template format. [See section 3.2](#) for more information about uploading data to the system.

2.2.4. View Operation Info

Let the mouse hover on the green  icon for the information window open. Click on the operation name to open the [Operation Profile](#).

Program	Operation	Certifier	Info	Status	City	State/Province	Country	Certified Products
CFIA-COR	Alexis' Organic Sweet Peas	(Pro-Cert Canada) Pro-Cert Organic Systems Ltd.	i					
CFIA-COR	Beau Goats	(KIR) Kirkland	i					
CFIA-COR	Jenny's Canadian Operation	(AGCC) A Great Canadian Certifier	i					
CFIA-COR	Jenny's farm	(KIR) Kirkland	i	Certified	Heidelberg	Alaska	United States of America	CROPS: Other: apples, berri...

Operation Details

Contact Name: 1234 Sweet Pea Lane, My Town, Ontario M5S 0S5 Canada

Phone: 1234567890

Email: info@alexis.com

Web URL: www.alexis.com

Operation ID: 1234567890

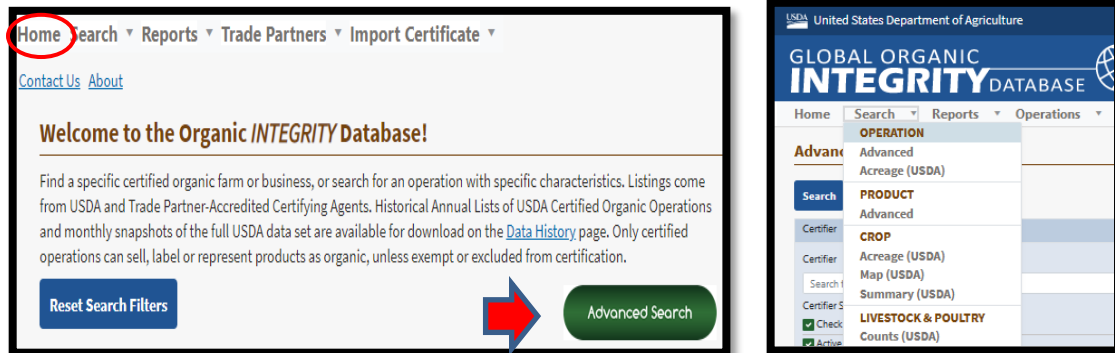

2.3. Search Tab

All Reports in Search Tab display USDA only data. Trade Partner Government users can view these reports.

2.3.1. Search Tab: Advanced Search

To access the advanced search features, select the *Advanced* option from the Search Tab; alternatively

click on the *Home* tab and then navigate to the *Advanced Search* button;

The Advanced Search shows groups of filters on the left side of the page and provides more options than the simple Home page filters. It also lists all operations regardless of certification status.

The advanced search allows the user to search more fields than the simple filters, and in some cases, enter more than one value in a single search box.

2.3.1.1. The Search Pane

Use the pane on the left side of the Search window to apply one or more filters. Enter criteria, or select checkboxes, then click **Search**.

Each section in the search pane can be collapsed or expanded – click the small triangle icon to toggle the section display. Expanding or collapsing a search section does NOT modify the search results. In Advanced Operation Search pane, *Certificate Information*, *Operation Status*, and *Scopes and Products* can be collapsed.

Some fields have auto-complete: as typing begins, the application displays matching items. When the user sees one they want, they can click it to select it.

For example, type “north” in the State/Province field, and the system shows matching entries (Northern Mariana Islands, North Dakota, North Carolina, etc.).

See the [Search Summary](#) area at the top of the page to keep track of what filters are in place, even if sections in the search pane are collapsed.

In general, adding search terms in more than one field returns fewer results; results will match all search terms. However, in search boxes that allow multiple values (State/Province and Certified Products), search results only need to match one of the values.

Click *Reset* to return all search criteria back to their default settings.

See [Advanced Search Fields Table](#) for more specific instructions for each field.

PLEASE NOTE: When this page first opens for public users who have not logged into the database, it shows a list of all published Certified operations. If you want to see other operations (such as Suspended, Revoked, etc.), then you must select the appropriate Status checkbox(es) in Operation Status.

2.3.1.2. Advanced Search Fields Table

To Search By:	To This:
Certifier	Choose an organization from the dropdown list. Begin typing the name or abbreviation to see possible matches.
Operation Information	
Operation Name	Enter the name (or part of the name) to search for. This field accepts only a single operation name. The name may be more than one word, such as <i>Suzie's Farm</i> .
NOP Operation ID	Enter the full 10-digit ID . This field accepts only a single value; partial values are not accepted.
Certifier Client ID	Enter the full client ID . This field accepts only a single value; partial values are not accepted. These IDs are assigned by Certifiers and may contain alphanumeric values.

Contact Name	Enter a contact name; it is OK to enter just a last name. If you search for both first and last name, such as <i>James Smith</i> , names containing either name will be found, so the results will include James Smith, John Smith, John James, Smith Gordon, and so on.
Street Address	Enter a full or partial street address. For example, a search for <i>125 Main</i> would find 125 Main St and 125 Main Ave. A search for just <i>main</i> will find all street addresses containing 'main.'
City	Enter the city (or part of the city) to search for. This field accepts only a single city name. A city name can be more than one word, such as <i>San Diego</i> .
State/Province	Enter one <i>or more</i> states or provinces in the box. For US States, begin typing the full state name or 2-letter US state abbreviation. Auto-complete suggestions are provided; select the one wanted from the list. For non-US locations, enter the full state or province name, not the abbreviation. For example, enter <i>Ontario</i> (not <i>ONT</i>) for Ontario Canada
ZIP/Postal Code	Enter the ZIP or Postal code (or part of the code) to search for. This field accepts only a single ZIP/Postal Code; spaces are acceptable, for example <i>LS18 5PU</i> is a valid postal code in the UK.
Country/Territory	Click the boxes to check the countries and territories to search for; click Check All at the top of the list to select all entries. If all items are checked, de-select the Check All entry and then select just the item(s) they want.
Certificate Information	
Certificate Number	Enter the full number of a Certificate number issued by a Certifying body. These numbers can take many forms, and may include numbers, letters, dashes or other characters.
Operation Status	
Operation Certification Status	Click the boxes to check the values to search for; click Check All at the top of the list to select all entries. If all items are checked, de-select the Check All entry and then select just the item(s) wanted.
Scopes and Products	
Scope	Click the boxes to check the values to search for; click Check All at the top of the list to select all entries. If all items are checked, de-select the Check All entry and then select just the item(s) they want.
Scope Status	Scope Status works together with the Scope selection above. Click the boxes to check the Scope Status(es) to search for, within the Scope(s) selected above. If all items are checked, de-select the Check All entry and then select just the item(s) they want. In Scope Status, if Check All is selected, or Not Certified/Specified is selected, the resulting list will NOT be filtered by the Scope selected above.

Certified Products Enter one *or more* products in the box. Separate product names by the Enter key. Operations certified for at least one product in the list will be shown in the default results.

2.3.1.3. Search Summary

The Search Summary area at the top of the page shows filters currently applied. As the user adds or changes search terms and executes the new searches, this area updates. It is a quick view of the filters, even if the user has collapsed the search panes at the left side of the window.

Search Summary
 [Search Tips](#)

State/Province: OR
Scope: Crops, Handling, Livestock, Wild Crops

Operation Status: Certified
Scope Status: Certified, Surrendered, Suspended, Not Certified/Specified

2.3.1.4. Search Tips

Click on  [Search Tips](#) link in the top right to get helpful tips on search.

- If the results do not include the operation the user expected to see, check all criteria settings. They may be too limited.
- Too many results? Try adding search criteria in more fields to narrow down the list.
- Remember that the default search setting for Operation Status is for certified operations only.
- Send questions about how to use the Organic INTEGRITY Database, and/or any system errors to INTEGRITY@usda.gov.

2.3.1.5. Clearing Search

- **Text boxes:** delete the search term, and press Enter.
- **Checkboxes:** un-check the box(es) to remove them from the search; click *Check All* to include all values.
- **State/Province** and **Certified Products:** these fields allow multiple search terms; each term appears on a button with an X (see example below). Click the X to remove the search term.

- To reset ALL searches back to the default values, click the **Reset** button at the top or bottom of the search pane.

2.3.2. Search Tab: Certifier Locator

To open Certifier Locator, click the *Search* tab and then click *Certifier Locator*.

When this page first opens, it shows a list of all Certifiers under the Program the user profile is associated with. The user can filter by changing the Program filter to list certifiers for that program. They can further filter by available fields – such as *Find a Certifier with, Country, State, Province*.

Home Search Reports Trade Partners Import Certificate Contact Us About

2.4. Reports

On the Reports tab, the user will find links for:

- **Certified Operation Counts** (by Certifier, Country, and State/Territory). These reports give the number of USDA-NOP certified operations in these categories. Click the link for any of these reports to download or view them in the web browser.
- **Data History** (export data to Excel). The user can download a monthly 'snapshot' of all USDA-NOP certified, surrendered, suspended, and revoked operations, or choose historical data from previous months or years. Data history includes operation level (name, location, status) and item level (products, crops, livestock) details.

Please note only USDA-NOP data is available for the report data. Trade Partner Government users can view the reports.

2.5. Viewing Operation Profile Pages

Each Operation in the database has a profile page that provides more information. Click an Operation name on the Home or Search page to open its profile.

Program	Operation	Certifier	Info	Status	City
CFIA-COR		Select Certifier		Certified	Enter City
CFIA-COR	Alexis' Organic Sweet Peas	[Pro-Cert Canada] Pro-Cert Organic Systems Ltd.	i	Certified	My Town

3. INTEGRITY: Certification Body Functions

When the user logs in (use *Log In* link in upper right corner of the page) they will enter the INTEGRITY Plus site. Notice near the top of the screen, there are additional tabs: Operations and Administration. All public functionality is still available here, but this provides access to features for Trade Partner Certification Bodies.

USDA United States Department of Agriculture Agricultural Marketing Service

GLOBAL ORGANIC **INTEGRITY** DATABASE

Certification Program Canada

sarishna kandula | Log out

Home Search ▾ Reports ▾ **Operations ▾** **Administration ▾** Trade Partners ▾

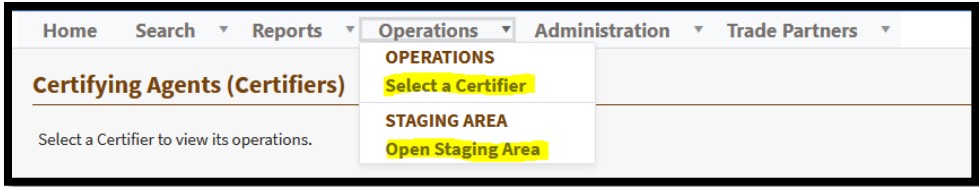

[Contact Us](#) [About](#) [User Resources](#)

In addition to *Contact Us* and *About* links (see Section 2.1), a link to *User Resources* appears at the top of the screen when users are logged in.

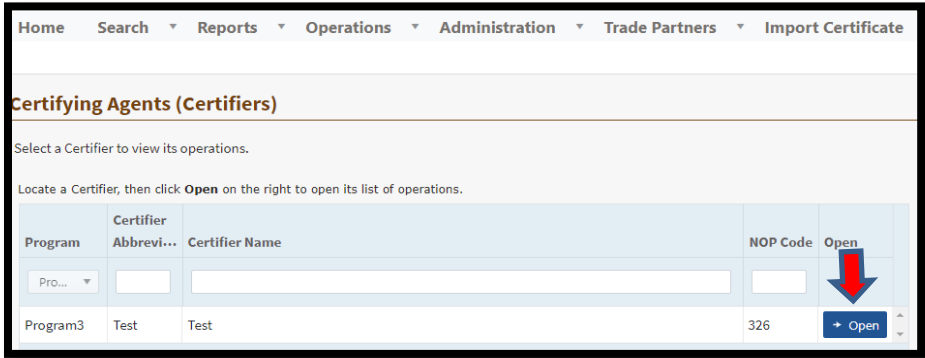

User Resources page: Here the user can find training presentations, templates for uploading data, tip sheets, Frequently Asked Questions for Certification Body users, and other useful items.

3.1. Operations

The user can click Select a Certifier / Open Staging Area to land on the Current Certifier Programs.

Certifier Operations: Menus at the top of INTEGRITY screens are always available. A left-panel menu opens when viewing any certifier's page; click *Open*.

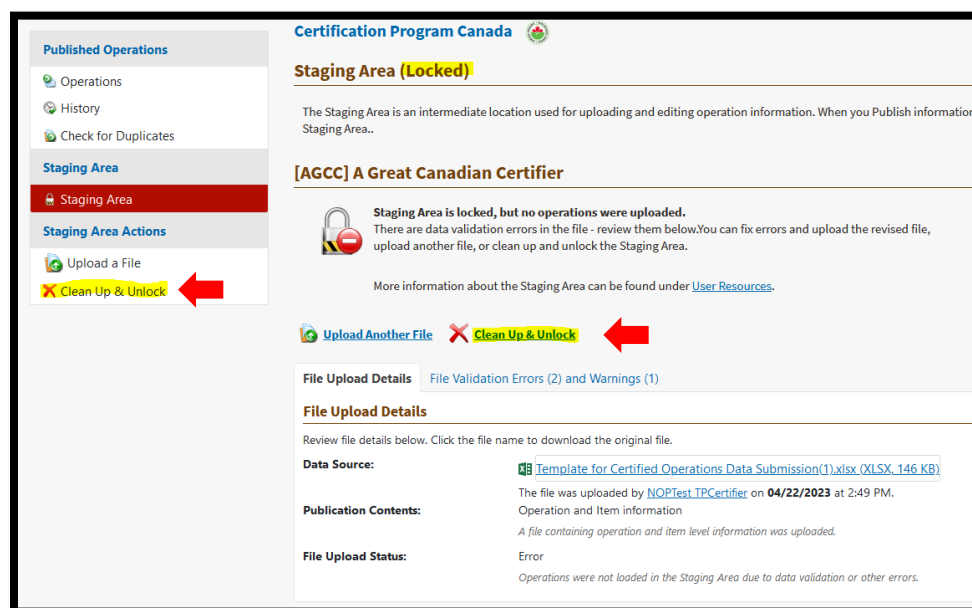

Staging Area

When the user clicks *Open* on the selected certification body program, they are navigated to the Staging Area. Some items on the left panel menu change depending on the current status. For example, when the user is viewing the locked [Staging Area](#) (meaning that a file is uploaded and ready for publishing, or operations are being edited using the web-based Operation Profile form), *Publish* appears as an action on the left panel.

Example of viewing the Locked Staging Area

Click on *Clean Up & Unlock* to begin uploading a file

3.2. Upload Operation Data to INTEGRITY

Each Certification Body can upload and modify data about the operations they certify as organic. The upload takes two general steps:

1. **Uploading** runs validation rules, and places the uploaded data in the Staging Area, a temporary holding place from which they can continue to make changes.
2. **Publishing** finalizes validated data in the database, making it available to the public.

