

telephone at 301-415-1677, to: (1) request a digital identification (ID) certificate which allows the participant (or their counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or their counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC's public website (<https://www.nrc.gov/site-help/e-submittals/getting-started.html>). After a digital ID certificate is obtained and a docket is created, the participant must submit adjudicatory documents in the Portable Document Format. Guidance on submissions is available on the NRC's public website (<https://www.nrc.gov/site-help/electronic-sub-ref-mat.html>). A filing is considered complete at the time the document is submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed in order to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website (<https://www.nrc.gov/site-help/e-submittals.html>), by email to MSHD.Resource@nrc.gov, or by a toll-free call at 1-866-672-7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., ET, Monday through Friday, except Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)-(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available on the NRC's public website (<https://adams.nrc.gov/ehd>), unless otherwise excluded pursuant to an order of the presiding officer. If you do not have an NRC-issued digital ID certificate as previously described, click "cancel" when the link requests certificates and you will be automatically directed to the NRC's electronic hearing docket where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

For further details with respect to this application, see the application dated January 28, 2026 (ADAMS Accession No. ML26029A458).

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Forms 541 and 541A, "Uniform Low-Level Radioactive Waste Manifest Container and Waste Description and Continuation Page." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** (FR) notice with a 60-day comment period on this information collection on December 10, 2025, 90 FR 57218.

1. *The title of the information collection*: NRC Forms 541 and 541A, Uniform Low-Level Radioactive Waste Manifest Container and Waste Description and Continuation Page.

2. *OMB approval number*: 3150-0166.

3. *Type of submission*: Extension.

4. *The form number, if applicable*: NRC Forms 541 and 541A.

5. *How often the collection is required or requested*: NRC Form 541 and 541A, or the Agreement State equivalent forms, are required when low-level radioactive waste (LLRW) is transferred by any waste generator, waste collector, or waste processor licensee, who ships LLRW either directly, or indirectly through a waste collector or waste processor, for ultimate disposal at a licensed LLRW disposal facility.

6. *Who will be required or asked to respond*: NRC Form 541 and continuation Form 541A are completed by waste generators, waste collectors, and waste processors who ship LLRW intended for ultimate disposal at a licensed LLRW land disposal facility.

7. *The estimated number of annual responses*: 4,616.

8. *The estimated number of annual respondents*: 712.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 15,233.

10. *Abstract*: The NRC regulations in section 20.2006 of title 10 of the *Code of Federal Regulations* (10 CFR), "Transfer for Disposal and Manifest" and 10 CFR part 20, appendix G, "Requirements for Transfers of Low-Level Radioactive Waste Intended for Disposal at Licensed Land Disposal Facilities and Manifests," established requirements for a nationwide system to ensure the safe and efficient transportation and disposal of LLRW. The Uniform LLRW Manifest system is implemented by utilization of specific NRC Forms to document the information required by 10 CFR 20.2006 and 10 CFR part 20, appendix G. The NRC Forms 541/541A, "Uniform LLRW Manifest Container and Waste Description and Continuation Page," combined with NRC Forms 540/540A, "Uniform LLRW Manifest (Shipping Paper) and Continuation Page" and, if necessary, NRC Forms 542/542A, "Uniform LLRW Manifest Index and Regional Compact Tabulation," are collectively referred to as the Uniform LLRW Manifest Forms. The forms were originally developed by the NRC at the request of LLRW industry groups, and Federal and State agencies. These forms assist in providing a standardized nationwide framework for collecting and transmitting LLRW related information from generation to disposal. The NRC Forms 541 and 541A or Agreement State equivalent forms are used on a nationwide basis to reflect the minimum safety-related information for an LLRW shipment as required by Federal and State reporting requirements for the safe transportation and disposal of LLRW. The Uniform LLRW Manifest Form 541/541A is completed by shippers of LLRW intended for disposal at a licensed LLRW land disposal facility. These NRC Forms include information regarding the disposal container description, waste description for each waste type in the container (physical and chemical description of the waste, and the radiological description (radionuclides and activity)) and the classification of the waste in accordance with 10 CFR part 61.55 "Waste Classification." The Uniform LLRW Manifest Forms 541/541A are not required to physically accompany the shipment. Upon agreement between the shipper and consignee, NRC Form 541/541A are (1) mailed or electronically transferred to the intended consignee prior to the

shipment arriving at the consignee; or (2) delivered with the waste to the consignee. The NUREG/BR-0204, Revision 3, contains instructions for completing NRC Uniform LLRW Manifest Forms. As stated in 10 CFR part 20, appendix G, "Licensees need not use originals of these NRC Forms as long as any substitute forms are equivalent to the original documentation in respect to content, clarity, size, and location of information . . ." The NRC previously noticed the availability of revisions to the Uniform LLRW Manifest Forms in the **Federal Register** on November 23, 2022, 87 FR 71694. The information collection contained in the current extension request does not include any changes to the forms.
