Public reporting burden for this collection of information is voluntary and is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Training Institute, OSHA Office of Training and Education, 2020 S. Arlington Heights Road, Arlington Heights, Illinois 60005-4102. Persons are not required to respond to the collection of information unless it displays a current valid OMB control number.

Privacy Act Statement

Pursuant to 5 U.S.C. § 552a(e)(3), this Privacy Act Statement serves to inform you of the following concerning the collection of the information on this form.

Authority: The information collected is a student data form to register for training is authorized by the following authority: Section 21 of the Occupational Safety and Health Act of 1970 (OSH Act or Act) (29 U.S.C. 670).

Purpose: The primary purpose of collecting this information is to register for the course and to allow OSHA to contact students if an emergency arises at their home, place of employment, or in local accommodations, and to alert supervisors of a trainee’s injury or illness.

Routine Use(s): The Department of Labor routinely uses the information, as follows None, except for the DOL universal routine uses found here: www.dol.gov/general/privacy/sorn#universal.

Consequence of Failure to Provide Information: Completion of this form is voluntary. Failure to provide the information may result in delays in the creation and activation of the student’s registration profile and learning management system (LMS) course account. The LMS requires specific demographic and contact information included in this form to generate a unique student record, enroll the student in the appropriate courses, and ensure accurate documentation of training activity. When this information is missing, the system cannot automatically establish the student’s account, which prevents access to required training modules and may postpone the student’s ability to begin or complete OSHA coursework. Completing the form ensures timely account setup, accurate student tracking, and uninterrupted access to training resources.

Additional information regarding the system of records associated with this can be found in the SORN for DOL/OSHA-6, available at <https://www.dol.gov/privacy>.