To upload data, the user must use the template provided through the web site (see the [User Resources](#) link at the top of the screen). Under [Data Submission Templates](#), there is an Excel template [Download Document \(XLSM\)](#) that contains macros for data validation, indicates which fields are required, and shows the proper format for each field.

NOTE: The first tab in the template contains detailed instructions and notes for each field. Each Trade Partner has a customized data submission template.

3.2.1. Initial Upload to INTEGRITY

The first data upload from a Certification Body will create new operation records in the system and should include both Operation and Item (product) level data. Follow the instructions and tips in the **How to Upload a File** tip sheet.

Once the initial upload of data is completed, they can use the same Excel template to provide updates. On subsequent uploads, only modified data is changed in the database (not replacing all old data). They can also use [Add Operation](#) and [Edit Operations](#) actions to directly edit information in the database using the web-based form.

3.2.2. Preparing Information for Upload

1. Enter the operation and item data in the Template for Certified Operations Data Submission, following the instructions provided on the first tab in the template. **The user's data should start on row 5** in the Operation Level and Item Level tabs in the spreadsheet, overwriting the sample data. There are several ways to enter information:
 - a. Export existing data from INTEGRITY into the template (Operations > Open Staging Area > Edit Operations, then click *Export to Excel*).

It is important to export from the Staging Area, NOT from the Search page. The data exported from the Staging Area is in the correct template format and is the complete set of data for their organization.

- b. Export data from their certifier system into the template.
 - c. Download the template, as noted above, and enter data into it manually.
2. If they have exported data, make any necessary changes/additions to the data in the template.
3. Make sure all required fields are completed. See detailed instructions on the first tab in the template.
4. SAVE or SAVE AS an Excel workbook (.xlsm, .xlsx or .xls). The file must be under 12MB in size; if the file is too big, split it into two (or more) separate files and upload one at a time.

3.2.3. The Upload and Publish Process

General Notes on Uploads

- Only one file can be uploaded at a time.
- The user must **Publish** or **Clean Up & Unlock** the staging area before another file can be uploaded; it automatically locks when they upload a file. Notice how the left panel menu changes to indicate locked/unlocked status of Staging Area. The options to **Publish** and **Clean Up & Unlock** appear only when the Staging Area is locked.
- The template columns can be re-arranged, but they ALL must be present for the upload to succeed.
- **Remember to PUBLISH after completing the file upload. Updates are not available in the database until they are PUBLISHED.**

To Upload and Publish

1. In the INTEGRITY application, go to Operations > *Open Staging Area* (or select *View My Operations*).
2. Select *Upload a File*. In the Staging Area, this appears in the main section of the screen and on left panel.

Upload a File

The Staging Area is an intermediate location used to publish information that has been updated in the Staging Area, it is made available to the public. Only authorized users can publish information that has been updated in the Staging Area, it is made available to the public. Only authorized users can publish information that has been updated in the Staging Area, it is made available to the public.

[abc] Test1

Click **Select** to browse for a template file or information, then click **Upload File** to start the upload process. Specify whether the file contains only operation information or both operation and item information. For more information, see the [template](#) available under [User Resources](#).

1. Select a File to Upload

Select a Microsoft Excel file (.xlsm, *.xlsx or *.xls) that includes all required information and is less than **12 Megabytes (MB)**. You can download the current version of the [template](#) to get started.

Choose File No file chosen

2. * Specify the Content of the File

☒ **File Contains Operation and Item (Product) Level Information**
 Select this option to update operation level information only. Associated items (if any) will be copied from the Public Area and can be changed if you Edit Operations after completing the file upload.

☐ **File Contains Operation Level Information Only**
 Select this option to update operation level information only. Associated items (if any) will be copied from the Public Area and can be changed if you Edit Operations after completing the file upload.

☐ **Publish Immediately**
 Indicate if you want to publish data immediately. Select this option if you want to ignore any warnings/errors and publish data immediately. Operations with validation errors will be ignored – existing operations will not be updated and new operations will not be added to the database.

3. Upload File and Process Operations

Ready to upload the file? Click **Upload File** to start.

Upload File **Cancel**

Callouts:

- Your Certifier Organization will appear here
- Select an Excel file
- Specify if file has Operation data only, or Op and Item
- Start the Upload

3. Click the **Select** button; an Open File dialog opens; choose the .xlsm, .xlsx or .xls file to upload.

The Upload page opens, with the filename selected shown under the first step.

4. Specify Content. In this step, click the option that applies to the user's file: **Operation and Item** level, or **Operation** data only. If the user selects **Operations Only**, any Item (product) data that was previously published for the operations in the file will be retained unless the operation certification status is changed to Revoked. All scopes and items for Revoked operations are deleted. (The **Publish Immediately** option pushes data directly to the database, but ONLY if no errors are found.)
5. Click **Upload File**.

The system runs validations and produces a report. If there are errors, the upload will fail, and the user must fix the problems and attempt the upload again. Validations are based on required fields. There may also be warnings relating to data quality, but data can still be published with warnings. INTEGRITY runs through validations on Operation level data first; when all Operation level errors are corrected, then it runs Item level validation. This means that it could take a couple of attempts, particularly on the first upload, to complete the process.

While the validations are running, the user will get a notification.

The File is being processed (Staging Area)

INTEGRITY is processing the file. When you Publish information that has been uploaded to the Staging Area, it is made available to the public.

Test1 (Certifier)

Your file is being processed. Please wait, it might take a while depending on the size of the file...

Waiting for completion...

0%

Cancel

When the uploaded file passes validations and there are no errors, the data is in the Staging Area. The Staging Area automatically locks when a file is uploaded. At this point, the user can perform one of the following actions:

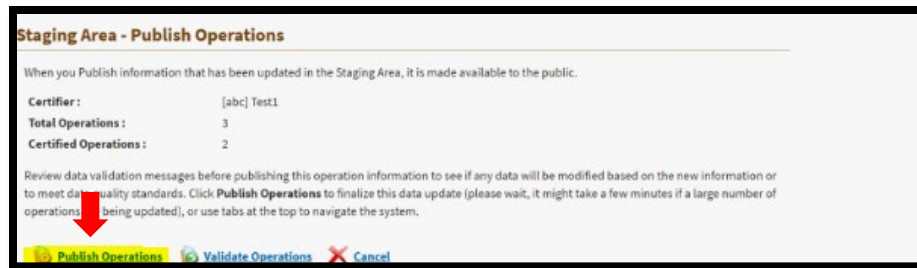

- Publish Operations (see Step 6).
- Validate Operations (re-run validation rules).
- Export to File. If the user wants to make revisions before publishing the uploaded file, export it here. This exports as a macro-enabled file (.xlsm), like the original template. Make the changes and save the file. The user must Clean Up & Unlock, and then re-upload the revised file. This applies even if they named the edited file the same name as before; the first version is already in the Staging Area, so they must re-upload to replace it.
- *Clean Up & Unlock* to cancel this upload. This action removes the file from the staging area, and no changes are made to the database.
- [Edit the uploaded operations](#) using the web-based Operation Profile form.

Note: The user can also get to the Staging Area from the Operations menu.

6. **Publish Operations.** This step finalizes the data in the uploaded file in the INTEGRITY database. They will be able to see the changes right away; use filters or the Search page to look for any operation that is uploaded.

One final screen opens, giving the user the opportunity to verify this action (or Cancel) before making data available to the public. If they are sure, click *Publish Operations*.

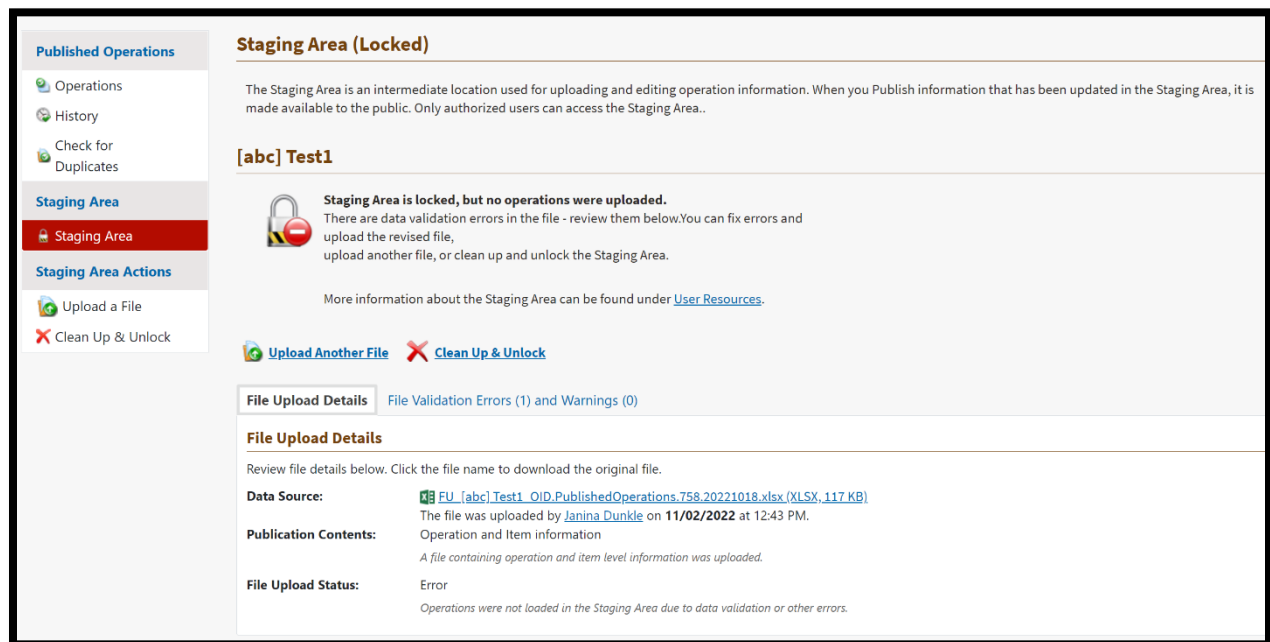

IMPORTANT! Remember to **PUBLISH** to make the uploaded data available in the database, and viewable by other users in the web application.

Once data is published, the Staging Area is automatically cleared and unlocked. It is ready for the next upload or edit.

3.2.4. Errors & Validation Messages

If there are any errors in the uploaded file, error messages will display on the Staging Area page (which opens automatically). Notice that the Staging Area is now *locked because* a file has been uploaded. The user must either fix the errors and attempt the upload again or choose *Clean Up & Unlock* to remove the uploaded file.

Click the *File Validation Messages* tab to view details about the errors. This will tell the user exactly where (by row and cell) the uploaded file has problems.

File Upload Details **File Validation Errors (1) and Warnings (0)**

File Validation Errors and Warnings

The following validation errors were found. Validation errors prevented operation and item level information from being loaded into the Staging Area. Click **Export File** below to download a version of the file you submitted with embedded validation messages (new Errors or Warnings worksheet tabs will be inserted).

Show Messages: ☒ Errors (1) ☐ Warnings (0) ☐ All (1) [Export to File](#)

Type	Worksheet	Row	Message
Error	Item Level	6	Cell I6 (column "Other Item") Other Item list cannot be specified for not "Other" taxonomy Item.

10 items per page 1 - 1 of 1 items

To Make Corrections

1. Open the Excel file that was just attempted to be uploaded.
OR choose *Export to File* to create a new Excel file containing the data the user just attempted to upload. This exports as a macro-enabled file, like the original template.
2. Make the necessary changes and save the Excel file.
3. In the Staging Area, choose *Upload a File*, and repeat the upload of the revised file.
4. Click *Publish Operations*.

The user may have to repeat the correction process more than once if new errors are found. Validations are run on Operation level data first. After that data is error free, then the Item level validations run. This means the user may have to fix Operation data, and then on the next upload attempt, there may be additional errors found in Item level data. Keep editing and uploading until all errors are resolved.

In the example below, there are no errors:

[abc] Test1

The Staging Area contains operations from the uploaded file.

Use options below or use menu items on the left (under the Staging Area and Actions sections) to review, edit, add, validate, or publish operations.

More information about the Staging Area can be found under [User Resources](#).

[Publish Operations](#) [Validate Operations](#) [Export to File](#) [Clean Up & Unlock](#)

File Upload Details **File Validation Messages (Empty)**

File Validation Errors and Warnings

No file validation errors or warnings were found or reported. Click **Validate Operations** above or use the menu item on the left to validate operations in the Staging Area.

3.3. Edit Operations

In addition to uploading information from a file, the user can use a web-based Operation Profile form to make changes to the published data, including adding new operations and items, and editing existing operations and items.

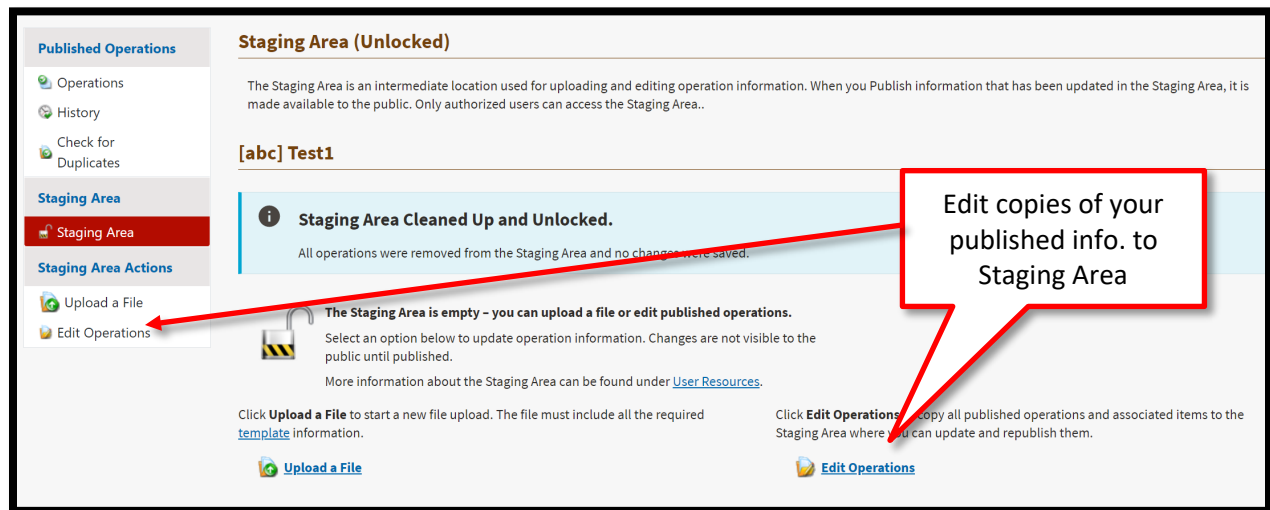

Editing involves two general parts:

1. Edit (add or update) operations and item level data. See detailed instructions throughout this section.
2. [Publish](#) to finalize data in the database, making it available to the public.

