

Muscle Examination

Please assess claimant's muscle strength on a scale of 0-5 as defined below.

KEY

- 5 Muscle contracts against full resistance
- 4 Strength reduced, but contraction can still move joint against resistance
- 3 Strength further reduced such that joint can be moved only against gravity with examiner's resistance completely removed
- 2 Muscle can only move if resistance of gravity is removed
- 1 Only a trace or flicker of movement is seen or felt, or fasciculation are observed
- 0 No movement

Please note any evidence of spasm or contracture.
