Comment from Rodriguez, Tiffany

Submitter Information

Name: Tiffany Rodriguez

General Comment

According to a 2023 report, only about \$2 million was fraudulently acquired of the nearly trillion that SSA awards. Forcing this policy change is not only ableist for the elderly and disabled, it's a waste of everyone's time, most importantly, the people receiving these benefits. It is unnecessary and based on overblown claims and a fascist agenda dedicated to further disenfranchising and eradicating the marginalized and the programs that help them survive.