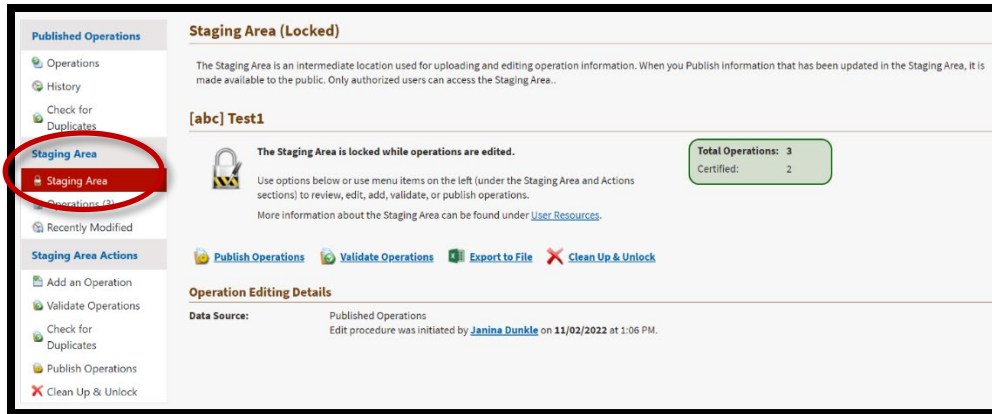

To edit operation and item level data, use one of these methods to get to the web-based form:

- On left-panel menu, select *Edit Operations*
- Operations menu > Open Staging Area, click link for *Edit Operations*.

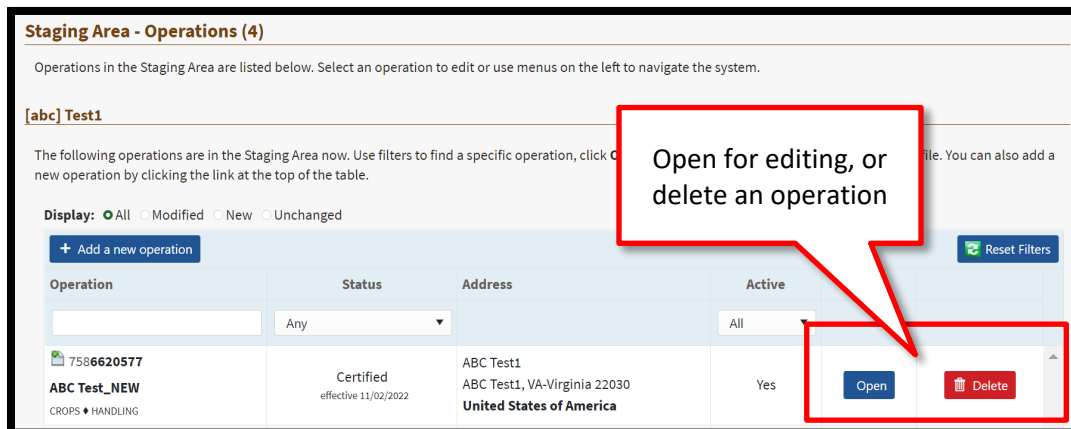

Both options are available only if the Staging Area is unlocked (there cannot be an uploaded file awaiting publication).

- If the user has already uploaded a file (but not published), the Staging Area is locked and the Edit option does not appear. Instead, click the *Operations* link in the left panel, under the heading Staging Area.

- When the user Edits Operations, the system copies ALL the published operations and items to the Staging Area. After making changes, the user will Update (save) and Publish, finalizing the changes in the database.
- INTEGRITY shows a list of the published operations; there are options for Open and Delete on each row. Open an operation to view and change its information, including associated item (product) level information.

- This list can be filtered using the box on the Operation Name column and/or the Status (choose from list). Reset Filters clears the data from the database. The user can Add a new operation here – click the link just above the Operation Name column (also see Section 3.2.2).
- The small numbers next to each scope (CROPS, HANDLING, etc.) indicate the number of Items certified for that scope if they have been entered individually.

3.3.1. Edit an Existing Operation and Items

Open the Operation Profile from the Staging Area (see instructions above).

Staging Area - Operation Profile (7584421961) - Modified

You can update information by clicking Edit. Modified operation. Last modified by [JUAN ALVAREZ](#) on 11/02/2022 at 1:30 PM.

Editing Operation level data:

- Click the *Edit* link on a section in the Operation Details tab. This method is quick if the user has only a couple of minor changes. It opens just that section in an editing window. Make the changes and click *Update* to save; if successful, a message appears in a green block at the top of the screen.

3.3.2. Edit Operation (Using Web-based Forms)

Open the editing form by selecting *Edit Operation* from the blue bar near the top of the Staging Area screen.

This set of Editing Form buttons appears at the bottom of several editing pages:

- **Save:** saves the current changes
- **Create:** shown only when the user is adding a new operation or item; this saves the new data
- **Add a new operation** opens a form for entering all operation level data (appears only when editing an operation)
- **Add a new Item** opens a form for entering all item level data (appears only when editing an item)
- **Copy:** copies basic information from the current operation or product, and opens a form for additional data entry for a new operation or product
- **Delete:** deletes the currently displayed operation or item from the Staging Area. This function only works at the Operation Level for operations not previously published – it will not delete operations from the database.
- **Return:** goes back to the operation profile in the Staging Area; if the user has NOT clicked Update, their changes are lost when they Return
- **Add an Item** adds a new item to the operation being edited; (appears only when editing an operation)

Staging Area - Edit the Operation Level Information (7584421961)

Modify information as needed, then click **Save**.

Scope Summary

Enter or verify scope information. If a scope status is not selected, it will be set based on the operation and item statuses. All dates must be entered using

General Instructions for Using Forms – Saving and Publishing

1. Make any desired changes in the form, in one or more sections.
2. When the user is finished, click *Update* or *Create* at the bottom of the page to save the changes.
3. Click *Return* to go back to the Operation Profile page.
4. When they have finished making updates and additions, select *Publish Operations* from the left-panel menu. Like publishing an uploaded file, INTEGRITY presents one last screen, Staging Area – Publish Operations, in which they can run validation rules, cancel the updates, or continue with publishing. When they select Publish Operations here, the information is written to the database and made available to the public.

3.3.3. Add a New Operation

There are several ways to get to a New Operation form:

- From the Staging Area, select Edit Operations, then *+ Add a new Operation* just above the Operation Name column .
- On an Operation Profile form in the Staging Area, Add Another Operation link in the blue bar at the top of the screen.
- On an Operation Profile form in the Staging Area, click the *Add Operation* button.
- Copy an existing operation, and then edit the details if there is one that is similar to the operation they want to add (see next section).

Use any of these methods open up a new Operation Profile form. Follow the instructions on the screen for each field.

When the user is finished with Operation level information, they can continue adding operations or add items, using the buttons at the bottom of the page. Then follow the steps for [saving and publishing](#) the data in the form.

Staging Area - Add a New Operation

Enter information, then click **Create**.

[\[Operation Information\]](#) ♦ [\[Scope Summary\]](#) ♦ [\[Contact Information\]](#)

Operation Information

Enter or verify operation information. All dates must be entered using Month/Day/Year format (e.g. 01/15/2015 or 1/15/2015).

Certifier: [abc] Test1
NOP ID: *
Enter a unique 10-digit value (starting with 972) or enter a, generate or auto to generate the ID automatically.

Additional fields may appear, depending on what you select.

If there are any errors on the form, such as missing data in required fields, INTEGRITY will display them at the top of the page. The new operation cannot be created until all errors are resolved.

Errors:

- Operation Status is required.
- [Mail Address] Address Line 1 is required.
- [Mail Address] City is required.
- [Mail Address] State is required.
- [Mail Address] Zip Code is required.

Staging Area - Add a New Operation

Enter information, then click **Create**.

[\[Operation Information\]](#) ♦ [\[Scope Summary\]](#) ♦ [\[Contact Information\]](#)

A success message displays at the top of the screen when the Create action is completed, and the new operation is added to the data in the Staging Area.

3.3.4. Copy an Operation

When the user is viewing an Operation Profile in the Staging Area, the Copy option is another way to create a new operation. Basic information, such as the contact name and address, is copied from the current one onto a new operation. Edit as needed and click *Create*. Then follow the steps for [saving and publishing](#) the data in the form.

3.3.5. Delete an Operation

The Delete option is only to remove an operation in the Staging Area that has not been previously published. In this case Delete prevents an operation from being pushed to the database, while still allowing all other operation data in the Staging Area to be published. The user can find Delete in these locations:

- Staging Area > Edit Operations. Then *Delete* from the list of operations.
- Open the operation for editing from the Staging Area, then choose Delete Operation at the top of the page.

In either case, INTEGRITY presents a confirmation message noting that the operation will be removed from the Staging Area. When the user publishes, the deleted operation is not sent to the database.

Please note that the user cannot delete a published operation through the web application interface.

3.3.6. Add a New Item to an Operation

There are several ways to get to a New Item form:

- Open an operation for editing, select *Add a New Item* (at the top of the screen)
- When the user has created a new operation, click *Add an Item* (button at the bottom of the screen)
- Or *Add Another new Item* when they have already added one

The options presented on the New Item form vary, depending on the Scope they choose for the added item.

Staging Area - Adding Item (Product) to Operation (7584421961)

Enter information, then click **Create**.

Certifier Name: [abc] Test1
NOP Operation ID: 7584421961

[Top](#)

[+ Create](#) [← Return](#)

Click *Create* when the user is finished; then follow the steps for [saving and publishing](#) the data in the form.

3.4. Publish Operations

Regardless of how they added or updated – uploading an Excel file or editing in the web-based forms – to finalize operations data available in the database, they must *Publish Operations*. Then they will see the updated data when they search in the web application.

If they see the *Publish Operations* link in the left panel or on the Staging Area page, it means there is data still in the Staging Area that has not been finalized in the database yet:

The screenshot shows the 'Staging Area Actions' menu on the left with 'Publish Operations' circled in red. The main table, titled 'Staging Area', has columns 'Operation' and 'Status'. It contains two rows of data:

Operation	Status
7586620577 ABC Test_NEW CROPS ♦ HANDLING	Certified effective 11/02/2022
7581183063 ABC TEST_NEW1	Certified effective 11/02/2022

3.5. History for Published Operations

Choose *History* from the left panel menu, OR Operations > *View My Data History*. The history tracks what changes were made by whom and when to the organization's published data.

The screenshot shows the 'Data Update History' page. It includes a description: 'The history of data updates (in reverse chronological order) for the selected certifier is displayed below.' The certifier is '[abc] Test1'. There are 9 updates in total. The table below shows the first three updates:

Date	Data Source	Published Operations	Published By
11/2/2022	File (Operations and Items)	Published Operations	DAKOTA ARTHUR
11/2/2022	File (Operations and Items)	Publication Process not completed	DAKOTA ARTHUR
10/24/2022	Published Operations	Publication Process not completed	DAKOTA ARTHUR

In the Data Source column, 'Published Operations' means that edits or additions were made directly in INTEGRITY using the web-based Operation Profile form, rather than through a file upload. The user can open any of the files of operations and items that were published on specific dates.

3.6. Export Operations to Excel

The user can export a full list or filtered list of operations and their items to Excel – this gives them a properly formatted list that they can then edit, save, and re-import when they want to update operations data.

1. Go to Operations > *View My Operations* to display a list of their published operations.
2. Filter the list if they want only a subset of the operations.
3. Look for the Export to File link at the top of the list. Click the link and then save the file to the computer. See Section 3.1 for how to upload if they would like to edit or add operations.

[Certifiers](#) > [Certifier](#) > [Operations \(Published\)](#)

My Published Operations (3)

Published operations are listed below. Select an operation and click **Open** on the right to view the Operation Profile.

[abc] Test1

The following operations are currently published. Use filters to find a specific operation, click **Open** on the right to open an Operation Profile.

Figure 25 Import Certificate Profile Page

Edits in the certificate form are limited to the certificate End date, Estimated Total Net Weight in kg, Estimated Total Number of Containers, Lot Numbers and Remarks. The changes will be automatically saved as you progress through the wizard tabs.

Once you have finished making your edits, select **Save**. If you want to preview the edits, select the **Preview PDF** button. *INTEGRITY* will download a preview of the Import Certificate in PDF format for you to review any new edits made.

The edited import certificate will only be in the staging area in draft status until published, so return to the staging area to republish your edited import certificate.

The import certificate number will remain the same and the newly edited Import Certificate will override the old one in both the staging area and the published import certificates page.

Figure 36 Editing an Import Certificate Completion

4.2.2. Create a New Import Certificate

There are several ways to get to a new Import Certificate form:

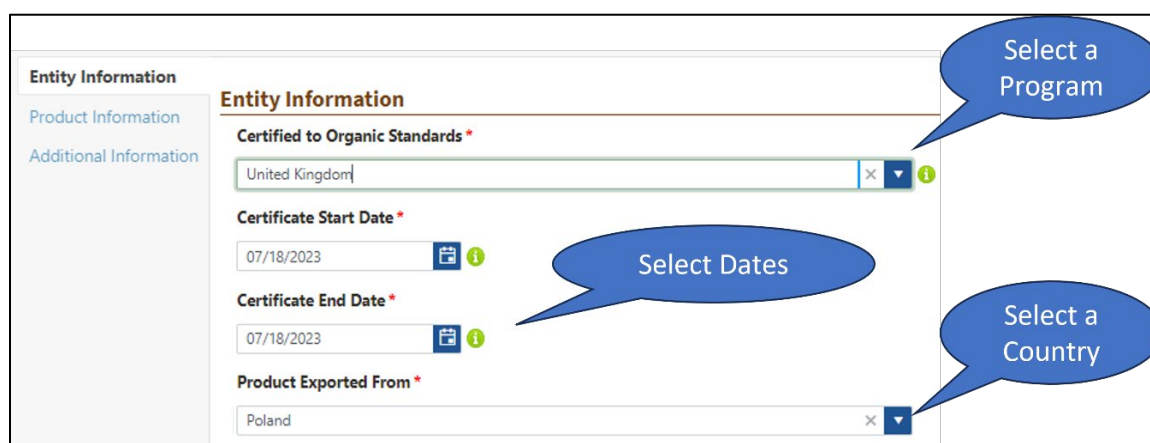

- From Staging Area, select **+ Create an Import Certificate** above the Publish name column.
- From Staging Area Actions, choose **Create Import Certificate**.

Figure 37 Create New Import Certificate

Any of the options you choose will lead you to a new Import Certificate form, see the example below.

For each section, you must enter the required fields to progress to the next step. If you need additional information about the field you need to fill in, select on the tooltip  icon.

1. The first section of the form is designated to **Entity Information** and covers exporter, final handler, and recipient information. Start your form by selecting a program, certificate start/ end dates, and country of export. Once completed, scroll down to the next section.

