

Sample Progress Reporting Tool for Cluster Assignment

The information collected in this form will be used for internal purposes to (1) assess sizes to the target sample sizes on which power calculations were based, and (2) for likelihood that the final analytic sample for key follow-up time periods might exceed attrition specified by the Teen Pregnancy Prevention Evidence Review.

This form is for **CLUSTER ASSIGNMENT**. Complete this worksheet on your sample of to the number of clusters. You will also need to complete the "Cluster Assignment - youth enrolled in these clusters.

To complete this form, enter information into the **YELLOW** cells. For instructions on instructions will pop up. **GREEN** cells will automatically populate based on the information for multi-arm studies, this form should be completed separately for each treatment/control group. Contact your LES liaison or PREPLES@abtglobal.com.

A note on follow-up periods:

The PREIS Notice of Funding Opportunity defines short-term follow-up as up to 6 months as 9 months or more post intervention. If you have more than one follow-up period, contact your LES liaison to select the follow-up period that is most meaningful for your study.

Box 1:

Sample enrollment and data collection through this date:	7/10/2024
--	-----------

Box 2:

# Clusters enrolled in study to date	n = 50
--------------------------------------	--------

Box 3a:

# Clusters assigned to treatment	n = 25
----------------------------------	--------

Box 4a:

# Clusters for which short-term follow up has closed	n = 20
# Clusters retained at short-term follow up*	n = 20
Retention rate (automatically calculated)	% = 100

Box 5a:

# Clusters for which long-term follow up has closed	n = 10
# Clusters retained at long-term follow up*	n = 10
Retention rate (automatically calculated)	

% =	100
-----	-----

Progress Towards Cluster Recruitment Goal (Box 6)

Target # clusters from evaluation plan	n =	60
# Clusters enrolled in study to date (from above)	n =	50
# Clusters recruited but not yet enrolled	n =	2
# Clusters needed to recruit (automatically calculated)	n =	8

The purpose of this information collection is to help PREIS grantees track participant enrollment and retention. Public reporting burden for this collection of information is estimated to average .25 hours per respondent, including the time for reviewing instructions, gathering, and maintaining the data needed, and reviewing the collection of information. This is a voluntary collection of information. An agency may not co sponsor, and a person is not required to respond to, a collection of information subject to the requirement: Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number. The OMB # is (0531 and the expiration date is 9/30/2025. If you have any comments on this collection of information, please contact Selma Caal (Selma.Caal@acf.hhs.gov).
