request for OMB approval of this information collection.

Title: Buses and Bus Facilities Formula and Competitive Programs and Low or No Emission Program.

OMB Number: 2132-0576.

Background: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Federal Transit Administration (FTA) is requesting Office of Management and Budget (OMB) 3-year approval of an extension without change for a currently approved collection. The Federal Transit Administration (FTA) administers three distinct programs under this information collection: the Buses and Bus Facilities Formula Grant Program, the Buses and Bus Facilities Competitive Grant Program, and the Low or No Emission Grant Program. The *Buses and Bus Facilities Formula Grant Program* provides funding to states and transit agencies through a statutory formula for the replacement, rehabilitation, and purchase of buses and related equipment, as well as the construction of bus-related facilities. The *Buses and Bus Facilities Competitive Grant Program* distributes funding to states and transit agencies through a competitive process for similar purposes, enabling agencies to modernize their fleets and improve infrastructure. The *Low or No Emission (Low-No) Grant Program* offers competitive funding to states and transit agencies for the purchase or lease of zero-emission and low-emission transit buses, along with the acquisition, construction, and leasing of the necessary supporting facilities.

Under this information collection, FTA gathers data from grantees necessary to evaluate and monitor grant activities. This includes applicant and project-level information in grant application, such as descriptions of proposed projects, anticipated benefits, and compliance with program requirements. After award, recipients report on project progress milestones and the use of funds; provide technical specifications for purchased equipment; certify compliance with environmental and accessibility standards; and submit periodic performance reports. These submissions are used by FTA to ensure program accountability, assess compliance with statutory and regulatory requirements, and measure the impact of federally funded projects on transit service and infrastructure. The information collected under the Paperwork Reduction Act (PRA) remains unchanged from the previous renewal.

Respondents: Eligible recipients include designated recipients that

allocate funds to fixed-route bus operators, states (including territories and Washington DC) or local governmental entities that operate fixed route bus service, and Indian tribes. Eligible subrecipients include all otherwise eligible applicants and also private nonprofit organizations engaged in public transportation.

Estimated Annual Number of Respondents: 1,035 respondents.

Estimated Annual Number of Responses: 1,035 responses.

Estimated Total Annual Burden: 56,734 hours.

Frequency: Annually.

Title: 49 U.S.C. 5310 Capital Assistance Program for Elderly Persons and Persons with Disabilities & Section 5311 Nonurbanized Area Formula Program.

OMB Number: 2132-0500.

Background: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Federal Transit Administration (FTA) is requesting Office of Management and Budget (OMB) 3-year approval of an extension without change for a currently approved collection. The 49 U.S.C. 5310 Capital Assistance Program for Elderly Persons and Persons with Disabilities & Section 5311 information collection is comprised of two programs that provide financial assistance in meeting the transportation needs of seniors and individuals with disabilities where public transportation services are unavailable, insufficient or inappropriate. The Section 5310 program (Enhanced Mobility of Seniors and Individuals with Disabilities) supplements FTA's other capital assistance programs by funding transportation projects for seniors and individuals with disabilities in large urban, small urban, and rural areas. It primarily covers capital expenses such as buses and vans and, in selected cases, operating costs to remove barriers to transportation access. In addition to traditional Section 5310 funding, the FTA administers the Innovative Coordinated Access and Mobility (ICAM) Pilot Program, open to Section 5310 recipients and subrecipients, which helps finance innovative projects that improve coordination of transportation and non-emergency medical transportation (NEMT) services; examples include deployment of coordination technology and projects that create or expand access to community One-Call/One-Click centers. The Section 5311 program (Formula Grants for Rural Areas) provides capital, planning, and operating assistance to states, local governments, private nonprofit agencies, and public bodies for transportation services in rural areas with populations of less than 50,000. The Rural Transit Assistance Program (RTAP), a subsection of 5311, funds training, technical assistance, and related activities to strengthen rural public transportation. States are the direct recipients of 5311 and RTAP funds. Tribal Transit Program, also a subsection of 5311, provides public transportation funding to federally recognized Indian Tribes. Together, these programs expand transportation accessibility; 5310 by targeting seniors and individuals with disabilities and 5311 by addressing broader public transportation needs in rural communities.

Respondents: States or local governmental entities that operate a public transportation service, private