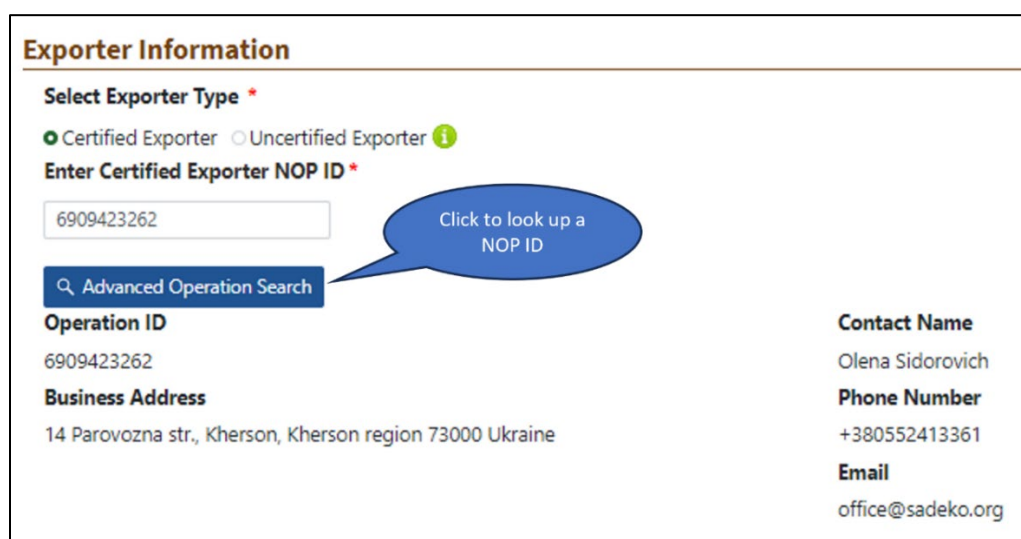

The screenshot shows the 'Entity Information' section of the form. It includes a sidebar with 'Entity Information', 'Product Information', and 'Additional Information'. The main form area has the following fields:

- Certified to Organic Standards ***: A dropdown menu with 'United Kingdom' selected. A callout bubble points to it with the text 'Select a Program'.
- Certificate Start Date ***: A date field with '07/18/2023' and a calendar icon. A callout bubble points to it with the text 'Select Dates'.
- Certificate End Date ***: A date field with '07/18/2023' and a calendar icon.
- Product Exported From ***: A dropdown menu with 'Poland' selected. A callout bubble points to it with the text 'Select a Country'.

Figure 38 Create New Import Certificate – Entity Information

2. In **Exporter Information**, select your exporter type (Certified *or* Uncertified) using the radio buttons. If you selected a certified exporter, you have to enter an NOP ID and the system will automatically display operation's contact information on file.

Note, you can look up an Operation ID by selecting on the Advanced Operations Search link. Once you find it, you can copy it, close out of the search window and return to your wizard to continue with the form.

The screenshot shows the 'Exporter Information' section of the form. It includes the following fields and elements:

- Select Exporter Type ***: Two radio buttons, 'Certified Exporter' (selected) and 'Uncertified Exporter'. A callout bubble points to the 'Uncertified Exporter' button with the text 'Click to look up a NOP ID'.
- Enter Certified Exporter NOP ID ***: A text field with '6909423262'.
- Advanced Operation Search**: A button with a magnifying glass icon.
- Operation ID**: A text field displaying '6909423262'.
- Business Address**: A text field displaying '14 Parovozna str., Kherson, Kherson region 73000 Ukraine'.
- Contact Information**: A table displaying contact details for the selected operation.

Figure 42 Entity Information - Recipient

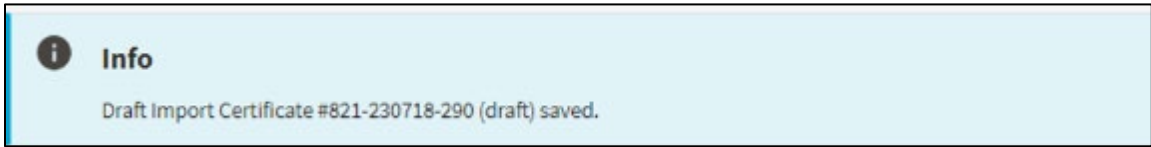

Additionally, you can add the alternate recipient contact information by checking the box and entering the information.

Figure 43 Entity Information – Alternate Recipient Contact Information

Select Next, to move to the next section of the form.

Note, if there are any errors on your form, such as missing data in required fields, INTEGRITY will display them at the top of the page and highlight the fields that need corrections. The new import cannot be created until all errors are resolved.

Note, if you have entered data in all required fields, the system will automatically save your progress every time you select **Next** and display the success message.

6. In the **Product Information** section, enter required fields and select **Next** to move to the next screen.

A screenshot of a web form titled 'Product Information'. On the left is a sidebar with three tabs: 'Entity Information' (blue), 'Product Information' (white), and 'Additional Information' (blue). The main area contains several input fields, each with a green 'i' icon to its right. The fields are: 'Product as Labeled *' with the value 'Magic Wine'; 'Harmonized Tariff Code *' with the value '0101904000'; 'Estimated Total Net Weight in kg *' with the value '34.00'; 'Estimated Total Number of Containers' with the value '78'; and 'Lot Number' with the value '1234, 87'. At the bottom of the form are three buttons: 'Return' (with a left arrow), 'Previous' (with a double left arrow), and 'Next' (with a double right arrow).

Figure 44 Product Information

7. The **Additional Information** section is the final step in the import certificate creation. Most of the fields will be filled out based on your prior selections. To complete the form, you must select

your attestation from the dropdown and select **Save**.

The screenshot shows a web form titled 'Additional Information'. On the left, there are tabs for 'Entity Information', 'Product Information', and 'Additional Information'. The 'Additional Information' tab is active. The form contains several input fields, each with a green information icon to its right. The fields are: 'City and State of Product Destination' (filled with 'Louisburg, MO'), 'Certifying Body Issuing Certificate' (filled with '[OEFFA] Ohio Ecological Food and Farm Association'), 'Remarks' (filled with 'Five'), 'Attestations *' (a dropdown menu showing 'Certified in compliance with the terms of the U.S.-Canada Organic Equivalency Arrangement'), 'Certificate Issuer Full Name' (filled with 'Camille Ackerman'), and 'Date Signed' (filled with 'Auto-populated with the date the certificate is published'). The 'Attestations *' field is circled in red. At the bottom of the form, there are four buttons: 'Return', 'Previous', 'Save', and 'Preview PDF'. The 'Save' button is circled in red. There are also yellow callout boxes with numbers 1 and 2. Callout 1 points to the 'Attestations *' field, and callout 2 points to the 'Save' button.

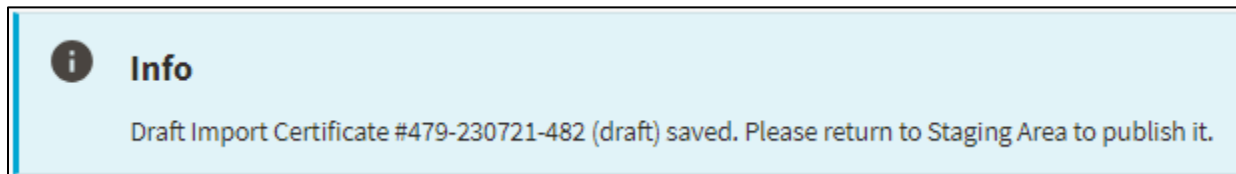

Figure 45 Additional Information

Note, attestation applies to products certified under Trade Partner programs. If an Attestation does not apply (e.g., product is USDA-NOP certified), then choose N/A.

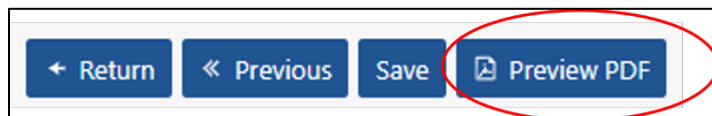

Congratulations – you’ve created a new **draft** import certificate!

A confirmation message displays at the top of the screen when the create action is completed, and the new import certificate is added to the data in the Staging Area.

Important, the important certificate will remain in **draft** status until published. You must return to Staging Area to publish it.

You will be able to preview and save your new import certificate by selecting on the **Preview PDF** button.

Figure 46 Example, new Import Certificate

4.2.3. Copy an Import Certificate

The copy functionality is coming soon as a future enhancement.

4.2.4. Delete a Draft Import Certificate

Any draft Import Certificate can be deleted if no longer required in the Staging Area. You can identify that an Import Certificate is new by the icon to the left of the Certificate # (see figure below).

If the icon has a green plus icon, this means that the Import Certificate has been newly added (if you hover over the icon, it will say "The Import Certificate was added").

In the staging area, Status dropdown can help you filter for **draft** Import Certificates. Once you identify the one that needs to be deleted and select the **Delete** icon.

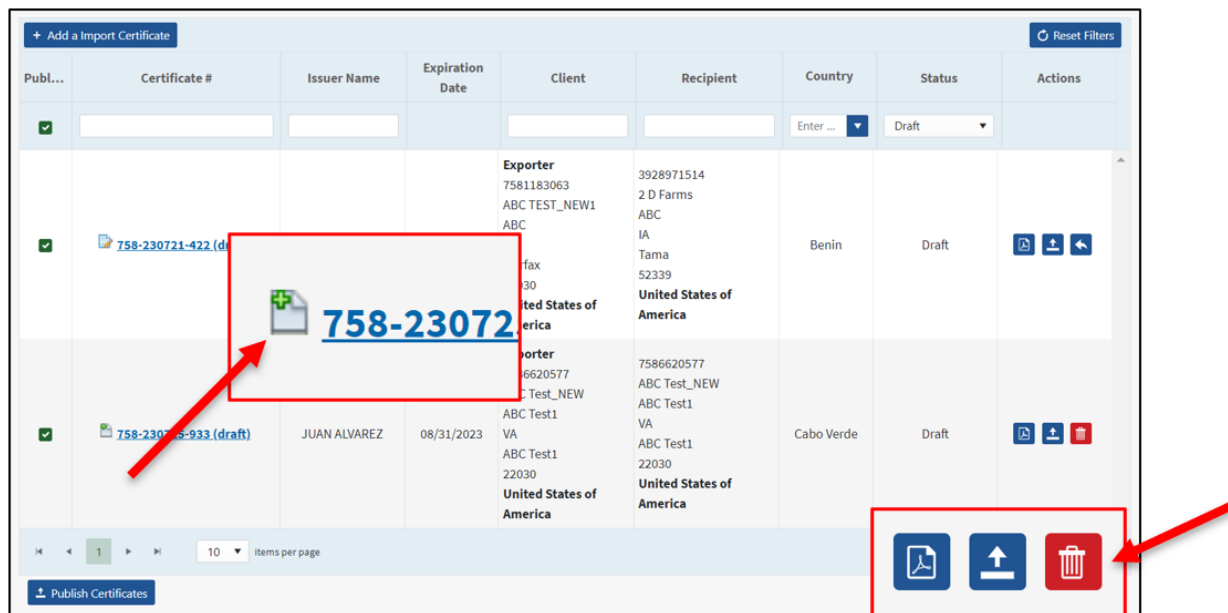

Figure 47 Deleting an Import Certificate

Once you have confirmed the Import Certificate should be deleted, the page should reload with a success message.

Note, published import certificates cannot be deleted hence the delete icon 🗑️ will not be available in the Action column.

If you wish to restore an Import Certificate, select the restore icon ⏮️ on any entry (entries must both be valid and modified). Once you have confirmed the Import Certificate should be restored, the page should reload with a success message.

4.3. Publish Import Certificate

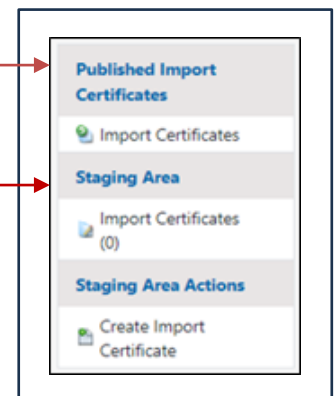

After you've published data, you can see a list of published new import certificates in the Published Import Certificates **left menu option**:

- Import Certificates: view new data in the system

Prior to publishing, you can review the newly uploaded import certificates data from the **Staging Area** left menu option.

- **Import Certificates (#):**

Additionally, you can preview certificates individually by selecting on the PDF button in the Action column.

To publish your new and edited import certificate(s):

- Go to the Staging Area.
- The default settings will display All certificate statuses: Valid, Invalid and Drafts. To change it, simply select on the Status dropdown and select a relevant option (eg.Drafts).Use the

checkbox column to select all or individual certificates in draft status for publishing.

- Then, select the Publish button (Option 2) in the Actions column to complete the action.

If you selected multiple certificates, you could use either the Publish button above or below the grid (Option 1 & 3) to proceed with the publishing process.

The screenshot shows a table with columns: Publ..., Certificate #, Issuer Name, Expiration Date, Client, Recipient, Country, Status, and Actions. A row is highlighted in red, showing a draft certificate for 'Eliseo Allyn' with expiration date '07/29/2023'. The 'Client' column contains detailed information for 'Final Handler' in Mexico. The 'Recipient' column shows 'United States of America'. The 'Status' is 'Draft'. In the 'Actions' column, there are three icons: a document, a plus sign (circled in red with a yellow circle 2), and a refresh icon. Above the table, there is a '+ Publish Certificates' button (circled in red with a yellow circle 1) and a '+ Add an Import Certificate' button. Below the table, there is another '+ Publish Certificates' button (circled in red with a yellow circle 3) and a 'Reset Filters' button. The table footer shows '1 - 1 of 1 items'.

- Once you confirm your action by selecting OK.

Do you want to publish the 1 Import Certificates?

- Success message will confirm the completion of the process.

Published Successfully!

The selected Imported Certificates are published successfully

See your newly published import certificate in the Published Import Certificate page and the Staging Area with Valid status.

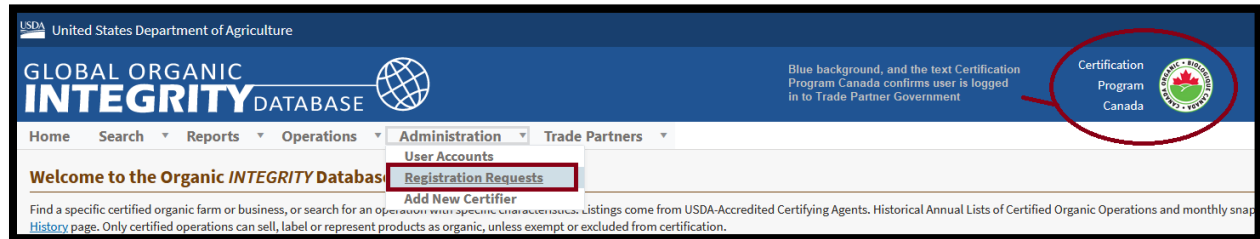

5. Administration: Manage Registration Requests and Users

INTEGRITY Leads can perform data and account management within their own organization.

5.1. Process Registration Requests (Approve/Reject/Cancel)

When a new user registers for a **Trade Partner Government - INTEGRITY Lead** or **Trade Partner Government – Staff Read Only** account, the request must be approved by an INTEGRITY Lead for the new account to become active. Each INTEGRITY Lead can view pending requests for accounts within their own organization only.

Go to Administration > *Registration Requests* (If Registration Requests does not appear on the menu, they are not an INTEGRITY Lead.)

All pending requests are displayed in a list. Click *Process* in the right column for the request they want to work on.

