Abstract: The Federal regulations at 30 CFR part 874 establish abandoned mine land (AML) land and water eligibility requirements, reclamation objectives and priorities, and reclamation contractor responsibility. Specifically, 30 CFR 874.17 requires consultation between the AML agency and the appropriate Title V regulatory authority when the AML agency is considering a project that would extract coal as part of an AML project. The consultation should include information concerning a number of topics specified in 30 CFR 874.17, including the likelihood of the coal being mined under Title V and nearby or adjacent mining and AML reclamation activities.