This opens the request:

Swapna Test requested an account

Personal Information

Name: Test, Swapna

Email: skaskurti@ekinsol.com

Account Information

Program: CFIA-COR (Canada)

Account Type: Trade Partner Government

Role: Trade Partner Government - INTEGRITY Lead

Comments:

Approve Reject Cancel

Role: As the INTEGRITY Lead, they may elect to give user account management privileges to another user, for example, to have a backup person to review registration requests. If they want to do this now, simply choose **Trade Partner Government - INTEGRITY Lead** from the Role dropdown list.

Actions:

- **Approve:** accept the request and activate the account; the user will appear in the list of User Accounts (accessible from the Administration menu)
- **Reject:** deny the request; account is not created
- **Cancel:** removes the request without accepting or denying it

Click one of the action buttons to process the request appropriately. In all cases, the user receives an email notification from INTEGRITY regarding the action taken.

Approve – When *Approve* is clicked, Administrator will see a confirmation message for registration request approved. The next pending request in list is automatically loaded to process request for next user in queue.

Registration Request

✓ **The Registration Request was approved.**

The Registration Request from **Swapna Test** was approved and the account was created successfully.
The next pending request from **sarishna kandula** was automatically loaded.

Review the registration request and Approve or Reject it. If there are additional pending requests, they will be displayed one at a time after you

sarishna kandula requested an account

Personal Information

Name: kandula, sarishna
Email: ksarishna546@gmail.com

Account Information

Program: CFIA-COR (Canada)
Account Type: Trade Partner Government
Role: Trade Partner Government - INTEGRITY Lead
Comments:

Approve Reject Cancel

Reject – When *Reject* is clicked, prompted with a confirmation dialog. Administrator should enter the rejection reason and the end user may then modify and resubmit the request or withdraw it.

Reject Registration Request

Enter a rejection reason, then click Reject to send it back to the requester. He or she may then modify and resubmit the request, or withdraw it.

* Enter rejection reason:

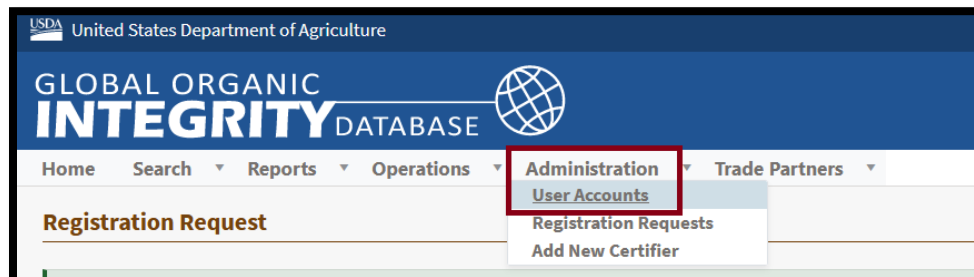

Enter up to 1000 characters.

OK Cancel

5.2. Modify User's Role or Status

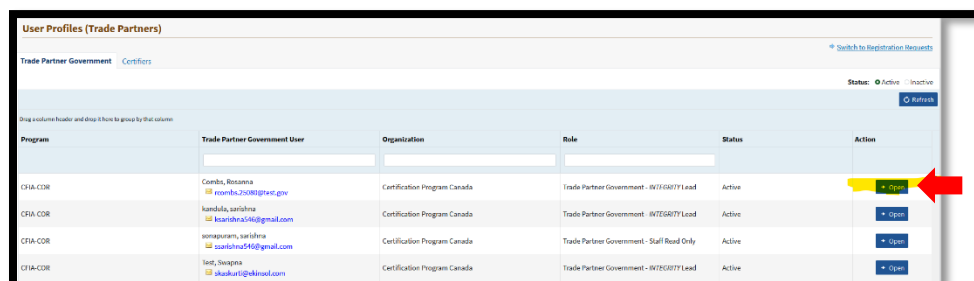

At any time, leads can change a user's role (giving or removing Administrator privileges) or change an account from Active to Inactive.

1. Go to Administration > User Accounts

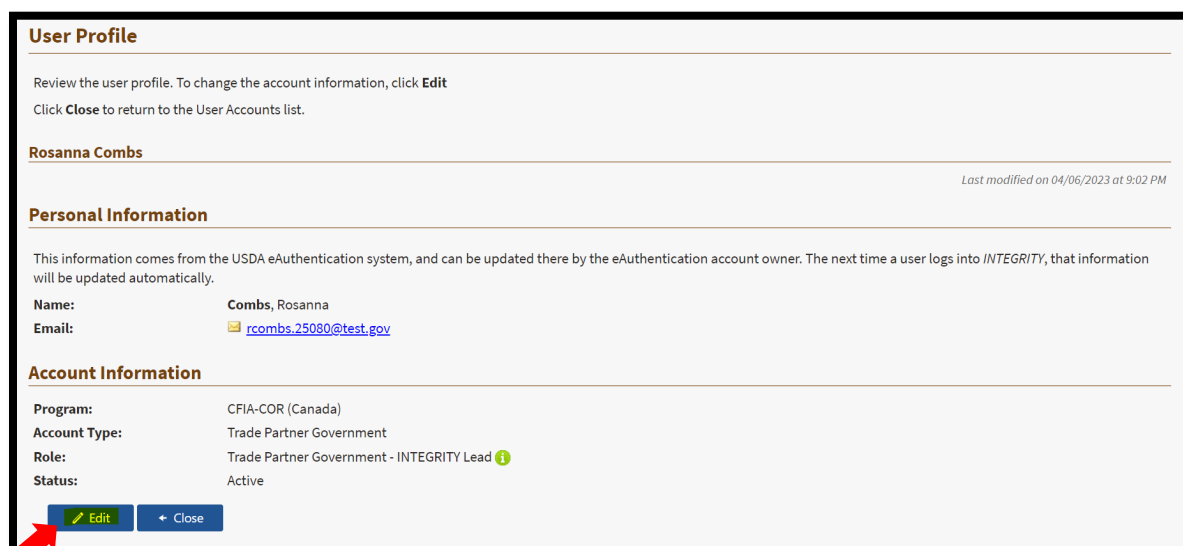

2. Click *Open* in the far right column for the user profile they want to change.

Please note that by default, the list displays only Active accounts. To see Inactive accounts, select the Inactive radio button just above the list (right side of the screen).

3. At the bottom of the user profile page, click *Edit*.

4. Change Role and/or Status, as needed. Click *Update* to save the changes. The change takes

effect the next time this user logs into INTEGRITY.

6. Manage Certification Body Profiles

Trade Partner Government INTEGRITY Leads also manage certification bodies that are accredited by their government agency. They can add a new certification body and edit Certifier Profile information for existing certification bodies. They can also update a Certifier Profile for certification bodies that have exited accreditation under their scheme to hide that certification body and their operations from public view.

6.1. Add a New Certification Body

To add a new certification body, log in to INTEGRITY and start from the Home page. Hover over the Administration bar and click *Add New Certifier*.

The screenshot shows the INTEGRITY Database Administration interface. The top navigation bar includes 'Home', 'Search', 'Reports', 'Operations', 'Trade Partners', 'Import Certificate', 'Administration', 'Contact Us', 'About', and 'User Resources'. The 'Administration' dropdown menu is open, showing options: 'User Accounts', 'Registration Requests', and 'Add New Certifier'. A red arrow points to the 'Add New Certifier' option. Below the menu, there is a search bar with a 'Reset Search Filters' button and an 'Advanced Search' button. A table with columns for Program, Operation, Certifier, Info, Status, City, State/Province, Country, and Certified Prod... is visible. The table currently shows 'No records available.' and a pagination bar at the bottom indicates '10 Items per page' and '0 - 0 of 0 items'.

Fill in all required Certifier Profile form information, including all Accredited Scopes, then click *Save* to create the new certification body. INTEGRITY will automatically generate a random three-digit certifier ID for the new record.

6.3. Setting a Certification Body Profile to Inactive

If a certification body is no longer accredited, click the *Edit* button on the Certifier Profile. Revise the Certifier Name by adding the term ***INACTIVE*** to the end of the Certifier Name. This helps to easily identify inactive certification bodies in search results lists. Also set the Certifier Profile to “inactive” status. Click on the green *Active* checkbox, then click the *Update* button.

Taxonomy Categories & Items

	A	B	C	D	E	F	G	H	I
1	NOP Taxonomy - Categories and Items (2/22/2019)								
2									
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.							
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).							
5	NOP Category ID	Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.							
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.							
7	NOP Item ID	Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.							
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.							
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

	A	B	C	D	E
1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic INTEGRITY Database Data Dictionary: please use the instructions below to format your data on EU certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	Public
6		Other/Former Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	Public
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	Public
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	Public
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	Public
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	Public: Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: All operations
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public : Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
21		Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
22		Physical Address: Street 2	Optional	Additional address information.	Public
23	Contact Information	Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public
24		Physical Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	Public
25		Physical Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	Public
26		Physical Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
27		Mailing Address: Street 1	Required if no Physical Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
28		Mailing Address: Street 2	Optional	Additional address information.	Public
29		Mailing Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public
30		Mailing Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	Public
31		Mailing Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	Public
32		Mailing Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
33		Phone	Optional	For international numbers, begin with the country code. Do not include "011." If the operation does not have a telephone number, leave blank.	Public
34		Email	Optional	Do not enter website addresses. Incomplete addresses will be deleted.	Public
35		Website URL	Optional	Do not enter email addresses.	Public
36		Additional Information	Optional	Any other information regarding the operation. 4,000 character limit.	Public

Instructions

	A	B	C	D	E
37	Operation Services/Business Types	Total Certified Acres	Optional	Number of acres certified organic.	<i>All Certifiers and Accrediting Program Staff; Public:</i> Aggregate USDA-NOP data
38		Broker	Optional	Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes. (Yes as applicable)	<i>Public</i>
39		Community Supported Agriculture (CSA)	Optional	Local farmer markets or groups. (Yes as applicable)	<i>Public</i>
40		Co-Packer	Optional	Company that manufactures and packages foods or other products for their clients. works under contract with the hiring company to manufacture food as though the products were manufactured directly by the hiring company. (Yes as applicable)	<i>Public</i>
41		Dairy	Optional	Individual or company's involved in the raising of domestic animals for production of the milk of animals. (Yes as applicable)	<i>Public</i>
42		Distributor	Optional	Any person involved in the business who supplies goods to stores and other businesses that sell to consumers, including transportation. (Yes as applicable)	<i>Public</i>
43		Marketer/Trader	Optional	Individual or company that buys and sells organic commodities to the industry, moving products throughout the supply chain. (Yes as applicable)	<i>Public</i>
44		Restaurant	Optional	Establishment in the direct preparation of meals to the consumer. (Yes as applicable)	<i>Public</i>

Sample Taxonomy

	A	B	C	D	E
1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic <i>INTEGRITY</i> Database Data Dictionary: please use the instructions below to format your data on USDA-PPIS certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	Public
6		Other/Formal Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	Public
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	Public
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	Public
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	Public
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	Public: Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: All operations
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
21	Contact Information	Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
22		Physical Address: Street 2	Optional	Additional address information.	Public
23		Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public
24		Physical Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	Public
25		Physical Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	Public
26		Physical Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
27		Mailing Address: Street 1	Required if no Physical Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
28		Mailing Address: Street 2	Optional	Additional address information.	Public
29		Mailing Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public
30		Mailing Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	Public
31		Mailing Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	Public

	A	B	C	D	E
32		Mailing Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
33		Phone	Optional	For international numbers, begin with the country code. Do not include "011." If the operation does not have a telephone number, leave blank.	Public
34		Email	Optional	Do not enter website addresses. Incomplete addresses will be deleted.	Public
35		Website URL	Optional	Do not enter email addresses.	Public
36		Additional Information	Optional	Any other information regarding the operation. 4,000 character limit.	Public
37		Total Certified Acres	Optional	Number of acres certified organic.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
38	Operation Services/Business Types	Broker	Optional	Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes. (Yes as applicable)	Public
39		Community Supported Agriculture (CSA)	Optional	Local farmer markets or groups. (Yes as applicable)	Public
40		Co-Packer	Optional	Company that manufactures and packages foods or other products for their clients. works under contract with the hiring company to manufacture food as though the products were manufactured directly by the hiring company. (Yes as applicable)	Public
41		Dairy	Optional	Individual or company's involved in the raising of domestic animals for production of the milk of animals. (Yes as applicable)	Public
42		Distributor	Optional	Any person involved in the business who supplies goods to stores and other businesses that sell to consumers, including transportation. (Yes as applicable)	Public
43		Marketer/Trader	Optional	Individual or company that buys and sells organic commodities to the industry, moving products throughout the supply chain. (Yes as applicable)	Public
44		Restaurant	Optional	Establishment in the direct preparation of meals to the consumer. (Yes as applicable)	Public
45		Retail Food Establishment	Optional	Businesses that sell goods directly to individuals, organic certification not required. (Yes as applicable)	Public
46		Poultry	Optional	Individual or company's involved in the raising of domestic poultry animals for production of commodities such as meat, eggs, fiber. (Yes as applicable)	Public
47		Private Labeler	Optional	An owner of a brand or trademark on the label of a consumer product which bears a private label. (Yes as applicable)	Public
48		Slaughterhouse	Optional	Certified organic facility used for the slaughtering of livestock. (Yes as applicable)	Public
49		Storage	Optional	Any person or business involved in the certified storage of goods. (Yes as applicable)	Public
50		Grower Group	Optional	Grower Groups consist of farmers engaging in similar growing practices in a distinct area, growing similar crops under the same conditions, and managed, audited and monitored by an Internal Control System managed in a group format. (Yes as applicable)	Public
51		Grower Group Size	Optional	If Yes to Grower Group, enter number of members.	Reporting Certifier and Accrediting Program Staff
52		Item Level			
53		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
54		Certificate Number	Optional	Certificate number issued by Certifier.	Public
55		Scope	Required	Scope certified under (Crops/ Livestock/ Wild Crops/ Handling)	Public
56		NOP Category	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
57		NOP Category ID	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
58		NOP Item Name	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
59		NOP Item ID	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
60		Other Item	Required IF no specific NOP Item Name or NOP Item ID Provided	If no specific NOP Item Name or NOP Item ID is selected, provide individual items or a comma-separated list of items. For example, "Apples, Oranges, Bananas."	Public
61		Item Varieties	Optional	If an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered, individual varieties or a comma-separated list of item varieties may be provided. For example, if the item is "Apples," varieties could include "Fuji, Golden Delicious, Gala.	Public
62		Certification Status	Optional	Select one of the following as applicable to individual item: Certified/Surrendered/Suspended	Public: Certified, Surrendered and Suspended Items. All Certifiers and Accrediting Program Staff: All Items
63		Status Effective Date	Optional	Date of last certification status change for individual item. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended Items. All Certifiers and Accrediting Program Staff: Dates for all item statuses reported
64		Last Review Date	Optional	Last date the operation has had a complete OSP review. MM/DD/YYYY	All Certifiers and Accrediting Program Staff
65		Acres Certified Organic	Optional	Number of certified organic acres for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
66		Acres Transitional	Optional	Number of acres transitioning to organic for individual items.	All Certifiers and Accrediting Program Staff
67		Heads Certified Organic	Optional	Number of certified organic heads (livestock) for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
68		Heads Transitional	Optional	Number of heads transitioning to organic (livestock) for individual items.	All Certifiers and Accrediting Program Staff
69		100% Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
70		Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
71		Made with Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
72

Taxonomy Categories & Items

	A	B	C	D	E	F	G	H	I
1	NOP Taxonomy - Categories and Items (2/22/2019)								
2									
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.							
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).							
5	NOP Category ID	Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.							
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.							
7	NOP Item ID	Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.							
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.							
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

Sample Taxonomy

	A	B	C	D	E
1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic <i>INTEGRITY</i> Database Data Dictionary: please use the instructions below to format your data on JAS certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	Public
6		Other/Former Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	Public
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	Public
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	Public
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	Public
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	Public: Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: All operations
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
21		Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
22		Physical Address: Street 2	Optional	Additional address information.	Public
23	Contact Information	Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public
24		Physical Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	Public

	A	B	C	D	E
32		Mailing Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
33		Phone	Optional	For international numbers, begin with the country code. Do not include "011." If the operation does not have a telephone number, leave blank.	Public
34		Email	Optional	Do not enter website addresses. Incomplete addresses will be deleted.	Public
35		Website URL	Optional	Do not enter email addresses.	Public
36		Additional Information	Optional	Any other information regarding the operation. 4,000 character limit.	Public
37		Total Certified Acres	Optional	Number of acres certified organic.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
38	Operation Services/Business Types	Broker	Optional	Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes. (Yes as applicable)	Public
39		Community Supported Agriculture (CSA)	Optional	Local farmer markets or groups. (Yes as applicable)	Public
40		Co-Packer	Optional	Company that manufactures and packages foods or other products for their clients. works under contract with the hiring company to manufacture food as though the products were manufactured directly by the hiring company. (Yes as applicable)	Public
41		Dairy	Optional	Individual or company's involved in the raising of domestic animals for production of the milk of animals. (Yes as applicable)	Public
42		Distributor	Optional	Any person involved in the business who supplies goods to stores and other businesses that sell to consumers, including transportation. (Yes as applicable)	Public
43		Marketer/Trader	Optional	Individual or company that buys and sells organic commodities to the industry, moving products throughout the supply chain. (Yes as applicable)	Public
44		Restaurant	Optional	Establishment in the direct preparation of meals to the consumer. (Yes as applicable)	Public
45		Retail Food Establishment	Optional	Businesses that sell goods directly to individuals, organic certification not required. (Yes as applicable)	Public
46		Poultry	Optional	Individual or company's involved in the raising of domestic poultry animals for production of commodities such as meat, eggs, fiber. (Yes as applicable)	Public
47		Private Labeler	Optional	An owner of a brand or trademark on the label of a consumer product which bears a private label. (Yes as applicable)	Public
48		Slaughterhouse	Optional	Certified organic facility used for the slaughtering of livestock. (Yes as applicable)	Public
49		Storage	Optional	Any person or business involved in the certified storage of goods. (Yes as applicable)	Public
50		Grower Group	Optional	Grower Groups consist of farmers engaging in similar growing practices in a distinct area, growing similar crops under the same conditions, and managed, audited and monitored by an Internal Control System managed in a group format. (Yes as applicable)	Public
51		Grower Group Size	Optional	If Yes to Grower Group, enter number of members.	Reporting Certifier and Accrediting Program Staff
52		Item Level			
53		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
54		Certificate Number	Optional	Certificate number issued by Certifier.	Public
55		Scope	Required	Scope certified under (Crops/ Livestock/ Wild Crops/ Handling)	Public
56		NOP Category	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
57		NOP Category ID	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
58		NOP Item Name	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
59		NOP Item ID	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
60		Other Item	Required IF no specific NOP Item Name or NOP Item ID Provided	If no specific NOP Item Name or NOP Item ID is selected, provide individual items or a comma-separated list of items. For example, "Apples, Oranges, Bananas."	Public
61		Item Varieties	Optional	If an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered, individual varieties or a comma-separated list of item varieties may be provided. For example, if the item is "Apples," varieties could include "Fuji, Golden Delicious, Gala.	Public
62		Certification Status	Optional	Select one of the following as applicable to individual item: Certified/Surrendered/Suspended	Public: Certified, Surrendered and Suspended Items. All Certifiers and Accrediting Program Staff: All Items
63		Status Effective Date	Optional	Date of last certification status change for individual item. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended Items. All Certifiers and Accrediting Program Staff: Dates for all Item statuses reported
64		Last Review Date	Optional	Last date the operation has had a complete OSP review. MM/DD/YYYY	All Certifiers and Accrediting Program Staff
65		Acres Certified Organic	Optional	Number of certified organic acres for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
66		Acres Transitional	Optional	Number of acres transitioning to organic for individual items.	All Certifiers and Accrediting Program Staff
67		Heads Certified Organic	Optional	Number of certified organic heads (livestock) for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
68		Heads Transitional	Optional	Number of heads transitioning to organic (livestock) for individual items.	All Certifiers and Accrediting Program Staff
69		100% Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
70		Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
71		Made with Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
72

Taxonomy Categories & Items

	A	B	C	D	E	F	G	H	I
1	NOP Taxonomy - Categories and Items (2/22/2019)								
2									
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.							
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).							
5	NOP Category ID	Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.							
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.							
7	NOP Item ID	Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.							
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.							
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

Sample Taxonomy

	A	B	C	D	E
1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic <i>INTEGRITY</i> Database Data Dictionary: please use the instructions below to format your data on USDA-MPI certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	<i>Public</i>
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	<i>Public</i>
6		Other/Former Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	<i>Public</i>
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	<i>Public</i>
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	<i>Public</i>
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	<i>Public</i>
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	<i>Public: Certified, Surrendered, Suspended and Revoked.</i> <i>All Certifiers and Accrediting Program Staff: All operations</i>
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered, Suspended and Revoked.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all operations</i>
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered, Suspended and Revoked.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all operations</i>
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered, Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
21	Contact Information	Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	<i>Public</i>
22		Physical Address: Street 2	Optional	Additional address information.	<i>Public</i>
23		Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	<i>Public</i>
24		Physical Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	<i>Public</i>
25		Physical Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	<i>Public</i>
26		Physical Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	<i>Public</i>
27		Mailing Address: Street 1	Required if no Physical Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	<i>Public</i>
28		Mailing Address: Street 2	Optional	Additional address information.	<i>Public</i>
29		Mailing Address: City	Optional	Use Title Case. If no city exists, then leave blank.	<i>Public</i>
30		Mailing Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	<i>Public</i>
31		Mailing Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	<i>Public</i>

Instructions

	A	B	C	D	E
32		Mailing Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
33		Phone	Optional	For international numbers, begin with the country code. Do not include "011." If the operation does not have a telephone number, leave blank.	Public
34		Email	Optional	Do not enter website addresses. Incomplete addresses will be deleted.	Public
35		Website URL	Optional	Do not enter email addresses.	Public
36		Additional Information	Optional	Any other information regarding the operation. 4,000 character limit.	Public
37		Total Certified Acres	Optional	Number of acres certified organic.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
38	Operation Services/Business Types	Broker	Optional	Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes. (Yes as applicable)	Public

41		Dairy	Optional	Individual or company's involved in the raising of domestic animals for production of the milk of animals. (Yes as applicable)	Public
42		Distributor	Optional	Any person involved in the business who supplies goods to stores and other businesses that sell to consumers, including transportation. (Yes as applicable)	Public
43		Marketer/Trader	Optional	Individual or company that buys and sells organic commodities to the industry, moving products throughout the supply chain. (Yes as applicable)	Public
44		Restaurant	Optional	Establishment in the direct preparation of meals to the consumer. (Yes as applicable)	Public
45		Retail Food Establishment	Optional	Businesses that sell goods directly to individuals, organic certification not required. (Yes as applicable)	Public
46		Poultry	Optional	Individual or company's involved in the raising of domestic poultry animals for production of commodities such as meat, eggs, fiber. (Yes as applicable)	Public
47		Private Labeler	Optional	An owner of a brand or trademark on the label of a consumer product which bears a private label. (Yes as applicable)	Public
48		Slaughterhouse	Optional	Certified organic facility used for the slaughtering of livestock. (Yes as applicable)	Public
49		Storage	Optional	Any person or business involved in the certified storage of goods. (Yes as applicable)	Public
50		Grower Group	Optional	Grower Groups consist of farmers engaging in similar growing practices in a distinct area, growing similar crops under the same conditions, and managed, audited and monitored by an Internal Control System managed in a group format. (Yes as applicable)	Public
51		Grower Group Size	Optional	If Yes to Grower Group, enter number of members.	Reporting Certifier and Accrediting Program Staff
52		Item Level			
53		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
54		Certificate Number	Optional	Certificate number issued by Certifier.	Public
55		Scope	Required	Scope certified under (Crops/ Livestock/ Wild Crops/ Handling)	Public
56		NOP Category	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
57		NOP Category ID	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
58		NOP Item Name	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
59		NOP Item ID	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
60		Other Item	Required IF no specific NOP Item Name or NOP Item ID Provided	If no specific NOP Item Name or NOP Item ID is selected, provide individual items or a comma-separated list of items. For example, "Apples, Oranges, Bananas."	Public
61		Item Varieties	Optional	If an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered, individual varieties or a comma-separated list of item varieties may be provided. For example, if the item is "Apples," varieties could include "Fuji, Golden Delicious, Gala.	Public
62		Certification Status	Optional	Select one of the following as applicable to individual item: Certified/Surrendered/Suspended	Public: Certified, Surrendered and Suspended Items. All Certifiers and Accrediting Program Staff: All Items
63		Status Effective Date	Optional	Date of last certification status change for individual item. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended Items. All Certifiers and Accrediting Program Staff: Dates for all item statuses reported
64		Last Review Date	Optional	Last date the operation has had a complete OSP review. MM/DD/YYYY	All Certifiers and Accrediting Program Staff
65		Acres Certified Organic	Optional	Number of certified organic acres for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
66		Acres Transitional	Optional	Number of acres transitioning to organic for individual items.	All Certifiers and Accrediting Program Staff
67		Heads Certified Organic	Optional	Number of certified organic heads (livestock) for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
68		Heads Transitional	Optional	Number of heads transitioning to organic (livestock) for individual items.	All Certifiers and Accrediting Program Staff
69		100% Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
70		Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
71		Made with Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public

1	NOP Taxonomy - Categories and Items (2/22/2019)								
2									
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.							
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).							
5	NOP Category ID	Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.							
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.							
7	NOP Item ID	Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.							
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.							
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic <i>INTEGRITY</i> Database Data Dictionary: please use the instructions below to format your data on South Korea certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	Public
6		Other/Former Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	Public
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	Public
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	Public
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	Public
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	Public: Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: All operations
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
21	Contact Information	Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
22		Physical Address: Street 2	Optional	Additional address information.	Public
23		Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public
24		Physical Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	Public
25		Physical Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	Public
26		Physical Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
27		Mailing Address: Street 1	Required if no Physical Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public

	A	B	C	D	E
32		Mailing Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
33		Phone	Optional	For international numbers, begin with the country code. Do not include "011." If the operation does not have a telephone number, leave blank.	Public
34		Email	Optional	Do not enter website addresses. Incomplete addresses will be deleted.	Public
35		Website URL	Optional	Do not enter email addresses.	Public
36		Additional Information	Optional	Any other information regarding the operation. 4,000 character limit.	Public
37		Total Certified Acres	Optional	Number of acres certified organic.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
38	Operation Services/Business Types	Broker	Optional	Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes. (Yes as applicable)	Public
39		Community Supported Agriculture (CSA)	Optional	Local farmer markets or groups. (Yes as applicable)	Public
40		Co-Packer	Optional	Company that manufactures and packages foods or other products for their clients. works under contract with the hiring company to manufacture food as though the products were manufactured directly by the hiring company. (Yes as applicable)	Public
41		Dairy	Optional	Individual or company's involved in the raising of domestic animals for production of the milk of animals. (Yes as applicable)	Public
42		Distributor	Optional	Any person involved in the business who supplies goods to stores and other businesses that sell to consumers, including transportation. (Yes as applicable)	Public
43		Marketer/Trader	Optional	Individual or company that buys and sells organic commodities to the industry, moving products throughout the supply chain. (Yes as applicable)	Public
44		Restaurant	Optional	Establishment in the direct preparation of meals to the consumer. (Yes as applicable)	Public
45		Retail Food Establishment	Optional	Businesses that sell goods directly to individuals, organic certification not required. (Yes as applicable)	Public
46		Poultry	Optional	Individual or company's involved in the raising of domestic poultry animals for production of commodities such as meat, eggs, fiber. (Yes as applicable)	Public
47		Private Labeler	Optional	An owner of a brand or trademark on the label of a consumer product which bears a private label. (Yes as applicable)	Public
48		Slaughterhouse	Optional	Certified organic facility used for the slaughtering of livestock. (Yes as applicable)	Public
49		Storage	Optional	Any person or business involved in the certified storage of goods. (Yes as applicable)	Public
50		Grower Group	Optional	Grower Groups consist of farmers engaging in similar growing practices in a distinct area, growing similar crops under the same conditions, and managed, audited and monitored by an Internal Control System managed in a group format. (Yes as applicable)	Public
51		Grower Group Size	Optional	If Yes to Grower Group, enter number of members.	Reporting Certifier and Accrediting Program Staff
52		Item Level			
53		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
54		Certificate Number	Optional	Certificate number issued by Certifier.	Public
55		Scope	Required	Scope certified under (Crops/ Livestock/ Wild Crops/ Handling)	Public
56		NOP Category	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
57		NOP Category ID	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
58		NOP Item Name	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
59		NOP Item ID	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
60		Other Item	Required IF no specific NOP Item Name or NOP Item ID Provided	If no specific NOP Item Name or NOP Item ID is selected, provide individual items or a comma-separated list of items. For example, "Apples, Oranges, Bananas."	Public
61		Item Varieties	Optional	If an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered, individual varieties or a comma-separated list of item varieties may be provided. For example, if the item is "Apples," varieties could include "Fuji, Golden Delicious, Gala.	Public
62		Certification Status	Optional	Select one of the following as applicable to individual item: Certified/Surrendered/Suspended	Public: Certified, Surrendered and Suspended Items. All Certifiers and Accrediting Program Staff: All Items
63		Status Effective Date	Optional	Date of last certification status change for individual item. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended Items. All Certifiers and Accrediting Program Staff: Dates for all Item statuses reported
64		Last Review Date	Optional	Last date the operation has had a complete OSP review. MM/DD/YYYY	All Certifiers and Accrediting Program Staff
65		Acres Certified Organic	Optional	Number of certified organic acres for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
66		Acres Transitional	Optional	Number of acres transitioning to organic for individual items.	All Certifiers and Accrediting Program Staff
67		Heads Certified Organic	Optional	Number of certified organic heads (livestock) for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
68		Heads Transitional	Optional	Number of heads transitioning to organic (livestock) for individual items.	All Certifiers and Accrediting Program Staff
69		100% Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
70		Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
71		Made with Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public

Sample Taxonomy

	A	B	C	D	E
1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic <i>INTEGRITY</i> Database Data Dictionary: please use the instructions below to format your data on Swiss ORGANIC certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	Public
6		Other/Former Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	Public
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	Public
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	Public
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	Public
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	Public: Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: All operations
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
21	Contact Information	Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
22		Physical Address: Street 2	Optional	Additional address information.	Public
23		Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public

Taxonomy Categories & Items

	A	B	C	D	E	F	G	H	I
1	NOP Taxonomy - Categories and Items (2/22/2019)								
2									
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.							
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).							
5	NOP Category ID	Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.							
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.							
7	NOP Item ID	Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.							
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.							
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

Sample Taxonomy

	A	B	C	D	E
1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic <i>INTEGRITY</i> Database Data Dictionary: please use the instructions below to format your data on Taiwan certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	<i>Public</i>
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	<i>Public</i>
6		Other/Former Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	<i>Public</i>
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	<i>Public</i>
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	<i>Public</i>
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	<i>Public</i>
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	<i>Public: Certified, Surrendered, Suspended and Revoked.</i> <i>All Certifiers and Accrediting Program Staff: All operations</i>
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered, Suspended and Revoked.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all operations</i>
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered, Suspended and Revoked.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all operations</i>
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered, Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	<i>Public: Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: All scope statuses</i>
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	<i>Public: Dates for Certified, Surrendered and Suspended.</i> <i>All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported</i>
21	Contact Information	Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	<i>Public</i>
22		Physical Address: Street 2	Optional	Additional address information.	<i>Public</i>
23		Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	<i>Public</i>
24		Physical Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	<i>Public</i>
25		Physical Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	<i>Public</i>
26		Physical Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	<i>Public</i>
27		Mailing Address: Street 1	Required if no Physical Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	<i>Public</i>
28		Mailing Address: Street 2	Optional	Additional address information.	<i>Public</i>
29		Mailing Address: City	Optional	Use Title Case. If no city exists, then leave blank.	<i>Public</i>
30		Mailing Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	<i>Public</i>
31		Mailing Address: Country	Optional	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	<i>Public</i>

Instructions

	A	B	C	D	E
32		Mailing Address: ZIP/Postal Code	Optional	Use appropriate mailing code for international addresses.	Public
33		Phone	Optional	For international numbers, begin with the country code. Do not include "011." If the operation does not have a telephone number, leave blank.	Public
34		Email	Optional	Do not enter website addresses. Incomplete addresses will be deleted.	Public
35		Website URL	Optional	Do not enter email addresses.	Public
36		Additional Information	Optional	Any other information regarding the operation. 4,000 character limit.	Public
37		Total Certified Acres	Optional	Number of acres certified organic.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
38	Operation Services/Business Types	Broker	Optional	Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes. (Yes as applicable)	Public
39		Community Supported Agriculture (CSA)	Optional	Local farmer markets or groups. (Yes as applicable)	Public
40		Co-Packer	Optional	Company that manufactures and packages foods or other products for their clients. works under contract with the hiring company to manufacture food as though the products were manufactured directly by the hiring company. (Yes as applicable)	Public
41		Dairy	Optional	Individual or company's involved in the raising of domestic animals for production of the milk of animals. (Yes as applicable)	Public
42		Distributor	Optional	Any person involved in the business who supplies goods to stores and other businesses that sell to consumers, including transportation. (Yes as applicable)	Public
43		Marketer/Trader	Optional	Individual or company that buys and sells organic commodities to the industry, moving products throughout the supply chain. (Yes as applicable)	Public
44		Restaurant	Optional	Establishment in the direct preparation of meals to the consumer. (Yes as applicable)	Public
45		Retail Food Establishment	Optional	Businesses that sell goods directly to individuals, organic certification not required. (Yes as applicable)	Public
46		Poultry	Optional	Individual or company's involved in the raising of domestic poultry animals for production of commodities such as meat, eggs, fiber. (Yes as applicable)	Public
47		Private Labeler	Optional	An owner of a brand or trademark on the label of a consumer product which bears a private label. (Yes as applicable)	Public
48		Slaughterhouse	Optional	Certified organic facility used for the slaughtering of livestock. (Yes as applicable)	Public
49		Storage	Optional	Any person or business involved in the certified storage of goods. (Yes as applicable)	Public
50		Grower Group	Optional	Grower Groups consist of farmers engaging in similar growing practices in a distinct area, growing similar crops under the same conditions, and managed, audited and monitored by an Internal Control System managed in a group format. (Yes as applicable)	Public
51		Grower Group Size	Optional	If Yes to Grower Group, enter number of members.	Reporting Certifier and Accrediting Program Staff
52		Item Level			
53		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
54		Certificate Number	Optional	Certificate number issued by Certifier.	Public
55		Scope	Required	Scope certified under (Crops/ Livestock/ Wild Crops/ Handling)	Public
56		NOP Category	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
57		NOP Category ID	Optional	From NOP taxonomy. Provide Category or Category ID, but not both.	Public
58		NOP Item Name	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
59		NOP Item ID	Optional	From NOP taxonomy). Provide Item Name or Item ID, but not both.	Public
60		Other Item	Required IF no specific NOP Item Name or NOP Item ID Provided	If no specific NOP Item Name or NOP Item ID is selected, provide individual items or a comma-separated list of items. For example, "Apples, Oranges, Bananas."	Public
61		Item Varieties	Optional	If an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered, individual varieties or a comma-separated list of item varieties may be provided. For example, if the item is "Apples," varieties could include "Fuji, Golden Delicious, Gala.	Public
62		Certification Status	Optional	Select one of the following as applicable to individual item: Certified/Surrendered/Suspended	Public: Certified, Surrendered and Suspended Items. All Certifiers and Accrediting Program Staff: All Items
63		Status Effective Date	Optional	Date of last certification status change for individual item. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended Items. All Certifiers and Accrediting Program Staff: Dates for all item statuses reported
64		Last Review Date	Optional	Last date the operation has had a complete OSP review. MM/DD/YYYY	All Certifiers and Accrediting Program Staff
65		Acres Certified Organic	Optional	Number of certified organic acres for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
66		Acres Transitional	Optional	Number of acres transitioning to organic for individual items.	All Certifiers and Accrediting Program Staff
67		Heads Certified Organic	Optional	Number of certified organic heads (livestock) for individual items.	All Certifiers and Accrediting Program Staff; Public: Aggregate USDA-NOP data
68		Heads Transitional	Optional	Number of heads transitioning to organic (livestock) for individual items.	All Certifiers and Accrediting Program Staff
69		100% Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
70		Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
71		Made with Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
72

Sample Taxonomy

	A	B	C	D	E
1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1		Organic <i>INTEGRITY</i> Database Data Dictionary: please use the instructions below to format your data on UK certified organic operations for the NOP <i>INTEGRITY</i> database.			
2		Data Element Name	Required/ Optional	Instructions	Data Visibility *
3		Operation Level			
4		Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
5		Operation Name	Required	Operation's business name. Enter text in Title Case.	Public
6		Other/Formal Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	Public
7		Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	Public
8		Contact First Name	Optional	Enter only one first name. Use Title Case.	Public
9		Contact Last Name	Optional	Enter only one last name. Use Title Case.	Public
10		Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked	Public: Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: All operations
11		Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
12		Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended and Revoked. All Certifiers and Accrediting Program Staff: Dates for all operations
13	Scope Status and Effective Date	CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
14		Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
15		LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
16		Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
17		WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
18		Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
19		HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: All scope statuses
20		Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered and Suspended. All Certifiers and Accrediting Program Staff: Dates for all scope statuses reported
21	Contact Information	Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
22		Physical Address: Street 2	Optional	Additional address information.	Public
23		Physical Address: City	Optional	Use Title Case. If no city exists, then leave blank.	Public
24		Physical Address: State/Province	Optional	Spell out the full name of the state or province. No abbreviations.	Public

1	NOP Taxonomy - Categories and Items (2/22/2019)								
2									
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.							
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).							
5	NOP Category ID	Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.							
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.							
7	NOP Item ID	Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.							
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.							
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

1	NOP Sample Taxonomy - 2/22/2019				
2					
3	NOP Scope	Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.			
4	NOP Category	An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).			
5	NOP Category ID	Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.			
6	NOP Item Name	An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.			
7	NOP Item ID	Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.			
8	Other Item	A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.			
9	Item Varieties	A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.

Glossary of Terms (12/5/16)

Template Data Field	Required/ Optional	Description	Data Visibility *
Operation Level			
Operation ID	Required	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	Public
Operation Name	Required	Operation's business name. Enter text in Title Case.	Public
Other/Former Names	Optional	Other names that the operation is doing or has done business as. Enter text in Title Case.	Public
Client ID	Optional	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	Public
Contact First Name	Optional	Enter only one first name. Use Title Case.	Public
Contact Last Name	Optional	Enter only one last name. Use Title Case.	Public
Operation Certification Status	Required	Select one of the following as applicable to the operation in question: Certified/Surrendered/Suspended/Revoked/Denied Certification/Withdrew with NONC	Public: Certified, Surrendered, Suspended, and Revoked operations; All Certifiers and USDA: All operations
Effective Date of Operation Status	Required	Date the selected Operation Certification Status became effective. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended, and Revoked operations; All Certifiers and USDA: Dates for all operations
NOP Anniversary Date	Optional	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification. MM/DD/YYYY	Public: Dates for Certified, Surrendered, Suspended, and Revoked operations; All Certifiers and USDA: Dates for all operations
CROPS Certification Status	Optional	If the operation in question has applied for certification under the CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended/ Transitional/ Denied Certification/ Withdrew with NONC. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: All scope statuses
Effective Date of CROPS Status	Optional	If CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: Dates for all scope statuses reported
LIVESTOCK Certification Status	Optional	If the operation in question has applied for certification under the LIVESTOCK scope, select one of the following as applicable: Certified/ Surrendered/ Suspended/ Transitional/ Denied Certification/ Withdrew with NONC. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: All scope statuses
Effective Date of LIVESTOCK Status	Optional	If LIVESTOCK certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: Dates for all scope statuses reported
WILD CROPS Certification Status	Optional	If the operation in question has applied for certification under the WILD CROPS scope, select one of the following as applicable: Certified/ Surrendered/ Suspended/ Transitional/ Denied Certification/ Withdrew with NONC. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: All scope statuses
Effective Date of WILD CROPS Status	Optional	If WILD CROPS certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: Dates for all scope statuses reported
HANDLING Certification Status	Optional	If the operation in question has applied for certification under the HANDLING scope, select one of the following as applicable: Certified/ Surrendered/ Suspended/ Transitional/ Denied Certification/ Withdrew with NONC. If not, leave blank or select Not Certified (--).	Public: Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: All scope statuses
Effective Date of HANDLING Status	Optional	If HANDLING certification status is provided (other than Not Certified (--)), effective date should be entered. MM/DD/YYYY	Public: Dates for Certified, Surrendered, and Suspended scopes; All Certifiers and USDA: Dates for all scope statuses reported
Physical Address: Street 1	Required if no Mailing Address provided	At least one of the two addresses (Physical or Mailing) is required. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
Physical Address: Street 2	Optional	Additional address information.	Public
Physical Address: City	Required (US)	Use Title Case. If no city exists, then leave blank. Required for U.S. operations.	Public
Physical Address: State/Province	Required (US)	Spell out the full name of the state or province. No abbreviations. Required for U.S. operations.	Public
Physical Address: Country	Required	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	Public
Physical Address: ZIP/Postal Code	Required (US)	Use 5-digit zip code for U.S. states. Use appropriate mailing code for international addresses.	Public
Mailing Address: Street 1	Required if no Physical Address provided	At least one of the two addresses (Physical or Mailing) is required. Street address only using Title Case. Must be in USPS format for U.S. operations. City, State/Province, Country, and ZIP/Postal Code information must be entered separately in the relevant columns.	Public
Mailing Address: Street 2	Optional	Additional address information.	Public
Mailing Address: City	Required (US)	Use Title Case. If no city exists, then leave blank. Required for U.S. operations.	Public
Mailing Address: State/Province	Required (US)	Spell out the full name of the state or province. No abbreviations. Required for U.S. operations.	Public
Mailing Address: Country	Required	Select from drop-down menu. Country names must be entered in English. Do not enter any other information in this column.	Public
Mailing Address: ZIP/Postal Code	Required (US)	Use 5-digit zip code for U.S. states. Use appropriate mailing code for international addresses.	Public
Phone	Optional	For U.S. numbers, use (XXX)XXX-XXXX format. Enter extensions as "Ext. XXXX." For international numbers, begin with the country code. Do not include "011." If the operation does not have a telephone number, leave blank.	Public

	Email	Optional	Do not enter website addresses. Incomplete addresses will be deleted.	Public
	Website URL	Optional	Do not enter email addresses.	Public
	Additional Information	Optional	Any other information regarding the operation. 4,000 character limit.	Public
	Total Certified Acres	Optional	Number of acres certified organic.	Reporting Certifier and USDA; Public: Aggregate data
Operation Services/Business Types	Broker	Optional	Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes. (Yes as applicable)	Public

	Heads Transitional	Optional	Number of heads transitioning to organic (livestock) for individual items.	Reporting Certifier and USDA
	100% Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
	Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public
	Made with Organic	Optional	Labeling categories for handling certificates (Yes as applicable) - individual items.	Public

* All users have access to data marked Public based on certification status via search and reporting tools

INTEGRITY Data Dictionary (Version 5.0)

Field Name	Description	Data Type	Required	Validation	Certifier Template Field Name	Database Mapping Field Name
OPERATION LEVEL						
Certifier ID	3-digit number permanently assigned to the certifier by NOP.	char(3)	yes	Value assigned by NOP.		
Certifier	Certifier company name.	nvarchar(256)	yes	Value assigned by NOP.		Company_Name
NOP ID	NOP's 10-digit unique ID for the operation. First 3 numbers are certifier ID assigned by NOP; last 7 numbers are assigned by the certifier.	varchar(32)	yes	Must be 10 digit number.	Operation ID	op_nopOpID
Operation Name	Operation's business name.	nvarchar(128)	yes	Up to 128 characters.	Operation Name	op_name
Other/Former Names	Other names that the operation is doing or has done business as.	nvarchar(2000)	no	Up to 2000 characters.	Other/Former Names	op_otherNames
Certifier Client ID	Client ID issued by certifier. This can be any identifier that the Certifier uses to identify the operation. No constraints on format.	varchar(256)	no	Up to 256 characters.	Client ID	op_clientID
Name (First Name)	Operation Point of Contact - First name.	nvarchar(50)	no	Up to 50 characters.	Contact First Name	op_contFirstName
Name (Last Name)	Operation Point of Contact - Last name.	nvarchar(50)	no	Up to 50 characters.	Contact Last Name	op_contLastName
Operation Certification Status	Certification status of the Operation: Certified/Surrendered/Suspended/Revoked/Denied Certification/Withdrew with NONC.	varchar(128)	yes	Must be one of six NOP-defined status' for operation certification.	Operation Certification Status	op_status
Effective Date of Operation Status	Date the selected Operation Certification Status (other than Not Certified) became effective.	date	yes	MM/DD/YYYY	Effective Date of Operation Status	op_statusEffectiveDate
Anniversary Date	Date of annual update for certificate, at operation level. May include renewal, inspection, or verification.	date	no	MM/DD/YYYY	NOP Anniversary Date	op_nopAnniversaryDate
CROPS Certification Status	If the operation has applied for certification under the CROPS scope, status is: Certified/Surrendered/Suspended/Transitional/Denied Certification/Withdrew with NONC/Not Certified (--).	varchar(128)	no	Must be one of seven NOP-defined status' for scope certification.	CROPS Certification Status	opSC_CR
Effective Date of CROPS Status	If CROPS certification status (other than Not Certified (--)) is provided, effective date should be entered.	date	no	MM/DD/YYYY	Effective Date of CROPS Status	opSC_CR_ED
LIVESTOCK Certification Status	If the operation has applied for certification under the LIVESTOCK scope, status is: Certified/Surrendered/Suspended/Transitional/Denied Certification/Withdrew with NONC/Not Certified (--).	varchar(128)	no	Must be one of seven NOP-defined status' for scope certification.	LIVESTOCK Certification Status	opSC_LS
Effective Date of LIVESTOCK Status	If LIVESTOCK certification status (other than Not Certified (--)) is provided, effective date should be entered.	date	no	MM/DD/YYYY	Effective Date of LIVESTOCK Status	opSC_LS_ED
WILD CROPS Certification Status	If the operation has applied for certification under the WILD CROPS scope, status is: Certified/Surrendered/Suspended/Transitional/Denied Certification/Withdrew with NONC/Not Certified (--).	varchar(128)	no	Must be one of seven NOP-defined status' for scope certification.	WILD CROPS Certification Status	opSC_WC
Effective Date of WILD CROPS Status	If WILD CROPS certification status (other than Not Certified (--)) is provided, effective date should be entered.	date	no	MM/DD/YYYY	Effective Date of WILD CROPS Status	opSC_WC_ED
HANDLING Certification Status	If the operation has applied for certification under the HANDLING scope, status is: Certified/Surrendered/Suspended/Transitional/Denied Certification/Withdrew with NONC/Not Certified (--).	varchar(128)	no	Must be one of seven NOP-defined status' for scope certification.	HANDLING Certification Status	opSC_HANDLING
Effective Date of HANDLING Status	If HANDLING certification status (other than Not Certified (--)) is provided, effective date should be entered.	date	no	MM/DD/YYYY	Effective Date of HANDLING Status	opSC_HANDLING_ED
Physical and Mailing Address	Mailing address is the mailing address of the operation. Physical address is the address of the physical location of the operation.		yes	At least one of the two addresses (Physical or Mailing) is required.		
Physical Address: Street 1	First address line.	nvarchar(256)	yes	Up to 256 characters	Physical Address: Street 1	opPA_line1
Physical Address: Street 2	Additional address information.	nvarchar(256)	no	Up to 256 characters	Street 2	opPA_line2
Physical Address: City	City	nvarchar(64)	yes	Required for US locations. Not required for international locations.	City	opPA_city

Field Name	Description	Data Type	Required	Validation	Certifier Template Field Name	Database Mapping Field Name
Physical Address: State/Province	State in US or Province in international country.	nvarchar(64)	yes	Required for US locations. Must be state listed in NOP-defined list of states. Not required for international locations.	State/Province	opPA_state
Physical Address: Country	Country	nvarchar(64)	yes	Must be country listed in NOP-defined list of countries.	Country	opPA_country
Physical Address: ZIP/Postal Code	US ZIP code or Postal code for international country.	varchar(10)	yes	Required for US locations. Not required for international locations.	ZIP/Postal Code	opPA_zip
Mailing Address: Street 1	First address line.	nvarchar(256)	yes	Up to 256 characters.	Mailing Address: Street 1	opMA_line1
Mailing Address: Street 2	Additional address information.	nvarchar(256)	no	Up to 256 characters.	Street 2	opMA_line2
Mailing Address: City	City	nvarchar(64)	yes	Required for US locations. Not required for international locations.	City	opMA_city
Mailing Address: State/Province	State in US or Province in international country.	nvarchar(64)	yes	Required for US locations. Must be state listed in NOP-defined list of states. Not required for international locations.	State/Province	opMA_state
Mailing Address: Country	Country	nvarchar(64)	yes	Must be country listed in NOP-defined list of countries.	Country	opMA_country
Mailing Address: ZIP/Postal Code	US ZIP code or Postal code for international country.	varchar(10)	yes	Required for US locations. Not required for international locations.	ZIP/Postal Code	opMA_zip
Phone	US phone number in (XXX)XXX-XXXX format. International numbers include the country code.	varchar(100)	no	Up to 100 characters.	Phone	op_phone
Email	Operation contact email.	varchar(200)	no	Up to 200 characters.	Email	op_email
Website URL	Operation website URL.	varchar(1024)	no	Up to 1024 characters.	Website URL	op_url
Additional Information	Additional information regarding the operation.	nvarchar(max)	no	Up to 4000 characters.	Additional Information	op_opExtraInfo
Total Certified Acres	Number of acres certified organic.	decimal(12,2)	no		Total Certified Acres	op_totalAcreage
Broker	Operation Type/Service: Person or persons who buys and sells goods organic goods or processes for others. Brokers usually have contact with the clients, either individual or institutional, and buy and sell based on their wishes.	bit	no	yes/no	Broker	opEx_broker
Community Supported Agriculture (CSA)	Operation Type/Service: Local farmer markets or groups.	bit	no	yes/no	Community Supported Agriculture (CSA)	opEx_csa
Co-Packer	Operation Type/Service: Company that manufactures and packages foods or other products for their clients. works under contract with the hiring company to manufacture food as though the products were manufactured directly by the hiring company.	bit	no	yes/no	Co-Packer	opEx_copacker
Dairy	Operation Type/Service: Individual or company's involved in the raising of domestic animals for production of the milk of animals.	bit	no	yes/no	Dairy	opEx_dairy
Distributor	Operation Type/Service: Any person involved in the business who supplies goods to stores and other businesses that sell to consumers, including transportation.	bit	no	yes/no	Distributor	opEx_distributor

Field Name	Description	Data Type	Required	Validation	Certifier Template Field Name	Database Mapping Field Name
Marketer/Trader	Operation Type/Service: Individual or company that buys and sells organic commodities to the industry, moving products throughout the supply chain.	bit	no	yes/no	Marketer/Trader	opEx_marketerTrader
Restaurant	Operation Type/Service: Establishment in the direct preparation of meals to the consumer.	bit	no	yes/no	Restaurant	opEx_restaurant
Retail Food Establishment	Operation Type/Service: Businesses that sell goods directly to individuals, organic certification not required.	bit	no	yes/no	Retail Food Establishment	opEx_retailer
Poultry	Operation Type/Service: Individual or company's involved in the raising of domestic poultry animals for production of commodities such as meat, eggs, fiber.	bit	no	yes/no	Poultry	opEx_poultry
Private Labeler	Operation Type/Service: An owner of a brand or trademark on the label of a consumer product which bears a private label.	bit	no	yes/no	Private Labeler	opEx_privateLabeler
Slaughterhouse	Operation Type/Service: Certified organic facility used for the slaughtering of livestock.	bit	no	yes/no	Slaughterhouse	opEx_slaughterHouse
Storage	Operation Type/Service: Any person or business involved in the certified storage of goods.	bit	no	yes/no	Storage	opEx_storage
Grower Group	"Grower Groups" consist of farmers engaging in similar growing practices in a distinct area, growing similar crops under the same conditions, and managed, audited and monitored by an Internal Control System managed in a group format.	bit	no	yes/no	Grower Group	opEx_growerGroup
Grower Group Size	Number of members of grower group.	integer	no	If Yes to Grower Group, number of members is required.	Grower Group Size	opEx_growerGroupSize
ITEM LEVEL						
Operation ID	NOP's 10-digit unique ID for operation. First 3 numbers are certifier ID; last 7 numbers are assigned by the certifier.	varchar(32)	yes	Must be 10-digit number.	Operation ID	ci_nopOpID
Certificate Number	Certificate number issued by Certifier.	varchar(256)	no	Up to 256 characters.	Certificate Number	ci_certNumber
NOP Scope	NOP Scope certified (Crops/ Livestock/ Wild Crops/ Handling).	varchar(128)	yes	Must be one of four NOP-defined scopes.	NOP Scope	ci_nopScope
NOP Category	Category name from NOP taxonomy.	varchar(128)	no	Limited to NOP-defined taxonomy.	NOP Category	ci_nopCategory
NOP Category ID	Numeric category ID from NOP taxonomy.	integer	no	Limited to NOP-defined taxonomy.	NOP Category ID	ci_nopCatID
NOP Item Name	Item name from NOP taxonomy.	varchar(128)	no	Limited to NOP-defined taxonomy.	NOP Item Name	ci_nopCatName
NOP Item ID	Numeric item ID from NOP taxonomy.	integer	no	Limited to NOP-defined taxonomy.	NOP Item ID	ci_nopitemID
Other Item	List of certified items, if no specific NOP Item Name or NOP Item ID is provided.	nvarchar(max)	yes	Required if no specific NOP Item Name or NOP Item ID Provided. Up to 4000 characters.	Other Item	ci_itemList
Item Varieties	List of certified item varieties, to further describe NOP Item Name or NOP Item ID. For example, if the item is "Apples," varieties could include "Fuji, Golden Delicious, Gala."	nvarchar(max)	no	Up to 4000 characters.	Item Varieties	ci_varieties
NOP Certification Status	Certification status as applicable to individual item: Certified/Surrendered/Suspended/Transitional/Denied Certification/Withdrew with NONC.	varchar(128)	no	If entered, must be one of six NOP-defined status' for item certification.	NOP Certification Status	ci_status
NOP Status Effective Date	Date of last certification status change for individual item.	date	no	MM/DD/YYYY	NOP Status Effective Date	ci_statusEffectiveDate
Last Review Date	Last date the operation has had a complete OSP review.	date	no	MM/DD/YYYY	Last Review Date	ci_lastReviewDate
Acres Certified Organic	Number of certified organic acres for individual items.	decimal(12,2)	no	Entry must be positive number.	Acres Certified Organic	ci_acres_org
Acres Transitional	Number of acres transitioning to organic for individual items.	decimal(12,2)	no	Entry must be positive number.	Acres Transitional	ci_acres_intran
Heads Certified Organic	Number of certified organic heads (livestock) for individual items.	int	no	Entry must be positive number.	Heads Certified Organic	ci_heads_org
Heads Transitional	Number of heads transitioning to organic (livestock) for individual items.	int	no	Entry must be positive number.	Heads Transitional	ci_heads_intran
100% Organic	Labeling categories for handling and livestock feed certificates (Yes or No) - individual items.	bit	no	yes/no	100% Organic	ci_organic100

Field Name	Description	Data Type	Required	Validation	Certifier Template Field Name	Database Mapping Field Name
Organic	Labeling categories for handling and livestock feed certificates (Yes or No) - individual items.	bit	no	yes/no	Organic	ci_organic
Made with Organic	Labeling categories for handling and livestock feed certificates (Yes or No) - individual items.	bit	no	yes/no	Made with Organic	ci_madeWithOrganic
CERTIFIER PROFILE						
Certifier Name	Certifier company name.	nvarchar(256)	yes	Up to 256 characters.		Company_name
Abbreviation	Abbreviation	varchar(16)	Yes	Up to 16 Characters.		Abbreviation
NOP Code	3 digit Code unique code for the Certifier.	char(3)	yes	3 digit character assigned by NOP.		NOP_Code
Last Publication Date	Date Certifier last published Operations.	Date		MM/DD/YYYY		Publication_Date
Headquarters Address	Headquarters location address of the Certifier.					
Address Line 1	First address line.	nvarchar(256)	yes	Up to 256 characters.		Address_Line_1
Address Line 2	Additional address information.	nvarchar(256)	no	Up to 256 characters.		Address_Line_2
City	City	nvarchar(64)	yes	Up to 64 characters.		City
State/ Province	State in US or Province in international country.	nvarchar(64)	yes	Required for US locations. Must be state listed in NOP-defined list of states. Not required for international locations.		State_Or_Province
ZIP/ Postal Code	US ZIP code or Postal code for international country.	varchar(10)	yes	Required for US locations. Not required for international locations.		Zip_Or_Postal_Code
Country	Country	nvarchar(64)	yes	Must be country listed in NOP-defined list of countries.		Country_Name
Contact	Contact person for the Certifier.					
First Name	First Name of the Contact person for the Certifier.	nvarchar(50)	no	Up to 50 Characters.		Contact_First_Name
Last Name	Last Name of the Contact person for the Certifier.	nvarchar(50)	no	Up to 50 Characters.		Contact_Last_Name
Public Phone	Certifier public phone number. US phone number in (XXX)XXX-XXXX format. International numbers include the country code.	varchar(50)	no	Up to 50 Characters.		Phone
Public Email	Certifier email address.	varchar(50)	no	Up to 50 Characters.		Email
Website	Certifier website URL.	varchar(1024)	no	Up to 1024 Characters.		web_Site_Url
NOP Certificate and Accreditation Documents	Web URL to NOP Certificate and Accreditation Documents.	nvarchar(200)	no	Up to 200 characters.		Acc_Doc_Link
Office Locations	Certifier office locations.					
Countries	List of Countries in which the Certifier has Office Locations.	nvarchar(64)	no	Must be country listed in NOP-defined list of countries.		Country_Name
US States/Territory	List of US States or Territories in which the Certifier has office Locations.	varchar(64)	no	Must be state listed in NOP-defined list of states.		State_Name
Certified Operation Locations	Certified operation locations for the Certifier.					
Countries	List of Countries in which the Certifier has Certified Operations.	nvarchar(64)	no	Defined by Certifier's certified operations list.		Country_Name
US States/Territory	List of US States or Territories in which the Certifier has Certified Operations.	varchar(64)	no	Defined by Certifier's certified operations list.		State_Name
Accredited Scopes	NOP Scopes for which the Certifier is Accredited.	varchar(128)	no	Must be one of four NOP-defined scopes.		Scope_Name

NOP Taxonomy - Categories and Items (11/23/16)

NOP Scope Top level of Taxonomy is Crops, Livestock, Wild Crops, Handling.
NOP Category An optional category for reporting that will only be used to improve search functionality and utility (not certification relevant).
NOP Category ID Unique numeric ID for each NOP Category to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Category Name for reporting.
NOP Item Name An optional level for reporting that provides additional detail - general item names such as apples, pears, etc. that can be used to improve search functionality and data quality.
NOP Item ID Unique numeric ID for each NOP Item Name to help Certifiers match to existing taxonomies and products, can also be used in lieu of NOP Item Name for reporting.
Other Item A place to enter individual items or a comma-separated list of items if no specific NOP Item Name or ID is selected.
Item Varieties A place to enter individual varieties or a comma-separated list of item varieties if an NOP Item Name or NOP Item ID is selected, or a single Other Item is entered. This may include specific products.
